PROJECT AGREEMENT
BETWEEN AID AND
Kabul University
Royal
AN AGENCY OF THE GOVERNMENT OF
Afghanistan

1. Project/Activity No. 306-11-610-002
PAGE 2 OF 8 PAGES
2. Agreement No. AE #1
3. [x] Original or Revision No.
4. Project/Activity Title
Agriculture Education (Faculty of Agriculture, Kabul University)

Cognizant of the high priority held by Agriculture in Afghanistan's development needs, and recognizing the necessity for agriculturalists trained in modern ideas and practices in the administrative, supervisory and operational positions in the Ministries of Education and Agriculture, the Helmand Valley Authority, the Rural Development Agency, the Pakhtia Develop" ment Authority and other agencies, the Royal Government of Afghanistan (RGA) and the United States Agency for International Development Mission in Afghanistan enter into this Project Agreement with the following objectives:

(1) To develop the faculty, curricula, and facilities of the Faculty of Agriculture, Kabul University, in order to provide university-trained Afghan agricultural leaders in the fields of animal science, plant science ~~xxxxxxxxxxxxxxx~~, agricultural economics, agricultural extension, agricultural education and agricultural engineering, specialities parti" cularly relevant to the development of agriculture in Afghanistan; and

(2) To graduate from the Faculty of Agriculture annually, as soon as possible, approximately 75 students.

(3) To develop an expanded research program designed to provide information to assist Afghanistan in achieving its goals in agricultural development.

(4) Through USAID advisory services, continue to develop the present faculty staff for the Faculty of Agriculture.

The remainder of this Agreement describes the course of action, the responsibilities agreed to respectively by the two parties, and the funding requirements specified as to U. S. contribution and RGA contribution.

Course of Action

1. USAID will provide advisors for the Faculty of Agriculture. These advisors will provide guidance and teaching assistance to the Afghan instructors and/or administrators.

2. The RGA will provide a suitable number of qualified faculty members, depending upon the needs created by student enrollment and research activities. The number will be mutually agreed upon, keeping in mind the goal of at least one well-trained faculty member for each fourteen students. U.S. advisors will continue to assist the faculty members (presently there are 52 members, some of whom are in training abroad) in those areas requiring greater development or improvement.

3. In accordance with demands, the U.S. advisors will provide assistance and guidance to the Dean of the Faculty in design planning, construction planning, utilization plans and administrative aspects for the development of the Faculty of Agriculture Farm Mechanics Building and the Experimental Farm as required for practical and experimental training.

4. In addition to on-the-job training of the professional Afghan staff, selected staff members will receive participant training in the U.S. or in a third country. Subject to availability of funds and suitable candidates, participants will be selected, with the advice and concurrence of the U.S. advisors, and will be sent for training in FY 1970. Upon their return, the RGA Faculty of Agriculture will assign the above participants promptly to the positions and responsibilities for which they were trained. The U.S. advisors will assist and guide returned participants until such time as they are ready to assume full responsibility for teaching and other activities and programs.

5. The members of Faculty of Agriculture, with the guidance and assistance of the U.S. advisors, will expand agricultural research. The development of modern agriculture in Afghanistan is dependent upon agricultural research. Such research also insures that the Faculty's program will be closely related to Afghanistan's needs in agriculture and agriculture-related industry.

6. With the assistance of the U.S. advisors, the Dean of the Faculty and his staff will continue to develop the administrative aspects of the Faculty's program in keeping with the uniform practices and policies of the University and drawing upon the assistance and guidance of the central administrative units of the University as needed. The Dean will make efforts to recruit necessary personnel for administrative on-the-job training by the U.S. administrative personnel.

7. Subject to the availability of funds USAID will continue to provide appropriate laboratory equipment, farm development commodities, textbooks and other teaching materials, and services. Provision for gradually transferring the above costs to the RGA should be made and included in future budget requests of the Faculty. "Maintenance of Commodity Records" (as described under Standard Provisions for Importation of Commodities) will be strictly adhered to.

8. The Faculty of Agriculture will seek to develop a close liaison with the Ministry of Agriculture and Irrigation and with other related agencies and will cooperate with them in (a) defining the numbers and types of trained agricultural personnel needed to carry out Afghanistan's agriculture development plans; (b) planning agricultural research and extension activities; and

(c) determining the long-range budgetary support required for Afghanistan's agricultural development program.

9. The Faculty of Agriculture staff, with the assistance of the U. S. advisors, will continue to collaborate with the Faculty of Engineering of Kabul University in developing a five-year agricultural engineering and farm mechanics program for students of both Faculties. The program will include regular and special classes in both Faculties and may provide practical work experience during the winter period. (Afghan staff member-trainees as needed will be provided for this new program) The degree will be granted by the Faculty of Engineering.

10. To assist in upgrading the present vocational agriculture programs and to meet the growing concern of the Ministry of Education for formal teacher-training in agriculture, the Faculty of Agriculture will develop a program in agricultural education in cooperation with the Faculty of Education. As approved by the Ministry of Education, the Faculty will assist with in-service training for secondary school-teachers of agriculture; preparation of teaching materials for vocational agriculture schools; and study of the present curricula. In developing this program with the assistance of U. S. advisors, the RGA has provided to the Faculty of Agriculture an Afghan with a master's degree in agricultural education who has had practical teaching and administrative experience.

11. In view of the continued shortage of high-quality students at a time when more trained agriculturists are needed, the Faculty will continue intensive recruiting efforts in all places where complete secondary schools are located. In FY 1970 the Preparatory Course for entering freshmen from the provinces will be suspended because of classes during winter vacation for regular students.

12. The Faculty of Agriculture budget will include funds for (a) travel and per diem for the Afghan staff members who participate in recruiting efforts outside the Kabul area; and (b) will provide funds for salaries of selected qualified Afghan technicians who will render technical assistance to staff members.

continue to
13. The Faculty of Agriculture will make efforts to establish the following five departments within the Faculty: (1) Plant Science, (2) Agricultural Economics, Extension and Education, (3) Animal Science, (4) Basic Science, and (5) Agricultural Engineering and Farm Mechanics.

14. In 1967 the Kabul University Faculty of Agriculture Farm, which was established for training students, for conducting Faculty research and for

student experimental purposes, was modernized with farm machinery valued at approximately $45,000 acquired from prior year funds. Inasmuch as trained farm workers are not available for demonstration of modern farming procedures, the following will be instituted:

A. The Dean of the Faculty will select and employ, with the advice and concurrence of the Farm Manager and the U.S. Farm Advisor, a minimum of two individuals with potential for becoming farm technicians, including a farm mechanic and a field labor supervisor. These positions will be included in the Faculty's budget. After on-the-job training for one year, they will receive certificates indicating completion of Farm Technician Training, whereupon they may be appointed to permanent positions on the Faculty Farm or transferred to appropriate positions elsewhere.

B. USAID will provide an experienced farm advisor to assist in farm development and to assume temporarily the managerial responsibility of the farm until such time as Afghan personnel have been properly trained. In addition to providing training for an Afghan counterpart, the advisor will supervise the farm labor force, coordinate farm activities, and provide direction for future farm planning.

C. Products from the farm will be marketed by efficient procedures which are in keeping with the uniform business policies of the University.

D. The Faculty of Agriculture budget shall include the funds required for the efficient operation of the demonstration farm.

15. As soon as possible after the signing of this Project Agreement, the University will provide to the Faculty of Agriculture an appropriate Revolving Fund for expenditures under RGA Major Object Chapters 300 (Materials, Supplies & Parts) and 400 (Equipment). Expenditures under the Revolving Fund are to be made within the Faculty's total annual budget, since the purpose of the Fund is not to increase the total budget, but rather to facilitate the timely and convenient purchasing of miscellaneous small items vital to the teaching program. Repayments into the Revolving Fund will be made promptly by the central administration upon the Faculty's submission from time to time of receipts for proper expenditures made from the Fund.

16. The University will make every effort to establish technician-level positions within the University with suitable salary schedules.

17. The University will provide publication facilities for printing research information and material in sufficient quantities for adequate dissemination.

Funding Requirements

1. U.S. Contribution - FY 1970

$302,000 is provided to support this project under contract services (AID/nesa-215), which amount is allocated as follows:

Technical Services	$300,000
Participants	2,000
	$302,000

In addition, $22,000 is provided for direct AID purchase of project commodities. The breakdown for this amount is as follows:

Code	Commodity Category	Amount
20	Crude Animal & Vegetable Materials, N.E.C.	1,475.00
51	Chemical Elements and Compounds	250.00
53	Dyeing, Tanning and Coloring Materials, Natural and Synthetic	250.00
64	Rubber Manufactures, N.E.C.	275.00
71	Machinery	7,700.00
73	Transportation Equipment	5,350.00
82	Furniture	125.00
86	Professional, Scientific and Controlling Instruments; Photographic and Optical Goods, Watches and Clocks	3,300.00
89	Miscellaneous Manufactured Articles, N.E.C.	3,275.00
	COMMODITY TOTAL	$22,000.00

2. RGA Contribution

The RGA will continue to administer, operate and maintain the facilities and programs associated with this project activity.

Regular (or Operating) Budget

	Actual Expenditures[a] AEY 1347 (FY 1969)	Dollar Equivalent @ Afs 75 = $1.00	Approximate Budget AEY 1348 (FY 1970)
Faculty Expenditures:	2,947,188 Afs.	$ 39,296	$ 43,340
Pro"rated share of Central Administration:[b]	4,720,787 Afs.	$ 62,944	$ 63,000
	7,667,975 Afs.	$102,240	$103,340

University's Development Budget

	14,572 Afs.	$ 194	(1,457,000 Afs.) $ 19,427
TOTAL	7,682,547	$102,434	$122,767

a) These figures are from the official records of the Accounting Department of Kabul University.

b) Included under Central Administration in the University's accounting system are the usual administrative personnel and functions, the central library, gym, dormitory, utilities, maintenance and trans" portation. In AFY 1347 expenditures for Central Administration were 61.5% of the University's total expenditures, the dormitory being about one"fifth of this amount.

STANDARD PROVISIONS FOR THE IMPORTATION OF COMMODITIES

FOR OCEAN SHIPMENT: Clearing, handling and onforwarding of commodi" ties shall be provided by AID from supplier's Delivery point, i.e., designated ocean port to F.O.B. RGA " provided vehicle at the USAID Terminal Delivery Point nearest the project site, i.e., Peshawar or Chaman,

Pakistan, Meshed, Iran or such other locations outside Afghanistan as USAID and RGA may jointly establish as an appropriate USAID Terminal Delivery Point for AID-financed surface shipments. Shipments will be made via Pakistan unless otherwise mutually agreed.

FOR OCEAN-AIR SHIPMENT: Clearing, handling and onforwarding of commodities from Supplier's Delivery Point for ocean-air shipments via Beirut, Lebanon, i.e., Beirut, Lebanon to USAID Terminal Delivery Points, i.e., appropriate airports in Afghanistan, shall be financed by USAID.

FOR DIRECT AIR SHIPMENT: Clearing, handling and forwarding of commodities from source of procurement to Supplier's Delivery Point, i.e., appropriate airports in Afghanistan, shall be financed by USAID. These are further designed as USAID Terminal Delivery Points.

The RGA undertakes to accept delivery of commodities at any of the above-mentioned USAID Terminal Delivery Points within the free period and will provide and pay onward transportation and all other charges to Ultimate Destination, Afghanistan. The USAID similarly undertakes to so schedule shipments to Terminal Delivery Points at a rate commensurate with RGA capability for supplying onforwarding transportation.

MAINTENANCE OF COMMODITY RECORDS: The recipient Ministry/Agency will prepare and issue reports for all commodities furnished under this project which are titled with the RGA within ten days after receipt of those commodities and will maintain necessary records to ensure proper control and use of the commodities for their intended purpose. These records will be maintained in English and AID personnel will be granted ready access to them upon request.

SOURCE REQUIREMENT FOR COMMODITY PROCUREMENT: Authorized source of procurement for all commodities covered under this Project Agreement will be United States only. Any procurement required to be made from non-U.S. sources shall be financed by the RGA.
