TO - AIDTO CIRCULAR A- 201

**FD-AAB-564-1A1**

FROM - A.I.D./W

SUBJECT - LAC Regional Project: Learning Resource Center-Based  
Community Education System (LRCBCES) (598-0573)

REFERENCE -

1. The LRCBCES Project Review Committee has just completed a two days project review. As a result of the review we expect that by the time of the first project evaluation scheduled for July 27-28, 1978, the grantee will have revised the present draft conceptual model and will have given special attention to making it more responsive to Latin American circumstances and will have developed a plan to train educational planners to introduce the model into ongoing or planned center based community education activities. In the event that this preliminary conclusion is supported by the first project evaluation, AID/W will:

(a) Disseminate the revised LRCBCES model for mission/country review and recommendations;

(b) Invite USAID missions to fund participation of A.I.D. Education/HRD Officer and selected host country educational planners/educators in training workshop tentatively scheduled to be held in December, 1978. The place and specific dates are to be determined.

2. Prior to requesting participant nominations for "The Training Workshop" copies of the revised conceptual model and plans for the workshop will be sent for USAID mission and host country review, comments and recommendations.

3. This airgram is for your information. You may want to provide for adequate training funding for this activity in your FY 79 program. Comments will be requested in later correspondence.
