*March 2004*

# Foreword

In the coming year the Bureau for Global Health and USAID missions will face daunting challenges and historic opportunities. While the health field enjoys unprecedented backing from both the Administration and Congress coupled with massive budget infusions, the critical problems that need to be addressed are undeniably large and complex. Our top priorities are to:

- Step up the war against HIV/AIDS
  
- Control the spread of re-emerging infectious diseases such as tuberculosis and malaria
  
- Employ new approaches to invigorate our efforts in the areas of family planning/reproductive health, child survival, and maternal health

The Agency cannot afford to miss this chance to use our collective expertise, experience, and the extensive field presence of our missions to respond to these challenges. The Bureau for Global Health in collaboration with field missions is capable of meeting the new health agenda head on. To support this work Global Health has enhanced technical capabilities, particularly in HIV/AIDS, and has initiated new activities to reflect the changing needs of the health sector and missions.

The Bureau for Global Health is dedicated to providing superior services to missions and country programs. The Users' Guide is our main vehicle for providing information on the resources and services available to your programs. In the year to come, we anticipate developing a new electronic version of the Users Guide that will make this information more accessible, create links to relevant websites, and provide additional information essential to the operations of country-level programs.

Sincerely  
E. Anne Peterson, MD, MPH  
Assistant Administrator  
Bureau for Global Health

# Additional Information

## Locating the Electronic Copy of the Users' Guide

This guide is also available on the USAID website at:

- GH homepage:

[http://www.usaid.gov/our\\_work/global\\_health/home](http://www.usaid.gov/our_work/global_health/home)

- User's Guide online:

[http://www.usaid.gov/our\\_work/global\\_health/home/Resources/users\\_guide.html](http://www.usaid.gov/our_work/global_health/home/Resources/users_guide.html)

## Who to Contact for Additional Information on the Users' Guide

Please contact the editor, Michael Gibson ([mgibson@BGHsupport.com](mailto:mgibson@BGHsupport.com)), to request copies of the guide and to provide updates or corrections.

Contact Peggy Meites in the Bureau for Global Health, Office of Regional and Country Support (RCS), for additional information on the Users Guide, comments or suggestions.

## Accessing the Services in the Global Health Programs

This Users' Guide includes the preferred method for field operating elements to access the various contracts, agreements and grants in the Project Directories. Most projects that show "Field Support" as the preferred method of access may also be accessed using Modified Acquisition and Assistance Request Documents (MAARDs) and Operating Year Budget (OYB) transfers. These two methods generally are available to provide additional, flexible ways that accommodate unique or unusual Mission circumstances. For further information about these alternatives, kindly contact the respective project CTOs.

# Global Health

## Introduction

The United States government's resolve to improve the quality of life and prospects for development in developing countries has been implemented for more than 40 years through the U.S. Agency for International Development (USAID). Global health and population challenges are too large for any single government, agency, or organization to confront alone. USAID's success in the global health arena has been achieved through synergies among its own programs, and close collaboration and strong partnerships with the people and governments of assisted countries, other U.S. government agencies, bilateral donors and foundations, private voluntary organizations, universities, and private businesses. We continue to forge new alliances, for example, with faith-based organizations, and to participate in key international coalitions.

**The following are examples of what USAID programs have accomplished:**

- USAID, partners from the European Union, and the private voluntary organization Doctors of the World have supported the tuberculosis program in Kosovo. Despite the challenges presented by the lack of government and the separate health care systems for Albanians and Serbs, the region has more than 95 percent DOTS implementation and an 84 percent treatment success rate in new smear-positive patients.
- With USAID support, the Ethiopian Federal Ministry of Health (FMoH) and the Wonji Sugar Factory reached agreement to begin a trial fortifying sugar with vitamin A in December 2003. Fortifying food staples with iron, iodine, or Vitamin A can combat certain diseases and reduce micronutrient deficiencies for only pennies per person per year.
- USAID launched a special initiative to help the more than 500,000 women who die worldwide as a result of childbirth. Substantial declines in maternal deaths have already been achieved in the last fifteen years in Egypt (52 percent decline), Guatemala (30 percent) and Honduras (41 percent).
- In Ghana, where approximately half a million people are living with HIV, USAID supports efforts to raise awareness and increase safe sexual behavior by promoting the "ABCs"—Abstain, Be faithful to one partner, or use a Condom. The AIDS prevention campaign is a joint effort of the Ghana Ministries of Information and Health, the Ghana Social Marketing Foundation, and the Johns Hopkins Bloomberg School of Public Health/Center for Communication Programs. The prevention campaign has reached more than 90 percent of the population.
- The Women and Infants' Health Project is a comprehensive reproductive health project that has been working in two regions in Russia, Perm *oblast* and Velikiy Novgorod, since 1999. Interventions include family-centered maternity care, exclusive breastfeeding, and client-centered family planning services, particularly for postpartum and post-abortion clients. Evidence-based principles were integrated into medical practices at 20 project facilities in three cities. Family planning counseling is now integrated into antenatal, postpartum, and post-abortion care. As a result, the number of women receiving counseling on how to avoid unplanned pregnancy has doubled at all project facilities. Use of the lactational amenorrhea method has increased from virtually no women to 25 percent of postpartum women. General abortion rates have declined during the course of the project, falling 6 percent in Perm and 7 percent in Novgorod and Berezniki.

**Formidable challenges remain, and USAID is addressing these challenges in the following areas of focus:**

**Maternal Health:** Each year, more than half a million women die from causes related to pregnancy and childbirth; 99% of these deaths occur in developing countries. USAID's strategy to protect the health of women includes reducing high-risk pregnancies and raising the quality of their nutrition and postpartum care. Healthy mothers greatly increase a child's rate of survival and improve the stability of communities and their economies improve as a result.

**Child Health and Nutrition:** Every year, approximately 10.8 million children die unnecessarily. Sixty percent of these deaths, an estimated 6.5 million children, could be prevented through the implementation of known child health interventions; for example, immunizations, vitamin A, appropriate hand washing, breastfeeding, Oral Rehydration Therapy (ORT) and antibiotics for pneumonia. Especially vulnerable are the very young. Every year, 3.9 million of all child deaths worldwide occur during the first 28 days of life, the neonatal period. USAID has provided technical and operational leadership in all of these areas and is today providing support to child health interventions that save the lives of an estimated 3 million children each year.

**HIV/AIDS:** AIDS causes almost 8,500 deaths every day. It infects nearly 14,000 people daily, and over 42 million people are currently living with HIV/AIDS. The United States is the world leader in responding to the global HIV/AIDS pandemic. USAID is assisting more than 100 countries and is significantly increasing resources in 15 countries as part of the President's Emergency Plan for AIDS Relief. These 15 countries represent nearly 50 percent of HIV infections worldwide. USAID, under the coordination of the State Department Office of the Global AIDS Coordinator will help provide life-extending drugs to two million infected people, prevent seven million new HIV infections, and care for 10 million persons infected with or affected by HIV, including orphans and vulnerable children. In addition, USAID's response includes surveillance, technical leadership; and reduction of stigma and discrimination.

**Infectious Diseases:** Worldwide, an estimated 300 to 500 million cases of malaria occur every year, resulting in up to 2.5 million deaths, mostly among young children. TB kills between 2 and 3 million people each year, 98% of whom live in the developing world. USAID's efforts to address these challenges consist of disease prevention and control while supporting surveillance of infectious diseases and improving access to pharmaceuticals to combat drug resistance.

**Family Planning and Reproductive Health:** Pregnancy and childbirth are the leading causes of death and disability for women annually. Children whose mothers die are themselves at increased risk of dying. Voluntary family planning has profound health, economic, and social benefits for families, communities, and nations. Since its inception in 1965, USAID's family planning and reproductive health program has helped women in developing countries to choose the number and spacing of their children, contributing to improved maternal and child health, enabling families to better match family size to economic resources, and enhancing achievement of a sustainable population-resource balance at national and global levels.

# USAID and Global Health Structure

## USAID

## Global Health

# Staffing and Office Functions

Bureau staff manage an array of technical projects, providing technical support to USAID missions and field programs, garnering support for our programs with stakeholders, and nurturing and galvanizing stronger partnerships with the development community. This global leadership is influencing the worldwide health agenda, increasing the likelihood of successful health programs and encouraging the wider global community to adopt new technologies and approaches and pursue USAID priorities and goals. Summary functional statements for GH Bureau offices follow:

## **Office of the Assistant Administrator (AA/GH)**

The Office of the Assistant Administrator provides oversight for GH programs, support to the field, research, legislative relations, and external affairs. The Assistant Administrator supervises two Deputy Assistant Administrators and a small support staff.

## **Office of Strategic Planning, Budgeting and Operations (GH/SPBO)**

The Office of Strategic Planning, Budgeting and Operations has primary responsibility for Global Health's strategic planning, budgeting, programming and procurement functions. The Office provides leadership, advice and support for overall strategic direction, resource allocation, and procurement planning. It supports efforts to monitor and promote the effectiveness of programs and the achievement of Global Health objectives, and is integrally involved in performance monitoring and program evaluation. Additionally, SPBO houses the Partnership Team which takes the lead in Global Health donor coordination activities.

The Office is led by a Director and is composed of two divisions:

**Strategic Planning and Budgeting Division (GH/SPBO/SPB)** serves two major functions: (a) undertakes strategic planning, which includes overall sector and program planning, policy, monitoring and evaluation, and serves to coordinate such activities within Global Health and with other units within the Agency; (b) prepares and monitors Global Health's budgets, which includes the management of Global Health OYB and monitoring of Global Health's pipeline.

**Operations Division (GH/SPBO/OPS)** is responsible for providing programmatic support to Global Health technical office staff, from activity design through implementation. It also takes the lead in procurement planning, monitoring and tracking of all procurement actions.

## **Office of Professional Development and Management Support (GH/PDMS)**

The Office of Professional Development and Management Support carries out the professional staff development, personnel, administration and management functions for Global Health. PDMS staff manage the professional development activities (including training) and work assignments in Washington and overseas. PDMS coordinates intra-bureau teams in the areas of human resources and development programs, human resources planning, and space. It also works with Global Health offices and M/HR on the assignment, promotion, training, career development, and performance evaluation of Bureau employees, as well as those deployed in the PHN sector worldwide.

Specific responsibilities include: management of health sector human resources processes and projects for the full range of direct and non-direct hires assigned to Global Health and to other bureaus; management of all training and professional development activities for the PHN sector; oversight of Global Health's HR data base system, Direct Hire and Non-Direct Hire incentive awards, performance evaluations, security, employee counseling and staffing allocations; oversight of the Operating Expense (OE) budget; management of vital records and Continuation of Operations Plan; and management of administrative services, space planning, procurement, and office supplies.

PDMS supports the professional development of technical staff through promoting useful and innovative tools and approaches for managers and leaders to help them supervise, mentor, coach, motivate and give performance feedback; offering high-impact professional development events that enable staff to build skills, and knowledge and improve their performance; providing a work environment that pays attention to space, equipment, supplies, and security; helping staff use relevant, and appropriate guidance, policies, procedures and regulations; and providing technical assistance in aligning and organizing staff.

PDMS is led by a Director and is composed of three teams that are responsible for professional development, human resources, and administrative services.

## **Office of Regional and Country Support (GH/RCS)**

The Office of Regional and Country Support (RCS) is the locus of the country support function within Global Health. The office was established to respond directly to the Administrator's call for improved services and support to the field from USAID/W. The office comprises four teams, one for each geographic region, and a fifth team to focus on cross-cutting mission needs.

RCS responds to the field's need for:

- problem-solving, representation and practical guidance on USAID/W policies, programs and resources through the Country Coordinator/Country Team support system;

- technical assistance in selected areas across the population, health and nutrition sector;
- management assistance for strategic planning, procurement and implementation planning, and performance monitoring;
- staff coverage to help mission health teams cope with staff absences or surges of work;
- field-relevant information for the planning and implementation of bilateral programs;
- advocacy of field needs and perspectives in the formulation of technical policies and programs and in the allocation of Agency resources; and,
- accountability within GH for meeting field needs through the establishment and tracking of country support service standards and targets.

By responding to these needs, the office helps mission health teams improve the quality and impact of their health sector strategies and programs.

The RCS Office Director is the Bureau's representative to the Agency's Foreign Service assignment system, the Bureau Coordinator for the International Development Intern (IDI) and New Entry Professional (NEP) programs, and the Chair of the Agency's PHN Sector Council.

## **Office of HIV/AIDS (GH/OHA)**

The Office of HIV/AIDS is the locus of HIV/AIDS technical leadership for the Agency and has primary responsibility for leading the Agency's efforts within the President's AIDS Initiative. In cooperation with the State Department Office of the Global AIDS Coordinator this responsibility entails: ensuring the technical integrity of Agency and mission strategies; providing global technical leadership on the full range of issues related to HIV/AIDS prevention, care, and treatment; managing numerous research and field support programs; and monitoring and reporting on the impact of the Agency's HIV/AIDS program.

The Office is led by a Director and is composed of three divisions:

**Technical Leadership and Research Division (GH/OHA/TLR)** provides technical advice and support across the Agency and field missions and has primary responsibility for HIV/AIDS operational and biomedical research in areas relevant to Agency goals and objectives.

**Implementation Support Division (GH/OHA/IS)** focuses on the provision of assistance to accelerate and scale-up HIV/AIDS programs in the field and manages the majority of centrally funded HIV/AIDS programs.

**Strategic Planning, Evaluation, and Reporting Division (GH/OHA/SPER)** provides programmatic expertise to help the Agency and its missions develop programs that respond to USG, USAID, and Congressional policy and budget priorities and incorporate innovations, best practices, and lessons learned.

## **Office of Population and Reproductive Health (GH/PRH)**

The Office of Population and Reproductive Health provides strategic direction, technical leadership and support to field programs in population, voluntary family planning and reproductive health. It manages programs that advance and apply state-of-the-art technologies, expand access to quality services, promote healthy behaviors, broaden contraceptive availability and choices, strengthen policies and systems to address family planning and reproductive health needs, and improve data collections and use.

The Office is led by a Director and is composed of four divisions:

**Research, Technology, and Utilization Division (GH/PRH/RTU)** provides technical leadership in building scientific and empirical knowledge and ensures its use in the design and implementation of effective, efficient, high-quality family planning and reproductive health programs.

**Commodities Security and Logistics Division (GH/PRH/CSL)** promotes the long-term availability of a range of high-quality contraceptives, condoms and other essential health supplies.

**Service Delivery Improvement Division (GH/PRH/SDI)** develops and applies innovative strategies that improve the performance of individuals, organizations and systems for the sustainable delivery of quality family planning and related services.

**Policy, Evaluation, and Communication Division (GH/PRH/PEC)** (bureau-wide responsibilities) works across the entire portfolio of Global Health activities to improve the collection, analysis and use of data in policymaking and program planning; and promotes policies, behavior change and community norms, which result in improved reproductive and health outcomes.

## **Office of Health, Infectious Diseases and Nutrition (GH/HIDN)**

The Office of Health, Infectious Diseases and Nutrition manages a diverse portfolio within the Bureau for Global Health. It is responsible for managing the Global Health Bureau's strategic objectives in child health, maternal health and infectious diseases, and for providing technical leadership in each of these areas.

These technical focus areas also include programs in nutrition/micronutrients, environmental health, health policy, and health systems strengthening, monitoring, reporting, and performance management. The office is also responsible for sector-wide strategic planning and coordination with external partners on child and maternal health, infectious disease and nutrition. The program portfolio also includes service delivery programs and an ambitious agenda of biomedical, applied, and operations research.

The Office is led by a Director and is composed of four divisions:

**Maternal and Child Health Division (GH/HIDN/MCH)** provides technical leadership and direction in child survival/child health and maternal health. Division teams focus on child health and survival; polio; child and maternal health research; immunization programs, including support to the Global Alliance for Vaccines and Immunization; vaccine introduction and new technologies; maternal health/survival; and safe motherhood initiatives.

**Infectious Diseases Division (GH/HIDN/ID)** is responsible for technical leadership and direction in infectious diseases and environmental health issues. Division teams focus on tuberculosis, malaria and other infectious diseases and environmental health (both water-borne and vector borne diseases).

**Nutrition Division (GH/HIDN/N)** is responsible for technical leadership and direction in food and nutrition. Division teams focus on infant feeding and breastfeeding, micronutrients, food supplementation, and applied nutrition programming in the public, private and nonprofit sectors. The Nutrition Division also houses the Child Survival and Health Grants Program (CSHGP) which facilitates a productive partnership between USAID and private and voluntary organizations (PVOs). Together, CSHGP and PVOs support community-oriented child survival and health programs that measurably improve health outcomes at the community level.

**Health Systems Division (GH/HIDN/HS)** (bureau-wide responsibilities) works across the entire portfolio of Global Health and is responsible for technical leadership and direction in health systems strengthening. Division teams focus on health policy, quality assurance, workforce policy, pharmaceutical management and standards, and information, monitoring, and evaluation.

# Project Directory

## Bureau-wide Projects

**This section of the Users' Guide includes descriptions of three kinds of activities:**

1. Contracts and cooperative agreements that have an explicit mandate to address technical needs that cut across Global Health and mission health Strategic Objectives, such as data collection, monitoring and evaluation, or communication for behavior change;
2. Mechanisms to access non-direct hire technical and administrative personnel;
3. Mechanisms that provide systems support, such as database management, indicator tracking, and report preparation.

Some of these activities are managed by interoffice teams from the Bureau for Global Health's three technical offices. Others are managed within the Office of Professional Development and Management Support on behalf of the Bureau for Global Health as a whole.

# Cooperative Administrative Support Units (CASU) InterAgency Agreement

**Project Number:** 936-3070.07  
**Agreement Number:** PHN-P-00-00-0001-00  
**Duration:** 06/00-09/05  
**Geographic Scope:** Worldwide

## **Purpose:**

To provide the Bureau for Global Health, field missions and Regional Bureaus with mid- to senior-level technical specialists in order to maintain proper technical leadership in the field of population, health and nutrition (PHN).

## **Services Provided:**

As the Agency faces serious technical staffing constraints in the PHN sector, an alternative NDH mechanism was sought in order to be able to adapt very quickly to changing technical staffing needs, and to maintain the Bureau for Global Health's technical leadership in essential fields. The CASU mechanism provides for on-site institutional contractor staff for government operations and has been used throughout the Federal Government. In 2000, the Bureau for Global Health put into place an InterAgency Agreement with the Department of Treasury's FedSource of Los Angeles. Institutional contractor staff is provided through their subcontractor, COMFORCE Technical Services.

**Means of Access:** Field Support

# Data for Decision Making II: Global Health Council

**Project Number:** 936-3098.02  
**Agreement Type:** Cooperative Agreement  
**Agreement Number:** HRN-A-00-99-00018-00  
**Duration:** 08/99-07/04  
**Geographic Scope:** Worldwide

## **Purpose:**

The Council aims to promote better health around the world by assisting all who work for improvement and equity in global health to secure the information and resources they need to work effectively. The objectives of this agreement are to further those aspects of the Global Health Council's mission that support USAID's Strategic Objectives in the PHN sector.

## **Services Provided:**

The Council's key areas of institutional focus are to inform and educate the American public, practitioners, and political and technical decision makers engaged in delivering health and population programs around the world, and to serve as a leading forum for the exchange of information on best practices and access to technical training assistance and information.

- Local and global health forums
- Special events
- Congressional educational/technical briefings
- Regional fora
- Technical workshops
- The annual International Health Conference

**Means of Access:** Can no longer accept new monies. New project under development.

**Duration:** 04/00-04/05  
**Geographic Scope:** Worldwide

## **Purpose:**

To provide population, health and nutrition technical teams in USAID, other agencies and developing countries with essential information on program needs, technologies, costs, and impacts to support accurate priority-setting, design, management, and evaluation of country programs.

## **Services Provided:**

PHNI has technical expertise in three interrelated areas: information technology (IT), technical analysis, and communication.

The Information Technology (IT) Unit provides comprehensive, state-of-the-art IT solutions through supporting and developing IT systems that are easy to use and understand. The primary foci are on providing applications, databases, and web-based development, while also providing support services that include network administration, hardware support, website hosting, software training, and data administration. Through the IT unit, GH staff will have ready access to critical information that is needed to plan and carry out programmatic mandates.

The Analysis Unit provides assistance to GH technical staff in analyzing and presenting secondary data from a variety of sources such as DHS, WHO, UNICEF, in all of the GH objective areas, including population, child survival, nutrition, HIV/AIDS, and infectious diseases. Additionally, data on indicators and financial trends are maintained to support USAID in reviewing program impacts and monitoring performance. PHNI analysts carefully review data to ensure quality, ensure data are current, and provide further support to GH through technical and analytical reporting, including annual reports to Congress.

Using the information available through the IT and Analysis Units, and elsewhere, the Communications Unit will support USAID by effectively communicating GH issues to various target audiences through the strategic development and production of materials for broad distribution. The Communication Unit can help GH staff to design communication approaches and reach defined audiences - including Congress, other primary constituencies, and the general public - through various channels and materials including reports, multimedia presentation, briefings, pictorial display, conferences (e.g., APHA), and community outreach.

# Health and Child Survival Fellows (HCSF) Program

**Project Number:** 936-3098.03  
**Agreement Type:** Cooperative Agreement  
**Agreement Number:** HRN-A-00-01-00001-00  
**Duration:** 01/01 - 01/06  
**Geographic Scope:** Worldwide

## **Purpose:**

Identification, placement, and supervision of Health and Child Survival Fellows in field assignments and USAID/Washington.

## **Services Provided:**

This program identifies, places, and provides logistical support and supervision to junior and mid-level experts in field and USAID/W assignments that contribute to the career development and commitment to international health of the experts themselves, as well as to the Agency's health and child survival programs.

The program is implemented, managed and administered by a National Secretariat at Johns Hopkins University Institute for International Programs. The National Secretariat is responsible for national and international recruitment for all assignments, making a special effort to reach minority candidates and Minority Serving Institutions, ensuring the full and effective participation of a diverse group of Fellows from a broad range of institutions. The requesting USAID Bureau or Mission will select the most qualified and committed candidate from a list of applicants nominated by the Program. Minimum qualifications for a Fellow are a master's degree in a health-related field and U.S. citizenship.

# The Health Communication Partnership (HCP)

**Project Number:** 936-3091.01  
**Agreement Type:** Leader with Associate Cooperative Agreement  
**Agreement Number:** GPH-A-00-02-00008-00  
**Duration:** 07/02 – 07/07  
**Geographic Scope:** Worldwide

## **Purpose:**

To support behavior change communication in the areas of family planning, child health, maternal health, HIV/AIDS and infectious diseases at the individual, community and national level.

## **Services Provided:**

The Health Communication Partnership (HCP) provides technical expertise and financial support for strategic communication interventions in developing countries, with a focus on a) program analysis; b) strategy development; c) materials design, pre-testing and production; d) capacity building and sustainability; and e) impact evaluation. HCP works across all five of the Agency's PHN sector strategic objectives and has a strong focus on interventions at the community level, including efforts to influence social norms that relate to health practices. Missions and USAID Regional Bureaus can access HCP through either the traditional field support and MAARD mechanisms or through stand-alone Associate Awards. Associate Awards provide enhanced control and oversight options not possible in the case of buy-ins or Field Support funding.

Illustrative areas in which HCP resources can be applied include the development of national health communication strategies; promoting community action, mass media and entertainment-education to improve health practices; support for national immunization days/weeks; the branding of health products and services; distance education for service providers; and development of innovative ways to reach youth, reduce stigma among Persons Living with HIV/AIDS (PLWA), and improving South-South communication and collaboration.

Partners: Academy for Educational Development (AED), Save the Children, International HIV/AIDS Alliance, and the Tulane University School of Tropical Medicine and Public Health.

**Means of Access:** Field Support, Associate Awards

# MEASURE: BUCEN Survey and Census Information, Leadership, and Self-Sufficiency (BUCEN-SCILS)

**Project Number:** 936-3083.04  
**Agreement Type:** PASA  
**Agreement Number:** HRN-P-00-97-00016-00  
**Duration:** 09/97-09/07  
**Geographic Scope:** Worldwide

## Purpose:

The MEASURE Program is a coordinated effort to improve the collection, analysis and presentation of data for use in planning, policymaking, managing, monitoring and evaluating population health and nutrition programs. BUCEN-SCILS seeks to strengthen the capability of statistical offices in developing countries to collect, analyze, disseminate and use data to increase understanding of population structure and demographic trends and their implications for development planning and policy making.

## Services Provided:

This PASA with BUCEN supports

- *country-specific technical assistance to build the capacity of national statistical organizations to implement censuses and other surveys*, including technical consultations and training in census design, management procedures, data collection and processing, demographic data analysis, dissemination, and use of census data;
- *in-country, regional and US-based workshops and study tours* - including training activities to strengthen capacity to design and manage census and survey implementation and to analyze, disseminate and use demographic data;
- *centrally-coordinated activities that support worldwide efforts to improve collection, analysis and use of census and survey data*, maintenance and dissemination of the International Data Base, a web-based databank containing demographic and socio-economic data for 227 countries and areas of the world.

# MEASURE *CDC/DRH*

**Project Number:** 936-3083.06  
**Agreement Type:** PASA  
**Agreement Number:** HRN-P-00-97-00014-00  
**Duration:** 10/97-09/07  
**Geographic Scope:** Worldwide

## **Purpose:**

The MEASURE program is a coordinated effort to improve the collection, analysis and presentation of data for use in planning, policymaking, managing, monitoring and evaluating population, health and nutrition programs. Within this context, MEASURE CDC/DRH seeks to increase understanding of the key family planning/reproductive health (RH) issues, improve the quality and availability of appropriate data on reproductive health status and service, and enhance the ability of local organizations to collect, analyze and disseminate such information.

## **Services Provided:**

This PASA with the Division of Reproductive Health at CDC provides technical assistance in survey design and implementation, RH epidemiology, refugee RH and commodity logistics management. CDC provides technical assistance with four types of surveys designed to improve information about health and fertility: Reproductive Health Surveys, Male Reproductive Health Surveys, Young Adult Reproductive Health Surveys, and Reproductive Health Program Impact Evaluation Surveys, each tailored to meet the needs of the country and RH program where it is being conducted. Special modules can be added to answer questions specific to a given country or program such as modules on young adults, domestic violence, children's school attendance, HIV/AIDS, nutrition and voluntary surgical contraception. New survey modules will be developed and used in countries where new areas of concern are mutually identified.

Other new features of the MEASURE CDC/DRH PASA (which is an extension of the PASA previously authorized under DELIVER) include:

- increased effort to bringing survey findings and their programmatic implications to the attention of policymakers and managers responsible for program decisions;
- linking epidemiology training more closely to translating survey and other epidemiological information into programmatic decisions;
- increased emphasis on addressing questions of prevention of unintended pregnancy and HIV/AIDS; and
- epidemiological, behavioral, and organizational research in the area of refugee RH to contribute to efforts to mitigate adverse reproductive health conditions in these particularly vulnerable populations.

# MEASURE Phase II DHS

**Project Number:** 936-3083.07  
**Agreement Type:** Contract  
**Agreement Number:** GPO-C-00-03-00002  
**Duration:** 09/03-10/08  
**Geographic Scope:** Worldwide

## **Purpose:**

The MEASURE program is a coordinated effort to improve the collection, analysis and presentation of data for use in planning, policymaking, managing, monitoring and evaluating population, health and nutrition programs. Within this context, MEASURE CDC/DRH seeks to increase understanding of the key family planning/reproductive health (RH) issues, improve the quality and availability of appropriate data on reproductive health status and service, and enhance the ability of local organizations to collect, analyze and disseminate such information.

## **Services Provided:**

The MEASURE DHS Contract is USAID/GHs primary demographic and health data collection project. It serves as a technical resource to host-country partners, USAID missions, and cooperating agencies as they develop and implement plans to meet their information needs; and collect, analyze, translate, disseminate and use data for planning, policymaking, managing, monitoring and evaluation.

The MEASURE DHS Contract develops appropriate methodologies and instruments for identifying needed information and for collecting population-based, facility-based and qualitative data. It provides technical assistance to identify a country's data needs and to help data collectors collect, analyze, translate, package, archive and disseminate data in forms that meet users' needs. Finally, it helps facilitate the use of data as well as builds capacity of data users and collectors in all of these areas.

# MEASURE Phase II Evaluation

**Project Number:** 936-3083.08  
**Agreement Type:** Cooperative Agreement  
**Agreement Number:** GPO-A-00-03-00003  
**Duration:** 09/03-09/08  
**Geographic Scope:** Worldwide

## **Purpose:**

The MEASURE program is a coordinated effort to improve the collection, analysis and presentation of data for use in planning, policymaking, managing, monitoring and evaluating population, health and nutrition programs. Within this context, MEASURE CDC/DRH seeks to increase understanding of the key family planning/reproductive health (RH) issues, improve the quality and availability of appropriate data on reproductive health status and service, and enhance the ability of local organizations to collect, analyze and disseminate such information.

## **Services Provided:**

The MEASURE Evaluation Phase II cooperative agreement will continue to provide technical assistance and training to data users to strengthen monitoring and evaluation of host country programs across BGH technical areas, to develop new methods for monitoring and evaluation of PHN programs, and to conduct evaluation research. It will also continue to facilitate coordination of monitoring and evaluation efforts. In Phase II, additional emphasis is being placed on strategic data planning and creating demand for data, strengthening routine health information systems, and facilitating use of data in program management and policy making.

# Population Fellows Program (Michigan Fellows)

**Project Number:** 936-3093.02  
**Agreement Type:** Cooperative Agreement  
**Agreement Number:** HRN-A-00-00-00001-00  
**Duration:** 09/99-09/05  
**Geographic Scope:** Worldwide

## **Purpose:**

To provide 1) international family planning and reproductive health programs in developing countries with professional technical expertise in family planning, reproductive health, and related areas such as environment; 2) international training for early-career and a limited number of mid-career professionals through fellowships both in the U.S. and overseas; and 3) a forum for policymakers to discuss the links between population growth, environmental degradation and international security conflicts.

## **Services Provided:**

Population Fellows Program: This project provides private- and public-sector programs with the skills of fellows who are recent master's degree graduates in family planning/reproductive health (FP/RH) and development-related fields. It provides these entry-level professionals with valuable field experience and training. The technical assistance and training provided covers: data collection and analysis; policy formulation and implementation; communication and education; training; service delivery; and program design, implementation, and evaluation. Fellows are selected competitively on the basis of their academic and professional experience, and according to the skills required by the host institution. Fellows are placed with international agencies, local NGOs, and government organizations working to improve FP/RH and population-environment programming in the developing world. The Fellowship term is 24 months. The programs also provide a limited amount of funding to support graduate student internships in international family planning.

Population-Environment Fellows (P-E): The P-E Fellows Program has the same objectives as the Population Fellows Program. P-E Fellows work primarily in the following areas: integrated community-based development programs, linked population-environment service delivery, buffer zone management, policy analysis and research of population-environment dynamics, and participatory rural analysis.

Other activities under this project include the Minority Serving Institutions Initiative that works with students and faculty from Historically Black Colleges and Universities, Hispanic-Serving Institutions, and Tribal Colleges and Universities to increase the number of students from these institutions who pursue careers in international family planning and reproductive health. The centerpiece activity of the initiative is an internship program designed to prepare candidates for fellowships. Partners: Woodrow Wilson Center

# Population Leaders Program (PLPII)

**Project Number:** 936-3099.01  
**Agreement Type:** Cooperative Agreement  
**Agreement Number:** HRN-A-00-99-00012-00  
**Duration:** 07/99-09/05  
**Geographic Scope:** Worldwide

**Purpose:**

To improve management and leadership of selected family planning/reproductive health programs at USAID by 1) increasing technical capacity within the PHN sector through placement and support of senior fellows; 2) improving leadership and management practices of PHN professionals through training and non-training interventions; and 3) improving work processes targeting individuals and teams.

**Services Provided:**

PLP II increases technical capacity through the recruitment, placement and professional development support of 45 mid- to senior-level fellows in two to four year assignments in GH, Regional Bureaus, Missions, and Regional Offices. PLP Fellows advise program teams, provide technical assistance to funded programs, carry out evaluations, promote collaboration among USAID partners, conduct innovative research, and spearhead priority PHN initiatives, while completing their own customized professional development plans. Fellowships are guided by a scope of work developed in collaboration with the host organization.

PLP's professional development component helps improve leadership and management practices of PHN professionals through training in core leadership disciplines, management and technical topics; through on-the-job coaching, and through team building. Its overseas support strategy focuses on organizational development consultation and training via consulting, training events and blended learning activities. The Integrated Leadership Framework serves as an overarching model that guides the curriculum. PLP's signature professional development activity is an annual week-long leadership retreat for fellows and USAID staff which serves as an entrée to other professional development support activities throughout the year. Activities are designed to focus on skills development that will contribute to the performance of individuals and teams overall.

In addition, PLP uses a flexible framework for evaluating leadership interventions. The EvaluLEAD Framework presents a new way of thinking about the nature and purpose of leadership development initiatives, the dynamic contexts in which they operate, and evocative methods of data collection and analysis for program evaluation that reflect these challenges.

# Population Technical Assistance (POPTECH)

**Project Number:** 936-3024.02  
**Agreement Type:** Contract  
**Agreement Number:** HRN-C-00-00-00007-00  
**Duration:** 08/00-08/05  
**Geographic Scope:** Worldwide

## **Purpose:**

To provide the Bureau for Global Health, Regional Bureaus and USAID field missions with flexible access to the technical expertise needed to develop, monitor and evaluate program activities.

## **Services Provided:**

The POPTECH contract provides short-term technical assistance for the Bureau for Global Health, Regional Bureaus and USAID field missions using consultants with a wide range of technical expertise from their consultant registry, for the following activities:

- Program reviews, evaluations (programmatic or thematic) and assessments
- Program designs and strategies
- Provision of specialized technical assistance (i.e., needs assessments, report writing, TA for special initiatives, etc.)
- Dissemination of lessons learned and best practices from a broad range of countries and programs in the PHN sector
- Conducting and/or facilitating meetings and workshops, U.S. and overseas
- Providing TA for refining SOWs
- Conducting background studies or papers
- Program support - providing consultants for short- and medium-term assignments to help fill staffing shortages in GH or overseas missions

# Support Services Contract

**Project Number:** 936-3070.03  
**Agreement Type:** Contract  
**Agreement Number:** GS-10F0251L  
**Duration:** 02/04-02/09  
**Geographic Scope:** USAID/Washington

**Purpose:**

To provide administrative, programmatic and logistic support services to the Bureau for Global Health (GH).

**Services Provided:**

Triumph Technologies, Inc. provides administrative and project support services to the Bureau for Global Health (GH), thus, contributing to the achievement of GH and Agency goals and objectives. The six offices within the Bureau for Global Health have complementary objectives and activities: the office of Population and Reproductive Health (PRH), the office of Health and Infectious Diseases and Nutrition (HIDN), the office of HIV-AIDS (OHA), the office of Regional and Country Support (RCS), the office of Strategic Planning Budget Operations (SPBO), and the office of Professional Development Management Support (PDMS).

This contract requires the contractor to provide administrative program and logistics support to GH staff. Support needs are driven by quantitative and qualitative performance measures, goals and objectives of GH, activities carried out in support of the Agency's Global Health programs, and routine assessments of support operations.

**Means of Access:** This project can accept field support to fund country travel.

# Technical Advisors in AIDS and Child Survival (TAACS)

**Project Numbers:** See Subprojects  
**Agreement Number:** See Subprojects  
**Duration:** 10/01-09/06  
**Geographic Scope:** Worldwide

## Purpose:

Under this activity, CEDPA and the Office of Global Health (OGHA) of the Department of Health and Human Services (DHHS) administer the placement and backstopping of approximately 80 senior technical advisors in USAID Missions and USAID Washington. Both CEDPA and DHHS, through OGHA, will continue to backstop TAACS employed under this activity. Approximately 140 TAACS have been placed since the beginning of the activity in 1987 under a continuing provision in USAID's appropriations legislation. In fiscal year 1998, the legislation broadened the TAACS authority to include basic education, and the authority was expanded again in fiscal year 1999 to include other infectious diseases.

## Services Provided:

These agreements provide USAID operating units with a mechanism to bring on longer-term technical advisors to support activities in child survival, family planning and population, HIV/AIDS control and prevention, infectious disease control and prevention, and basic education.

**Means of Access:** Field Support

## Technical Advisors (Other)

**Agreement Type:** PASA  
**Agreement Number:** HFM-P-00-01-00022-00  
**Duration:** 10/01-09/06  
**Geographic Scope:** Worldwide

**Purpose:**

Under this activity, which essentially builds upon the Africa Bureau Africa Health and Human Resource Development Support PASA, USAID and the Office of Global Health and Human Services provide technical expertise, services and support to improve the quality, availability and use of essential health, family planning and HIV/AIDS services worldwide. The PASA as of 09/30/2003 includes as well all TAACS positions formerly housed in PASA HRN-P-00-98-00015-00, Subproject 936-5970.02 between USAID and OGHA/CDC (See Technical Advisors in AIDS and Child Survival (TAACS) on the previous page).

# Central Contraceptive Procurement

**Project Number:** 936-3057  
**Agreement Type:** Contract  
**Agreement Number:** Various  
**Duration:** 1990-2008  
**Geographic Scope:** Worldwide

**Purpose:**

To provide an efficient mechanism for consolidated USAID purchases of contraceptives based on the transfer of all funds from USAID accounts that support contraceptive procurement to a single central procurement account at the beginning of each operational year. CCP also administers the Commodity Fund, which serves HIV/AIDS prevention activities worldwide.

**Services Provided:**

This project was established in FY 1990 to provide an efficient central contraceptive procurement mechanism for all USAID programs that respond to the request for contraceptive supplies. Funds are transferred annually to this project through field support and OYB transfers from each of the USAID accounts that support contraceptive procurement. GH/PRH directs the use of these funds through a series of procurement contracts to provide contraceptive supplies for USAID programs worldwide. This project consolidates the procurement actions, but leaves responsibility for the estimation of contraceptive needs in the USAID offices that support family planning delivery systems. The central procurement system undertakes the purchase of several differently-packaged condoms; oral contraceptive pills; NORPLANT® implants; the Copper T-380A IUD; female condoms; and the injectable Depo-Provera®. For details on formulation, brands, prices, contract terms, and ordering procedures, please refer to GH/PRH guidance for estimating contraceptive procurement needs. All shipping and warehousing of USAID-supplied contraceptives is provided by Panalpina, Inc.

The Central Contraceptive Procurement (CCP) project also provides a mechanism for independent testing of the contraceptives purchased by USAID to monitor the quality of contraceptives donated to USAID programs. The contraceptive quality assurance component of CCP has two features: (1) pre-acceptance surveillance and testing of contraceptives purchased by USAID to ensure that the product complies with the contract specifications, and (2) to test contraceptives already in the field in response to complaints and/or concerns about the product quality. The quality assurance testing is implemented by Family Health International as part of the Contraceptive Technology Research Project (See the Research section of this guide).

**Means of Access:** Field Support

**AID/W**

Contractors may change annually because of competitive contract procedures. Fiscal year 2004 contractors include: FEI Products, Inc.; Schering Oy; WyethPharmaceuticals; Pfizer; Female Health Company; Alatech Healthcare Products; Panalpina; Custom Services International (CSI)

# DELIVER

**Project Number:** 936-3089.01  
**Agreement Type:** Contract  
**Agreement Number:** HRN-C-00-00-00010-00  
**Duration:** 09/00-09/05  
**Geographic Scope:** Worldwide

## **Purpose:**

DELIVER is a five year, worldwide technical support contract focused on improving the availability of health commodities including contraceptives, condoms, and other essential medicines at service delivery points (SDPs). DELIVER provides commodity management support to the Agency's family planning, HIV/AIDS, child survival and other health initiatives.

## **Services Provided:**

- Supply chain strengthening from family planning and other essential health programs. This assistance includes the design, development and implementation of improved systems for forecasting, procurement, storage, distribution, performance monitoring, and information collection and use. The project has broad capacity in developing systems to support integrated supply chains and supply chains that operate in decentralized settings.
- Capacity building for policy makers, managers, service providers and supply chain personnel. Using a performance improvement approach, DELIVER uses a variety of techniques (e.g., classroom training, on-the-job training, system design workshops) to foster organizational change and to provide personnel with the knowledge and skills that they need to improve product availability.
- Resource mobilization and advocacy to foster contraceptive security. This includes the preparation and implementation of national level contraceptive security strategies, the implementation of rapid market segmentation studies, the quantification of medium term contraceptive needs, and the coordination of available resources for commodities and logistics at the donor, lender and country levels.
- DELIVER offers Missions assistance in preparing annual contraceptive procurement tables (CPTs) and supports USAID/W management of the Central Contraceptive Procurement (CCP) project as well as CCP's management information system database.

# Bringing Information to Decisionmakers for Global Effectiveness (BRIDGE)

**Project Number:** 936-3078.07  
**Agreement Type:** Cooperative Agreement  
**Agreement Number:** GPO-A-00-03-00004  
**Duration:** 09/03-09/08  
**Geographic Scope:** Worldwide

## **Purpose:**

The BRIDGE Project supports policy reform efforts by providing influential audiences in developing countries and the international development community with up-to-date information on key population and health topics.

## **Services Provided:**

- Dissemination and outreach activities, including print and electronic materials such as the World Population Data Sheet, specialized data sheets
- Capacity building through International Program Fellows and Population Policy Communication Fellows
- Use of media networks, seminars, and listserves to improve the quantity and quality of press coverage of population and health issues to help shape the policy agenda
- Increase awareness of linkages between population-health-environment issues

**Means of Access:** Field Support

# Expert Studies of Population Issues

**Project Number:** 936-3078.06  
**Agreement Type:** Cooperative Agreement  
**Agreement Number:** HRN-A-00-00-00012  
**Duration:** 09/00-09/05  
**Geographic Scope:** Worldwide

## **Purpose:**

To support the National Academy of Sciences' Committee on Population in conducting research on population issues of special interest to the international population community.

## **Services Provided:**

The Committee organizes panel studies, conferences, workshops and meetings designed to synthesize and elicit research on macro issues in population, reproductive health and family planning that will confront USAID and its development partners in the next decades.

The Committee's agenda is formulated on a continuing basis at its meetings, and between meetings in staff discussions with sponsoring agencies. Current topics include urban population dynamics and transitions to adulthood, including sexuality and reproductive health, marriage and family formation, education, and work in developing countries.

**Means of Access:** Field Support

# Healthy Families, Healthy Forests Population-Environment Associate Award of the Global Conservation Program

**Project Number:** 936-3093.04  
**Agreement Type:** Leader With Associate Cooperative Agreement  
**Agreement Number:** GPH-G-00-02-00010-00  
**Duration:** 09/02-09/04  
**Geographic Scope:** Worldwide

## **Purpose:**

To facilitate the delivery of family planning and information in areas where population growth threatens biodiversity or endangered species.

## **Services Provided:**

The project works to create partnerships with reproductive health organizations to deliver integrated programming on population and reproductive health (RH) to communities inhabiting globally significant areas of biodiversity. The goal is to address population-based threats to biodiversity while capitalizing on programmatic synergies achieved by combining RH activities with conservation/natural resource management activities.

The process includes, but is not limited to:

- conducting demographic analyses of biologically unique areas to determine trends in population growth, distribution, migration, contraceptive use and maternal and infant mortality;
- researching the distribution and type of family planning and related services available to communities in the focus area;
- forging partnerships with government and non-government reproductive health programs to deliver reproductive health/family planning activities in selected sites where cooperating agencies are also conducting conservation and/or natural resource management activities;
- working with partners to develop activities that functionally link reproductive health education with conservation and natural resource management; and
- building the capacity of local partners to create mechanisms for continued provision of integrated RH and biodiversity programming after the project's conclusion.

# Information and Knowledge for Optimal Health (INFO)

**Project Number:** 936-3091.02  
**Agreement Type:** Leader With Associate Cooperative Agreement  
**Agreement Number:** GPH-A-00-02-00003  
**Duration:** 09/02-09/07  
**Geographic Scope:** Worldwide

## **Purpose:**

Information, knowledge and best practices for family planning/reproductive health and other health accessed by multiple audiences.

## **Services Provided:**

The INFO project is designed to provide assistance with communication, information, knowledge-sharing, publication and dissemination activities within global, regional and national health programs. Activities will employ communication tools such as journals and other publications, CD-ROMs, the Internet, and other technologies. The activities will serve as a catalyst and a tool for improved exchange of information and a more complete knowledge base. Core funds will develop and enhance knowledge communities and networks so that a worldwide and common base of knowledge for practice and policy can be created. With mission funds, the project will strengthen and enhance the capacity of local, developing country institutions; and build the skills to produce, disseminate and use FP/RH and other health information and materials that address the distinct and unique needs of local communities.

Some of the services under this award include Population Reports, *The Essentials of Contraceptive Technology* handbook, POPLINE and *International Family Planning Perspectives*, published by The Alan Guttmacher Institute. The project is also able to produce short, content specific publications or tailored CD-ROMs as desired.

This global LWA is similar to a traditional Cooperative Agreement (CA). In addition to field support funding, an operating unit can choose to develop its own stand-alone cooperative agreement or grant (Associate Award) with JHU/CCP. In awarding an Associate Award the Mission or Bureau does not need to repeat the competition process, as long as the Associate cooperative agreements or grants are consistent with the general program description of the Leader Award.

Subagreements include Constella Health Sciences and The Alan Guttenmacher Institute.

# POLICY II

**Project Number:** 936-3078.05  
**Agreement Type:** Contract  
**Agreement Number:** HRN-C-00-00-00006-00  
**Duration:** 07/00-03/06  
**Geographic Scope:** Worldwide

## Purpose:

The POLICY Project helps developing country partners develop policies and plans that promote and sustain access to high-quality family planning, HIV/AIDS, and maternal health services. The project places emphasis on using highly-skilled, experienced in-country staff, and on building the capacity of local counterparts to participate in policymaking processes. A U.S.-based staff of 60 works closely with 130+ local professionals and 200 partner organizations in over 30 countries in all four USAID regions.

## Services Provided:

The project provides Missions with technical assistance to undertake the following activities:

- Promote dialogue and formulate FP/HIV/MH policies and plans
- Identify and strengthen policy champions
- Form and strengthen NGO advocacy coalitions
- Expand NGO participation (incl. youth, gender, human rights, PLWA) in policy process
- Address gender, human rights, and stigma and discrimination issues
- Improve strategic planning and allocation of resources
- Provide accurate, up-to-date information and projections to inform policy decisions
- Develop computer simulations (RAPID, AIM, GOALS, etc.)
- Create multisectoral approaches with government, civil society groups, and private sector
- Develop in-country/regional capacity to train policy experts

## Means of Access: Field Support

# Successful Communities from Ridge to Reef Population-Environment Associate Award of the Global Conservation Program

**Project Number:** 936-3093.05  
**Agreement Type:** Leader With Associate Cooperative Agreement  
**Agreement Number:** GPO-A-00-03-00008  
**Duration:** 09/03-09/06  
**Geographic Scope:** Worldwide

## **Purpose:**

To facilitate the delivery of reproductive health (RH) services and information in key biodiversity areas where population growth has negative impacts on natural resources and biodiversity.

## **Services Provided:**

The project creates partnerships with RH organizations to deliver programming on population and RH to communities inhabiting globally significant areas of biodiversity. The goal is to address population-based threats to biodiversity while capitalizing on programmatic synergies achieved by combining RH activities with conservation/natural resource management activities. This includes:

- conducting demographic analyses of biologically unique areas to determine trends in population growth, distribution, migration, contraceptive use, maternal and infant mortality;
- researching the distribution and type of family planning (FP) and related services available to communities in the focus area;
- forging partnerships with government and non-government reproductive health programs to deliver RH/FP activities in selected sites where cooperating agencies are also conducting conservation and/or natural resource management activities;
- working with partners to develop activities that link reproductive health education with conservation and natural resource management; and
- building the capacity of local partners to create mechanisms for continued provision of integrated RH and biodiversity programming after the project's conclusion.

This project contains a learning component to document lessons-learned and identify best practices for the design, implementation, scaling and replication of population/health/environment programs in conservation settings. Sites selected for this program are based on the following criteria:

- Ecological value;
- Degree of conservation threat posed by lack of access to RH care and by regional population dynamics, including rate of natural increase and in-migration; and
- Potential for sustaining effective partnerships between conservation and RH organizations working with communities in hotspot areas.

# Contraceptive Research and Development (CONRAD III)

**Project Number:** 936-3095.01  
**Agreement Type:** Cooperative Agreement  
**Agreement Number:** HRN-A-00-98-00020-00  
**Duration:** 08/98-08/08  
**Geographic Scope:** Worldwide

## **Purpose:**

To develop new and improved methods of family planning and other reproductive health technologies for use in developing countries, with a particular emphasis on products designed to prevent pregnancy and the transmission of sexually transmitted infections (STI), including HIV/AIDS.

## **Services Provided:**

The primary focus of the CONRAD program is on the early stages of research and development, beginning with targeted or applied research studies and progressing to Phase I + II clinical trials. The program supports subprojects conducted by scientists worldwide, as well as laboratory and clinical research conducted at the Department of Obstetrics and Gynecology, at Eastern Virginia Medical School. Areas of research that have been given highest priority for the development of more effective, safer and more acceptable reproductive health technologies include, but are not limited to:

- Woman-controlled products that offer protection from both unplanned pregnancy and from STI, HIV, including microbicides;
- New barrier methods for women and men; and
- Long-acting injectable and implantable contraceptives for women and men.

CONRAD III also supports research on the mechanisms and control of heterosexual transmission of HIV, and on the effect of contraceptive use on heterosexual transmission of HIV and other STIs. CONRAD III sponsors international workshops and technical meetings which bring together collaborating scientists and other leading experts to focus research efforts and disseminate technical information.

# Contraceptive Technology Research (CTR)

**Project Number:** 936-3079.01  
**Agreement Type:** Cooperative Agreement  
**Agreement Number:** CCP-A-00-95-00022-00  
**Duration:** 08/95-08/05  
**Geographic Scope:** Worldwide

## **Purpose:**

To develop, evaluate, and introduce a range of safe, effective, and acceptable contraceptive methods and reproductive health technologies and enhance the capacity of family planning and reproductive health researchers and programs in developing countries to evaluate and provide these technologies.

## **Services Provided:**

The project includes the following activities:

- Developing new contraceptive methods and reproductive health technologies, and providing the documentation for regulatory approval;
- Conducting clinical trials and epidemiologic studies to evaluate the safety and efficacy of various contraceptive methods, as well as other reproductive health technologies;
- Assessing the acceptability and impact on users and programs of various contraceptive methods and reproductive health technologies;
- Surveillance and testing of contraceptive commodities to ensure product quality;
- Training overseas clinicians in contraceptive and other reproductive health technologies; and collecting, analyzing, and disseminating research findings, and providing technical assistance to programs to utilize state of the art research for service delivery improvement;
- Developing and testing tools and strategies to improve quality of family planning services.

Priority areas are: development of new and improved barrier methods and spermicides for pregnancy and HIV-AIDS/STI prevention; improving contraceptive quality; assessing contraceptive benefits and risks; improving access to contraception through reduction of medical barriers; improving cost-effectiveness of programs; and introducing new or under utilized methods, such as IUDs, female condoms and vasectomy.

This project has documented the comparative safety, efficacy, and acceptability in different developing country settings of methods such as minilap and laparoscopic sterilization, NORPLANT®, copper IUDs, low-dose oral contraceptives, postpartum IUDs, and various barrier contraceptives, including condoms.

# Natural Family Planning & Reproductive Health Awareness (The AWARENESS Project)

**Project Number:** 936-3088.01  
**Agreement Type:** Cooperative Agreement  
**Agreement Number:** HRN-A-00-97-00011-00  
**Duration:** 07/97-05/07  
**Geographic Scope:** Worldwide

## Purpose:

The objective of the NFP/RHA program is to improve and expand natural family planning services and develop new strategies and approaches to increase reproductive health awareness of individuals and communities in developing countries. The NFP/RHA activity addresses the needs of people who are using a natural method to avoid pregnancy but lack the information and skills to do so effectively, as well as those who would choose a natural method if it were available to them.

## Services Provided:

The NFP/RHA program expands natural family planning services and improves reproductive health awareness through a cooperative agreement with Georgetown University/Institute of Reproductive Health (GU/IRH). NFP/RHA contains the following elements:

- developing simplified natural family planning methods;
- mainstreaming natural family planning into existing family planning programs, where appropriate;
- increasing reproductive health awareness among communities;
- evaluating the costs and cost-effectiveness of NFP and RHA services; and
- improving capacity of public- and private-sector institutions to provide natural family planning services and raise reproductive health awareness.

The program is currently introducing a new simple method - the Standard Days Method (SDM), into countries world wide, and testing another method - The TwoDay Method (TDM), through clinical trials. The program also focuses on empowering women and men to participate in their own reproductive health care and decision-making. Countries interested in expanding choice to include effective natural methods should contact either the IRH or the USAID technical advisor.

# The Population Council Program III

**Project Number:** 936-3097.01  
**Agreement Type:** Cooperative Agreement  
**Agreement Number:** HRN-A-00-99-00010-00  
**Duration:** 08/99-08/04  
**Geographic Scope:** Worldwide

## **Purpose:**

The purpose of this activity is to develop, evaluate, and bring to market new and better products for family planning (FP) and for prevention of sexually transmitted HIV/AIDS and other infections (STIs), as well as conduct demographic and social science research that is highly relevant to Agency programs and policy.

## **Services Provided:**

Agency-supported research by the Population Council has resulted in the development of several long-acting contraceptive technologies, including IUDs and implants, and continues to improve these technologies as well as developing other approaches such as vaginal rings, reversible methods for male contraception, and microbicides (which may be contraceptive or not) to prevent or reduce sexual transmission of HIV. Overall, these activities aim to expand the array of contraceptive choices for both women and men and to improve reproductive health. This Agreement also supports a research program in Ghana to assess a novel approach to effectively deliver family planning and health care services in rural settings where capacity for service delivery is low. In addition, technical assistance is also provided for research in selected high priority areas, including adolescent reproductive health and demographic studies. Additional information is also available at [www.popcouncil.org](http://www.popcouncil.org).

**Means of Access:** Can no longer accept new monies.

# Reproductive Health and Research: World Health Organization Umbrella Grant

**Project Number:** 936-3067  
**Agreement Type:** Grant  
**Agreement Number:** AAG-G-00-99-00005  
**Duration:** 09/03-09/09  
**Geographic Scope:** Worldwide

## **Purpose:**

To provide support to the World Health Organization's Department of Reproductive Health and Research (RHR) to carry out collaborative activities in reproductive health.

## **Services Provided:**

The RHR Department supports a range of activities involving the development of evidence-based standards and tools, the provision of technical and policy support to national reproductive health programs, and global advocacy and partnership development. The project includes activities to improve family planning, safe motherhood and other areas of reproductive health, including reducing risk of HIV/AIDS and other STIs and integration of family planning and HIV prevention.

RHR supports USAID efforts in Implementing Best Practices in Family Planning which includes support to the transfer, adaptation and use of evidence-based clinical guidelines, materials and tools so that they effect changes in practice and performance at country level. RHR also works to improve family planning and reproductive health service delivery in developing countries by supporting relevant operations research/health services research and capacity-building activities.

In addition, RHR is involved in the development of safe and effective topical microbicides and capacity-building to conduct research and related activities in developing countries.

# Reproductive Health Operations Research (FRONTIERS)

**Project Number:** 936-3086.01  
**Agreement Type:** Cooperative Agreement  
**Agreement Number:** HRN-A-00-98-00012-00  
**Duration:** 06/98-06/08  
**Geographic Scope:** Worldwide

## **Purpose:**

To contribute to the achievement of the Bureau for Global Health strategic objectives by improving the quality, accessibility, and cost-effectiveness of family planning and other related health services through operations research and technical assistance. FRONTIERS conducts research on issues of both national and global importance. It also builds the capacity of developing country organizations to use operations research as a management tool to diagnose and solve service delivery problems.

## **Services Provided:**

Operations research provides the empirical base for making decisions on how best to improve family planning and other reproductive health programs. FRONTIERS is the centerpiece of GH Bureau's FP/RH research portfolio. The cooperative agreement consolidates previous regional work into one global project. FRONTIERS is testing innovative solutions to service delivery problems, assuring dissemination and utilization of results, and building OR capacity. Studies on issues of global importance, such as serving youth, integration of services, improving quality of care, and financing are a major focus of the program. Other key components include country and regional studies, capacity building, a focus on research utilization, and partnerships with a wide range of cooperating agencies and other organizations.

# Access, Quality and Use in Reproductive Health (ACQUIRE)

**Project Number:** 936-3103.01  
**Agreement Type:** Leader With Associate Cooperative Agreement  
**Agreement Number:** GPO-A-00-03-00006-00  
**Duration:** 09/03-10/08  
**Geographic Scope:** Worldwide

## **Purpose:**

This project is a five-year, competitively-awarded Leader With Associate (LWA) Cooperative Agreement, with a worldwide scope. It is designed to support and advance the use of quality family planning and reproductive health care, with a focus on facility-based services.

## **Services Provided:**

This GH/PRH/SDI agreement is expected to improve and expand family planning service delivery with facility-based services, strengthening the links to other aspects of health care such as community-based services. The emphasis is on family planning technical assistance, but focus on maternal health and HIV/AIDS services can also be provided through this procurement.

Priorities include increasing the number of service delivery points that offer an appropriate range of services; promotion of facility-based services among target populations; improving provider support systems; improving provider-client interaction; and improving the policy and advocacy environment for delivery of RH/FP services.

The effectiveness of such activities will be measured in part by:

- increased access to quality reproductive health and family planning services
- improving the performance of service providers
- strengthening the environment for reproductive health and family planning service delivery

Implementing Partners include EngenderHealth with IntraHealth, Adventist Development and Relief Agency (ADRA), Meridien, Inc, CARE and Society for Women and AIDS in Africa (SWAA).

# ADVANCE Africa

**Project Number:** 936-3101.01  
**Agreement Type:** Cooperative Agreement  
**Agreement Number:** HRN-A-00-00-00002-00  
**Duration:** 10/00-09/05  
**Geographic Scope:** Africa

## **Purpose:**

The ADVANCE Africa activity is a five-year Africa regional competitive award. It is designed to strengthen family planning and reproductive health (FP/RH) service delivery within the context of HIV/AIDS in Africa.

## **Services Provided:**

ADVANCE Africa is a flexible, comprehensive mechanism, that offers a broad range of state-of-the-art FP/RH expertise and a solid understanding of the African setting. ADVANCE Africa focuses on enhancing effectiveness at the program level to increase the impact and scale of service delivery programs. ADVANCE Africa:

- Provides technical leadership to improve both clinical and non-clinical services;
- Works with various partners to increase the awareness and impact of family planning on the health and well-being of families;
- Encourages the integration of family planning and HIV/AIDS interventions to provide a comprehensive approach to reproductive health;
- Assists USAID missions and in-country partners to apply best practices, innovations and lessons learned from other projects and countries;
- Provides linkages with health and non-health sector programs; and
- Coordinates with USAID missions, USAID Washington and other donors to ensure long-term sustainability of scale-up models.

The ADVANCE Africa project is composed of a consortium of six members; Management Sciences for Health (MSH); Academy for Education Development (AED); Family Health International (FHI); The Centre for African Family Studies (CAFS); the Forum for African Women Educationalists (FAWE); and Deloitte Touche Tohmatsu (DTT).

# CARE RH Trust Fund

**Project Number:** 936.3084.04  
**Agreement Type:** Cooperative Agreement  
**Agreement Number:** HRN-A-00-99-00009-00  
**Duration:** 09/99-09/07  
**Geographic Scope:** Worldwide

## **Purpose:**

The Reproductive Health Trust Fund (RHTF) serves as core support for CARE's global reproductive health program. CARE is a proven partner with USAID in developing and implementing quality FP/RH programs worldwide.

The RHTF is designed to expand and sustain CARE's global RH program through strategic support of the portfolio to foster program quality; support for the design, evaluation and documentation of program innovations; and new program development. The goals of the RHTF are to:

- Promote technical excellence in key areas of reproductive health (RH)
- Promote scaleup of best practices towards sustainability of quality interventions
- Establish a learning environment towards optimal management and utilization of information across CARE's RH program
- Build CARE's capacity to address the underlying causes of poor RH
- Support USAID Mission Strategic Objectives (through field support)

The Trust Fund's principal is financed through a combination of USAID funds and CARE match funds. USAID Missions have also contributed funds to support the work of CARE at the country level.

## **Services Provided:**

Disbursement from the RHTF will be used to continue technical and programmatic support in:

- promoting increased access to high quality family planning services and addressing areas of unmet need, and youth priorities;
- enhancing maternal and neonatal health through quality emergency obstetric services;
- reducing barriers to decision-making and access at the community and facility levels;
- preventing and responding to gender-based violence; and
- preventing and managing STIs (sexually transmitted infections) including HIV/AIDS.

**Means of Access:** Field Support

# CATALYST

**Project Number:** 936-3101.02  
**Agreement Type:** Cooperative Agreement  
**Agreement Number:** HRN-A-00-00-00003-00  
**Duration:** 10/00-09/05  
**Geographic Scope:** ANE, E&E, LAC

## **Purpose:**

This is a five-year award, encompassing Asia and the Near East; Latin America and the Caribbean; and Eastern Europe and Eurasia. It is designed to increase the use of sustainable, quality family planning and related health services and healthy practices through clinical and non-clinical programs, with linkages to other sectors.

## **Services Provided:**

CATALYST is designed to disseminate and help scale-up proven models of effective FP/RH programs. As a multi-disciplinary consortium, CATALYST provides technical assistance to identify under utilized channels and strengthen inter-sectoral partnerships for improved service delivery and information. Possible areas of intervention include: FP/RH education and outreach; adolescent programs; counseling and referral through non-clinical channels; women's and community empowerment; and strengthening public-private and NGO-private commercial partnerships. Anticipated results include:

- increased access to and improved quality of FP/RH clinical and non-clinical programs;
- increased capacity for informed FP/RH decision-making by clients and communities;
- increased capacity of the public and private sectors to sustain quality FP/RH programs; and
- scaled-up and improved FP/RH programs through technical collaboration with other agency/donor foundation programs.

Consortium partners are: Academy for Educational Development (AED); Centre for Development and Population Activities (CEDPA); Meridian Group International, Inc. ; Pathfinder International; and PROFAMILIA/Colombia.

# Commercial Market Strategies (CMS)

**Project Number:** 936-3085.03  
**Agreement Type:** Contract  
**Agreement Number:** HRN-C-00-98-00039-00  
**Duration:** 10/98-03/04  
**Geographic Scope:** Worldwide

## **Purpose:**

To increase the use of quality family planning and other health products and services through private sector partners and commercial strategies.

## **Services Provided:**

The project works to expand quality reproductive health care delivery by the private and commercial sector, through innovative health financing programs, social marketing programs, provider networks, partnerships with the commercial sector, corporate social responsibility initiatives and policy change. CMS provides technical assistance to help service delivery NGOs achieve financial sustainability, and is mandated to help move subsidized social marketing programs toward fully commercial partnerships with pharmaceutical companies. CMS also carries out a core research agenda, and through its communications program, disseminates lessons learned about the commercial sector's contribution and potential.

Through the Summa Foundation, an independent foundation managed under CMS, financing and technical assistance are available to NGO and commercial sector clients involved in FP and other health service provision. Summa's micro-credit program also capitalizes loan funds for service providers through local micro-credit organizations.

By the end of the contract, CMS will have:

- increased the role of the private and commercial sectors in providing family planning and other health products and services;
- covered under-served, rural and urban areas and populations;
- improved governments' abilities to rationalize resources and collaborate with the commercial sector;
- improved knowledge on the use of the private sector to expand health coverage; and
- leveraged up to \$50 million from partnerships with the private and commercial sectors.

Implementing Partners include Abt Associates, Inc. and Population Services International (PSI).

# Grant Solicitation and Management (GSM) (PVO/NGO Flex Fund)

**Project Number:** 936-3084.05  
**Agreement Type:** Cooperative Agreement  
**Agreement Number:** TBD  
**Duration:** TBD  
**Geographic Scope:** Worldwide

## **Purpose:**

Grant Solicitation and Management (anticipated award date of June 2004) will allow flexible and efficient programming of USAID funds to support NGO and PVO family planning programs and related health services.

## **Services Provided:**

This agreement will assist field missions and GH/PRH (either jointly or separately) to solicit applications, award, and manage small to medium-sized sub-agreements, sub-grants, or subcontracts to PVOs/NGOs and other partners for FP program implementation and related activities (e.g. special studies, documentation, coordination). GH/PRH and/or missions will determine the scopes of all solicitations and the selection criteria to be used for these procurements, and will perform the technical review of proposals submitted in response to all solicitations. The GSM CA will perform cost analyses and determine whether potential grantees meet financial and other criteria to receive USAID funds. USAID will make the final determination on each award.

This CA will be able to accept field support funding from Missions. Program emphasis is family planning (FP), but HIV/AIDS-related care, gender-related studies and maternal/child health services are also potential areas.

**Means of Access:** Field Support

# Human Capacity Development (HCD)

**Project Number:** 936-3103.02  
**Agreement Type:** TBD  
**Agreement Number:** TBD  
**Duration:** 10/04-09/09  
**Geographic Scope:** Worldwide

**Purpose:**

This activity will offer more effective and efficient approaches and systems to improve high quality service delivery of reproductive health, HIV/AIDS, health, and nutrition services. The purpose of this project is to plan for and apply new and tested human capacity development components within any health system. This will allow missions to increase the impact and sustainability, scale and cost efficiency of interventions in family planning, child health, maternal health, nutrition, infectious disease, and HIV/AIDS.

**Services Provided:**

While many programs over the years have addressed different aspects of HCD (training, policies, management and leadership, performance improvement, etc.), there has not been a consolidated, Bureau-wide approach to HCD. Of special concern is the need to have more effective delivery systems for the significantly larger HIV/AIDS programming that is anticipated. It will effectively link human resource management with other interventions such as training and supervision. The HCD project is designed to continue with many previous core investments in pre-service education. It will provide an integrated approach to continued, accredited and sustained pre-service and in-service skills proficiency. This project will focus on:

- Improved manpower planning that will address health manpower needs; responsive policies; in-service, pre-service and continuing education; quality of service sites; and size, number and type of service sites.
- Improved service provider skills that will provide state-of-the-art technical assistance to improve pre-service education systems; in-service training systems; coordination between in-service training and pre-service education; systems for skills transfer; skills-based licensure systems; and accreditation of training institutions and certification of trainers.
- Strengthened management systems for provider support; supervision systems; and institutionalizing provider nonmonetary motivation systems.

**Means of Access:** Field Support

# Improving the Performance of Primary Providers in Reproductive Health (PRIME II)

**Project Number:** 936-3093.01  
**Agreement Type:** Cooperative Agreement  
**Agreement Number:** HRN-A-00-99-00022-00  
**Duration:** 09/99-09/04  
**Geographic Scope:** Worldwide

## **Purpose:**

To improve the performance of primary providers in family planning and reproductive health, including safe motherhood and STD/HIV/AIDS prevention. PRIME II's focus is to develop a sustainable system for training and education that supports on-the-job performance.

## **Services Provided:**

PRIME II is a worldwide project focusing on improving the performance of frontline providers in family planning, reproductive health, maternal and child health and HIV/AIDS using both training and non-training interventions (supervision, deployment, organizational development, etc.). Primary providers include nurses, midwives, health attendants, traditional birth attendants, community-based workers and, in some countries, primary care physicians. The objective of PRIME II is to improve on-the-job performance of primary providers and develop a sustainable system (training, education, and service delivery) for improved performance.

PRIME II has regional offices in West Africa (Senegal), East Africa (Kenya), Asia/Near East (Thailand) and Latin America/Caribbean (Dominican Republic).

Implementing Partner: INTRAH. Subagreements: Abt Associates Inc.; EngenderHealth; Program for Appropriate Technology in Health (PATH); Training Resources Group (TRG); the American College of Nurse-Midwives (ACNM); and Save the Children.

**Means of Access:** Can no longer accept new monies.

# Management and Leadership Development (M&L)

**Project Number:** 936-3099.02  
**Agreement Type:** Cooperative Agreement  
**Agreement Number:** HRN-A-00-00-00014-00  
**Duration:** 09/00-09/05  
**Geographic Scope:** Worldwide

**Purpose:**

To improve leadership, management, and sustainability of accessible, quality services and programs in the areas of reproductive health, HIV/AIDS, infectious disease, and maternal and child health by strengthening management systems and increasing leadership capacity; improving the performance of leaders and managers; planning and managing human resources, and building capacity to anticipate and respond effectively to changing external environments.

**Services provided:**

M&L is designed to reach beyond previous projects to support the development and sustainability of high-performing organizations that provide effective family planning and related health services (e.g., HIV/AIDS, TB, MCH) through:

- strengthening leadership capacity and building diversity of leadership
- improving management systems for key institutions
- conducting human resource management (HRM) assessments and providing technical assistance in HRM
- enabling leaders and managers to work effectively in the context of health sector reform and decentralization
- connecting health managers to sustain performance in countries where USAID assistance has ended
- applying a Performance Improvement approach to achieve results and help managers and leaders understand why training alone is often not the answer for complex performance problems
- demonstrating which management and leadership interventions are most effective in improving the delivery of services
- developing the capacity of local, regional and international organizations to provide south-to-south technical assistance
- communicating advances in management and leadership to the international health field

**Means of Access:** Field Support

# Private Sector Program (PSP)

**Project Number:** 936.3085.04  
**Agreement Type:** IQC (Multiple Awards)  
**Agreement Number:** TBD  
**Duration:** TBD, 5 year project  
**Geographic Scope:** Worldwide

## **Purpose:**

The PSP (award anticipated January 2004) will:

- increase consumer demand for Family Planning/Reproductive Health (FP/RH) and other health products and services through the private sector;
- increase the supply of quality FP/RH and other health products and services by increasing the capacity of the private sector to deliver services; and
- improve conditions for private sector involvement in FP/RH and other health products and services delivery.

## **Services Provided:**

The PSP will assist governments to better target public sector resources to ensure access to quality products and services for the poor, while enhancing the market environment for private sector expansion.

The Office of Population and Reproductive Health (PRH) anticipates issuing a task order under the PSP to advance the state of the art in private and commercial sector programming, provide technical leadership, conduct monitoring and evaluation of PSP country activities, support partnerships between USAID and the commercial sector, synthesize lessons learned, and serve as a vehicle for mission-funded program implementation. USAID missions may use the PSP for a broad range of country programming related to the private and commercial sectors, including expanding networks of private providers, developing mechanisms to assure quality in the private sector, implementing social marketing programs, and entering into public private partnerships.

PRH also anticipates issuing a task order under the PSP to expand private health care providers' access to credit. This will provide technical assistance to both potential borrowers and financial institutions to increase the availability of credit to private sector providers of RH/FP services. The goals of this activity are to increase the financial sustainability of private providers, improve the business skills and financial management practices of private providers and to increase financial institutions' willingness to engage in health sector lending. This task order will also assume management of outstanding loans to private providers previously made by the Summa Foundation.

**Means of Access:** Field Support, Task Orders negotiated in missions.

# YouthNet

**Project Number:** 936-3073.01  
**Agreement Type:** Cooperative Agreement  
**Agreement Number:** GPH-A-00-01-00013-00  
**Duration:** 10/01-09/06  
**Geographic Scope:** Worldwide

## **Purpose:**

To improve the reproductive health (RH) and HIV/AIDS prevention behaviors of young people aged 10-24.

## **Services provided:**

YOUTHNET seeks to:

- provide global technical leadership through research, information dissemination, and capacity- building to advance the field of RH and HIV/STI prevention for youth;
- partner with USAID missions in focus countries to scale-up youth activities for national impact on key youth behaviors; and
- provide short-term technical assistance in other countries.

Key results anticipated for YOUTHNET include:

- an improved policy environment and increased community support for reproductive health and HIV/STI prevention for youth;
- improved knowledge, attitudes and skills related to healthy reproductive health practices, including strategies to help young people delay sexual activity; and
- when appropriate, expanded access for youth to quality reproductive health products and care.

YOUTHNET has an innovative and comprehensive design to meet the unique, complex and often wide-ranging RH needs of young people as well as those of parents and other involved adults. It recognizes the need to segment all interventions and messages for youth based on their age, sex, life stage, marital status, culture, and geographic location. YOUTHNET takes an assets-based approach, emphasizing the energy and resiliency of young people and their capacity for positive behavior change, and seeks to involve youth in all aspects of the program. In addition, YOUTHNET proposes to use an innovative social franchising approach to expand networks of youth-friendly services and programs, especially through the private sector.

# AIDS Social Marketing (AIDSMark)

**Project Number:** 936-3090.03  
**Agreement Type:** Cooperative Agreement  
**Agreement Number:** HRN-A-00-97-00021-00  
**Duration:** 09/97-09/07  
**Geographic Scope:** Worldwide

## Purpose:

The AIDSMark program is designed to implement HIV/AIDS prevention and mitigation social marketing interventions worldwide for USAID, both on a regional and country-specific basis. AIDSMark social markets essential health products and services and also develops and disseminates messages and concepts relating to behavior change.

## Services Provided:

AIDSMark supports the Bureau for Global Health's (GH) expanded response to the HIV/AIDS pandemic. The AIDSMark contribution includes: behavior change communication to promote abstinence (delay of sexual debut), faithfulness (partner reduction) and ABC to reduce transmission of HIV/AIDS; STD prevention information and drug access worldwide; social marketing of voluntary counseling and testing services and interventions to prevent mother to child transmission of HIV. AIDSMark also strengthens and expands public-private partnerships, including faith based organizations, in HIV prevention, infectious disease and other public health interventions, and increases the availability and marketing of information around safe behaviors to reduce risk of HIV. Subgrantees include: Family Health International (FHI); Program for Appropriate Technology in Health (PATH); Management Sciences for Health (MSH); International Center for Research on Women (ICRW); and International Planned Parenthood Federation (IPPF); DKT International.

(Ceiling is expected to be reached by calendar year 2004)

# Call to Action Project Elizabeth Glaser Pediatric AIDS Foundation (EGPAF)

**Project Number:** 936.3090.16  
**Agreement Type:** Cooperative Agreement  
**Agreement Number:** GPH-A-00-02-00011-00  
**Duration:** 09/02-09/07  
**Geographic Scope:** Worldwide

## **Purpose:**

The Elizabeth Glaser Pediatric AIDS Foundation (EGPAF) was awarded this cooperative agreement for the design, development, management, monitoring, and technical support to regional and/or country specific programs aimed at preventing Mother to Child Transmission of HIV. The Elizabeth Glaser Pediatric AIDS Foundation initiated the Call to Action Project in September of 1999 to help reduce mother-to-child transmission (MTCT) of HIV in the developing world. This project has already developed a network of over 250 MTCT sites in 17 countries.

## **Services Provided:**

Working under the HIV/AIDS Global Bureau's Strategic Objective Four, EGPAF and its partner organizations are available to assist Missions and regional Bureaus in implementing programs that result in prevention of mother to child transmission of HIV. The Foundation aims to provide access to health services and treatment to pregnant women, educate health care workers and community members on issues surrounding HIV prevention, transmission and treatment, provide a safe, secure environment to women who might otherwise not seek testing or counseling for fear of social discrimination and persecution, and provide expanded services aimed at ensuring that families stay healthy and communities stay strong.

Subgrantees: Multiple partners depending on country.

# Community REACH

**Project Number:** 936-3090.12  
**Agreement Type:** Leader With Associate Cooperative Agreement  
**Agreement Number:** GPH-A-00-01-00007-00  
**Duration:** 09/01-09/06  
**Geographic Scope:** Worldwide

## Purpose:

Under this Leader with Associate cooperative agreement, Community REACH (*Rapid and Effective Action Combating HIV/AIDS*), is designed to:

- quickly mobilize funding to organizations playing valuable roles in the fight against HIV/AIDS, including U.S. and non-U.S. based PVOs, regional and local NGOs, universities, and faith-based organizations;
- quickly respond to immediate and longer term Mission and Bureau needs consistent with USAID's goals of "increased use of improved, effective and sustainable responses to reduce HIV transmission and to mitigate the impact of the HIV/AIDS pandemic."

**Services Provided:** Community REACH is an umbrella grants making and grants management program supporting HIV/AIDS activities in: primary prevention and education; voluntary counseling and testing; and care and support for those living with and affected by HIV or AIDS.

**Leader (Bureau for Global Health core-funded):** To distribute funds, Pact will issue two to three request for applications a year. Each solicitation for sub-grants will vary in terms of the programmatic focus under the three broad areas. The REACH team and GH will work to determine the geographical and programmatic focus of future solicitations with input from Missions.. Grants will be awarded to PVOs and NGOs in amounts starting at \$100,000 for periods of up to three years, depending on funds availability, with unlimited potential for cost sharing from other sources.

**Associate (Mission-funded):** The Associate awards allow Missions/Bureaus to use the Leader to issue a separate agreement with Pact to more directly support Missions/Bureau-specific HIV/AIDS program needs. The leader with associate authorizes Missions/Bureaus to issue an award directly with Pact without further competition. For example, a Missions/Bureau interested in developing a grant-making program for HIV/AIDS activities can develop an Associate Award with Community REACH to establish a national-level umbrella grant-making program, or to implement a competitive small grants program to local NGOs. Local offices of Pact and FUTURES are not eligible to receive sub-grants under Associate Awards. Under these awards, Missions are expected to completely cover Pact administration costs and fees.

# Communities Responding to the HIV/AIDS Epidemic (CORE) Initiative

**Project Number:** 936-3090.17  
**Agreement Type:** Leader With Associate Cooperative Agreement  
**Agreement Number:** GPH-A-00-03-00001-00  
**Duration:** 01/03-01/08  
**Geographic Scope:** Worldwide

## Purpose:

The CORE Initiative is a 5 year Leader with Associate Award whose mission is to support an inspired, effective and inclusive response to the causes and consequences of HIV/AIDS by strengthening the capacity of community and faith-based organizations worldwide. The main approach is to leverage existing efforts, while catalyzing and encouraging new efforts through diverse and innovative partnerships in the areas of community-based prevention, stigma reduction, and care and support to people living with HIV/AIDS and their families.

## Services Provided:

The CORE Initiative brings together key stakeholders, including people living with HIV/AIDS, CBOs, FBOs, non-governmental organizations (NGOs), private voluntary organizations (PVOs), and donors at a variety of levels to advance community-based HIV/AIDS programming in developing countries. Within the CORE Initiative there are two categories of grant making: Small Grants (under \$5000) and Large Grants (\$5000 to \$250,000). Capacity-building support is integrated into all CORE Initiative activities, ensuring that CORE Initiative grantees have the organizational and technical capacity they require to implement projects effectively in communities. This includes technical assistance to USAID missions in how to effectively and appropriately support the multi-sectoral response of CBOs and FBOs to the HIV/AIDS epidemic. The CORE Initiative also supports knowledge management and learning through a comprehensive web-based clearinghouse and regional networks designed to share lessons learned from CBOs and FBOs worldwide. The project integrates monitoring and evaluation mechanisms at all levels that effectively and accurately capture the strengths and weaknesses of community and faith-based responses to related community-based efforts.

Subagreements: World Council of Churches (WCC), the International Center for Research on Women (ICRW), the International HIV/AIDS Alliance, and the Johns Hopkins Bloomberg School of Public Health, Center for Communication Programs (CCP), Lomz Linda University

# HIV Operations Research (HORIZONS)

**Project Number:** 936-3090.01  
**Agreement Type:** Cooperative Agreement  
**Agreement Number:** HRN-A-00-97-00012-00  
**Duration:** 09/97-07/07  
**Geographic Scope:** Worldwide

## **Purpose:**

Under a ten-year Cooperative Agreement from the U.S. Agency for International Development, the Population Council and its U.S.-based and international partner organizations will conduct operations research to identify and develop best practices for preventing and/or mitigating the impact of HIV/AIDS.

## **Services Provided:**

HORIZONS will feature practical, field-based, program-oriented operations research. Program objectives are to: identify cutting edge issues, suggest refinements for existing programs and activities, propose innovative approaches that can be tested through field-based, program-oriented operations research, and recommend demonstrated best practices for implementation and going to scale. Horizons seeks to address a wide variety of critical social, behavioral, and contextual issues that will bring about a more effective response to the HIV/AIDS pandemic. Operations research will be designed to focus on 5 priority areas: to improve the quality of HIV/AIDS services, to mitigate effects of the epidemic, to prevent HIV/AIDS including the use of the ABC approach, and to evaluate mother-to-child HIV transmission (MTCT) programs. In addition to research activities, a major focus will be disseminating information from completed studies.

# Implementing AIDS Prevention and Control Activities (IMPACT)

**Project Number:** 936-3090.02  
**Agreement Type:** Cooperative Agreement  
**Agreement Number:** HRN-A-00-97-00017-00  
**Duration:** 09/97-09/07  
**Geographic Scope:** Worldwide

## **Purpose:**

Family Health International was awarded this cooperative agreement for the design, development, management, monitoring and technical support to regional and country-specific HIV/AIDS interventions. IMPACT builds on over eighteen years of HIV/AIDS prevention and care experience and is USAID's most comprehensive HIV/AIDS platform in the field.

## **Services Provided:**

Working under the Bureau for Global Health's Strategic Objective Four, FHI and its partner organizations are available to assist Missions and regional mechanisms in the implementation of programs that reduce HIV transmission through behavior change, improve sexually transmitted infection prevention and disease management, prevent mother-to-child transmission, minimize policy and health systems constraints, promote comprehensive care and support programs, including antiretroviral treatment; increase effective linkages between prevention and care, and improve program monitoring and evaluation.

Subgrantees: Management Sciences for Health (MSH); Institute of Tropical Medicine (ITM); the University of North Carolina (UNC). Population Services International (PSI); and Program for Appropriate Technology in Health (PATH);

**Means of Access:** Field Support

# International HIV/AIDS Alliance

**Project Number:** 936-3090.07  
**Agreement Type:** Grant  
**Agreement Number:** HRN-G-00-98-00010-00  
**Duration:** 01/98-09/07  
**Geographic Scope:** Worldwide

## Purpose:

Under this grant, the International HIV/AIDS Alliance will continue to mobilize indigenous NGOs and community based organizations to respond to AIDS; improve the quality of their work; build capacity of local service organizations and technical support providers, and; document and share lessons about community mobilization and NGO capacity building.

## Services Provided:

The Alliance will continue its already successful work in promoting the integration of HIV and STD work into other community development initiatives, linking prevention and care, and promoting partnerships among local NGOs and between NGOs and government services. The Alliance's national or sub-national level capacity building emphasizes the development of sustainable local NGO support organizations with functions including local and international resource mobilization, technical support in local languages, monitoring, evaluation and NGO sector policy leadership. The Alliance may be particularly useful to Missions and regional Bureaus that wish to mobilize and strengthen community responses in countries on the frontiers of the HIV epidemic, where there is not yet strong local capacity; to involve local health and development NGOs that are not yet responding to AIDS; to ensure coordination with other major bilateral and multilateral donors; to organize South-South technical support, to build a sustainable locally governed infrastructure to mobilize and support NGOs in an ongoing manner.

The International HIV/AIDS Alliance has partner offices in Senegal, Burkina Faso, Philippines, Sri Lanka, India, Bangladesh, Cambodia, Ecuador, Zambia, Mexico, and Morocco. Please contact their Brighton, England Headquarters for details and contact information.

# Joint United Nations Programme on HIV/AIDS (UNAIDS II)

**Project Number:** 936-3090.23  
**Agreement Type:** Grant  
**Agreement Number:** GHA-G-00-03-00007  
**Duration:** 09/03-09/07  
**Geographic Scope:** Worldwide

## **Purpose:**

The Grant will fund UNAIDS to expand its response aimed at preventing transmission of HIV/AIDS, providing care and support, reducing individual and community vulnerability to HIV/AIDS and mitigating the impact of the epidemic.

## **Services Provided:**

UNAIDS will:

- further catalyse action and strengthen capacity at country level, particularly in the priority areas identified by the Programme Coordinating Board: monitoring and evaluation, resource mobilization, and expansion of civil society involvement, provision of technical resources, and interventions related to security, stability and humanitarian responses;
- improve the scope and quality of UN support to national partners, through strengthened UN Theme Groups on AIDS, better coordination at regional level, increasing staff capacity in key areas, and development of more coordinated UN programmes in line with national priorities and objectives;
- increase the accountability of UNAIDS at country level through support for country-level reviews of national HIV/AIDS responses, development of joint UN programmes to support countries' responses, and having Theme Groups report annually to PCB.
- strengthen capacity of countries to gather, analyse and use strategic information related to the epidemic and, in particular, on progress in achieving the goals and targets of the Declaration of Commitment. This includes the Country Response Information System (CRIS), which will be operational in all countries by the end of 2005;
- expand the response of the development sector to HIV/AIDS, including in relation to human capacity depletion, food security, governance, orphans and vulnerable children and the impact of the epidemic on the public sector (education in particular), as well as on women and girls;
- sustain leadership on HIV/AIDS at all levels; and
- forge partnerships with political and social leaders to ensure full implementation of the Declaration of Commitment and to realize the related Millennium Development Goals.

# Local Voices

**Project Number:** 936-3090.14  
**Agreement Type:** Cooperative Agreement  
**Agreement Number:** GPH-A-00-02-0007-00  
**Duration:** 09/02 - 09/04  
**Geographic Scope:** Worldwide

## **Purpose:**

Internews was awarded this cooperative agreement to create a more supportive social environment for preventing and mitigating the impacts of HIV/AIDS, through an enlightened and committed local broadcast community.

## **Services Provided:**

Local Voices currently only works in Nigeria and Kenya, although their cooperative agreement is being modified to allow field support buy-in. The Local Voices project began by establishing an HIV/AIDS media resource center in each country that houses audio, video and print resources on the pandemic, as well as a digital radio production studio. Internews works with managers of broadcast media organizations to encourage them to include HIV/AIDS news stories and feature shows in their broadcasts. Internews also works with local radio journalists to produce news items, public service announcements, investigative reporting and in-depth features on HIV/AIDS, its treatment and prevention.

Subgrantees: Journalists Against AIDS in Nigeria (JAAIDS)

# Medical Service Corporation International (MSCI)

**Project Number:** 936-3090.22  
**Agreement Type:** Grant  
**Agreement Number:** GPO-G-00-03-00007-00  
**Duration:** 09/03-09/04  
**Geographic Scope:** Worldwide

## **Purpose:**

Medical Service Corporation International (MSCI) leads a three-country project with its C/FBO partner organizations, The Salvation Army, The National Association of Evangelicals, and Empower America, as well as the University of Pennsylvania Medical School, the University of Pittsburgh Medical School, the Fordham University Graduate School of Social Service, the National Jewish Medical and Research Center, Infectious Disease Physicians, Inc., and Overseas Strategic Consulting, Ltd.

## **Services Provided::**

Together, they are responsible for:

- identifying U.S. and local C/FBOs with experience or interest in implementing ABC/VCT/ treatment projects, in Mozambique, Malawi and Haiti;
- establishing regional Program Resource and Training Centers which will backstop the work of the participating C/FBOs. Initially, there will be two — one in the Caribbean, and one in East Africa;
- ensuring coordination with USAID Missions in the targeted countries and integration of C/ FBO implemented ABC/VCT/Treatment Programs with other USAID HIV/AIDS projects; and
- administering and supervising grants to participating U.S. and developing country C/FBOs.

**Means of Access:** N/A

# MTCT Plus

**Project Number:** 936-3090.18  
**Agreement Type:** Cooperative Agreement  
**Agreement Number:** GPO-A-00-03-00001-00  
**Duration:** 01/03-01/08  
**Geographic Scope:** Worldwide

## **Purpose:**

Columbia University MTCT Plus Initiative was awarded this cooperative agreement for the design, development, management, monitoring, and technical support to regional and/or country specific programs to bridge the gap between prevention of mother to child transmission (PMTCT) programs and access to care, treatment, and support. MTCT-Plus will provide resources for care, treatment and support services for infected women and families, including:

- A package of services that includes education, counseling, support, prophylaxis and treatment of HIV.
- Psychosocial support, patient education, and counseling.
- Support for community outreach and education and linkages to local organizations/resources.
- Procurement and delivery of antiretroviral therapy and other treatments for related HIV complications.
- Training, technical assistance, laboratory support, site monitoring, and other support services.

## **Services Provided:**

Working under the HIV/AIDS Global Bureau's Strategic Objective Four, MTCT-Plus and its partner organizations are available to assist Missions and regional Bureaus in implementing programs that result in expanding access to care and treatment services in the context of PMTCT programs. The MTCT-Plus Initiative is an international program created to establish HIV primary care services — including antiretroviral therapy — by building on existing prevention of mother-to-child-transmission (pMTCT) programs. The Initiative is a private-public partnership, initially funded in late 2001 by a consortium of eight private foundations. With foundation support, the Initiative has already established 12 demonstration sites in eight countries, and has awarded “planning grants” to an additional 13 sites in 11 countries.

Subgrantees depending on country.

# The Synergy Project

**Project Number:** 936-3090.04  
**Agreement Type:** Contract  
**Agreement Number:** HRN-C-00-99-00005-00  
**Duration:** 04/99-09/05  
**Geographic Scope:** Worldwide

## Purpose:

The Synergy Project's mandate is to support USAID's Office of HIV/AIDS and create synergy among all of the USAID-supported organizations working to reduce the consequences of the HIV/AIDS pandemic. The Synergy Project designs and refines HIV/AIDS program strategic approaches; monitors and evaluates the processes, outcomes, and impact of HIV/AIDS prevention, mitigation, care and support activities. The project collects and disseminates research, implementation and evaluation findings and also serves as the major support mechanism and resource for other activities of the USAID Office of HIV/AIDS including: the Implementation Working Group, HIV/AIDS Programmatic Database, technical updates to the field, HIV/AIDS consultant database, and the HIV/AIDS Resource Center.

## Services Provided:

- Technical assistance to the field on assessment, strategic planning, design, implementation monitoring, and evaluation (APDIME) of HIV/AIDS programs
- Program coordination and technical support to the Office of HIV/AIDS to facilitate USAID's strategic management and reporting on its HIV/AIDS portfolio
- Strategic information support to USAID through the HIV/AIDS Programmatic Database (PDB).
- Training to strengthen the capacity of USAID staff, implementing agencies, and host-country partners in HIV/AIDS program planning, monitoring, and reporting
- Identification, analysis and dissemination of technical information, lessons learned, and program guidance, and
- Facilitation and logistical support for workshops and meetings.

## Means of Access: Field Support

# U.S. Census Bureau (BUCEN)

**Project Number:** 936-3090.05  
**Agreement Number:** HRN-P-00-98-00002-00  
**Duration:** 01/98-09/07  
**Geographic Scope:** Worldwide

**Purpose:**

To maintain the HIV/AIDS Surveillance Data Base; provide demographic and economic models of the impact of the HIV and AIDS in urban and rural areas of the developing world and; disseminate information through a variety of publications and presentations throughout the world.

**Services Provided:**

In fiscal year 1998, GH entered into an agreement with the U.S. Census Bureau (BUCEN) for HIV/AIDS data information transfer, demographic modeling and human resources which were - and continue to be - integral to USAID's work in HIV/AIDS. BUCEN contributed to the USAID program with support to monitor the spread of HIV and to understand the potential effect the AIDS pandemic will have on development. The technical assistance from BUCEN for this work has required experience in epidemiological database projections and population projection modeling. With its worldwide reputation for excellence, the International Programs Center represents the preeminent U.S. source for technical expertise in this area.

# U.S. Peace Corps

**Project Number:** 936-3090.06  
**Agreement Number:** AAG-P-00-97-00008-00  
**Duration:** 09/97-07/07  
**Geographic Scope:** Worldwide

## **Purpose:**

Under this agreement, the Peace Corps will continue to promote and expand its community based efforts in HIV/AIDS prevention and care.

## **Services Provided:**

There are currently 7,000 Peace Corps volunteers working in over 72 countries around the world. The Interagency Agreement funds will assist with NGO and CBO development; integrated community health approaches to HIV/AIDS prevention and care; programs for women and girls; and programs for youth, both in and out of school. The funds from the agreement will provide technical assistance to Peace Corps volunteers, field staff, host country officials and counterparts, NGOs and PVOs through training, project design and evaluation assistance, materials development, and dissemination of results.

# World Food Program

**Project Number:** 936-3090.21  
**Agreement Type:** Grant  
**Agreement Number:** GHA-G-00-03-00008-00  
**Duration:** 09/03-09/05  
**Geographic Scope:** Africa

## **Purpose:**

To support integrating WFP food assistance with World Vision development activities by providing support to orphans and other children affected by HIV/AIDS, as well as their families and/or care givers.

## **Services Provided:**

Through this mechanism the two organizations will begin joint programming. The following services will be provided by this project:

- Detailed cooperative planning meetings that will serve as a framework for the partnership.
- Country level activities focusing on school feeding and HIV/AIDS to integrate food aid programming and interventions with complimentary non-food programming.
- Local staff exchange to help support the initial secondment of a World Vision employee to the WFP.

# Partners for Health Reform *plus* (PHR*plus*)

**Project Number:** 936-3104.01  
**Agreement Type:** Contract  
**Agreement Number:** HRN-C-00-00019-00  
**Duration:** 10/00-09/05  
**Geographic Scope:** Worldwide

**Purpose:**

To improve the design and implementation of health policy and systems innovations so that they contribute to improved health system performance in delivering PHN priority interventions; to improve global understanding of the elements of health policy and systems development that foster improved performance in delivering PHN priority interventions.

**Services Provided:**

The project is the principal USAID technical service resource in health policy and systems strengthening. PHRplus focuses on themes such as promoting priority services through health systems strengthening, community based health financing, national health accounts, global alliances, decentralization and management strengthening, and combating corruption through accountability. As the flagship project in this field, PHRplus provides technical assistance in health system organization, health financing, health information (including National Health Accounts), and disease surveillance. PHRplus also provides limited technical assistance in health worker service quality and commodities. Technical assistance focuses on developing strategies, increasing stakeholder participation, building consensus, undertaking feasibility studies, developing and carrying out implementation plans, training, capacity building, monitoring and evaluation, research and information dissemination.

# Quality Assurance/Workforce Development (QA/WD)

**Project Number:** 936-3104.05  
**Agreement Type:** Contract  
**Agreement Number:** GPH-C-00-02-00004-00  
**Duration:** 06/02-06/07  
**Geographic Scope:** Worldwide

## **Purpose:**

Health systems must improve their performance if they are to cope with new challenges like HIV/AIDS, neonatal mortality, drug resistant malaria, and chronic diseases, while also providing effective basic services. Despite extensive training and technical assistance, assessments show that most services, including USAID priorities, fall short of evidence-based guidelines, while wasting scarce resources. This project complements traditional assistance strategies by adapting modern improvement approaches used in the US health system. With these methods, regular health workers study their own work processes and test ideas for improvement. In the full range of USAID-assisted countries, local providers have produced measured improvements in quality and efficiency in the short term. These documented improvements, in turn, contribute to the project's goal of making the improvement process an institutionalized element of health care.

The project's improvement framework includes long-neglected issues in human resources (HR) planning and management. Most HR policies and practices are not based on objective evidence and offer many opportunities for improvement. Through diagnostic and intervention studies, the project seeks to facilitate incremental change in HR systems in the short term.

## **Services Provided:**

QA/WD provides missions with the following services:

- Technical assistance: measurable increases in the quality and efficiency of health care; assistance may be focused on specific services, such as maternal health, and coordinated with the appropriate technical experts.
- Improvement collaboratives: designed to increase the efficiency of improvement efforts, focus improvement on the most important issues, provide motivation, increase the pace of change, and provide a framework for scaling up best practices.
- Human resources: Specialized technical assistance to analyze HR issues, to develop and test potential improvements, and to apply best practices.
- Information technology: Computer-assisted training and similar applications
- Other: Private sector strategies; QA/HR training; quality assessments; patient adherence
- Technical information available at: [www.qaproject.org](http://www.qaproject.org)

# Rational Pharmaceutical Management Plus (RPM Plus)

**Project Number:** 936-3104.02  
**Agreement Type:** Cooperative Agreement  
**Agreement Number:** HRN-A-00-00-00016-00  
**Duration:** 09/00-09/08  
**Geographic Scope:** Worldwide

## **Purpose:**

To improve the availability of health commodities (pharmaceuticals, vaccines, supplies and equipment) of assured quality for PHN priority interventions, and promote their appropriate use in both the public and private sectors. The RPM Plus mandate is to provide technical leadership in pharmaceutical management to global initiatives, such as PEPFAR, GFATM, Stop TB and Roll Back Malaria; develop and apply specialized assessment tools as required to generate needed commodity-related information and improve decision making processes; actively foster operational donor coordination and strategic planning globally and at the country level to improve product availability; and identify lessons-learned, formulate guiding principles in pharmaceutical management, and disseminate best practices and approaches to strengthen health systems.

## **Services Provided:**

RPM Plus will introduce sustainable reforms in commodity management systems and improve the availability and use of health commodities by:

- Employing state of the art diagnostic assessment methods to determine the root causes and factors contributing to poor availability and irrational use of health commodities;
- Providing global partners with technical guidance in pharmaceutical management, including the procurement, quality assurance, access to pharmaceuticals and rational drug use areas;
- Developing options and approaches to facilitate the procurement and management of health commodities used in support of PEPFAR, including serving as a direct purchasing mechanism for USG procurement of pharmaceuticals, supplies, and equipment;
- Addressing the commodity management issues of HIV/AIDS and other infectious disease (malaria and TB) programs and the implementation problems involved in scaling-up;
- Developing and implementing strategies/approaches to build human resource capacity to address the deficit of pharmaceutical management expertise at the global and country levels;
- Promoting appropriate government policies and regulations to help assure product quality;
- Designing intervention packages to slow the emergence/spread of antimicrobial resistance;
- Providing technical support to strengthen health commodity management systems, including laboratory services, to ensure an adequate, uninterrupted supply of health products;
- Promoting transparent, accountable and efficient procurement policies and practices; and
- Improving drug use practices on both the demand (e.g., patient drug seeking behavior) and supply sides (e.g., providers and dispensers), including drug sellers and commercial sales.

# U.S. Pharmacopeia Drug Quality and Information (USP DQI)

**Project Number:** 936-3104.03  
**Agreement Type:** Cooperative Agreement  
**Agreement Number:** HRN-A-00-00-00017-00  
**Duration:** 09/00-09/05  
**Geographic Scope:** Worldwide

## **Purpose:**

To improve quality assurance for health commodities (pharmaceuticals, vaccines, medical devices and laboratory supplies and equipment) for HIDN priority interventions, and to provide unbiased information to support their appropriate use. As the primary HIDN mechanism for drug quality assurance, the USP DQI mandate is to provide technical leadership to global initiatives such as Roll Back Malaria and GFATM; encourage regional cooperation and harmonization of drug quality assurance systems; and formulate guidance documents and professional education programs for physicians and pharmacists in optimal use of medicines.

## **Services Provided:**

- Provides technical assistance to the field to improve drug quality assurance systems;
- Conducts assessments of drug quality control laboratories, quality control mechanisms within the pharmaceutical procurement systems, national laws and policies related to quality of medicines, inspection capabilities, warehousing, and distribution chains;
- Develops simple, appropriate methods for drug quality control testing and trains drug regulatory authorities in the use of authoritative standards for drug quality, strength, purity, and packaging;
- Develops drug and therapeutics information to support HIDN Strategic Objectives: USP has written and published information on polio, OPV, and misconceptions about immunizations; antimicrobial resistance; use of misoprostol for prevention of postpartum hemorrhage; and fixed dose combination drugs for tuberculosis and malaria.
- Facilitates the production of medical textbooks on antimicrobials, distance learning programs as part of continuing education for health care professionals, and support for technical update training;
- Builds local capacity in the following areas: drug quality (e.g., drug testing methods and good laboratory practices, supplying/installing laboratory equipment); drug information (e.g., developing/disseminating locally relevant unbiased drug and therapeutics information, establishing national/regional drug information centers and networks);
- Provides information on counterfeit/substandard drugs reported in USAID-assisted countries as well as new drug and therapeutics information via the program website, [www.uspdqi.org](http://www.uspdqi.org)

USP standards of drug strength, quality, purity, packaging and labeling have been recognized by the U.S. Congress since 1848 and are enforceable by the U.S. Food and Drug Administration. USP information on indications, precautions, interactions and side effects is an authoritative, up-to-date, and unbiased source of information for health care professionals and patients.

**Geographic Scope:** Worldwide

## **Purpose:**

To support the design, implementation, and management of health sector reforms in developing countries by supporting analyses of the generation, allocation, and management of financial resources for health.

## **Services Provided:**

This grant supports policy-relevant information by focusing on four key strategies: 1) policy analysis; 2) information support and dissemination; 3) training support; and 4) advocacy and coordination with other units within WHO and with other multi-lateral and bilateral agencies. It is expected that the outcomes of the program will encourage countries to include economic considerations in their national health sector reforms and will improve resource use by health managers.

# Africa Program for Onchocerciasis Control (APOC)

**Project Number:** 936-3100.09  
**Agreement Number:** GHA-G-00-02-00004  
**Duration:** 09/02-09/07  
**Geographic Scope:** Africa Region

## **Purpose:**

The Onchocerciasis Control Program was authorized on September 17, 1992, to provide the U.S. financial contribution to the World Bank Onchocerciasis Trust Fund for the West Africa Onchocerciasis Control Programme (OCP); and amended in 1996 to allow contributions to the Fund to be used to support the newly formed Africa Programme for Onchocerciasis Control (APOC), a 16 country program to extend onchocerciasis control to oncho-endemic countries not covered by the West African Onchocerciasis Control Program (OCP).

## **Services Provided:**

USAID's onchocerciasis project is expected to achieve the following kinds of results:

- transfer to national programs within the OCP the capacity for continued delivery of ivermectin through community-based approaches by 2002;
- strengthening the epidemiological evaluation and surveillance capacity of OCP member states to detect and control recrudescence, and where needed maintaining effective vector control operations;
- elimination of onchocerciasis-related blindness from the approximately 16 APOC African countries where the diseases is still a major public health problem;
- building sustainable community-based systems capable of annual delivery of ivermectin.
- establishment of effective collaborations between non-governmental organizations and national ministries of health in the planning and implementation of local ivermectin delivery programs.

# Infectious Diseases Results Package: Centers for Disease Control and Prevention IAA

**Project Number:** 936-3100.01  
**Agreement Number:** AAG-P-00-99-00006-00  
**Duration:** 09/99-09/09  
**Geographic Scope:** Worldwide

## **Purpose:**

To strengthen the delivery of infectious disease and other health programs in developing countries by accessing technical expertise from the Centers for Disease Control and Prevention and collaborating with the CDC to address infectious disease and other health problems in the developing world.

## **Services Provided:**

The umbrella interagency agreement with CDC allows USAID to access technical expertise from CDC and is a world-renowned source of specialized technical experience and expertise in the international health field. The IAA supports activities in control and prevention of infectious diseases including tuberculosis, malaria, disease surveillance and antimicrobial resistance; HIV/AIDS; and environmental health.

Specific work plans are developed with appropriate centers or divisions within CDC and activities take the form of linked series of consultancies or long term technical assistance. Activities include:

- Technical and program support for the development and implementation of appropriate global/regional/country-level health programs and strategies;
- Monitoring and evaluation of global/regional/country-level health activities, projects and programs; and
- Studies, assessments, evaluation and other research activities to assist in policy dialogue, planning and formulating health programs.

Missions can access the IAA through field support for either short or long term technical assistance.

# Infectious Diseases Results Package: World Bank/Lymphatic Filariasis

**Project Number:** 936-3100.11  
**Agreement Type:** Grant  
**Agreement Number:** GHA-G-00-03-00005-00  
**Duration:** 09/03-09/06  
**Geographic Scope:** Worldwide

## **Purpose:**

To develop and implement lymphedema management programs at the state or national levels in collaboration with Ministries of Health and NGOs as part of the overall effort to eliminate lymphatic filariasis.

## **Services Provided:**

The program represents USAID's contribution to the global effort to eliminate lymphatic filariasis, joining with the Global Alliance and the Global Program to Eliminate Lymphatic Filariasis. Specifically, it supports the expansion of lymphedema management interventions. It is based on the current collective thinking within the Global Alliance; i.e., lymphedema management should be individual- and community-based, but supported by adequate referral systems and a network of competent medical care. Lymphedema management is part of a comprehensive and balanced program to eliminate lymphatic filariasis. The project will address the challenges of "going to scale" with lymphedema management at the state and national levels. Specifically, the program addresses the following:

- Education of patients and family members on the principles and practice of lymphedema self-care;
- Encouragement and support to sustain daily self-care;
- Access to clean water, soap, and other supplies, including antiseptics, topical antibacterial and antifungal agents, and oral antibiotics;
- Referral networks for management of acute bacterial adenolymphangitis and for patients with advanced lymphedema or lymphedema complicated by other diseases.

**Means of Access:** Field Support

# Infectious Diseases Results Package: World Health Organization Umbrella Grant

**Project Number:** 936-3100.02  
**Agreement Type:** Grant  
**Agreement Number:** AAG-G-00-99-00005-00  
**Duration:** 09/99-09/09  
**Geographic Scope:** Worldwide

## **Purpose:**

This grant provides support to the World Health Organization to carry out collaborative activities with USAID in infectious diseases, maternal and child health and HIV/AIDS.

## **Services Provided:**

The umbrella grant to WHO consolidates most of the Bureau for Global Health's agreements with WHO under a simplified mechanism. The grant supports broad USAID-WHO collaborations in tuberculosis, malaria and other vector borne diseases (e.g., dengue), disease surveillance, research, antimicrobial resistance, maternal and child health, and HIV/AIDS — at WHO headquarters in Geneva as well as at regional and country offices.

Specifically, support is provided to WHO's relevant technical and program divisions for technical input and assistance in the development, implementation and/or evaluation of health programs and studies including:

- global strategy development;
- technical analyses;
- demonstration activities and feasibility studies;
- capacity building;
- policy reform;
- project evaluation and assessments;
- monitoring and evaluation;
- workshops and conferences;
- education/information strategies;
- maternal and neonatal health

## **Means of Access:** Field Support

# Malaria Action Coalition (MAC)

**Project Number:** 936-3112.01  
**Agreement Type:** N/A  
**Agreement Number:** N/A  
**Duration:** 06/02-09/07  
**Geographic Scope:** Africa

## **Purpose:**

The Malaria Action Coalition (MAC) is a “shell” activity that brings together several of USAID’s existing and potential partners in a coordinated effort to address key issues in the fight against malaria. The goal of the MAC is to directly contribute to reductions in malaria-related mortality and morbidity due to treatment failure and placental infection across Africa. The MAC is intended to provide the benefits of coordinated effort of these partners in technical support to USAID mission and regional programs. The MAC provides expert technical support and focused action to assist countries to review and revise policy, develop effective strategic implementation approaches, build implementation capacity, and leverage resources for scaled-up delivery of proven practices for effective therapy and safer pregnancies.

## **Services Provided:**

The Malaria Action Coalition provides access to the coordinated technical support of the World Health Organization (WHO), the US Centers for Disease Control and Prevention (CDC), the Rational Pharmaceutical Management Plus (RPM+) Project, and the new maternal/newborn health activity for two key malaria interventions in Africa: effective treatment and prevention in pregnancy.

This technical assistance is available to the field for:

- collection and analysis of evidence of gaps in current practice;
- review and revision of treatment and reproductive health policies;
- identification, documentation and dissemination of proven best practice;
- capacity strengthening for regulation, management and use of antimalarial drugs;
- capacity strengthening for behavior change communication and advocacy;
- performance improvement among public and private providers;
- epidemiological analysis, monitoring and evaluation of malaria interventions;
- mobilization of resources for malaria treatment and prevention in pregnancy.

**Means of Access:** Field Support

**AID/W**  
CTO: Mary Ettling

# Malaria Vaccine Development Program (MVDP)

**Project Number:** 936-3118  
**Agreement Type:** N/A  
**Agreement Number:** Various  
**Duration:** 09/03-09/13  
**Geographic Scope:** Worldwide

## **Purpose:**

To develop malaria vaccines for use in control programs in the developing world. Through a cadre of partners dedicated to the malaria vaccine development enterprise, MVDP maintains a pipeline of candidate vaccines in preclinical, clinical and field evaluation.

## **Services Provided:**

The USAID MVDP has been successful in building strategic partnerships with some of the most capable malaria vaccine groups in the world. Through these partnerships, the program's lead vaccine, developed with the Walter Reed Army Institute of Research (WRAIR) and GlaxoSmithKline Biologics (GSK) is undergoing field evaluation with support from the Malaria Vaccine Initiative (MVI) in Kenya and the National Institute of Allergy and Infectious Diseases (NIAID) in Mali. Vaccines in earlier stages of development are in the pipeline through efforts with WRAIR, the Naval medical research Institute (NMRC), NIAID and Maxygen, Inc.

Current agreements under the MVDP include:

- |  |                      |
|--|----------------------|
| •Walter Reed Army Institute of Research (WRAIR) Umbrella           | GHA-P-00-02-00002-00 |
| •Naval Medical Research Center (NMRC)                              | GHA-P-00-03-00006-00 |
| •Maxygen, Inc  | GHA-A-00-01-00009-01 |
| •National Institute of Allergy and Infectious Diseases (NIAID) IAA | AAG-P-00-97-00009    |

# NetMark Plus

**Project Number:** 936-5994.09  
**Agreement Type:** Cooperative Agreement  
**Agreement Number:** HRN-A-00-99-00016-00  
**Duration:** 09/99-09/07  
**Geographic Scope:** Africa Region

## **Purpose:**

NetMark Plus represents the cutting edge in public/private partnerships for prevention of malaria. Funded by the US Agency for International Development (USAID) and implemented by the Academy for Educational Development (AED), NetMark Plus is an eight year (September 1999 through September 2007), \$65.4 million dollar project designed to reduce the impact of malaria in sub-Saharan Africa through the increased use and sustainable supply of insecticide treated mosquito nets (ITNs), and insecticide treatment kits for nets, through partnership and joint investment with a wide range of international and local commercial partners.

## **Services Provided:**

AED's core partners on NetMark include the Malaria Consortium (UK), Group Africa, and FCB Advertising. Commercial partners include BASF, Bayer AG, Siamdutch Mosquito Netting Company, A-Z Textiles and Vestergaard Frandsen. AED is currently in negotiations with these companies and others for the expansion of the program throughout sub-Saharan Africa.

Since its launch in 1999 NetMark has worked closely with the commercial sector to identify and overcome the barriers to the creation of commercially viable markets for ITNs in Ghana, Nigeria, Senegal and Zambia that would lessen the burden on the public sector by creating demand and corresponding supply for those who can afford to pay, thereby allowing the public sector to use its limited resources to focus more on those most at risk and who cannot afford to pay.

In September 2002, USAID amended the cooperative agreement with AED to allow for an expansion of NetMark into new countries and broadening its mandate beyond the program's original focus on commercial expansion. Now named NetMark Plus, the program is designed to create better links between the three components of Roll Back Malaria's *Strategic Framework for Scaling Up Insecticide-Treated Netting (ITN) Programmes in Africa*: commercial expansion, subsidized time-limited interventions (market priming), and sustained equity provision interventions (targeted subsidies).

# New Environmental Health Activity

**Project Number:** 936-3122  
**Agreement Type:** IQC  
**Agreement Number:** TBD  
**Duration:** 07/04-06/09  
**Geographic Scope:** Worldwide

## **Purpose:**

To reduce environmentally-related mortality and morbidity in both urban and rural settings, the GH Bureau is procuring two FY04 awards under the new Environmental Health Activity, a follow-on to the Environmental Health Project (EHP) (936-5994.10) which ends Sept. 2003.

The objective of the Hygiene Improvement award is to achieve large-scale implementation of targeted interventions, point-of-use water quality improvement, effective hand washing; and use of sanitation - using a combination of hardware and behavior change interventions, including the policy, human resource, community organization, private sector involvement, and institutional components required to sustain such interventions over the long term. Hygiene improvement is designed to support diverse objectives in child health and nutrition, infectious diseases control, HIV/AIDS care and support, and maternal health, as well as activities in non-health sectors for which hygiene outcomes are important, such as water supply and sanitation infrastructure activities.

The objective of a second, more general, Environmental Health award is to provide access to a broad range of expertise in interventions to reduce exposure to agents of disease and to hazards, which exacerbate disease, by focusing on improvements in the physical environment and in key behaviors. Examples of such capabilities include community water supply and sanitation infrastructure; reducing toxic substance exposure; reducing air pollution; hygiene and infection control in medical facilities, including medical waste disposal; evaluating environment impacts in infectious disease emergence and control; and the health dimensions of environmental disasters.?

## **Services Provided:**

Global Health (GH) anticipates two sets of awards in early summer 2004: (1) a single award Indefinite Quantity Contract (IQC) in Hygiene Improvement; and (2) a multiple award IQC for Environmental Health. Missions can access the Hygiene Improvement award through field support or by issuing separate task orders and can access the general Environmental Health multiple award IQC through task orders.

Examples of services to be provided under both mechanisms include short-term and long-term technical assistance, training, information support, and implementation.

**Means of Access:** Field Support, Task Orders negotiated in missions.

**AID/W**  
CTO: John Borazzo  
GH/HIDN/ID

# Tuberculosis Coalition For Technical Assistance (TBCTA)

**Project Number:** 936-3100.05  
**Agreement Type:** Cooperative Agreement  
**Agreement Number:** HRN-A-00-00-00018-00  
**Duration:** 09/00-09/05  
**Geographic Scope:** Worldwide

## **Purpose:**

Improve and expand the capacity of USAID to respond to the global tuberculosis epidemic by providing state-of-the-art, context-appropriate, technically sound, and cost-effective consultation and technical assistance to high-burden countries and other USAID priority countries.

## **Services Provided:**

The TB Coalition is a partnership of five leading international organizations and NGOs involved in global TB control. The Coalition includes: the Royal Netherlands Tuberculosis Association (KNCV); the International Union against Tuberculosis and Lung Disease (IUATLD); the American Lung Association (ALA); the American Thoracic Society (ATS); and the World Health Organization (WHO). The Centers for Disease Control (CDC) collaborates with the Coalition by sitting on the Board of Directors. KNCV is responsible for management of the agreement.

Working through USAID and its local partners (public, private, NGO, donor) in developing countries, the TBCTA assists in accelerating the implementation and expansion of DOTS (directly observed treatment, short-course) strategies through the following:

- providing policy and programmatic guidance at the national and local level;
- building institutional and technical capacity for TB control and prevention;
- training quality technical assistants and assisting in the access to qualified TB consultants;
- improving the integration of TB efforts into primary care services;
- establishing or strengthening the linkages between TB control programs and HIV/AIDS prevention and treatment programs;
- guiding operations research to improve DOTS and TB services;
- assisting in monitoring and reporting of DOTS expansion efforts;
- supporting advocacy and communication efforts for TB control and prevention.

Examples of specific activities undertaken by the TBCTA include: country assessments; assistance with program and project development; program review and monitoring; technical training and workshops; support for intra- and inter-country strategies; operations research; technical support to countries for applications for the Global Fund (GFATM) and Global TB Drug Facility; multiple-drug resistance activities; TB laboratory strengthening; and regional TB program evaluations.

# Applied Research in Child Health (ARCH)

**Project Number:** 936-5986.09  
**Agreement Type:** Cooperative Agreement  
**Agreement Number:** HRN-A-00-96-90010  
**Duration:** 09/96-09/04  
**Geographic Scope:** Worldwide

## **Purpose:**

The ARCH Project, a partner in the Child Health Research Project, supports policy relevant applied and operations research efforts that are initiated, designed, and managed by host country scientists and institutions. ARCH provides technical assistance to USAID Missions in problem analysis and design of health programs.

## **Services Provided:**

ARCH works in four broad themes:

### **Theme I: Interventions to Improve Child Survival**

- Improving ARI and diarrheal diseases prevention and case management through testing of improved behavioral, micronutrient and clinical approaches; and,
- Improving the use of medicines, especially antimicrobials, that contribute to the emergence of antimicrobial resistance.

### **Theme II: Economic Analyses and Health:**

- Conducting burden of antimicrobial resistance on health systems and facilities;
- Assessing benefits of greater investments in expanded HIV prevention and HIV/AIDS treatment; and,
- Analyzing the impact of HIV/AIDS epidemic on private sector firms and government institutions.

### **Theme III: Understanding the Social and Economic Impact of the HIV Epidemic**

- Identifying and developing interventions to address the health needs of orphans.
- Policy analysis of the “burden shift” of the costs of responding to the epidemic among business, government, and households.

### **Theme IV: Malaria and Child Survival**

- Institutional Collaboration grant with National Malaria Control Program in Zambia
- Bilateral malaria research programs in Zambia and Nigeria

# Basic Support for Institutionalizing Child Survival III (BASICS III)

**Project Number:** TBD  
**Agreement Type:** TBD  
**Agreement Number:** TBD  
**Duration:** TBD  
**Geographic Scope:** TBD

## **Purpose:**

To support USAID Bureaus and Missions in the implementation of their Strategic Objectives pertaining to Child Health and Nutrition.

## **Services Provided:**

USAID plans to issue a five-year RFP for a single-award IQC with a ceiling of \$250 million, to be called BASICS III. BASICS III will focus on expanding the use of proven child health and nutrition interventions in USAID-supported countries and will be a source of technical assistance to USAID Global Health Bureau's global technical leadership function.

BASICS III will focus on priority areas of unmet need in nutrition, pneumonia, diarrhea, malaria, neonatal health and HIV/AIDS. It may also be called on to provide support for interventions in birth-spacing and humanitarian assistance. In increasing the use of proven child health and nutrition interventions, BASICS III's programs and activities will simultaneously strengthen the health systems of countries. It will also advance policy and global leadership for child health, providing services to AID/W and Missions for international and national forums, global and national advocacy activities and the formulation and implementation of child health policies and strategies. Finally, BASICS III will identify, adapt, apply and transfer cost-effective approaches for achieving improved coverage and outcome-level results for child health and nutrition interventions.

During the life of the contract, BASICS III will collaborate with and provide support to Private Voluntary Organizations in these priority areas and utilize the learning and experiences of PVOs in community-based approaches to expand coverage at regional and national levels.

**Means of Access:** TBD

# Basic Support for Institutionalizing Child Survival *Immunization* (BASICS *Immunization*)

**Project Number:** TBD  
**Agreement Type:** TBD  
**Agreement Number:** TBD  
**Duration:** TBD  
**Geographic Scope:** TBD

## **Purpose:**

To support USAID Bureaus and Missions in the implementation of their Strategic Objectives pertaining to Immunization.

## **Services Provided:**

USAID plans to issue a five-year RFA for a Cooperative Agreement with a ceiling of \$25 million, to be called *BASICS Immunization*. *BASICS Immunization* will focus on providing technical guidance, design assistance and targeted problem-solving to improve immunization services in USAID-supported countries and also will be a source of technical assistance to USAID Global Health Bureau's global technical leadership function.

*BASICS Immunization* will focus substantial attention on improving the operational aspects of routine immunization programs to ensure that all children have access to high-quality vaccines that are safe, effective and delivered in a timely manner. It will also provide support to immunization financing efforts by forming partnership relationships with Missions to provide technical assistance to countries that are seeking sustainable ways to finance their immunization programs, and by providing limited support to multilateral groups to strengthen the global effort to improve immunization financing.

*BASICS Immunization* may also be called on to provide assistance to AID/W and Missions to reduce childhood morbidity and mortality from measles, polio and neonatal tetanus, and may address issues related to technology development and introduction, vaccine research and development, vaccine introduction, injection safety and vaccine security.

**Means of Access:** TBD

# The CHANGE Project

## Behavior Change Innovation/State-of-the-Art Activity

**Project Number:** 936-3096.04  
**Agreement Type:** Cooperative Agreement  
**Agreement Number:** HRN-A-00-98-00044-00  
**Duration:** 09/98-09/04  
**Geographic Scope:** Worldwide

### **Purpose:**

To provide a focused source of leadership and technical assistance on behavior change to PHN programs worldwide. The purpose of the project is to develop and apply new, state-of-the-art techniques for behavior change that will allow missions to increase the impact, sustainability, scale and cost-effectiveness of their interventions in child health, maternal health, and nutrition.

### **Services Provided:**

Over 25 years of IEC (information, education, and communication) and social marketing interventions have resulted in numerous solid successes for PHN programs. The CHANGE Project is designed to develop and apply innovative new tools and approaches drawn from the full range of disciplines in the field of applied behavior change to help missions close “knowledge-behavior” gaps and address behavior change at many levels. Some of the new approaches being developed and applied by CHANGE include:

- tools to produce supportive policy and institutional environments through techniques of structural or organizational change;
- techniques to accomplish group and community change through normative and relational change approaches;
- improved techniques for individual behavior change;
- improved approaches to social marketing; and
- application of leading edge technologies in media and communication.

CHANGE can work with regional bureaus and field missions to implement new behavior change programs or can work with existing cooperating agencies and contractors to strengthen existing programs by introducing and supporting new approaches. CHANGE also can provide strategic review and guidance for existing programs and programs under development.

**Means of Access:** Can no longer accept new monies

## Country Research Activity (CRA)

**Project Number:** 936-3116.02  
**Agreement Type:** Leader With Associate Cooperative Agreement  
**Agreement Number:** GHS-A-00-03-00020  
**Duration:** 09/03-09/08  
**Geographic Scope:** Worldwide

### **Purpose:**

As part of the new Health Research Program (HaRP) commitment to accelerating research and the translation/introduction of research into use, the Country Research Activity (CRA) is a newly awarded leader with associate cooperative agreement that will be highly responsive to the operational research, health services, program research, and evaluation needs of the field. The CRA will address locally relevant needs through the identification, development, and testing of new and improved tools, technologies, approaches and policies and/or interventions to improve the health of infants, children, mothers, and families in developing countries. As appropriate, the CRA will collaborate with host governments, NGOs, and other relevant partners, including USAID bilateral and global projects, in undertaking country specific health studies and introductory activities.

### **Services Provided:**

- Respond to mission/country specific priorities and locally relevant studies and research needs
- Contribute to national evidence-based decision making and program improvement in host government programs and NGOs
- Engage relevant local partners, including NGOs, in research and in the translation and introduction of research results
- Strengthen national research capacity and engage new host country partners
- Solicit research competitions and manage sub-awards between US and host country institutions
- Conduct policy analyses

Partners and subcontractors include the CORE Group and its PVO members, Harvard School of Public Health, Harvard Medical School/ Drug Policy Group, Tufts/New England Medical Center, the International Clinical Epidemiology Network (INCLEN), ICDDR,B: Center for Health and Population Research, Johns Hopkins University/Bloomberg School of Public Health, KEMRI-Wellcome Trust/Oxford University Collaborative Research Program

# Family Health and Child Survival (FHACS)

**Project Number:** 936-5986.05  
**Agreement Type:** Cooperative Agreement  
**Agreement Number:** HRN-A-00-96-90006  
**Duration:** 05/96-09/04  
**Geographic Scope:** Worldwide

## **Purpose:**

The Johns Hopkins's Family Health and Child Survival (FHACS) cooperative agreement identifies new technologies and methods for improving child survival and family health. The emphasis is on the development of effective and integrated services that impact child survival and control of infectious diseases and nutritional deficiency in developing countries.

## **Services Provided:**

FHACS develops and evaluates the feasibility and cost-effectiveness of new interventions and approaches to reducing child morbidity and mortality. It conducts applied, operations and evaluation research. Priority areas include:

- Determination of burden of disease for acute respiratory infections, diarrheal diseases and malnutrition including ascertaining risk factors;
- Reduction of neonatal morbidity and mortality;
- Evaluation of vaccines and development of diagnostics for acute respiratory infections and multi-drug resistant tuberculosis;
- Development and delivery of interventions to address malnutrition and micronutrient deficiencies; and
- Development of new approaches to treat and control malaria, tuberculosis, and other infectious diseases.

Recent achievements and ongoing efforts include:

- Demonstration that zinc supplementation reduces childhood morbidity due to pneumonia and diarrhea and may also reduce all-cause mortality;
- Finding of high efficacy of pneumococcal vaccine in prevention of meningitis;
- A community-based treatment of neonatal sepsis and pneumonia;
- Recommendations for neonatal and perinatal health interventions that can be implemented into programs

**Means of Access:** Cannot accept new monies

# Global Research Activity (GRA)

**Project Number:** 936-3116.01  
**Agreement Type:** Leader With Associate Cooperative Agreement  
**Agreement Number:** GHS-A-00-03-00019  
**Duration:** 09/03-09/08  
**Geographic Scope:** Worldwide

## Purpose:

As part of the new HeAlth Research Program (HaRP) commitment to accelerating research and the translation/introduction of research into use, the Global Research Activity (GRA) is a newly awarded leader with associate cooperative agreement that has the capability to conduct multi-disciplinary, multi-country research, evaluations, operations research, and introductory activities with a wide range of existing and new partners/institutions to develop and test new/refined tools, technologies, approaches, policies and/or interventions to improve the health of infants, children, mothers, and families in developing countries. With WHO and other partners, the GRA will help establish global prevention and treatment guidelines, standards and norms and provide the evidence-base for effective health and nutrition programs.

## Services Provided:

- Respond to global public health priorities and challenges
- Conduct multi-disciplinary, multi-country research, evaluations, health services/operations research, and introductory activities with a wide range of existing and new partners/institutions.
- Work with WHO and other partners to help establish global prevention and treatment guidelines, standards and norms and provide the evidence base for effective health and nutrition programs.

Partners and subcontractors include the Boston University/Center for Health and Development, Helen Keller International, the International Clinical Epidemiology Network (INCLIN), ICDDR,B: Center for Health and Population Research, and Save the Children/USA.

**Means of Access:** Field Support

# Health and Emergency Response Support (NGO's: Polio Eradication, Immunization, MCH)

**Project Number:** 936-3080.04  
**Agreement Number:** HRN-A-00-98-00053-00  
**Duration:** 09/98-09/07  
**Geographic Scope:** Africa/Asia

## **Purpose:**

To increase PVO participation in polio eradication, immunization, vitamin A activities and to improve case detection of acute flaccid paralysis (AFP) and other reportable diseases in underserved or hard to reach populations in India, Nepal, Angola and Ethiopia.

## **Services Provided:**

The CORE group is a network of 35 US-based private voluntary organizations that have received funding from the USAID Bureau of Humanitarian Response's child survival grants in the past for improving maternal and child health in underserved populations. This agreement strengthens the network and builds upon ongoing field programs of CORE members. This grant supports:

- community-based case detection and reporting strategies for acute flaccid paralysis and other vaccine preventable diseases. These strategies will complement and enhance the facility-based approaches being developed by other implementing agencies;
- training and information dissemination about polio eradication and AFP/integrated disease case detection and reporting;
- participation of PVOs in interagency committees and subnational planning events and supplemental immunization activities (NIDs, SNIDs, mop-up).

The grant supports USAID's five-part polio eradication strategy:

- partnerships between all interested public and private sector parties through interagency coordinating committees (ICCs) and advocacy activities to promote the program;
- routine immunization and immunization systems: cold chain refurbishment/management/logistics, vaccine forecasting, planning and budgeting at the district and national levels;
- supplemental immunization through training, operational support to National Immunization Days (NIDs), social mobilization, house-to-house mop up immunization, consideration of vitamin A and other antigens;
- surveillance and case detection for AFP and other reportable diseases such as measles, neonatal tetanus, yellow fever, and meningitis at the community and facility level and to support the polio laboratory network;
- information feedback and use, e.g. operations research, monitoring and evaluation, information dissemination, and progress towards certification.

# Health and Emergency Response Support (WHO: Polio, Immunizations, CS, ID)

**Project Number:** 936-3080.03  
**Agreement Type:** Grant  
**Agreement Number:** AAG-G-00-97-00019-00  
**Duration:** 06/95-09/07  
**Geographic Scope:** Worldwide

## **Purpose:**

To implement activities to eradicate polio; improve immunization services; and improve disease surveillance.

## **Services Provided:**

This grant supports activities implemented through WHO country, regional and headquarter offices in support of polio eradication in the context of strengthening immunization and disease control programs.

The grant supports USAID's five-part polio eradication strategy:

- partnerships between all interested public and private sector parties through interagency coordinating committees (ICCs) and advocacy activities to promote the program;
- routine immunization and immunization systems: cold chain refurbishment/management/logistics, vaccine forecasting, planning and budgeting at the district and national levels;
- supplemental immunization through training, operational support to National Immunization Days (NIDs), social mobilization, house-to-house mop up immunization, consideration of vitamin A and other antigens;
- surveillance and case detection for AFP and other reportable diseases such as measles, neonatal tetanus, yellow fever, and meningitis at the community and facility level and to support the polio laboratory network;
- information feedback and use, e.g. operations research, monitoring and evaluation, information dissemination, and progress towards certification.

# Health and Immunization Response Support (UNICEF Umbrella Grant: Polio, EPI, MCH)

**Project Number:** 936-3080.01  
**Agreement Type:** Grant  
**Agreement Number:** AAG-G-00-97-00021-00  
**Duration:** 06/95-09/07  
**Geographic Scope:** Worldwide

## **Purpose:**

To implement activities designed to improve child and maternal health worldwide, including: polio eradication efforts; routine immunization; Integrated Management of Childhood Illness (IMCI); micronutrient fortification and supplementation programs (specifically iodine and vitamin A); and other MCH activities.

## **Services Provided:**

This grant funds activities implemented through UNICEF's country, regional and headquarter offices in support of a wide range of MCH interventions. Country-specific proposals are needed to define the activities to be conducted in support of national programs and USAID mission strategic plans. In general, activities can focus on improving service delivery, planning and training, monitoring and evaluation, advocacy and communications, limited equipment procurement (e.g. cold chain) and policy development.

**Means of Access:** Field Support

# HealthTech IV

**Project Number:** 936-3096.07  
**Agreement Type:** Cooperative Agreement  
**Agreement Number:** GPH-A-00-01-00005  
**Duration:** 09/01-09/06  
**Geographic Scope:** Worldwide

## **Purpose:**

HealthTech develops, adapts, evaluates and/or facilitates the introduction of affordable and appropriate innovative technology solutions that can significantly contribute to addressing identified impediments to the safe, effective, and more equitable distribution of health care services in low-resource countries.

## **Services Provided:**

For over 15 years, USAID has supported the development, adaptation and advancement of innovative technology solutions to address health needs related to the prevention and treatment of disease in the developing world. Most technologies are developed in partnership with private sector companies and international health organizations.

Technologies successfully developed and already available on the market include:

- SoloShot: the first auto-destruct syringe device, available globally through UNICEF;
- UniJect: a pre-filled, single-dose injection system usable with multiple medicaments including vaccines, injectable contraceptives, and uterotonics;
- Vaccine Vial Monitors: time/temperature-sensitive indicators on individual vials of vaccines, which can alarm health workers about unacceptable heat exposure;
- Affordable, point-of-care diagnostic for malaria, which allows patients to be diagnosed and treated on the same day; and
- HIV Dipstick: an affordable, simple HIV test that exceeds WHO standards.

Other technologies under development include:

- Affordable, point-of-care diagnostics for tuberculosis, chlamydia and gonorrhea;
- Inexpensive test to assess vitamin A status in populations.
- Medical waste disposal technologies; and
- Inexpensive jet injector for delivery of vaccines without a needle.

In addition, the HealthTech project offers technology-related services and assistance as requested by Missions or Bureaus.

# Initiative for Maternal Mortality Programme Assessment (IMMPACT)

**Project Number:** 936-3092.04  
**Agreement Type:** Special Initiative  
**Agreement Number:** GPH-00-02-00015-00  
**Duration:** 09/02-09/06  
**Geographic Scope:** Worldwide

## **Purpose:**

To strengthen the evidence base for safe motherhood.

This global initiative will respond to the needs of decision makers who are faced with allocating scarce health resources to intervention strategies of unproven benefit for reducing maternal mortality and severe morbidity, by determining effective and cost-effective strategies and their implications for equity and sustainability.

To generate this new knowledge, IMMPACT will develop the crucial methods and tools needed for measuring outcomes relevant to safe motherhood and for attributing change to specific intervention strategies. This work will be undertaken within the first four years of the initiative through an integrated network of country technical partners and international experts. Alongside the essential development research, IMMPACT will also strengthen capacity for rigorous outcome evaluation in the focus countries, starting in Burkina Faso, Ghana and Indonesia. Other countries may be added at a later date.

International technical partners include University of Aberdeen working in partnership with University of York, London School of Hygiene and Tropical Medicine, Institute of Tropical Medicine at Antwerp, and a North American consortium of institutions coordinated by Johns Hopkins University. An alliance supporting this major international research program includes the Bill and Melinda Gates Foundation, the Department for International Development, the Wellcome Trust, the World Bank, WHO and UNFPA.

# International Broadcasting Bureau/Voice of America

**Project Number:** 936-3096.10  
**Agreement Type:** Cooperative Agreement  
**Agreement Number:** AAG-P-00-01-00001  
**Duration:** 04/01-09/05  
**Geographic Scope:** Worldwide

## **Purpose:**

Through special programming developed by the Voice of America radio and TV operations, IBB has become a partner in public health reporting.

## **Services Provided:**

Polio: The polio-related programming seeks to keep the world's attention on the effort through realistic reporting on the global eradication effort as well as to provide accurate health messages and news reports designed to mobilize adults to immunize children during National Immunization Days and routinely throughout the year. The Initiative also seeks to influence the media in targeted countries to continue providing coverage of National Immunization Days and to generate interest among political elites for continued support of the eradication effort. Funding under this agreement provides for travel and related activities by the Voice of America radio staff in targeted countries in Africa, South and Central Asia and the Near East where eradication is yet to be achieved.

Other areas: Language Service reporters also travel to Africa, Latin America, South and Central Asia to carry out intensive reporting and feature stories for radio and television on key public health issues, including: antimicrobial resistance, HIV/AIDS, tuberculosis, malaria and reproductive health.

The agreement includes an activity to develop a CD-ROM for training health journalists in developing countries, specifically focusing on Reproductive Health, HIV/AIDS, disasters and polio. The CD-ROM is in use in journalism and communication schools as well as with working journalists.

# International Clinical Epidemiology Network (INCLEN)

**Project Number:** 936-5986.12  
**Agreement Type:** Cooperative Agreement  
**Agreement Number:** HRN-G-00-99-00003  
**Duration:** 03/99-09/04  
**Geographic Scope:** Worldwide

## **Purpose:**

INCLEN, a network of leading host country clinical epidemiologists, health economists, social scientists, healthcare providers and applied researchers, conducts training to build capacity and utilizes state-of-the-art epidemiological research methods to identify health threats and to analyze the efficacy, efficiency, and equity of health interventions and preventive measures.

## **Services Provided:**

INCLEN's network operates in 24 developing countries including India, Philippines, Thailand, Indonesia, and Brazil. INCLEN's host country scientists conduct relevant studies to provide solutions to improve the health of people. The INCLEN networks address country-specific, interregional, and international child survival challenges. INCLEN assists USAID Missions and AID/W by conducting surveillance, assessments, and evaluations including:

- Surveillance approaches for malaria, tuberculosis, STIs, and other infectious diseases;
- Creating Indian sentinel surveillance sites in hospitals and the community to monitor the magnitude of pneumococcal disease and antimicrobial resistance of ARI pathogens;
- Improving birth outcomes by establishing a reproductive health network that can better diagnose and treat group B strep and bacterial vaginosis, decreasing the incidence of prematurity and low birth weight;
- Fostering a focused child health research network (INCLEN ChildNET), with members from Asia, Africa and Latin America, to address outstanding health research priorities such as ARI, malaria, and nutrition.

Recent achievements and ongoing efforts include:

- Establishment of IndiaCLEN Invasive Bacterial Infection Surveillance, which demonstrated that H. influenza is the most common cause of childhood bacterial meningitis in India and suggested the use of the Hib vaccine will prevent up to 97% of all invasive haemophilus disease seen in hospitals in India;
- Surveillance of antimicrobial resistance of ARI pathogens in hospitals and in the community in India; and,
- Impact assessment of National Immunization Days for Polio on primary care programs.

# Maternal and Neonatal Health Program (MNH)

**Project Number:** 936.3092.01  
**Agreement Number:** HRN-A-00-98-00043-00  
**Duration:** 10/98-09/04  
**Geographic Scope:** Worldwide

## **Purpose:**

The Maternal and Neonatal Health Program (MNH) is the principal USAID initiative for applying, testing and implementing new approaches and technologies to reduce maternal and newborn deaths in developing countries.

## **Services Provided:**

The Maternal and Neonatal Health Program directly supports the Agency's goal of reducing deaths, nutrition insecurity and adverse health outcomes to women as a result of pregnancy and childbirth, and has significant impact on infant and child survival. The program provides short- and long term technical assistance to countries to increase the use of appropriate maternal and neonatal health and nutrition practices and services. A systems approach is used in the following focus areas:

- integration of appropriate maternal nutrition interventions into programs;
- improved birth preparedness, including awareness, access, community planning and appropriate antenatal care;
- improved management of complications; and
- improved safe delivery, postpartum and newborn care.

The program is intended to increase the demand for and supply of maternal health services through community, family, and women's participation, and to create enabling health systems through policy development and advocacy, research, human resources and management interventions, and strengthened service delivery and quality assurance practices.

Partners: The Centre for Development and Population Activities (CEDPA); Johns Hopkins University Center for Communication Programs (JHU/CCP); and Program for Appropriate Technology in Health (PATH).

# Technical Assistance and Support Contract (TASC) II

**Project Number:** 936-3106.01  
**Agreement Type:** IQC  
**Agreement Number:** Multiple  
**Duration:** 09/03-09/08  
**Geographic Scope:** Worldwide

## **Purpose:**

TASC2 is designed to allow USAID Missions and Bureau to easily access high quality technical assistance and support for their activities in maternal and child health, nutrition, infectious disease, and HIV/AIDS. TASC2 works worldwide and has three separate tiers of contractors.

- The first tier, TASC2-Global Health, contains 10 contractors and many subcontractors, covering the entire spectrum of USAID-supported health, infectious diseases, and population areas.
- The second tier, TASC2-TB, consists of three contractors and a score of subcontractors, specializing in TB activities.
- The third tier, TASC2-Media/Communication, consists of three contractors and a different set of subcontractors, specializing in a wide range of media, PR, press relations and communications activities.

Assistance procured through a task order with any one of the 16 TASC2 prime contractors can be long-term or intermittent, depending on mission or bureau requirements. Task orders awarded under TASC2 can extend up to 36 months beyond the end date of the contract, September 30, 2008, as long as they are awarded before that end date. Task orders are developed, awarded and managed by the requesting unit (the USAID Mission or Bureau). The Global Health Bureau in Washington provides guidance and assistance when requested (please send the request to Elizabeth Fox).

## **Services Provided:**

The combination of prime and subcontractors available under the three TASC2 tiers (see the directory) provides a diverse mix of talents, skills, and experience as well as opportunities to work with many new partners. TASC2 also includes two small business set asides among its prime contractors and many more among its subcontractors.

**Means of Access:** Direct Task Order

# Vaccine Endowment

**Project Number:** 936-3096.08  
**Agreement Type:** Grant  
**Agreement Number:** GPH-A-00-01-00018-00  
**Duration:** 10/01-09/06  
**Geographic Scope:** Armenia

## **Purpose:**

An innovative public-private partnership model designed to explore an alternative approach to creating a sustainable financial source for childhood vaccines provided through National Immunization Programs.

## **Services provided:**

This activity is a community effort of the Armenian Diaspora to create an endowment that will ensure a reliable financial source for the vaccine provided through the Government of Armenia's National Immunization Program. The Ani & Narod Memorial Fund (ANMF) is spearheading a three-tier fund-raising campaign targeted at the Armenian Diaspora and other donors. Given the small birth cohort in Armenia approximately \$1.4-1.6 million is needed for the endowment core, which will generate an annual income of approximately \$100,000. USAID/Yerevan and USAID/Washington have collectively contributed \$400,000. ANMF will be responsible for fund-raising the matching contribution that will generate the annual income for the vaccine. ANMF is serving as a member of the Armenian Immunization Coordinating Committee and will be procuring vaccine through UNICEF in compliance with the Armenian National Immunization Plan.

This activity creates the opportunity to identify a model that:

- Addresses the gaps in financial support that occur from donor fatigue;
- Leverages funds, while releasing future USAID funds for other health activities;
- Creates a sustainable supply of vaccine to prevent childhood illness and death;
- Breaks the cycle of donor dependence;
- Uses UNICEF as a procurement agent to address concerns regarding quality assurance and delivery of vaccine; and
- Constitutes an innovative public-private partnership between USAID and a PVO, which explores a potentially replicable model to secure financial support for vaccines.

# World Health Organization/Child and Adolescent Health and Development (WHO/CAH)

**Project Number:** 936-3100.02  
**Agreement Type:** Grant  
**Agreement Number:** AAG-G-00-99-00005-00  
**Duration:** 09/99-09/08  
**Geographic Scope:** Worldwide

## **Purpose:**

To identify, sustain, and increase the effectiveness of strategies/technologies that advance child survival in developing countries. A partner in the Health Research Program (HaRP), WHO/CAH refines existing technologies and develops new and cost-effective interventions to reduce mortality and morbidity associated with major childhood illnesses. Results of these efforts establish guidelines, standards and policies used by practitioners in hospitals, clinics, and community settings.

## **Services Provided:**

WHO/CAH, works with global partners including applied researchers, bilateral agencies, foundations, and host countries to:

- Monitor and coordinate research that will result in new interventions, methodologies, and/or the establishment of global guidelines for case management and prevention of the major causes of neonatal and childhood mortality and morbidity - acute respiratory infections, diarrheal diseases, malaria, malnutrition and micronutrient deficiencies; low birth weight, and sepsis;
- Facilitate health services and operations research for the implementation of best practices in case management and the development of training modules; and,
- Monitor and evaluate progress of advances in child health.

Recent achievements and ongoing efforts include:

- Identification, validation, and planning for the use of zinc in the treatment of acute diarrhea in children;
- Implementation, adaptation, and evaluation of the Integrated Management of Childhood Illness (IMCI) approach;
- Identification and potential treatments for the major causes of infectious illness in neonates;
- Demonstration of new vaccine efficacy prior to incorporation into vaccine programs;
- Development of strategies for families and healthcare providers to prevent disease and increase care seeking; and,
- Reduction of infectious disease mortality with exclusive breastfeeding.

# Child Survival Grants Program

**Project Number:** 936-3114  
**Agreement Type:** See Subgrants \*  
**Agreement Number:** See Subgrants \*  
**Duration:** See Subgrants \*  
**Geographic Scope:** Worldwide

## **Purpose:**

The Bureau for Global Health's (GH) Office of Health, Infectious Diseases & Nutrition (HIDN) Child Survival & Health Grants Program (CSHGP) facilitates a productive partnership between USAID and private and voluntary organizations (PVOs). Together, CSHGP and PVOs support community-oriented health and child survival programs that measurably improve infant and child health, nutrition, and maternal health and that contribute to the reduction of infant and child mortality in countries throughout the world.

## **Services Provided:**

The Child Survival & Health Grants Program supports U.S.-based PVOs and their local partners to carry out effective, quality child and maternal health and nutrition, family planning, HIV/AIDS and infectious disease programs that measurably improve infant, child and maternal health and nutrition, and contribute to the reduction of infant, child and maternal mortality.

The CSHGP provides resources, training and technical assistance to PVOs so that they:

- achieve their program objectives to measurably and equitably improve the health of children and mothers;
- increase collaboration with USAID Missions and other donors/agencies that implement programs in-country with the goal to extend the reach and impact of the PVO programs through successful models;
- build the capacity of local partners/NGOs to design, implement and evaluate quality child survival and health programs; and
- increase U.S. public awareness of the worldwide PVO contributions to child survival and maternal health..

# Food and Nutrition Technical Assistance (FANTA)

**Project Number:** 936-3094.01  
**Agreement Type:** Cooperative Agreement  
**Agreement Number:** HRN-A-00-98-00046-00  
**Duration:** 08/98-09/08  
**Geographic Scope:** Worldwide

## **Purpose:**

FANTA provides technical leadership in nutrition and food security policy and programs. Specifically, FANTA provides technical support in policy dialog, problem assessment, program design, implementation, and monitoring and evaluation. Improving access to and consumption of a quality diet in sufficient quantity has a direct impact on economic and physical well-being. FANTA works with PVOs, USAID Missions, GH, DCHA, Regional Bureaus and host country governments.

## **Services Provided:**

- Integrate food security and nutrition strategies into the planning process for USAID and its partners;
- Improve food security and nutrition problem assessment, program design, program monitoring and impact evaluation;
- Provide technical support in the area of HIV/AIDS mitigation and nutritional care and support for HIV/AIDS affected communities;
- Provide state-of-the-art guidance on measurements of food security and maternal child health and nutrition programs.
- Provide training and facilitate exchange of nutrition and food security best practices and current technical and programming knowledge among stakeholders.

FANTA is implemented by the Academy for Educational Development. Partners include Food Aid Management, Cornell University, Tufts University, International Food Policy and Research Institute (IFPRI), Valid International, NicaSalud.

# **LINKAGES: Breastfeeding and LAM, and Related Maternal and Young Child Nutrition**

**Project Number:** 936-3082.01  
**Agreement Number:** HRN-A-00-97-00007-00  
**Duration:** 11/96-10/06  
**Geographic Scope:** Worldwide

## **Purpose:**

LINKAGES is the principal USAID initiative for improving breastfeeding (BF), Lactational Amenorrhea Method (LAM), and related maternal and child dietary practices. The focus of the program is on mainstreaming BF, LAM, and related complementary feeding and maternal dietary practices into ongoing Child Survival (CS), Maternal and Child Health (MCH), Family Planning (FP) and Emergency Relief Programs. The program also addresses Mother-to-Child Transmission (MTCT) issues in countries with high HIV prevalence, by providing accurate technical information and counseling, to enable women to make informed decisions about infant feeding.

## **Services Provided:**

- Technical support to assist CAs, PVOs, NGOs, public sector programs, and other donors improve their BF, LAM, and related infant and young child feeding and maternal nutrition activities; and focusing on mainstreaming these activities at all levels of service delivery, IEC, curricula, and monitoring and evaluation tools in MCH and FP programming.
- Development and testing of community-based strategies, peer counseling and other models, while linking to ongoing efforts in Baby-Friendly Hospital Initiatives (BFHI) and Integrated Management of Childhood Illness (IMCI)
- Interventions in cooperation with large PVO networks and scaling up proven strategies and technologies.
- Program-driven research such as operations research, cost-effectiveness, and country program assessments, with in-depth cross-site analysis and smaller focused studies of intervention components.

# Micronutrient Global Leadership

**Project Number:** 936-5122.07  
**Agreement Type:** Cooperative Agreement  
**Agreement Number:** HRN-A-00-98-00027-00  
**Duration:** 10/98-09/05  
**Geographic Scope:** Worldwide

## **Purpose:**

The Micronutrient Global Leadership provides scientific support to the leadership efforts of USAID to eliminate vitamin A deficiency and significantly reduce iron deficiency anemia.

## **Services Provided:**

There are three components covered by the Micronutrient Global Leadership agreement. The first is the International Vitamin A Consultative Group (IVACG), which has been supported by USAID for 20 years. IVACG provides policy statements and state-of-the-art reviews of scientific questions of critical importance to the implementation of vitamin A deficiency control programs. IVACG also provides an exchange mechanism for scientific and programmatic information through its international meetings held every 18 months. The second component is the International Nutritional Anemia Consultative Group (INACG), which has also received support from USAID for 20 years. INACG provides policy guidance on issues critical to the implementation of iron deficiency anemia control programs. INACG is also involved in generating broad support for action by developing countries to control iron deficiency anemia. The final component is the use of expert panel consultations and targeted operational research to provide a better understanding of the factors that contribute to successful replication and expansion of micronutrient deficiency intervention programs.

# The USAID Micronutrient Program (MOST)

**Project Number:** 936-3094.02  
**Agreement Type:** Cooperative Agreement  
**Agreement Number:** HRN-A-00-98-00047-00  
**Duration:** 09/98-09/05  
**Geographic Scope:** Worldwide

## **Purpose:**

The Micronutrient Operational Strategies and Technologies (MOST) Cooperative Agreement has as its primary purpose expanded and enhanced delivery of micronutrients to vulnerable populations through supplementation and food-based strategies, including fortification and dietary diversification. The activity is implemented by ISTI. Partners include: Johns Hopkins University (JHU); Helen Keller International (HKI); the Academy for Educational Development (AED); the International Food Policy Research Institute; Cooperative for Assistance and Relief Everywhere (CARE); Save the Children; Program for Appropriate Technology in Health (PATH); Population Services International (PSI); and the International Executive Service Corps (IESC).

## **Services Provided:**

MOST provides leadership in elevating micronutrients on the global health agenda, strengthening policies and programs, and sharing lessons learned about the most cost-effective technologies and delivery systems for alleviating micronutrient deficiencies. Under its mandate as USAID's flagship micronutrient project and in support of USAID's Enhanced Vitamin A Effort (VITA), MOST provides assistance to missions that are seeking to: (1) establish and maintain vitamin A adequacy in vulnerable populations, particularly young children and their mothers through a combination of supplementation and food-based approaches; (2) reduce iron deficiency anemia; (3) achieve reductions in iodine deficiency disorders. MOST takes a comprehensive approach to micronutrient deficiency reduction, targeting not only improved supply and delivery of micronutrients, but also generating and sustaining greater consumer demand. Attention is given to optimizing the mix of interventions, depending on the prevalence, distribution, and severity of micronutrient deficiencies in a country, the level of sophistication of the country's existing micronutrient programs, and the human and financial resources available. MOST engages the private sector as a partner with government, especially the food industry, to expand coverage and to establish mechanisms for sustaining successful programs. Economic analyses, as well as program evaluation, are applied to direct the evolution of the micronutrient policy and program mix in order to realize high coverage in an affordable manner over the long term.

# **Project Directory**

## **Office of Professional Development and Management Support**

**Director, Sharon Carney (Acting)**

**The projects in this section have been moved to the Bureau-wide section of the Users' Guide. The Bureau-wide section contains mechanisms to access non-direct hire technical and administrative personnel:**

- Cooperative Administrative Support Units (CASU) InterAgency Agreement
- Health and Child Survival Fellows (HCSF) Program
- Population Fellows Program (Michigan Fellows)
- Population Leaders Program (PLP)
- Program Activities Support (PAS) Support Services Contract
- Technical Advisors in Aids and Child Survival (TAACS)

These projects are managed within the Office of Professional Development and Management Support on behalf of the Bureau as a whole.

# Support for Analysis and Research in Africa

**Project Number:** N/A  
**Agreement Type:** Contract  
**Agreement Number:** AOT-C-00-99  
**Duration:** 09/99-09/04  
**Geographic Scope:** Sub-Saharan Africa Region

## **Purpose:**

To provide strategic expertise, services and support to the Bureau for Africa's Office of Sustainable Development (AFR/SD) to develop and promote adoption of policies and strategies for health and human resources development.

## **Services Provided:**

The project supports AFR/SD in identifying social sector issues and research gaps, developing the analytical agenda, providing management assistance for analysis, dissemination and advocacy, promoting African partnerships, strengthening African capacity, and monitoring and evaluation.

Services provided include:

- providing technical and administrative support to AFR/SD technical managers in child survival, infectious diseases, reproductive health, HIV/AIDS
- working closely with African institutions to promote AFR/SD objectives
- identify research gaps and solutions either through new research or analyzing existing data
- assist AFR/SD disseminate current knowledge and analysis systematically and strategically
- assist AFR/SD advocate for increased attention to and resources for key strategic issues
- identify and assist organizations link with others in similar areas to improve synergies and reduce duplication

# American International Health Alliance (AIHA)

**Project Number:** 110-0320  
**Agreement Type:** Leader With Associate Cooperative Agreement  
**Agreement Number:** Multiple  
**Duration:** 09/98-09/08  
**Geographic Scope:** Newly Independent States

## **Purpose:**

To advance health in the Newly Independent States (NIS) through volunteer-driven partnerships that mobilize communities to better address healthcare priorities, while improving the productivity and quality of care.

## **Services Provided:**

AIHA's broad-based partnership model enables individuals, institutions, and communities to unite their voluntary resources and energy to improve health care in several areas including:

- Restructuring local and regional healthcare delivery systems to improve health services at both in- and outpatient levels and establish coordinated approaches for prenatal care, emergency medicine and disaster response, nursing, home health services, and hospice care;
- Developing Women's Wellness Centers to provide comprehensive and integrated primary care services to women throughout the course of their lives;
- Reorganizing and improving health professions education and establishing baccalaureate- and graduate-level programs in both nursing and health management education;
- Establishing skills-based training centers and curricula in areas such as basic emergency care, infection control, neonatal resuscitation, and health management;
- Developing "healthy community" programs to mobilize citizens, community stakeholders, and local government agencies to take active ownership of their health and well-being at both a community and a personal level;
- Creating Learning Resource Centers to provide current, essential information for health professionals and to promote evidence-based practices; and
- Facilitating the development of dozens of professional associations and other non-governmental organizations to support a process of continuing reform.

Since 1992, AIHA has supported 100 partnerships involving health care providers and educators in 22 nations of Central and Eastern Europe and the Newly Independent States.

# American International Health Alliance (AIHA)

**Project Number:** 180-0320  
**Agreement Type:** Leader With Associate Cooperative Agreement  
**Agreement Number:** EUR-A-00-04-00016  
**Duration:** 02/94-02/04  
**Geographic Scope:** Central and Eastern Europe

## **Purpose:**

To advance health in Central and Eastern Europe through volunteer-driven partnerships that mobilize communities to better address healthcare priorities, while improving the productivity and quality of care.

## **Services Provided:**

AIHA's broad-based partnership model enables individuals, institutions, and communities to unite their voluntary resources and energy to improve health care in several areas including:

- Restructuring local and regional healthcare delivery systems to improve health services at both in- and outpatient levels and establish coordinated approaches for perinatal care, emergency medicine and disaster response, nursing, home health services, and hospice care;
- Developing Women's Wellness Centers to provide comprehensive and integrated primary care services to women throughout the course of their lives;
- Reorganizing and improving health professions education and establishing baccalaureate- and graduate-level programs in both nursing and health management education;
- Establishing skills-based training centers and curricula in areas such as basic emergency care, infection control, neonatal resuscitation, and health management;
- Developing "healthy community" programs to mobilize citizens, community stakeholders, and local government agencies to take active ownership of their health and well-being at both a community and a personal level;
- Creating Learning Resource Centers to provide current, essential information for health professionals and to promote evidence-based practices; and
- Facilitating the development of dozens of professional associations and other non-governmental organizations to support a process of continuing reform.

Since 1992, AIHA has supported 100 partnerships involving health care providers and educators in 22 nations of Central and Eastern Europe and the Newly Independent States.

The E&E Bureau plans to extend agreement beyond 2/04.

# LAC Health Sector Reform Initiative

**Project Number:** N/A  
**Agreement Type:** Grant  
**Agreement Number:** LAC-G-00-97-00007  
**Duration:** 07/96-09/04  
**Geographic Scope:** LAC Region

## **Purpose:**

Health sector reform is defined as a set of activities and efforts that aim to improve the performance of the health sector, by improving access, equity, quality, efficiency, and financial sustainability. These activities represent sustained efforts to achieve fundamental changes in the provision, financing, purchasing, and utilization of the public and private health sectors, and are guided by an overall legal and regulatory framework.

(Several Global Health projects are partners with PAHO in this initiative to provide specialized expertise in many of the sub-topics of health reform in the region.)

## **Services Provided:**

The Initiative contributes to reform processes by implementing regional activities that support informed decision-making on health policy and systems strengthening in three broad thematic areas: Organization and management, health financing, and human resources.

Activities include:

- Networking with regional actors in Health Sector Reform through participation in conferences, exchanges, etc.
- Development of tools and methodologies designed to assist with the health reform process
- Research into health reform trends and innovations within the region
- Maintenance of LAC Health Sector Reform Initiative website, which is available at [www.americas.health-sector-reform.org](http://www.americas.health-sector-reform.org)

# LAC Infectious Disease Initiative

**Project Number:** 598-003  
**Agreement Type:** Grant  
**Agreement Number:** LAC-G-00-99-00008-00  
**Duration:** 10/97-09/04  
**Geographic Scope:** LAC Region

## **Purpose:**

The Pan American Health Organization, working in concert with several global health partners, is addressing selected communicable diseases in the Americas. As a regional initiative, the ability to deal with cross-border issues, regional capacity development, and rapid diffusion of knowledge regarding trends in susceptibility, antimicrobial drug resistance, and prevalence is enhanced.

## **Services Provided:**

This initiative has three large components. They are:

**The Amazon Malaria Initiative:** This portion of the initiative works in the eight countries of the Amazon basin which account for over 86% of the malaria in the region. Policy changes are sought as disease patterns are identified, drug susceptibility established, and drug resistance monitored.

**Tuberculosis:** This portion of the initiative works in eleven priority countries of the region to establish patterns of drug resistance, promote expansion of DOTS, and build regional capacity through a fellows program.

**Antimicrobial Resistance:** This portion of the initiative works in nine priority countries to build laboratory capacity, support supra-reference laboratory development, develop sentinel surveillance sites, map resistance patterns, conduct costing studies of hospital acquired infections, and affect policy change based on rational treatment and changing resistance patterns through standardized treatment guidelines.

**Means of Access:** Not Applicable

# Vulnerable Children and War Victims Results Package: Victims of Torture Fund

**Project Number:** 936-3102  
**Agreement Type:** N/A  
**Agreement Number:** N/A  
**Duration:** N/A  
**Geographic Scope:** Worldwide

DCHA

## **Purpose:**

The Victims of Torture (VOT) Fund supports programs worldwide that assist in the rehabilitation of individuals who suffer from the physical and psychological effects of torture.

## **Services Provided:**

The VOT Fund primarily supports programs that help heal the psychological and physical trauma caused by torture. Additionally, the fund recognizes that communities, along with survivors, need to heal and recover. To this end, the fund supports programs that affirm the dignity of the survivor by restoring his or her position as a functioning and contributing member of the family and the community.

The fund works through nongovernmental organizations (NGOs) overseas that (1) provide direct services to survivors, their families, and communities; (2) strengthen the capacity of country-based institutions in their delivery of services to survivors; and (3) increase the level of knowledge and understanding about the needs of torture victims.

Currently, the fund is supporting an estimated total of 45 treatment programs that attend to the medical, psychological, and social needs of torture survivors and their families. These programs include advocacy, training, technical assistance, and research.

The Fund is coordinated and supported by the Office of Democracy and Governance, although most activities are implemented through grants and agreements that are managed by USAID Missions.

As part of its oversight and managerial responsibilities for the Fund, DCHA maintains a technical assistance contract with CESSI. This contract provides technical assistance and support for field missions that are interested in developing or are actively managing activities under the Fund.

# Vulnerable Children and War Victims Results Package: Displaced Children and Orphans Fund

**Project Number:** 936-3102  
**Agreement Type:** N/A  
**Agreement Number:** N/A  
**Duration:** N/A  
**Geographic Scope:** Worldwide

**Purpose:**

The Displaced Children and Orphans Fund (DCOF) provides financial and technical assistance for community-based programs that assist vulnerable children who are separated or orphaned and without parental or adult supervision.

**Services Provided:**

This fund is coordinated and supported by the Office of Democracy and Governance, although most activities are implemented through USAID Mission - managed grants and agreements.

The major portion of these funds are used to support programs activities and provide technical assistance for three categories of children who are at “extreme risk,” including street children, war-affected children and children affected by HIV/AIDS.

DCOF currently supports programs in 12 countries.

As part of its oversight and managerial responsibilities for the Fund DCHA maintains a technical assistance contract with CESSI. This contract provides technical assistance and support for field missions that are interested in developing or are actively managing field activities under the Fund.

**Means of Access:** Not Applicable

# Vulnerable Children and War Victims Results Package: The Patrick J. Leahy War Victims Fund

**Project Number:** 936-3102  
**Agreement Type:** N/A  
**Agreement Number:** N/A  
**Duration:** N/A  
**Geographic Scope:** Worldwide

DCHA

## **Purpose:**

The Patrick J. Leahy War Victims Fund (LWVF) provides a dedicated source of financial and technical assistance to programs that address the needs of people living with disabilities, primarily those who suffer from mobility-related injuries, caused by unexploded ordnance (UXO), including anti-personnel landmines, and other direct and indirect causes of physical disability (polio and other preventable diseases that might result from interrupted immunization campaigns).

## **Services Provided:**

The LWVF is concerned with the provision of orthopedic services and devices to ensure unassisted mobility for civilian war victims and other persons with disabilities. Assistance may include training and institutional capacity strengthening, facilities upgrading, materials provision, and support for national disabilities policy reform and public advocacy. In addition, programs include support for increasing the social and economic opportunities of these survivors.

This fund is coordinated and supported by the Office of Democracy and Governance, although most activities are implemented through grants and agreements that are managed by USAID Missions.

The LWVF currently supports program activities in 13 countries.

As part of its oversight and managerial responsibilities for the Fund DCHA/DG maintains a technical assistance contract with Cessi. This contract provides technical assistance and support for field missions that are interested in developing or are actively managing field activities under the Fund.

# **Bureau For Global Health Information Directories**

**Technical Working Groups**

# Technical Working Groups

## **Contraceptive Security Team**

The Contraceptive Security Team provides technical assistance to help Missions conduct contraceptive security assessments, develop contraceptive financing strategies, develop whole market approaches to increase access, advocate for contraceptive security, strengthen data for decision making, and disseminate lessons learned and support adoption of appropriate tools and strategies. Assistance is also provided for research and analysis, strategic planning, and monitoring and evaluation.

For further information, please contact Mark Rilling or Alan Bornbusch, PRH/CSL.

## **Family Planning and HIV/AIDS Integration**

The FP/HIV Integration Global Leadership Priority (GLP) Team provides technical oversight and direction for the integration of the prevention of both HIV and unintended pregnancy. The effort is designed to enhance global and field approaches that address linkages between family planning and HIV/AIDS. Areas of research, scaling-up evidence based practices and advocacy are supported through this GLP. In addition, technical assistance is provided to field missions and other partners to identify effective methods and programs for reaching HIV and unintended pregnancy prevention goals.

For more information please contact: Nomi Fuchs, Shyami DeSilva, PRH and Amanda Gibbons, Neen Alrutz, OHA.

## **The PHN Interagency Gender Working Group (IGWG)**

The Interagency Gender Working Group (IGWG) is a network of organizations, including the USAID Bureau for Global Health, USAID-funded Cooperating Agencies, and health and women's advocacy groups. The IGWG promotes gender equity within programs to improve reproductive health/HIV/AIDS outcomes and foster sustainable development. Specifically, the IGWG works to raise awareness and commitment to gender equity within the RH/HIV/AIDS sectors, develop operational tools, collect empirical data, and advance best practices in gender integration. The Group provides technical assistance and training to CAs and missions.

For more information, please go to [www.igwg.org](http://www.igwg.org), or contact Michal Avni ([mavni@usaid.gov](mailto:mavni@usaid.gov)) in PRH or Diana Prieto ([dprieto@usaid.gov](mailto:dprieto@usaid.gov)) in OHA.

## **Post-abortion Care Global Leadership Priority**

USAID supports post-abortion care (PAC) programs in over 23 countries worldwide. The PAC Working Group is developing models for the delivery of post-abortion care, with possible scaleup, in six focus countries – Haiti, Kenya, Senegal, Tanzania, Bolivia and Nepal.

This Global Leadership Priority is supporting research, advocacy and scaling-up of best PAC practices. In addition, technical assistance is available to field missions and other partners to develop post-abortion care program components.

For more information, please contact Carolyn Curtis, CNM, MSN, FACNM in the Service Delivery Improvement Division — (202) 712-4982.

## **Refugee Reproductive Health Working Group**

The Refugee Reproductive Health Working Group serves as the focal point within PRH for issues associated with the reproductive health concerns of refugees and other displaced peoples. The PRH Working Group coordinates the PRH's efforts to answer critical research questions, fill in key technical gaps, and provide reproductive health commodities such as contraceptives and condoms.

For additional information please contact Steve Hawkins (PRH/CSL) or Naomi Blumberg (PRH/PEC).

**TDYs/Visits to USAID/Washington**

## TDYs/Visits to USAID/Washington

### Who to contact prior to your TDY?

Contact your Country Coordinator and RCS Regional Assistant prior to your visit. RCS Regional Assistants can help you organize your meeting schedule.

AFR Regional Assistant- Celeste Gregory (202-661-0373, [cgregory@usaid.gov](mailto:cgregory@usaid.gov))  
ANE Regional Assistant - Nahoko Nakayama (202-712-5476, [nnakayama@usaid.gov](mailto:nnakayama@usaid.gov))  
E&E Regional Assistant – Rachel Kearl (202-712-5382, [rkearl@usaid.gov](mailto:rkearl@usaid.gov))  
LAC Regional Assistant - Vacant

### Where?

USAID/Washington  
Ronald Reagan Building and International Trade Center (RRB)  
1300 Pennsylvania Avenue, NW  
Washington, DC 20004

The Ronald Reagan Building and International Trade Center is located on historic Pennsylvania Avenue in the heart of Washington, DC, within walking distance of the White House, the Capitol, Smithsonian Museums and other prominent businesses, historical sites and cultural organizations.

### How to get here?

By Metro (subway)

The Federal Triangle metro stop (blue and orange lines) is connected to the RRB by a covered passageway. In addition, Metro Center (blue, orange, and red lines) and Smithsonian (blue and orange lines) are within easy walking distance.

### How to get into the RRB?

Check-in at the USAID Visitor Desk located in the 14th Street Entrance Lobby to receive your building pass. The 13<sup>th</sup> street side elevator will be closed at 7pm. After 7pm, please use the 14<sup>th</sup> street side elevator.

### USAID Mission Staff (Direct-hires, USPSCs, Fellows and FSNs):

Provide photo identification at the Visitor Desk to verify your employment and security clearance. After the employee signs for the TDY badge, it will be issued and will be valid for the period of the TDY. FSN staff will receive an access only to the Global Health Bureau on the 3<sup>rd</sup> floor.

### External Visitors:

Provide photo identification, e.g., passport or driver's license to receive a Visitor Pass. Prior to your visit, make an arrangement to have an escort meet you at the 14<sup>th</sup> Street USAID Lobby. You will need to be escorted at all time in the RRB and check-in daily.
