FOREWORD

This is the third in a series of reports on total U.S. Postwar Foreign Assistance to MSP countries, bringing the data up through June 30, 1961. The figures in the first section of the report include not only assistance under the Mutual Security Program, the basic element in U.S. assistance, but also the other important types of assistance, such as loans and grants arising from shipments of surplus agricultural products under Public Law 480, Export-Import Bank long term loans, and United States contributions to international organizations.

The data are on the same obligations and loan authorizations basis on which the Foreign Assistance Program is presented to Congress. The major exception to this procedure has been in the case of Military Assistance, where the annual data represent the value of goods delivered.

Since more and more interest is being focused on total aid received by less developed countries, there is a supplement in the back of this report showing assistance received by each country from international organizations. These data should not be confused with U.S. contributions to multilateral organizations, which, as mentioned above, are included in the totals of U.S. assistance in the body of the report.

PREVIOUS PAGE BLANK

GENERAL NOTES

As explained in the foreword, the data in this report are, in general, on an obligations or loan authorizations basis. In the following notes, there is given for each program a brief definition of the data presented.

E C O N O M I C

MUTUAL SECURITY PROGRAM

Data cover funds authorized and appropriated pursuant to the Mutual Security Acts of 1951 and 1954, and amendments thereto, and certain antecedent programs, particularly the European Recovery Program. The general "guideline" for including or excluding earlier programs originally appeared in the "Mutual Security Act of 1951" in the form of language bringing forward unexpended balances from certain antecedent programs. Wherever the authority to bring forward unexpended balances appeared in the "Mutual Security Act of 1951", the entire prior program appears in the totals of this report.

INTERNATIONAL COOPERATION ADMINISTRATION

The data cover obligations for economic and technical assistance made by ICA and its predecessor agencies as defined under MSP above. Annual obligations data for fiscal years 1949-1954 are on a "net" basis, that is, new obligations from funds appropriated for that fiscal year, plus or minus reobligations or deobligations of prior year funds; data for fiscal years 1955-1961 are on a "funds" basis, that is, obligations incurred during a fiscal year only from appropriations for that year. The cumulative totals are on a "net" basis. Thus in some countries, the sum of the annual data may not add to the cumulative totals. In a country where the total is less than the sum of the annuals, funds were deobligated but not reobligated as of June 30, 1961; in a country where the total is greater than the sum of the annuals, funds deobligated in another country from a prior year program were reobligated in this country.

ICA data include $1.5 billion of "conditional aid" during fiscal years 1948-51. This assistance was for the purpose of expanding intra-European trade and was provided to certain European countries with the condition that these countries extend equivalent credits to other weaker countries, and that they pay up their initial contribution to the European Payments Union. This "conditional aid" is treated here as a grant to the country which received the direct U.S. assistance, but the net benefits were more widely distributed with Austria, Greece, Netherlands and Norway receiving sizeable amounts.

Technical Cooperation

These include funds specifically appropriated for technical cooperation programs, the Western Europe Technical Exchange Program, early technical assistance programs in the Far East, and programs for Malaria Eradication and for development of community water supply systems. Programs in Latin America and Near East and South Asia prior to Fiscal Year 1952 are not included in the MSP total, but are given in the line for "Other U.S. Economic Programs". For FY 1961, this category has been broadened to conform to the new FY 1962 appropriation category "Development Grants and Technical Cooperation." It includes development type projects associated with technical cooperation activities, but financed in FY 1961 from other appropriation categories.

Other ICA

These include all other ICA programs from MSP appropriations, specifically -- defense support, special assistance, development assistance, and other ICA programs, both project and non-project.

DEVELOPMENT LOAN FUND

The Development Loan Fund data represent loans authorized by the Board of Directors of the DLF. Funds are no longer available for other lending once this authorization has been given. Formal obligation occurs later when the loan agreement is signed.

OTHER MSP ECONOMIC PROGRAMS

These are programs of agencies other than ICA (mainly State Department) financed from MSP economic aid appropriations. They include U.S. contributions to international agencies such as United Nations Relief and Works Agency, United Nations Technical Assistance, United Nations Children's Fund, Intergovernmental Committee for European Migration, Organization of American States, North Atlantic Treaty Organization, and such programs as Atoms for Peace, Escapees, etc.

OTHER ECONOMIC ASSISTANCE

PL 480 - Agricultural Trade Development and Assistance Act of 1954 and Amendments thereto

TITLE I - SALES FOR FOREIGN CURRENCY

Title I of the Act provides for the sale of surplus agricultural commodities for foreign currency, and in Section 104, specifies the ways in which these currencies may be used.

The figures for sales agreements shown as a parenthetical item, not added into total assistance, represent the export market value of sales agreements signed during each year with minor adjustments for subsequent shortfalls in deliveries. The figures for "Planned for Loans and Grants" represent those portions of the foreign currency proceeds of the sales which are planned as loans or grants to the recipient country under Sections 104(c), (d), (e) and (g) by MSP agencies, and "Cooley Amendment" loans to private industry in the foreign country under Section 104(e). The portion of each sales agreement which is "Planned for Loans and Grants" is included in the assistance totals in the year the sales agreement is signed.

For Section 104(d) Triangular Trade transactions, the ultimate recipient of the local currency generated by the sale is generally not known at the time the agreement is signed. These transactions are, therefore, treated as follows: In the year a sales agreement is signed, any amounts reserved for Triangular Trade are entered as aid in the Non-Regional table. In the year the country which will receive the local currency is determined or receives an allotment advice, the amount is deducted from the Non-Regional table and entered as aid in the table for this country.

TITLE II - FAMINE RELIEF AND OTHER EMERGENCY ASSISTANCE

Title II authorizes funds for the transfer of commodities held in stock by the Commodity Credit Corporation to help friendly foreign people to meet famine or other urgent or extraordinary relief requirements and in FY 1961 to promote economic development. The data represent commodities authorized at CCC cost, plus ocean freight distributed by country.

TITLE III - DONATIONS FOR VOLUNTARY RELIEF AGENCIES

The data included under Title III cover only the donations of surplus commodities to Voluntary Relief Agencies such as CARE, National Catholic Welfare Conference, Lutheran World Relief, etc., for distribution to needy people abroad. Barter transactions are not included. The figures represent authorizations for voluntary relief agency donations, valued at CCC cost. For years prior to Fiscal Year 1955, the data represent transfers authorized under Section 416 of the Agricultural Act of 1949 (Public Law 81-439). The data for Fiscal Year 1952 represent transfers during fiscal years 1950-52. Ocean freight is not distributed by country but is included in the Non-Regional table.

EXPORT-IMPORT BANK LONG-TERM LOANS

These data were compiled from the semiannual reports of the Export-Import Bank. They represent authorizations for loans of five years or more maturity, by the Export-Import Bank or by private financial institutions if the loan is guaranteed by the Export-Import Bank. They exclude short-term exporter credits and those loans or parts of loans bought by private banks and other institutions at their own risk. Cancellations and terminations are deducted from loans authorized. Repayments have not been taken into account. The fiscal year data have been constructed so that if a loan made in one year were increased in a later year, the increase is included at the time it occurred; but if the loan were decreased or cancelled in a later year, the loan has been decreased in the year originally authorized,

OTHER NON-MSP ECONOMIC PROGRAMS

In general, the programs included here predated the Mutual Security Program. The major programs included are "UNRRA", "Civilian Supplies (including Government and Relief in Occupied Areas)", "Surplus Property Credits", "Civilian Relief in Korea", "Greek-Turkish Aid", and "Philippines Rehabilitation". A few programs are also included which ran concurrently with MSP, such as "Inter-American and Related Highways" and "Elimination of Foot and Mouth Disease in Mexico". "Occupied Areas Commodity Credits" are not included since these were short-term credits generally not over 15 months.

To the extent possible, these early programs have been presented on an obligations basis. Programs obligated prior to June 30, 1945, such as Lend Lease, have been excluded even though expenditures continued in 1946 and later. For UNRRA, Civilian Supplies and certain minor programs, obligations by fiscal year were not available. For these programs, therefore, it was necessary to present data on an expenditures basis, and to include an unknown portion obligated prior to July 1, 1945, but delivered in fiscal years 1946 and subsequently.

For all these programs, only that portion going to MSP countries is included in this report.

M I L I T A R Y

MUTUAL SECURITY MILITARY PROGRAM

The data represent primarily grants of military equipment, supplies and services purchased with appropriated funds. They also include the cost of repair and rehabilitation of excess stocks furnished without cost to the Military Assistance Program, and the cost of packing, crating, handling and transportation of equipment and supplies. The loan portion represents sales to recipient countries of military equipment and supplies initially credit-financed with MAP funds.

The line "From Excess Stocks" represents the acquisition value of equipment and supplies excess to the requirements of the U.S. Military departments granted to countries without charge to MAP-appropriated funds. These amounts are shown for information only, and are not included in the total. Negative amounts represent redistributions to other countries or areas.

The annual data under both Obligations and Expenditures represent net deliveries. The cumulative total under Obligations represents the total amount programmed for each country for the period 1950-1961, and, therefore, the difference between the sum of the fiscal years and the cumulative total is the value of goods programmed but not yet delivered. The cumulative total under Expenditures represents total deliveries through June 30, 1961 against this program.

OTHER MILITARY ASSISTANCE

Included here are the military portion of "Greek-Turkish Aid", "China Naval Aid", "P.L. 454 Philippines Aid" and "Vessel Loans". Since the latter are essentially transfers on an indeterminate basis, generally requiring only the return of the vessel, if available, they are treated here as grants. For these "Vessel Loans", the data represent the estimated value of the vessels; the activation cost is included in "MSP Military".

* - Less than $50,000.
Details may not add to totals due to rounding.

a/ On Feb. 27, 1953, it was agreed that $1 billion of the grants of Civilian Supplies and of the FY 1949 ICA program would be converted to a loan. This $1 billion loan has been distributed proportionately over the fiscal years 1946-50 rather than being entered in fiscal year 1953, and grants have been reduced accordingly.

b/ Includes Civilian Supplies $2,205.7 million; Surplus Property Credits $216.9 million and UNRRA and Post UNRRA $5.7 million.

Note: These data include assistance to Mainland China as follows:
ICA - FY 1949 and 1950 assistance under Sec. 404(a) of PL 472. Includes $168.1 mill. in net assistance to the Republic of China prior to the Government's establishment on Taiwan. ICA estimates approximately $21 mill. went to Taiwan, remainder to Mainland.
Other MSP - The $119.7 mill. is assistance under Sec. 404(b) of PL 472, and was largely shipments of military materiel by US Armed Forces and payments for materiel purchased directly by the Republic of China. No counterpart deposits were required. Dept. of Defense estimates some $40-50 mill. were in payment for materiel delivered to Mainland.
EXIM Loans of $33.2 mill., Other U.S. Economic Programs ($406.8 mill. of UNRRA and Post UNRRA and $95.5 mill. of surplus property credits) and $141.4 mill. of China Naval Aid (PL 512) under Other Military Assistance were all assistance to Mainland.

a/ Does not include $20.0 million loan in FY 1958 financed by Asian Economic Development Fund. These are included in NESA Regional.

b/ Includes the utilization during FY 1946 of $29.2 million of lend-lease silver credits. During FY 1940-46, a total of $160.7 million of such credits were extended to British India. After partition, Pakistan agreed to repay $38.0 million, but it is not possible to distribute the FY 1946 portion between the two countries.

ASSISTANCE FROM INTERNATIONAL ORGANIZATIONS

GENERAL NOTES

The following tables show assistance given BY international organizations to all countries which have benefited from this assistance. The data do NOT represent the United States contributions TO these organizations; such contributions are included in the figures on page 114 of this Report.

Data are all on a United States fiscal year basis except for United Nations Technical Assistance programs which are data for calendar year 1960 and total through December 1960.

INTERNATIONAL BANK FOR RECONSTRUCTION AND DEVELOPMENT (IBRD)

Data cover loan authorizations of the IBRD (including sales to participants) made either to governments, government enterprises or to private firms with government guarantee. Cancellations are deducted from loans authorized in the year originally authorized. Repayments have not been taken into account.

INTERNATIONAL FINANCE CORPORATION (IFC)

Data cover the commitments made by the IFC (including sales to participants) to invest in private enterprises in the various countries. Cancellations are deducted from commitments in the year originally committed.

INTERNATIONAL DEVELOPMENT ASSOCIATION (IDA)

Data cover value of agreements signed with governments for development credits.

INTER-AMERICAN DEVELOPMENT BANK (IDB)

Data cover loan authorizations of the IDB (including sales to participants) made either to governments, government enterprises or to private firms from Ordinary Capital and from the Fund for Special Operations.

UNITED NATIONS TECHNICAL ASSISTANCE (UNTA)

Data cover direct project costs of technical assistance programs, under both the Regular and Expanded Programs, administered by the United Nations Technical Assistance Administration and other participating organizations.

UNITED NATIONS SPECIAL FUND (UNSF)

Data cover UN Special Fund allocations toward costs of pre-investment surveys.

EUROPEAN DEVELOPMENT FUND OF THE EUROPEAN ECONOMIC COMMUNITY (EEC)

Data cover the value of projects approved for financing valued in EPU units of account ($).
