**USAID FUNDING FOR
HEALTH RESEARCH
(WITH PROJECT LISTING)**

FY 1985 - FY 1994

June 1994

Center for International Health Information
USAID Health Information System

Standard Report No. 6-94

The Center for International Health Information (CIHI), a project managed by Information Management Consultants, Inc. (IMC), prepared this document under the Data for Decision Making Project, 936-5991.05 (CIHI-II), contract number HRN-5991-C-00-3041-00, with the Office of Health, Global Bureau for Research and Development of the U.S. Agency for International Development.

SUMMARY OF USAID FUNDING FOR HEALTH RESEARCH

The Health Projects Database (HPD) is a comprehensive inventory of health related projects that have been funded by the U.S. Agency for International Development (USAID) since 1975. Supported by USAID's Office of Health and Nutrition, Bureau for Global Programs, Field Support and Research, the HPD tracks bilateral, regional and centrally funded projects and sub-projects with a health component, including child survival, AIDS, nutrition, water supply and sanitation, and other health related activities. Projects are identified for the HPD through the annual USAID Health and Child Survival Project Questionnaire, Annual Budget Submissions (ABS), Congressional Presentations (CP), and the Activity Code/Special interest (AC/SI) System.

This report summarizes USAID funding for health research activities including child survival and AIDS for FY85 through FY94. A broad definition of research is used for reporting which may include evaluation and/or operations research activities. Types of research include biomedical, vaccine development, behavioral/social science/communication research, policy, economic and developmental research, epidemiological research and operational research. Table 1 summarizes funding for health research by region. The project listings contain annual funding for research grouped by region and country.

The funding amounts for FY85-FY91 reported here are based on final fiscal year obligations reported in the CP, and on attributions to health, child survival and AIDS activities reported in the annual Health and Child Survival Project Questionnaires. The final reporting for FY92-FY93 and the estimated reporting for FY94 are calculated from the AC/SI system maintained by The Office of Budget, Bureau for Management of USAID. The calculations are performed by CIHI from a subset of the AC/SI database. CIHI makes no attempt to perform quality control checks on the AC/SI data beyond those related to those calculations.

Reported obligations are from all accounts including Economic Support Fund and Special Assistance Initiative for all fiscal years except FY87-91, which excludes Population Account. PL480 funds are not included in this report.

Child Survival grants to Private Voluntary Organizations (PVOs) funded by the Office of Private and Voluntary Cooperation, Bureau for Humanitarian Response (BHR/PVC) are allocated to the regions in which each PVO is working in FY85 through FY91 and are under "Global" in FY92 through FY94.
