THE PHILIPPINE SUGAR INDUSTRY,
1900-1965: A BIBLIOGRAPHY

by

George L. Hicks

Field Work Report #18

M-9060
August, 1967

A.I.D.
Reference Center
Room 1656 NS

George L. Hicks, Economist with the Development Planning Project, has compiled this bibliography in the process of his research on the Philippine sugar industry. It has been reproduced and submitted to AID as a by-product of Mr. Hicks' research work, in the hope that it will prove useful as a reference source.

Douglas S. Paauw, Director
Center for Development Planning
National Planning Association

INTRODUCTION

This is a select bibliography of the Philippine sugar industry which is based almost entirely on materials available in Manila libraries. As such, it makes no claim to be comprehensive and perhaps should have been less pretentiously entitled: a preliminary checklist of the Philippine sugar industry.

Most of the items in this bibliography are available in one or more of the following libraries: The Philippine Sugar Institute Library, The Philippine Sugar Association Library, and The University of the Philippines I.E.D.R. and Filipiniana Library.

The criteria used to select items were those of the general usefulness of the materials to students pursuing research on the economic aspects of the Philippine sugar industry.

We would like to thank Miss Eliza B. Corcino who compiled this bibliography under our general supervision.

George L. Hicks

Contents

1. Early History of Philippine Sugar	1
2. Growth of the Modern Industry, 1910-1966	3
3. United States Sugar Policy and Philippine Sugar Exports, 1898-1966	5
4. Domestic Control of Production	8
5. Relative Prices, Quotas and the Growth of Production, Exports and Domestic Consumption	9
6. Production of Sugarcane	11
7. Manufacture of Sugar Products	14
8. Marketing, Distribution and Finance	16
9. Productivity and the Philippine Sugar Industry	18
10. The Role of the Sugar Industry in the Philippine Economy	21
11. Development Strategy and the Future of the Industry	23
