MEMORANDUM

To John Lewis Director Office of Agriculture and Food Security Global Bureau, Economic Growth Center
Tracy Atwood Chief Food Policy Division
George Like, Food Policy Division

Subject Permanent Archiving of BIFAD Records

The purpose of this memorandum is to report on the completion of archiving of records of the Board for International Food and Agricultural Development (BIFAD) Archiving was completed and the records transferred to Records Management on July 28 - 31, 1997

In the archiving process, approximately 18 000 documents (300 cubic feet) were reviewed Of these approximately 200 cubic feet, generated by the operation of BIFAD and its Staff and subordinate groups during the period of 1975-1994, were selected for more careful review

Materials selected for permanent archiving filled 31 cardboard boxes, with U S Government markings, each measured one cubic foot in dimension numbered 1 to 31 These boxes contained 1108 file folders, consisting of an estimated 3000 documents

The documents included minutes and verbatim records of meetings proceedings of conferences and workshops with AID and U S universities scientific reports of studies surveys and analysis of different aspects of assisted economies and BIFAD resolutions programs and policy recommendations and correspondence

The records were archived in accordance with Federal Regulations and Laws governing management of Federal Records These regulations mandate that statutory advisory committees appointed by the President of the United States be permanently archived

Title XII Amendment of the International Development and Food Assistance Act of 1975, as amended authorized the President to establish BIFAD and appoint its members The Title XII Amendment, known as the Prevention of Famine and Freedom from Hunger Amendment had been sponsored by the late Senator Hubert Humphrey and former Congressman Paul Findley of Illinois The Act was passed on December 20 1975 (Public Law 94 1617)

The records archived included

- 23 boxes of documents dealing with BIFAD and its Staff in meetings in advisory participation with AID and in collaboration with Title XII agricultural and other U S and non-U S universities These records are identified by Item number 13010 Lot number 97-269 (1975-1994)
- 7 boxes of documents dealing with joint activities of BIFAD s subordinate groups with AID and in collaboration with Title XII universities as follows the Joint Agricultural Research Committee (JRC) and the Joint Committee on Country Development (JCAD 1977-1984) and the Joint Committee on Agricultural Research and Development (JCARD 1984 1994) These boxes are identified by Item number 13020 Lot number 97 270

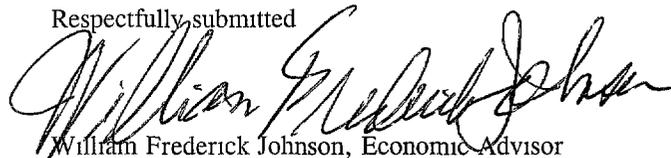

- 1 box containing charters of BIFAD This box is identified by Item number 13030 Lot number 97-271

Contents of each box were identified in a shelf list in which the topics of each file folders are listed Therefore there are 23 shelf lists for BIFAD 7 shelf lists for subordinate bodies and 1 shelf list for charters Hard copies of these shelf lists are attached herewith The lists have been recorded on the attached diskettes using WordPerfect 5.1 & 5.2 for Windows

It is expected that universities especially the Title XII institutions will have an interest in the information archived Unfortunately, accessing the archived information is rather cumbersome Therefore I discussed with Gerald Britan, Director of PPC/CDIE, and Richard Wheldon Deputy the possibility of CDIE's retrieving the records and scanning some or all the records for storage in CD ROM in their library system operated by contracted university library institutions They agreed to review the records and determine whether to store copies of some or all of the documents A hard copy and a diskette of the records are being provided to each of them

There is a need for the Office of Agriculture and Food Security (AFS) of the Global Bureau to follow through with CDIE on its interest

Respectfully submitted

Footnote William Frederick Johnson BIFAD staff member began reviewing records of BIFAD for archiving in September 1995 following by one year the inactivation of BIFAD with the resignation of its members and closing of the Agency Center for University Coordination With the reactivation of BIFAD in 1995 the Office of Agriculture and Food Security (AFS of G/EG) was given the responsibility for backstopping BIFAD and for archiving its records which had been transferred to AFS

William Frederick Johnson was detailed to AFS for this purpose from November 1995 to April 6 1996 to advise and assist in backstopping BIFAD and to engage in reviewing and classifying BIFAD records for permanent archiving He was assigned to the Office of Program Monitoring and Evaluation (PME) of the Center for Development Information Bureau for Policy Planning and Coordination from April 6 1996 to June 2 1997 He was again detailed to the Office of Agriculture and Food Security from June 2 to July 31 1997 to complete the task of archiving The archiving was completed with storage of the records in Records Management on July 28 31 1997 when Mr Johnson was retired from Government service after 45 years
