Environmental Policy and Technology Project

Contract No. CCN-0003-Q-00-3165-00

NEW INDEPENDENT STATES

Ukraine Environmental Directory

April 1995

Kiev, Ukraine

Delivery Order 05, Task Order 02

Prepared for:
West NIS-Kiev Mission
U.S. Agency for International Development

Prepared by:
Ukraine, Belarus & Moldova Regional Office
Environmental Policy and Technology Project
For the New Independent States of the former Soviet Union
A USAID Project Consortium Led by CH2M HILL

Preface

Under the 1992 Freedom Support Act, the United States Congress initiated a program to provide various forms of assistance to New Independent States (NIS) of the former Soviet Union. Cooperative Agreements were signed between representatives of the U.S. government and each country in which assistance is to be undertaken. The U.S. Agency for International Development (USAID) was given responsibility to coordinate all U.S. Government assistance to the NIS under the Act.

Through competitive bidding, USAID awarded a multi-year contract to a team managed by CH2M HILL International Services, Inc. (CH2M HILL) to support implementation of an environmental assistance program to republics of the former Soviet Union. Under this contract, termed the Environmental Policy & Technology (EPT) Project, CH2M HILL is to assist USAID's missions in Moscow, Kiev, and Almaty undertake a program to promote environmental improvements in the NIS. The USAID mission in Kiev supports environmental, and other, assistance programs to Ukraine, Belarus, and Moldova. These western republics of the former Soviet Union are termed WESTNIS. CH2M HILL has established an office in Kiev from which to perform services in the WESTNIS region under the EPT Project.

This report was prepared as a contractually required deliverable under the contract between USAID and CH2M HILL. Although work for this report was conducted in cooperation with the assisted governments and USAID, the findings and recommendations are those of the CH2M HILL team. They do not necessarily represent official positions of the governments of the assisted countries nor of the United States of America.

The CH2M HILL team includes the following organizations:

- Center for International Environmental Law
- Clark Atlanta University/HBCUMI Environmental Consortium
- Consortium for International Development
- Ecojuris
- Environmental Compliance, Inc.
- Harvard Institute for International Development
- Hughes Technical Services Company
- International Programs Consortium
- International Resources Group, Ltd.
- Interfax News agency
- K&M Engineering
- Ogden Environmental and Energy Services Company
- Price Waterhouse
- World Wildlife Fund (U.S.)

Note on Transliteration

Sources of information used in preparing this *Environmental Directory* were both Ukrainian and Russian. English-language spelling of personal and place names, and agencies and institutions, may vary depending on the source. For this version of the *Environmental Directory*, the most common English usage transliteral name is usually presented. For example, the capital of Ukraine is written as "Kiev," although Ukrainian transliteration is "Kyiv."

Section 1 Introduction

1.1 Overview

This English-language *Ukraine Environmental Directory* is a listing of major agencies, institutions, non-government organizations, and enterprises associated with environmental management and research in Ukraine. The primary focus is on national government agencies directly responsible for environmental management. Many other entities have some environmental and natural resource management and/or research function, or a department within it that is responsible for environmental issues. To the extent that information was readily available, these other entities have also been listed – for example, ministries of Health and Agriculture, and the Department of Nuclear Policy & Ecological Safety within the National Security Council. Details regarding regional- and oblast-level government agencies, and non-government organizations, are presented to the extent that data was readily available.

1.2 Directory Preparation and Updates

This directory was compiled under auspices of the Environmental Policy & Technology (EPT) Project, which is an environmental assistance program to New Independent States of the former Soviet Union, funded by the United States Agency for International Development. Compilation was accomplished by the following personnel:

Ties van Kempen	Director, Environmental Policy & Technology Project regional office for Ukraine, Belarus, and Moldova
Joseph Pecevich	Senior Environmental Specialist, EPT Project
Vadim Dukanov	Senior Environmental Specialist, Ukrainian National Ecological Center
Rebecca Toth Juras	Environmental Analyst, EPT Project
Helena Vodovska	Researcher, EPT Project

Considerable support was provided by Dr. Vyacheslav Oleshchenko, Chief Advisor of the Parliamentary Commission on Problems on Ecological Policy. Additional assistance was provided by various personnel, including:

- Ministry of Environmental Protection & Nuclear Safety:
Yaroslav Movchan, Deputy Minister
Vladimir Demkin
Sergiy Mikhailov
Ludmila Shumskaya

- National Academy of Sciences:
Valentin Tregubchok (Institute of Economics)
Valentin Voloschin (Presidium)
- Ukrainian National Ecological Center:
Tatiana Hardashuk

This *Directory* does not necessarily contain a complete overview of environmental organizations in Ukraine. Government agencies are frequently restructured, and personnel change. Non-government organizations are new or emerging, and details regarding them at times is difficult to obtain.

It is intended to regularly revise this *Environmental Directory*, and periodically publish updates. All entities listed in the *Directory* are invited to send corrections, and organizations which are not listed but would like to be included in future editions, as well as any additional collaboration, comments, and improvements, should be addressed to:

Environmental Policy & Technology Project
Ukraine, Belarus, & Moldova Regional Office
20 Esplanadna Street, 10th Floor
252023 Kiev, Ukraine
Attention: Mr. Ties van Kempen, Regional Director

Telephone: +380 (44) 220-1367, 220-1469, 227-0626, 229-7777
Facsimile: +380 (44) 220-0242
E-mail: eptkiev@gluk.apc.org

1.3 Organization and Format

1.3.1 Organization of Entries

Entries in this directory have been organized in the following hierarchical manner:

- Section 2: Government Agencies:
 - National Level:
 - Executive- and Parliamentary-Level Organizations
 - Ministries
 - State Committees
 - Regional- and Oblast-level
- Section 3: Government-funded Academies & Scientific Institutions
- Section 4: Independent Scientific Institutions
- Section 5: Non-profit Non-Government Organizations
- Section 6: For-profit Organizations
- Section 7: Non-Ukrainian Organizations

1.3.2 Format of Entries

To the extent possible, the following format was used to present information regarding each agency or institution. Addresses of "Important Subdivisions" are added only if they differ from that of the parent organization.

Section 2 Government Agencies

This section presents government environmental contacts for Ukraine in the following hierarchical manner:

- National-level government agencies:
 - Presidential Administration
 - Supreme Rada (Parliament of Ukraine)
 - Cabinet of Ministers
 - Judiciary
 - Ministries:
 - Ministry of Environmental Protection & Nuclear Safety (MEP&NS)
 - Other ministries
 - State Committees

- Regional- and oblast-level agencies:
 - MEP&NS, State Agencies of Ecological Safety in Regions
 - Ministry of Energy, Power Engineering & Electricity: Electricity Generation Plants
 - Ministry of Health, Sanitary-Epidemiological Service, Oblast Offices

2.1 National-Level Government Agencies

2.1.1 *Presidential Administration*

NATIONAL SECURITY COUNCIL

Purpose: The Security Council was established in 1992 and is responsible for defending legal interests of the state and the citizens of Ukraine, and prevention and detection of enemy activity which is considered an established threat against the higher interests of Ukraine.

Address: 11 Bankovskaya Street, Kiev-220, 252220

4

Important Subdivisions:

Secretariat

Strategic Planning

Purpose: Responsibilities include national policies regarding ecological security and transboundary pollution.

Contact: Eugene R. BERSHEDA, Head T: 291-5709

Commission on Nuclear Policy & Ecological Safety

Purpose: The main objectives of this Commission are to: (i) define national policy in nuclear power while ensuring nuclear and ecological safety, (ii) analyze ecological problems and develop mechanisms to improve the ecological situation in Ukraine, and (iii) provide national expertise on issues of nuclear safety and treatment of radioactive wastes.

Contacts: Valery P. KUKHAR, Head T: 558-5388
Petr L. SHMARIN, Secretary
T: 291-6176

PRESIDENTIAL ADVISORS

Purpose: The President of Ukraine can appoint advisors and special commissions on various matters, including environmental topics. At the time of compilation of this *Environmental Directory*, the following Presidential Advisors dealt with "environmentally related" topics:

Contacts: Head of the Presidential Administration's Office
Vladimir N. MIRONOV T: 291-5209

Advisor on Macro-Economic Problems:
Anatoly S. GAL'CHINSKY T: 291-5917

• Consultant, Problems of Social Policy:
Valery N. NOVIKOV T: 291-5814

• Consultant, Problems of Humanitarian Policy
Valery A. SEMIN T: 291-5059

2.1.2 Supreme Rada

Purpose: The Supreme Rada (or national parliament) of Ukraine is the highest state power authority in the country. It is the body charged with enactment of statutes. Its responsibilities include defining the principle lines in the national environmental policy, approving state ecological programs, declaring certain territories to be zones of extraordinary ecological situations, and establishing legal status of such zones. Every year, a *National Report on Environment Conditions in Ukraine* is submitted to the Supreme Rada for consideration and approval. The Supreme Rada also drafts and adopts environmental statutes and resolutions, and exercises parliamentary control over their implementation. Apart from work during parliamentary sessions, the Supreme Rada has standing commissions (or committees) responsible for various topics, including environmental issues.

Address: 5 Grushevskogo Street, Kiev-19 252019

Contact: Vladimir S. YANITSKY, Public Affairs T: 293-5302
293-3472

Standing Environmental Commission: The Supreme Rada's most important environmental commission is:

Problems on Ecological Policy, Commission on (also called Environmental Policy Commission)

Purpose: The Commission develops and reviews draft legislative proposals regarding environment management and natural resource utilization. It also exercises parliamentary control over activities of ministries, agencies, and local branches of state authorities in the domain of environmental protection.

Address: 6-8 Bankovska Street, Kiev-19 252019

Contacts: Georgriy G. FILIPCHUK, Head T: 291-5748
F: 226-2239
Petr I. LAPENCHUK T: 291-6094
Scientific Secretary to Head
Vyacheslav I. OLESHCHENKO, T: 291-5377
Chief Consultant F: 226-2239

Other Standing Commissions:

Agricultural Land Reform & Rural Development

Contact: Anatoly S. DANYLENKO, Head T: 291-5265

Basic Economic Sectors & Regional Development

Contact: Valeriy I. CHEREP, Head T: 291-6108

Budget

Contact: Nikolay Y. AZAROV, Deputy Head T: 291-5242

Chernobyl Disaster

Contact: Vladimir M. YATSENKO, Head T: 293-8432
T: 293-7556

Economic Policy & National Economic Control

Contact: Oleg V. TARANOV T: 291-5402

Education & Science

Contact: Vladimir Y. STORIZHKO, Head T: 296-8585

Finance & Banking

Contact: Victor I. SUSLOV, Head T: 291-5789

Foreign Affairs & NIS

Contact: Boris I. OLIYNIK, Head T: 291-5317

Fuel, Energy, Transportation, & Communications

Contact: Alexander M. KOZHUSHKO, Head T: 291-5688

Law & Justice

Contact: Leonid V. BORODICH, Head T: 291-5734

Legal Policy, Court, & Law Reform

Contact: Vladimir N. STRETOVICH, Head T: 291-7097

Nuclear Policy & Safety

Contact: Mikhail A. PAVLOVSKY, Head T: 291-6248

Other Important Subdivision:

National Committee on Defense of the Population from Radiation

Purpose: The Committee oversees issues of nuclear and radiation security.

Address: 6-A Bastionna Street, Kiev-14 252014

Contacts: Dmytro M. GRODZINSKY T: 268-7550

2.1.3 Cabinet of Ministers

Purpose: The Cabinet of Ministers is charged with ensuring the proper implementation of statutes enacted by the Supreme Rada. With regard to environmental issues, it provides for the development of international, national, and regional ecological programs; financing of such programs from the state budget, establishing the procedure of fixing payment for natural resources use and environmental pollution fees; adopts decisions on suspension or termination of industrial (polluters') operations; defines procedures of establishing and disposition of the off-budget environmental protection fund; decides on organizing territories and objects of national significant nature reserves, etc.

Address: 12/2 Grushevskogo Street, Kiev-19 252019

Important Subdivisions:

Ecological Conditions of the Dnipro River and Drinking Water Quality, Commission on

Purpose: The Commission develops proposals for the improvement and stabilization of ecological conditions of the Dnipro River. The Commission is composed of members of the Cabinet of Ministers, representatives of interested ministries, ecology specialists, and representatives of public organizations.

Address: c/- Ministry of Environmental Protection, 5 Kreshatik Street, Kiev-1 252601

Contacts: Yuriy I. KOSTENKO, Minister T: 226-2428
Alexander A. MAZURKEVICH T: 228-4520

Geodesics, Cartography & Cadasters, Main Administration for

Purpose: Responsible for the establishment of state and regional cartographic and geodesic funds, data bases, cipher and electronic maps, and geographical information systems.

Address: 54 Popudrenko Street, Kiev-94 252094

Contacts: Anatoliy L. BONDAR, Head T: 552-2257
Pavel O. ROMANISHYN, Deputy Head T: 552-3004

National Agency for Ocean Investigation and Technology

Purpose: Responsible for coordinating research on the Azov and Black Sea Basins, and world oceans.

Address: 54 Volodymyrska Street, Kiev 252601

Contact: Olexandr A. SHTEPTSOV T: 225-1361

National Information Agency of Ukraine

Address: 6/11 Kreschatik, Kiev-601 252601 T: 228-6824

National Space Agency

Address: 11 Bozhenko Street, Kiev-22 252022

Contact: Alexander A. NEGODA, Head T: 226-2555

Public Administration & Local Government, Institute of

Address: 20 Ezhena Pot'e Street, Kiev-57 252057

Contact: Bogdan N. KRAVCHENKO, Head T: 446-4258,
441-7692

Science, New Technology & Ecology, Department of

Ecology & Complex Use of Natural Resources, Section of

Address: 12/2 Grushevskogo Street, Kiev-8 252008

Contacts: Gennadiy I. MIRONYUCK, Head T: 293-3860

Techno-Ecological Security, Commission on

Purpose: The Commission was established to make decisions and implement programs in response to technogenic and ecological catastrophes, and to coordinate government emergency response efforts at the oblast level.

Address: 12/2 Grushevskogo Street, Kiev-8 252008

2.1.4 Judiciary

VERHOVNIY (SUPREME) COURT

Purpose: The highest judicial organ of Ukraine

Address: 4 P. Orlika Street, Kiev-24 252024 T: 293-3313

Contact: Vladimir S. STEPHANYUK, First Deputy T: 226-2584

VERHOVNIY (SUPREME) ARBITRATION COURT

Purpose: State organ for deciding domestic disputes

Address: 5 Kreshatik Street, Kiev-1 252601

Contacts: Dmitri N. PRITIKA, Head T: 226-3239
Nikolai P. GRECHKOVSKY T: 226-2952

OFFICE OF THE GENERAL PUBLIC PROSECUTOR

Purpose: The Office of General Public Prosecutor (OGPP) consists of several departments and divisions. Each of five Deputy Directors has direct supervisory powers over a number of them. There are about 20 main departments within the OGPP, as well as Offices of the State Prosecutors in oblast centers, in the Autonomous Republic of Crimea, and in the cities of Kiev and Sevastopol.

Address: 13-15 Reznitskaya Street, Kiev-11 252601

Contacts: Vladislav V. DATCHUK, General Public Prosecutor T: 290-1020
Olga M. KOLINKO, Deputy General Prosecutor

Important Subdivision:

Judicial Environmental Enforcement Actions, Department of

Purpose: The OGPP, Division of Judicial Environmental Enforcement Actions, is responsible for coordinating the use of different enforcement resources in order to maximize their efficiency and integrate them into a comprehensive countrywide environmental enforcement program, and ensuring that government entities, enterprises, and citizens do not violate environmental norms.

Contacts: Sergej S. MIROSHNICHENKO, Head T: 290-8505
Anatolij I. RYBACHUK, Deputy Head T: 290-0580

2.1.5 Ministry of Environmental Protection & Nuclear Safety

In December 1994, the former Ministry of Environmental Protection, and the State Committee for Nuclear Safety, were merged into a new agency called the Ministry of Environmental Protection & Nuclear Safety (MEP&NS). At the time of preparing this *Environmental Directory*, not all senior appointments had been made, nor had the new agency structure been finalized. Information presented below is what was made available to compilers of the *Environmental Directory* in March 1995.

Ukrainian Scientific Hygiene Center

Purpose: The Ukrainian Scientific Hygiene Center comprises three institutes which pursue research in the following fields: general hygiene and environmental health, hygiene and nutrition, and medical genetics. The Center has a staff of 580, 350 of whom are research scientists. The Center collaborates with scientists at Research Triangle Park, Brookhaven, and the World Health Organization. Specific research includes the health of inhabitants living or formerly living in the vicinity of the Chernobyl accident; risk assessment; children's health; and transmission of chemicals in the atmosphere, soil and water. The director of the Institute, Dr. Serdyuk, also holds a position on the Collegia of the Ministry of Health and the Ministry of Environment. The Collegia is responsible for initiating projects, and directing research in the field of environmental health. Research areas include:

1. Environmental health and health status of the population
2. Security of atomic power stations
3. Climate change and urbanization
4. Ecological mapping of contamination
5. Ecologically clean technology
6. Biomonitoring of radionuclides.

Section 3 Government-Funded Scientific and Academic Institutions

3.1 National Academy of Sciences of Ukraine

The National Academy of Sciences is the umbrella organization, administered by a Presidium, that includes scientific institutes. Four branch academies, each with their own scientific institutes, are also within the overall National Academy's jurisdiction. These branch academies are:

- Academy of Agrarian Sciences
- Academy of Legal Sciences
- Academy of Medical Sciences
- Academy of Pedagogical Sciences.

The Presidium of the National Academy includes the following permanent environmental entities:

- Scientific Council on Problems of Natural Environment and Development
- Section on Natural Resources Use and Nature Protection
- National Committee on UNESCO "Man & Biosphere" Program
- National Committee on New & Renewable Energy Sources.

The National Academy also administers several other entities that have an environmental orientation, including:

- Central Botanical Garden
- Central Scientific-Nature Museum.

INSTITUTES OF THE NATIONAL ACADEMY

The main administration of the National Academy of Sciences maintains separate scientific and research entities, including the following:

Biochemistry, Institute of

Address: 9 Leontovich Street, Kiev T: 224-5974
T: 224-2335

Contact: Georgy P. DONCHENKO

Biology of the Southern Seas, Institute of

Purpose: The Institute is involved in the study of the biology of the Black, Azov, and other seas, and the protection and utilization of sea ecosystems.

Address: 2 Nakhimova Street, Sevastopol 335000

Contacts: Victor E. ZAIKA T: 52-4110
Victor N. EGOROV T: 59-8120

Bioorganic and Oil Chemistry, Institute of

Address: 50 Kharkov Street, Kiev T: 559-7033

Botany, Institute of

Purpose: The Institute is involved in the study of flora in Ukraine; the influence of anthropogenic factors on vegetation; and the protection, reproduction, and rational use of the world's plant resources.

Address: 2 Tereshenkovskaya Street, Kiev-4 252601

Contacts: Constantine M. SITNIK T: 224-4041
Yakov P. DIDUKH T: 225-3396
Lyudmila VAKARENKO T: 224-8134

Cell Biology & Genetics Engineering, Institute of

Address: 148 Akademika Zabolotnogo, Kiev-143 252143 T: 266-9614
T: 266-9266

Colloid and Water Chemistry, Institute of

Purpose: The Institute studies water quality and the development of water purification and sewage treatment systems.

Address: 42 Akademika Vernadskogo Street, Kiev-180 252601

Contacts: Vladislav V. GONCHARUK T: 444-0196
Boris Y. KORNIKOVICH T: 444-2577

Cybernetics (Computer Sciences), Institute of

Purpose: The Institute is responsible for developing technical and administrative solutions to problems in management and informatics.

Address: 20 Akademika Glushkova Street, Kiev-207 252207

Contact: Ivan V. SERGIENKO, Acting Head T: 266-3761

Address: 32 Akademika Palladina Street, Kiev

Contact: Vitaly I. STAROSTENKO, Head T: 444-0112
T: 444-0100

Hydrobiology, Institute of

Purpose: The Institute was founded in 1940. Research follows two directions, limnology and ichthyology. Research includes the following: the status of natural and man-made bodies of water; hydrobiological problems of the Black Sea, and Dniro, Danube, Dniester, and South Bug rivers; ecology of rivers and lakes;

42

aquatic ecosystem biomonitoring; and assessment and ecology of reservoirs surrounding thermal and atomic power plants. In the field of ichthyology, research includes assessment of the state of ichthyofauna and the preservation and restoration of fisheries. Other programs include involvement in the International Environment Program for the Danube River Basin, UNESCO-sponsored program "Man and Biosphere," and Ukrainian State-funded programs "Assessment of the Conditions, Prognosis and Restoration of Ukraine's Water Quality," "Man and Ecology," and "Radiogeoeology of Water Systems in the Vicinity of Chernobyl."

3.1.2 Branch Academies

ACADEMY OF AGRARIAN SCIENCES

Purpose: The Academy of Agrarian Sciences was founded in 1990 to coordinate and direct research in agricultural sciences. The Presidium works as the administrative arm of the "General Assembly". It is organized into eight departments: agriculture, plant growing, stock breeding, veterinary science, economics, storage and processing, agricultural engineering, and ecology and land use. The Presidium oversees the work 177 institutions, including research institutes, field stations, and experimental farms. There are also 10 agroecology field stations affiliated with various institutes and 6 radioecological centers located on the territory surrounding Chernobyl. The Centers are responsible to various institutes and local administrations. Information is distributed to the Ministry of Chernobyl, the Ministry of Agriculture, and the Academy of Sciences. The Academy publishes the "Bulletin of Agrarian Science," and co-publishes a journal called "Cytology and Genetics" with the National Academy of Sciences.

Purpose: The Institute is working toward the improvement of agri-ecological monitoring; the organization of food quality control systems; soil management and erosion, and the processing of information on radionuclides, heavy metals, and pesticides. The Institute is involved in several programs initiated by the Ministry of Environment & Nuclear Safety, and the Ministry of Chernobyl, these include: "Agricultural Radiology," "Agro-ecological Monitoring," and "Land Use". The Institute has a staff of 180, 97 of whom are involved in scientific research. It has a database on soil conditions, and is in the process of developing a computer network among institutes with similar research goals.

Purpose: The Institute was founded in 1928 and currently employs a staff of 210, 87 of whom are involved in scientific research. The Institute conducts studies on the occupational health of workers in various technical fields, often in conjunction with other technological, chemical, and agricultural institutes. Specific research includes studies of the combined effects of radiation and other chemicals such as pesticides and heavy metals; monitoring the health of Chernobyl liquidators; chronic psychological stress experienced by inhabitants of the 50 km exclusion zone surrounding the Chernobyl site; and blood-lead studies. The Institute has been working with the World Health Organization for a number of years, and is currently collaborating with WHO on a project involving the health of agricultural workers. The Institute also has cooperative projects with the U.S. Department of Health and Human Services, the National Institute of Occupational Health and Safety, and Columbia University. The Institute has six divisions and sixteen laboratories involved in research in hygiene and occupational health in various branches of the national economy.

Section 4 Independent Scientific Organizations

ACADEMY OF ECOLOGICAL SCIENCES

Purpose: The Academy of Ecological Sciences is an informal consortium of scientists which receives funding for specific projects. The Academy of Ecological Sciences (AES) is independent from the Ukrainian Academy of Sciences, though most members of the AES hold positions within the Ukrainian Academy of Sciences. Members of the Academy of Ecological Sciences decide for themselves which research objectives to pursue.

INSTITUTE OF ECOLOGY

Purpose: The Institute of Ecology, established in 1993, is an independent scientific enterprise that works in conjunction with the National Ecological Center of Ukraine. The Institute is a consortium of specialists in such fields as ecology, toxicology, and wildlife biology. It was organized to provide expertise in environmental protection, environmental education, and program development to the Ministry of Environmental Protection & Nuclear Safety and other interested entities. In 1993 the Institute was involved in preparation of the "National Report on Ecological Conditions in Ukraine" for the Parliament, a study entitled "Priorities and Concept of Sustainable Development in Ukraine" for the Ministry of Environmental Protection & Nuclear Safety, and they received a grant from the State Committee of Science and Technology to develop plans for improving ecological conditions of riparian ecosystems.

ECOMISSION

Purpose: Ecomission is a consortium of four non-governmental organizations: "Mama-86," "Unicorn," "Ecopravo," and "Prosvita" (or "Enlightenment"). Each group has their own unique direction and take turns working at the Ecomission headquarters. "Mama-86" is involved in establishing an independent toxics monitoring network, "Unicorn" is a non-profit environmental publisher, and "Prosvita" focuses on environmental information exchanges and education.

T: 413-2845

ENVIRONMENTAL EDUCATION & INFORMATION CENTER

Purpose: The Environmental Education & Information Center (EEIC) is a non-government institution established in 1993 by the then Ministry of Environmental Protection of Ukraine and the University of "Kiev-Mohyla Academy". Substantial funding is provided by the U.S. Environmental Protection Agency. Principal goals of EEIC include (i) the introduction of modern methods of environmental education and information resource management into MEP&NS and the university; (ii) provision of current and comprehensive environmental information to the government and citizens of Ukraine; (iii) cooperation with international databases on the environment and environmental sound technologies; and (iv) encouraging technology transfer and applications to various projects that promote environmental sustainability.

GREEN WORLD (UKRAINIAN ECOLOGICAL ASSOCIATION "ZELENIY SVIT")

Purpose: Green World was most active in 1989 and 1990. Activities are coordinated by a council of twelve members which meet by-monthly. Members of the council include heads of different committees such as the Committee on Nuclear Issues, the Committee on Youth, the Committee on Medicine, and the Committee on Environmental Education. A council of 37 representatives from different branches meet quarterly to decide greater administrative issues. The director of Green World is dedicated to getting the organization active again and encouraging greater coordination and cooperation between the branch offices.

(Pylyp Orlyk) INSTITUTE FOR DEMOCRACY

Purpose: The Pylyp Orlyk Institute for Democracy is an independent, non-profit public policy research and information center that aims to help resurrect Ukrainian democratic traditions and assist the establishment of a free-market democracy. It is named after Pylyp Orlyk (1672-1742), a Cossack noble and state leader (*hetman*), who was chief author of the 1710 Bendery Constitution. This constitution was purportedly the first in the world to formulate a democratic standard for the separation of powers in government, between legislative, executive, and judiciary branches. The institute is a source of information, and facilitates research and development of public policy, in five key areas that it sees are essential to democratic state building: state and local government, economic reform, national security, human rights, and the environment.

NATIONAL ECOLOGICAL CENTER OF UKRAINE ("ECOCENTER")

Purpose: The Ecocenter has 7 branch offices. The Kiev office has a full-time staff of 7 and 5 part-time employees. Thus far, most of its funding has come from the Ministry of Environmental Protection & Nuclear Safety. Activities of branch organizations include lobbying for nature reserves, drafting a law on environmental education, and conducting environmental audits and environmental assessments of river and reservoirs. The Kiev office is in the process of estab-

67

lishing a branch responsible for publishing and translating environmental education materials. The Center may develop an environmental monitoring clearinghouse modelled after a similar facility in Poland.

The last two annual reports on the state of the environment of Ukraine have been contracted to this organization from the government of Ukraine and the MEP&NS.

USAID-Funded Contractors and Grantees:

Under the 1992 Freedom Support Act, the Government of the United States of America is providing assistance to newly independent states (NIS) of the former Soviet Union. The program of this U.S. assistance is very diverse, and is administered by the U.S. Agency for International Development (USAID). Much of the assistance is actually implemented by private companies, universities, and other non-government organizations under direct contract to

USAID. Some of these USAID-funded contractors and grantees that undertake environmental programs include:

Academy for Educational Development
