

Final Report on the Poll Survey of Family Planning Influentials Among Newly Identified FP Influentials (Wave 2 – Feb '05)

Submitted to The Social Acceptance Project-Family Planning (TSAP-FP)
Academy for Educational Development (AED)
with the support from United States Agency for International Development (US-AID)

Date April 2005

Prepared by Synovate Inc.

This research was made possible through support provided by the Office of Population, Health & Nutrition, United States Agency for international Development (USAID), under the terms of contract #492-C-00-02-00019-00. The opinions expressed herein are those of the contractor(s) and do not necessarily reflect the views of USAID.

Background

There was a total of 60 new names on the revised list. This report details the results of the 48 completed interviews of the newly identified FP Influentials.

DETAILED FINDINGS

Profile of FP Influentials

Base: Total Newly Identified Influentials as of Feb '05

The interviewed Newly Identified Family Planning Influentials have the following profile:

- Equal split among males and females
- Largely coming from Metro Manila and Samar/Leyte
- Majority belong to the Multi-Sectoral Advocacy Networks and Informal Sector/Urban Poor

Table 1

Whether or Not Spoke About Family Planning

Base: Total Newly Identified Influentials as of Feb '05

Chart 1

- 9 out of 10 (92%) of the FP Influentials interviewed have already spoken publicly about family planning at least once in the past 3 months.
- They have spoken to different persons/ groups:
 - **Informal groups** (58%): individuals who gather together for certain events or occasions, not on a regular basis. More than half of this segment are from barangay residents and students.
 - **Formal groups** (40%): individuals that work together for a particular purpose. These are largely from local government units and people's organizations.
 - **Specific organizations** (38%): those with particular group names. Most mentioned specific organizations were from the urban poor sector and tricycle operators.

Event/ Occasion When Spoke About Family Planning

Base: Total Newly Identified Influentials as of Feb '05

- FP Influentials mentioned either a specific occasion or the date they spoke about family planning, or both.
- Occasions that were mentioned were mostly formal and organized meetings or gatherings.
- Most of the events or occasions happened within the month or shortly before.

Have spacing between child births	8
Methods of Family Planning (Nett)	44
Encourage to use modern method	17
Discussed the different modern methods/contraceptives	13
Use the contraceptives that suits you	8
Advantages & disadvantages of methods of family planning	8
Discuss natural and modern methods of FP	8
Effects of Lack/No Family Planning (Nett)	23
Increasing population heightens poverty	15
Having many children heightens poverty	4
Increasing population means less jobs	2
Population growth affects the ecology	2
Welfare of children suffer when have many children	2
Encourage/Solicit Support for FP (Nett)	23
Invitation to attend seminar on family planning	15
Need to help advocate family planning	6
Ask for support on their family planning program	4
Benefits of Family Planning (Nett)	21
Family planning promotes better welfare for the family	15
Family planning promotes better health for the mother	13
Family planning promotes better health for the children	13
Explained responsible parenthood	15
How the organization help in the advocacy of family planning	8
Reproductive Health (Nett)	6
Importance of reproductive health	4
Explained what is reproductive health	2
Refrain from getting unwanted/early pregnancies	6
Basis of FP can be found in the Koran & Fatwa	4
Youth should be responsible especially with sexual intimacy	4
Shared personal experience	4
Emphasize the need for population policy	4
Did not speak publicly about FP	8

Q4 What did you say to this person or group about family planning? What else? Anything else?

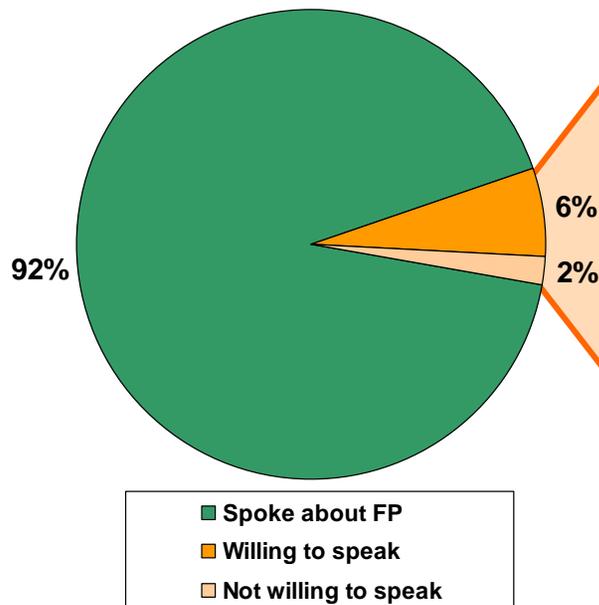

NOTE:

8 * Wave 2 is based on activities covered from Nov '04 – Jan '05

Person who Did Not Speak Publicly About Family Planning

Base: Total Newly Identified Influentials as of Feb '05

Chart 1

- Among the 48 newly identified FP Influentials interviewed, 8% were not able to speak publicly about FP in the past 3 months. Only one person is not willing to speak publicly about FP in the NEXT 3 months as she just gave birth.
- Among those who are willing to speak about family planning in the next 3 months, they plan to convey various messages on responsible parenthood, explanation of the FP program, importance of reproductive health, encouragement to use modern methods, and the benefits of using family planning just to name a few. The Catholic Church and varied religious groups are anticipated to object or ask questions. Meanwhile barangay officials, members of associations, professionals and tricycle drivers are most likely to approve of them speaking about family planning.

Q9 Would you be willing to speak out publicly about family planning in the next 3 months?

Q10 What would you plan to say?

Q11 Who (person/group) do you think would OBJECT if you --as a community influential-- speak out publicly about family planning?

Q12 Who (person/group) do you think would APPROVE if you --as a community influential-- speak out publicly about family planning?

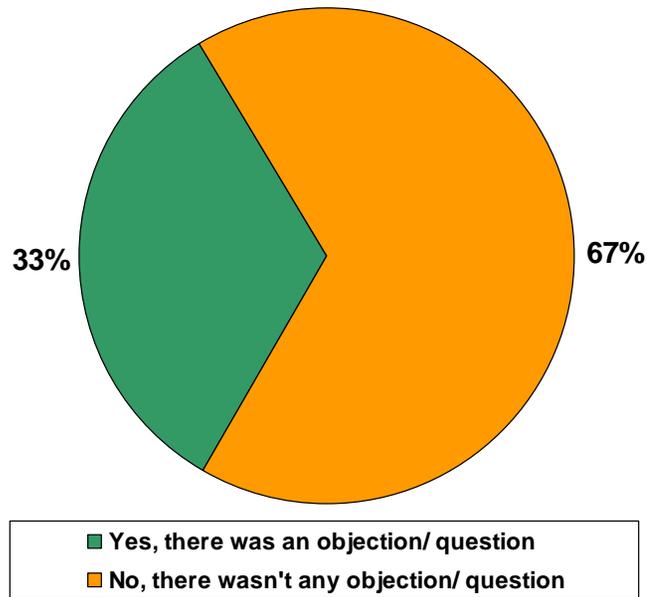

9 NOTE:

* Wave 2 is based on activities covered from Nov '04 – Jan '05

Whether or Not Objections or Questions Were Raised When Spoke Publicly About Family Planning

Base: Total Newly Identified Influentials as of Feb '05

Chart 2

- Around a third (33%) faced some objections or questions during their talk on family planning.
- Most of the objections/questions came from individuals such as members of organizations and students. To a lesser extent, there were also objections coming from various religious groups including the Catholic group.
- If taken together, faith related issues (15%) ranked the highest among the objections/questions that were raised. Other notable queries asked were about the benefit of using family planning (6%) and other background information about the program.
- In response to the objections/questions, FP Influentials highlighted how the FP programs are implemented (10%), the reasons for, or importance of having family planning (8%), and the need to control the number of children to care for them better (6%).

Q5 In the past 3 months, when you spoke out publicly about family planning, was there any individual or group who objected or asked questions about your support of family planning?

Intention to Support Actions Related to Family Planning in the Next 3 Months

Base: Total Newly Identified Influentials as of Feb '05

Chart 3

- FP Influentials maintain their commitment to the program with almost all (96%) expressing their intention to support the program in the next 3 months.
- Majority of the activities would be delivering seminars/ trainings on FP (42%) - including seminar or training on FP in general and on modern methods. A substantial number also plan to implement information campaigns about family planning (29%) – in general and on specific topics (e.g. methods).
- These plans are perceived to happen mostly during preset seminars/ orientations (23%), trainings (13%) and different informal occasions (10%). There were also plans of scheduling the activities during the International women's day celebration (8%).

Whether or Not Approached by Group/ Person (Other than TSAP-FP/AED) on Family Planning

Base: Total Newly Identified Influentials as of Feb '05

Chart 4

- A fourth (25%) have been approached by other groups or persons regarding their initiatives on family planning. These are mostly NGOs (Management Sciences for Health, Prism, and Enhance Rapid Movement for Community Health), and to a lesser degree, government offices such as POPCOM (4%).
- These organizations offered their support to the FP Influentials' activities particularly in conducting continuous seminars, invite them to be a speaker in their seminar, invite to a training they are conducting or help them promote the use of modern methods.
- Other organizations approached FP Influentials during informal occasions or very recently.

Q18 During the last 3 months, did any person or group, other than The Social Acceptance Project-Family Planning (TSAP-FP) or Academy for Educational Development (AED), approach you about their initiatives on family planning?

Overall Support of Family Planning

Base: Total Newly Identified Influentials as of Feb '05

Chart 5

- On the overall, FP Influentials very strongly support family planning. This is primarily because the current situation in their area shows the need for FP. They believe that the rise in population heightens poverty (27%), that FP is needed in their community in general (23%), and that welfare of children suffer in big families (13%).
- Another reason appears to be personal experience which gives them the inclination to help other people by explaining FP.
- A very small percent (6%) gave negative reasons for saying they only “somewhat support” family planning – primarily having the lack of knowledge on the medical aspect of family planning, being too busy or due to lack of budget.

Q22 Overall, how would you rate your personal support of family planning? Using a scale of 1 to 5, where "1" means you "do not support at all", "2" means "somewhat do not support", "3" means "can't say", "4" means "somewhat support" and "5" means you "very strongly support" family planning. Which number comes closest to how you feel?

NOTE:

* Wave 2 is based on activities covered from Nov '04 – Jan '05

Overall Confidence in Speaking Publicly on Family Planning

Base: Total Newly Identified Influentials as of Feb '05

Chart 6

- Almost all FP Influentials (92%) are confident about speaking publicly on family planning.
- Majority rated themselves as very confident (65%) because of their knowledge of family planning (23%), the trainings they have received (21%) personal experience (17%), and their feeling of being well supported (10%).
- Less than 10% gave negative reasons for rating “can’t say” or “somewhat not confident” – primarily because of not having enough information on family planning or modern methods.

Q24 Overall, how would you assess your confidence in speaking publicly about family planning? Using a scale of 1 to 5, where "1" means you are "not at all confident", "2" means you are "somewhat not confident", "3" means you "can't say", "4" means you are "somewhat confident" and "5" means you are "very confident" in speaking publicly about family planning. Which number comes closest to how you feel?

Suggestions on How to Improve Personal Capability in Speaking Out More Effectively on Family Planning

Base: Total Newly Identified Influentials as of Feb '05

- FP Influentials suggested having more trainings on family planning to speak about it more effectively. Some specific topics that should be tackled are the specific FP methods (25%), updated information (23%), interpersonal communication skills (15%), and about the different elements of reproductive health (8%).
- Developing educational materials about FP that would aid FP Influentials in improving knowledge about family planning would also help.
- Providing them with a budget would allow them to set up more FP programs.

Suggestions on How to Strengthen Advocacy on Family Planning

Base: Total Newly Identified Influentials as of Feb '05

- Suggestions to further strengthen advocacy of family planning including providing FP influentials financial assistance (31%) to be able to implement their different activities on family planning (i.e. seminars, handouts, and contraceptive supply).
- They also see the importance of support from the leaders on FP programs (17%) and the need to encourage local government to develop an FP program (15%).
- Having more trainings on FP (13%) and educational materials/ handouts (10%) for people in the community to be aware of and understand better family planning were also cited.
