Statistical Series - Vietnamese

In response to numerous inquiries as to the availability of statistics in Vietnam, a Preliminary Guide to Vietnamese Statistical Series has been developed. The Guide lists the various types of statistics available and where they may be found. It is not exhaustive, but it is the most complete compilation known to date. Since all who receive the PA Bulletin may not be interested in this Guide, a limited distribution of them is being made to each Division and Agency. Additional copies are available at our office or by calling 23142, extension 37, Mr. Lien.

Preliminary Research Report on the High Plateau

By Gerald C. Hickey, Michigan State University Vietnam Advisory Group.

The above report based on Mr. Hickey's research on the Montagnard peoples of Vietnam has been out of print for some time. In response to numerous requests for copies of this report, a third reprint of it has been made and is now available in PAD. Included in this reprint is another lesser known brief report by Mr. Hickey covering a field trip which he made among the Katu peoples.
