I. GENERAL DESCRIPTION

The Republic of Korea (ROK) is undergoing a steady change from a rural traditional society to an industrialized, largely urbanized nation. Thus, the ROK has a continuing and increasing need for well-qualified engineers, scientists, managers, and other technicians to fill new positions of leadership in business, industry, and government. At present, however, Korea does not have sufficient numbers of indigenous specialists in these areas, and is not yet capable of training additional people of the quality and in the numbers that are required. In addition, AID's technical assistance projects which could possibly provide such specialized training, are either terminating in the near future or are in other, more narrowly focused areas.

In recognition of the above training requirements, the ROEG has requested additional assistance from the United States. Accordingly, A.I.D. has agreed to provide advanced management and technological training to selected participants over the course of the next five years.

II. SPECIFIC DESCRIPTION

This project is intended, subject to its satisfactory implementation and subject also to the availability of funds in later fiscal years, to extend for a total period of five fiscal years. Project objectives include the following activities:

- (a) Provide training in the U.S. to acquaint Korean technicians and high-level managers with advanced techniques in production, planning, and administration; and
- (b) Establish a nucleus for the Korean Government and other independently financed training programs through which the Government and the private sector can continue similar training activities in the future, especially as the AID projects begin to terminate.

3. Project/Activity Title  
ADVANCED MANAGEMENT TRAINING

Training in the U.S. will vary in length of time, but generally will not be less than three months nor exceed twelve months for each participant.

III. U.S. CONTRIBUTIONS

The United States Government (through the Agency for International Development) will, subject to the availability of funds, provide funds specified in Annex B to this Project Agreement.

In addition, services of a specialist, assigned to USAID/Korea and funded under other documentation, will be provided to advise the ROKG and the private sector in this project.

IV. ROKG CONTRIBUTIONS

The ROKG agrees to make the following contributions to this project:

1. As soon as the ROKG budget is approved by the National Assembly, this Project Agreement will be revised to include Won from the Trust Fund to finance administrative costs for the U.S. direct-hire technician and the USAID Korean personnel assisting with the project.
2. Finance all costs pertinent to the international travel for all participants under this project.
3. Assure that any Koreans receiving training in the United States under this project will, if employed by the ROKG or any subdivision or institution thereof prior to their departure, be assigned upon their return to the same or a similar or a position of greater responsibility.
4. ROKG assures that full-time qualified Korean counterparts will be working closely with U.S. technicians on the project, and that these counterparts will be available when

considered necessary by the USAID. These counterpart services will be entirely financed by ROKG from other than Trust Funds.

V. IMPLEMENTATION RESPONSIBILITIES

Since this project is concerned with participant training, the Ministry of Science and Technology of the ROKG shall be administratively responsible for this project on the part of the Government of the Republic of Korea.

The Chief of the Industry Branch, USAID/Korea, shall be the official responsible on the part of USAID/Korea for the implementation of this project. The USAID/K Training Officer will furnish substantive and procedural assistance.

The following procedure will apply in selecting participants from the private sector:

- (a) Representatives of MOST, MCI and USAID, working together will select the companies to be represented.
- (b) Each designated company will write a detailed description of the training desired.
- (c) This description or a draft PIO/P containing this description will be forwarded to AID/W.
- (d) After AID/W's comments are received confirming the actual training available, the top executive of each company, together with an MCI representative and in cooperation with USAID, will review the program, select the detailed area to be explored, and determine possible candidates to be recommended to MCI for nomination to MOST for approval.
- (e) When the area of interest originates in a Ministry other than MCI, the applicable Ministry will nominate candidates.
- (f) Upon approval of the candidates by MOST, MOST will forward names to USAID.

I. GENERAL DESCRIPTION

The Republic of Korea (ROK) is undergoing a steady change from a rural traditional society to an industrialized, largely urbanized nation, and has a continuing and increasing need for well-qualified engineers, scientists, managers, and other technicians to fill new positions of leadership in business, industry, and government. Korea does not have sufficient numbers of indigenous specialists in these areas, and is not yet capable of training additional people of the quality and in the numbers that are currently required. AID's technical assistance projects which could possibly provide such specialized training, are either terminating in the near future or are in other, more narrowly focused areas.

In recognition of the above situation, the ROKG has requested additional assistance in training from the United States. Accordingly, A.I.D. has agreed, subject to the availability of funds, to provide advanced management and technological training to selected participants over the course of a five year period. This is the second year of funding for this program.

II. SPECIFIC DESCRIPTION

Project objectives include the following activities:

- (a) Provide training in the U.S. to acquaint Korean technicians and high-level managers with advanced techniques in production, planning, and administration; and
- (b) Establish a nucleus for the Korean Government and other independently financed training programs through which the Government and the private sector can continue similar training activities in the future.

Training in the U.S. will vary in length of time, but generally will not be less than three months nor exceed twelve months for each participant.

**PROAG  
FOREIGN CURRENCY  
STANDARD PROVISIONS  
ANNEX**

**PROJECT AGREEMENT  
BETWEEN AID AND**

**AN AGENCY OF THE GOVERNMENT OF**

1. Project/Activity No. \_\_\_\_\_

2. Agreement No. \_\_\_\_\_

3. \_\_\_\_\_

Original or Revision No. \_\_\_\_\_

A. As used herein, "AID" means the Agency for International Development, any component agency, and any successor agency. "Cooperating Agency" means the agency which is a party to this Project Agreement with AID and "Cooperating Country" means the country of the Cooperating Agency. "Local Currency" means currency originally issued by the Cooperating Country as a medium of exchange therein.

B. (1) AID will make available the amounts specified in Block 8 of this Project Agreement, as necessary for the project, for use for the designated purposes and as may be further described in Block 5 hereof.

(2) The Cooperating Agency will make available the amounts specified in Block 9 of this Project Agreement, as necessary for the project, for use for the designated purposes and as may further be described in Block 5 hereof. The Cooperating Agency will also make, or arrange to have made, additional contributions of property, services, facilities and funds required for carrying out the project as may be specified in Block 5 hereof or as may subsequently be agreed upon by the two parties.

C. AID and the Cooperating Agency may obtain the assistance of other public and private agencies in carrying out their respective obligations under this Project Agreement. The two parties may agree to accept contributions of property, services, facilities and funds for purposes of this Project Agreement from other public and private agencies, and may agree upon the participation of any such third party in carrying out activities under this Project Agreement.

D. All contributions of AID pursuant to this Project Agreement shall be made within a six months grace period extending beyond the estimated final contribution date specified herein. Except as otherwise specified herein or subsequently agreed by the two parties, all contributions of the Cooperating Agency pursuant to this Project Agreement shall be made on or before that same date. A contribution of goods or services shall be considered to have been made when the goods or services, provided or financed by the contributing party, are delivered in accordance with commercial practice.

E. The procurement of commodities and contract services to be financed with an AID contribution of currency other than that of the United States or of the Cooperating Country shall be subject to all provisions of, and regulations governing, Foreign Currency Authorizations issued by AID.

F. AID reimbursements or advances shall, in general, not exceed the amount obtained by applying the ratio of AID to Cooperating Agency contributions specified in the Project Agreement to the amount currently contributed by the Cooperating Agency. For example, if the Project Agreement provides for total contributions of \$400,000 by AID and \$600,000 by the Cooperating Agency and if the Cooperating Agency has currently contributed \$6,000 then AID will, in general, reimburse or advance no more than \$4,000. Commodities and services financed with an AID contribution of local currency shall be subject to the following requirements:

(1) Reimbursement

As mutually agreed between AID and the Cooperating Agency, either of the following methods may be employed for reimbursement by AID of local currency expenditures made by the Cooperating Agency:

(a) Direct Reimbursement

Once monthly or at such other intervals as may be mutually agreed between AID and the Cooperating Agency, AID will reimburse the Cooperating Agency for local currency expenditures made by the Cooperating Agency in the procurement of approved project requirements. Each such claim for reimbursement must be supported by the following documentation:

(i) Public Voucher, SF-1034, signed by the properly accredited representative of the Cooperating Agency, and embodying the following additional certification:  
"The total amount claimed hereunder was expended for the purposes authorized in Project Agreement No. \_\_\_\_\_ and is supported by the documentation required by said Project Agreement on file in the Cooperating Agency."

(ii) A report in the format prescribed by the AID Controller, certified as true and accurate by the properly accredited representative of the Cooperating Agency, in support of each such claim for reimbursement.

(b) Advances

Once monthly or at such other intervals as may be mutually agreed upon between AID and the Cooperating Agency, AID may advance local currency to the Cooperating Agency for operating purposes. The

initial advance will be in an amount agreed upon between AID and the Cooperating Agency as necessary to cover estimated project expenditures for a specified time period, and will be supported by a budget developed and approved by both AID and the Cooperating Agency. When necessary to replenish the advance, the Cooperating Agency may be reimbursed for amounts actually expended by it by submitting claims for reimbursement of such amounts supported by the documentation prescribed in paragraph (a) (i) above. On the basis of such claims for reimbursement, AID may replenish the working fund in amounts equal to, but not in excess of, the actual expenditures of the Cooperating Agency as so reported, up to the total amount of the AID local currency contribution less the amount of the initial advance.

All expenditures made by the Cooperating Agency against such advances must be supported by the documentation prescribed in paragraph (a) (i) above and such documentation in support of the final expenditures of the Cooperating Agency must be submitted to AID not later than 90 days after the date of the final expenditure.

(2) Documentation

With respect to all AID contributed local currency made available to it, the Cooperating Agency agrees to maintain a separate set of accounts for all transactions financed or to be financed, and the Cooperating Agency further agrees to obtain and retain in its files, for inspection and review by AID at any time as requested by AID, the documents listed below in support of each transaction financed with such funds.

(a) Commodity Transactions:

- (i) Applicable contract or purchase order between supplier and purchaser;
- (ii) Supplier's detailed invoice and satisfactory evidence of payment;
- (iii) Ocean or inland bill of lading, or other document evidencing delivery to the purchaser;
- (iv) Such additional documentation (e.g. inspection certificate) as may be required from the supplier by the purchaser.

(b) Contract Services Transactions:

- (i) Applicable contract between contractor and purchaser;
- (ii) Contractor's detailed invoice and satisfactory evidence of payment;
- (iii) A certificate by the Cooperating Agency as follows: "The undersigned certifies that the services for which reimbursement is requested have been satisfactorily rendered and the costs thereof

are properly reimbursable in accordance with the terms of the contract."

(c) Payroll Costs:

One copy of certified payroll listings and vouchers, together with satisfactory evidence of payment. Each payroll listing must show for each employee at least the following data: name, applicable job title, salary or wage rate, period covered, and amount paid.

(d) Other Project Costs:

One copy of the appropriate authorization documents and invoices covering travel, utility costs, etc.

(3) Refund Provision:

With respect to AID-contributed local currency made available to the Cooperating Agency under the methods of financing herein described, the Cooperating Agency agrees to refund promptly to AID, upon demand by AID and pursuant to AID instructions, the entire amount of such currency expended by the Cooperating Agency (or such lesser amount as AID may demand) whenever AID determines that such expenditure was improper as being in violation of the terms and conditions of this Project Agreement and/or any applicable agreement or arrangement between AID and the Cooperating Agency.

G. Unless otherwise specified, title to all property procured through financing by AID pursuant to Block 8 of this Project Agreement shall be in the Cooperating Agency, or such public or private agency as it may authorize. This provision is inapplicable to any property which may be used in connection with the project but is not financed pursuant to said Block 8.

H. Any property furnished to either party through financing by the other party pursuant to this Project Agreement shall, unless otherwise agreed by the party which financed the procurement, be devoted to the project until completion of the project, and thereafter shall be used so as to further the objectives sought in carrying out the project. Either party shall offer to return to the other, or to reimburse the other for, any property which it obtains through financing by the other party pursuant to this Project Agreement which is not used in accordance with the preceding sentence.

I. (1) If AID and any public or private organization furnishing commodities through AID financing for operations hereunder in the Cooperating Country, is, under the laws, regulations or administrative procedures of the Cooperating Country, liable for customs duties and import taxes on commodities imported into the Cooperating Country for purposes of carrying out this Project Agreement, the Cooperating Agency will pay such duties and taxes unless exemption is otherwise provided by any applicable international agreement.

(2) If any personnel (other than citizens and residents of the Cooperating Country), whether United States Government employee, or employees of public or private organizations under contract with, or individuals under contract with, AID, the Cooperating Agency or any agency authorized by the Cooperating Agency, who are present in the Cooperating Country to provide services which AID has agreed to furnish or finance under this Project Agreement, are, under the laws, regulations or administrative procedures of the Cooperating Country, liable for income and social security taxes with respect to income upon which they are obligated to pay income or social security taxes to the Government of the United States of America, for property taxes on personal property intended for their own use, or for the payment of any tariff or duty upon personal or household goods brought into the cooperating country for the personal use of themselves and members of their families (not including such personal or household goods as may be sold by such personnel in the Cooperating Country), the Cooperating Agency will pay such taxes, tariff, or duty unless exemption is otherwise provided by any applicable international agreement.

J. Any personnel (other than citizens and residents of the cooperating country), whether United States Government employees, or employees of public or private organizations under contract with, or individuals under contract with, AID, the Cooperating Agency or any agency authorized by the Cooperating Agency, who are present in the Cooperating Country to provide services which AID has agreed to furnish or finance under this Project Agreement shall be subject to the approval of the Cooperating Agency and AID, and shall be under the general direction of the Director of the AID Mission to the Cooperating Country.

K. If any commodity is furnished to the Cooperating Agency, or any public or private agency authorized by the Cooperating Agency, on a grant basis through financing by AID pursuant to this Project Agreement under arrangements which will result in the accrual of proceeds to the Cooperating Agency or any authorized agency and if the applicable agreement between the two governments referred to on the first page of this Project Agreement does not provide for the establishment of a Special Account and the deposit therein of currency of the Cooperating Country, the Cooperating Agency will make such arrangements as may be necessary to establish a Special Account to deposit therein currency of the Cooperating Country in amounts equal to such proceeds, in accordance with such terms and conditions as may be agreed upon. Funds in the Special Account may be used only as agreed upon by AID and the Cooperating Agency; provided, that such portion of the funds in the Special Account as may be designated

by AID shall be made available to AID to meet the requirements of the United States.

L. In the event that currency of a country other than the United States or the Cooperating Country is introduced into the Cooperating Country by AID or any public or private agency for the purposes of carrying out obligations of AID hereunder, the Cooperating Agency will make such arrangements as may be necessary to effect conversion of such currency into the currency of the Cooperating Country at the highest rate which, at the time the conversion is made, is not unlawful in the Cooperating Country. All uses of the currency of the Cooperating Country obtained by this conversion shall be subject to the requirements of paragraph F herein relating to local currency.

M. AID shall expend funds and carry on operations pursuant to this Project Agreement only in accordance with the applicable laws and regulations of the United States Government.

N. The two parties shall have the right at any time to observe operations carried out under this Project Agreement. Either party during the term of the Project and three years after the completion of the project, shall further have the right (1) to examine any property procured through financing by that party under this Project Agreement, wherever such property is located, and (2) to inspect and audit any records and accounts with respect to funds provided by, or any properties and contract services procured through financing by, that party under this Project Agreement, wherever such records may be located and maintained. Each party, in arranging for any disposition of any property procured through financing by the other party under this Project Agreement, shall assure that the rights of examination, inspection and audit described in the preceding sentence are reserved to the party which did the financing.

O. Upon completion of the project, a Completion Report shall be drawn up, signed by appropriate representatives of AID and the Cooperating Agency, and submitted to AID and the Cooperating Agency. The Completion Report shall include a summary of the actual contributions by both AID and the Cooperating Agency to the project, and shall provide a record of the activities carried out, the objectives achieved, and related basic data. AID and the Cooperating Agency shall each furnish the other with such information as may be needed to determine the nature and scope of operations under this Agreement and to evaluate the effectiveness of such operations.

P. The present Agreement shall enter into force when signed. Either party may terminate this Project Agreement by giving the other party 30 days written notice of intention to terminate it. Termination of this

Project Agreement shall terminate any obligations of the two parties to make contributions pursuant to Blocks 8 and 9 of this Project Agreement, except for payments which they are committed to make pursuant to non-cancellable commitments entered into with third

parties prior to the termination of the Project Agreement. It is expressly understood that the obligations under paragraph H relating to the use of property shall remain in force after such termination.

STANDARD  
PROVISIONS  
ANNEX**

**PROJECT AGREEMENT  
BETWEEN AID AND**

AN AGENCY OF THE GOVERNMENT OF

1. Project/Activity No.

2. Agreement No.

3.

 Original or Revision No. \_\_\_\_\_

A. As used herein, the term "AID" refers to the Agency for International Development, any component agency, or any successor agency. References to "this Project Agreement" shall mean the original Project Agreement as modified by any revisions which have entered into effect.

B. (1) AID will make available the amounts specified in Block 8 of this Project Agreement, as necessary for the project, for use for the designated purposes and as may be further described in Annex A, as required by Block 5 hereof. In addition, as may be further specified in Annex A, AID will, subject to the availability of funds and (where required by AID procedures) as provided for in Project Implementation Orders (PIOs) issued by AID in accordance with its procedures, make available funds (a) to pay costs of furnishing technical services to be performed by United States Government employees in connection with the project, (b) to pay a share of the costs of providing training outside the cooperating country in connection with the project for qualified persons from the cooperating country, and (c) to pay such additional costs as may be specified.

(2) The Cooperating Government Agency will make available the amounts specified in Block 9 of this Project Agreement, as necessary for the project, for use for the designated purposes and as may further be described in Annex A. The Cooperating Government Agency will also make, or arrange to have made, additional contributions of property, services, facilities and funds required for carrying out the project as may be specified in Annex A, or as may subsequently be agreed upon by the two parties.

C. AID and the Cooperating Agency may obtain the assistance of other public and private agencies in carrying out their respective obligations under this Project Agreement. The two parties may agree to accept contributions of property, services, facilities and funds for purposes of this Project Agreement from other public and private agencies, and may agree upon the participation of any such third party in carrying out activities under this Project Agreement.

D. AID shall not be required to make any contribution after the expiration of six months following the estimated final contribution date (Block 13 of the Project Agreement form AID 1330-1) or any amended final contribution date specified herein. Except as otherwise specified herein or subsequently agreed

by the parties, all contributions of the Cooperating Agency pursuant to this Project Agreement shall be made on or before said estimated termination date, or amended date. A contribution of goods or services shall be considered to have been made when the goods or services, provided or financed by the contributing party, are delivered in accordance with commercial practice.

E. The procurement of commodities and contract services to be financed in whole or in part by AID may (where so required by AID procedures) be undertaken only pursuant to PIOs issued by AID in accordance with its procedures.

F. Unless otherwise specified in the applicable PIO, the procurement of commodities financed with the AID contribution referred to in Block 8 of this Project Agreement shall be subject to the provisions of AID Regulation 1.

G. Unless otherwise specified in the applicable PIO, title to all property procured through financing by AID pursuant to Block 8(c) of this Project Agreement shall be in the Cooperating Agency, or such public or private agency as it may authorize. This provision is inapplicable to any property which may be used in connection with the project but is not financed pursuant to said Block 8(c).

H. Any property furnished to either party through financing by the other party pursuant to this Project Agreement shall, unless otherwise agreed by the party which financed the procurement, be devoted to the project until completion of the project, and thereafter shall be used so as to further the objectives sought in carrying out the project. Either party shall offer to return to the other, or to reimburse the other for, any property which it obtains through financing by the other party pursuant to this Project Agreement which is not used in accordance with the preceding sentence.

I. (1) If AID and any public or private organization furnishing commodities through AID financing for operations hereunder in the cooperating country, is, under the laws, regulations or administrative procedures of the cooperating country, liable for customs duties and import taxes on commodities imported into the cooperating country for purposes of carrying out this Project Agreement, the Cooperating Agency will pay such duties and taxes unless exemption is otherwise provided by any applicable international agreement.

(2) If any personnel (other than citizens and residents of the cooperating country), whether United

States Government employees, or employees of public or private organizations under contract with, or individuals under contract with, AID, the Cooperating Agency or any agency authorized by the Cooperating Agency, who are present in the cooperating country to provide services which AID has agreed to furnish or finance under this Project Agreement, are, under the laws, regulations or administrative procedures of the cooperating country, liable for income and social security taxes with respect to income upon which they are obligated to pay income or social security taxes to the Government of the United States of America, for property taxes on personal property intended for their own use, or for the payment of any tariff or duty upon personal or household goods brought into the cooperating country for the personal use of themselves and members of their families (not including such personal or household goods as may be sold by any such personnel in the cooperating country), the Cooperating Agency will pay such taxes, tariff, or duty unless exemption is otherwise provided by any applicable international agreement.

J. Any personnel (other than citizens and residents of the cooperating country), whether United States Government employees, or employees of public or private organizations under contract with, or individuals under contract with, AID, the Cooperating Agency or any agency authorized by the Cooperating Agency, who are present in the cooperating country to provide services which AID has agreed to furnish or finance under this Project Agreement shall be subject to the approval of the Cooperating Agency and AID, and shall be under the general direction of the Director of the Mission to the cooperating country.

K. If any commodity is furnished to the Cooperating Agency, or any public or private agency authorized by the Cooperating Agency, on a grant basis through financing by AID pursuant to this Project Agreement under arrangements which will result in the accrual of proceeds to the Cooperating Agency or any authorized agency and if the applicable agreement between the two governments referred to on the first page of this Project Agreement does not provide for the establishment of a Special Account and the deposit therein of currency of the cooperating country, the Cooperating Agency will make such arrangements as may be necessary to establish a Special Account and to deposit therein currency of the cooperating country in amounts equal to such proceeds, in accordance with such terms and conditions as may be agreed upon. Funds in the Special Account may be used only as agreed upon by AID and the Cooperating Agency; provided, that such portion of the funds in the Special Account as may be designated by AID shall be made available to AID to meet the requirements of the United States.

L. The Cooperating Agency will make such arrangements as may be necessary so that funds intro-

duced into the cooperating country by AID or any public or private agency for purposes of carrying out obligations of AID hereunder shall be convertible into currency of the cooperating country at the highest rate which, at the time the conversion is made, is not unlawful in the cooperating country.

M. AID shall expend funds and carry on operations pursuant to this Project Agreement only in accordance with the applicable laws and regulations of the United States Government.

N. The two parties shall have the right at any time to observe operations carried out under this Project Agreement. Either party during the term of the Project and three years after the completion of the project, shall further have the right (1) to examine any property procured through financing by that party under this Project Agreement, wherever such property is located, and (2) to inspect and audit any records and accounts with respect to funds provided by, or any properties and contract services procured through financing by, that party under this Project Agreement, wherever such records may be located and maintained. Each party, in arranging for any disposition of any property procured through financing by the other party under this Project Agreement, shall assure that the rights of examination, inspection and audit described in the preceding sentence are reserved to the party which did the financing.

O. Upon completion of the project, a Completion Report shall be drawn up, signed by appropriate representatives of AID and the Cooperating Agency, and submitted to AID and the Cooperating Agency. The Completion Report shall include a summary of the actual contributions by both AID and the Cooperating Agency to the project, and shall provide a record of the activities carried out, the objectives achieved, and related basic data. AID and the Cooperating Agency shall each furnish the other with such information as may be needed to determine the nature and scope of operations under this Agreement and to evaluate the effectiveness of such operations.

P. The present Agreement shall enter into force when signed. Either party may terminate this Project Agreement by giving the other party 30 days written notice of intention to terminate it. Termination of this Project Agreement shall terminate any obligations of the two parties to make contributions pursuant to Blocks 8 and 9 of this Project Agreement, except for payments which they are committed to make pursuant to non-cancellable commitments entered into with third parties prior to the termination of the Project Agreement. It is expressly understood that the obligations under paragraph H relating to the use of property shall remain in force after such termination.

I. GENERAL DESCRIPTION

The Republic of Korea (ROK) is undergoing a steady change from a rural traditional society to an industrialized, largely urbanized nation. Thus, the ROK has a continuing and increasing need for well-qualified engineers, scientists, managers, and other technicians to fill new positions of leadership and/or undertake specialized technological work<sup>in</sup> business, industry, and government. At present, however, Korea does not have sufficient numbers of indigenous specialists in many areas, and does not yet have the capacity for training additional people of the quality and in the numbers that are required. In addition, AID's technical assistance projects, which could possibly provide such specialized training, are either terminating in the near future or are in other, more narrowly focused areas.

In addition to the participant training component, short term advisory services are required to alleviate constraints in critical development areas during the Third Five Year Plan period.

In recognition of the above requirements, the ROKG has requested additional assistance from the United States. Accordingly, A.I.D. has agreed subject to availability of funds, to provide advanced management and technological training to selected participants and provide special short term advisory services during the Third Five Year Plan period.

II. SPECIFIC DESCRIPTION

This project is intended, subject to its satisfactory implementation and subject also to the availability of funds in later fiscal years, to continue for the period of the Third Five Year Plan. Project objectives include the following activities:

- (a) Provide training in the U.S. to acquaint Korean technicians and high-level managers with advanced techniques in production, planning, and administration. This training in the U.S. will vary in length of time, but generally will not be less than three months nor exceed twelve months for each participant.

**PROJECT AGREEMENT**

BETWEEN AID AND

EPB

AN AGENCY OF THE GOVERNMENT OF

ROK

1. Project/Activity No.  
489-15-280-673

2. Agreement No.  
673-3005

3. Project/Activity Title

GENERAL TRAINING AND ADVISORY SERVICES

3.  Original or  
Revision No.

Participants from the public sector, excluding those trained in public safety and the legal profession, as per Annex B will not exceed 10% of the total. The remainder will be from the private sector.

- (b) Provide administrative and management consultants to Korea to advise and make recommendations designed to alleviate constraints in the development of a system which will supply the increasing number of engineers, scientists, managers, and other technicians needed by the expanding Korean economy. When precise needs are established, this ProAg will be amended to include financing for such consultants.
- (c) Plan and implement expanded self-financed industrial training programs. Thus, AID would assist in the development of and arrangements for training programs in the United States or certain third countries for technicians from private industry, but would not be involved in the financing the direct costs of such programs. This part of the project is designed to utilize AID programming expertise to help assure worthwhile training programs for self-financed participants, and to encourage ROK industries to expand their training programs.

III. U.S. CONTRIBUTIONS

The United States Government (through the Agency for International Development) will provide funds specified in Annex B to this Project Agreement up to the maximum amount specified in Block 8, page 1.

In addition, the services of U.S. specialists, assigned to USAID/Korea and funded under other documentation, will be provided to advise the ROKG and the private sector on this project.

#### IV. ROKG CONTRIBUTIONS

The ROKG agrees to make the following contributions to this project:

(a) Finance all costs pertinent to the international travel for all participants under this project.

(b) Assure that any Koreans receiving training in the United States under this project will, if employed by the ROKG or any subdivision or institution thereof prior to their departure, be assigned upon their return to the same, or a similar position or a position of greater responsibility.

(c) ROKG assures that full-time qualified Korean counterparts will be working closely with U. S. technicians on the project, and that these counterparts will be available when considered necessary by the USAID. These counterpart services will be entirely financed by ROKG from other than Trust Funds.

(d) Won funds for transfer to USAID for implementation through the Trust Fund of local costs of U. S. technicians and USAID local training office employees assigned to the project.

#### V. IMPLEMENTATION RESPONSIBILITIES

The Ministry of Science and Technology of the ROKG shall be administratively responsible for this project on the part of the Government of the Republic of Korea.

The officer in charge of the training function within USAID/Korea in conjunction with technical offices as appropriate shall be the officials responsible on the part of USAID/Korea for the implementation of this project and will furnish technical and procedural assistance.

The following procedures will apply in selecting participants from the private industry sector:

(a) MOST in consultation with USAID/Korea will prepare the detailed program priority areas of training to be implemented.

(b) Representatives of MOST and USAID in consultation with the Federation of Korean Industries (FKI) and/or other appropriate private industrial organizations as necessary will select the companies to be represented.

(c) Priorities shall be given to medium and small industries and also to those programs which have a high rate of spill over and multiplier effects.

(d) Each designated company will write a detailed description of the training desired for use by USAID/MOST in requesting AID/W to arrange appropriate training programs.

(e) MOST and USAID will make the final selection of candidates.

(f) USAID will forward the PIO/P's for AID/W implementation.

It is agreed that all other participants will be selected in accordance with the Participant Training Agreement dated December 22, 1965 with the understanding that the Bureau of Technical Cooperation, MOST has succeeded the Bureau of Technical Development, EPB, and that the USAID/Korea has succeeded the United States Operations Mission to Korea.

GENERAL TRAINING AND ADVISORY SERVICES

I. General Description

The Republic of Korea is undergoing steady change from a rural, traditional society to an industrialized, largely urbanized nation. In order to further its own development and assure continuance of this process, the ROK has a continuing and increasing need for specialized expertise in a variety of key areas. At present, however, it does not have sufficient numbers of indigenous specialists in these areas, and it is not yet capable of training the additional people in the quantities and of the quality that are required. In addition, AID's other technical assistance projects which could possibly provide such specialized training are more narrowly focused and therefore do not provide the flexibility necessary to provide the required training, or they have been terminated even though a recognized need for residual training activities remains.

In addition to this participant training component, the ROK also has a need for short-term expert advisory services to make suggestions and recommendations to the ROKG or other relevant organizations which will alleviate constraints in areas critical to the successful achievement of the Third Five-Year Plan goals.

In recognition of the above requirements, the ROKG has requested assistance in the form of this project to fill the gap and thus meet the needs for training specialists and providing expert advisory services in specified key areas. Accordingly, AID has agreed to provide this training and these services, and will continue to do so (subject to the availability of funds in future fiscal years) during the period of the Third Five-Year Plan.

This project agreement also covers, but does not finance, the activities of the Asian-American Free Labor Institute (AAFLLI). This Institute is centrally funded by AID/Washington under contracts between AID and the American Federation of Labor - Congress of Industrial Organizations (AFL-CIO), and is responsible for conducting labor education and social development programs in Korea and other Asian countries. AAFLLI's program in Korea is implemented in cooperation with the Ministry of Health and Social Affairs and the Federation of Korean Trade Unions.

II. Specific Description

The objectives of this project include the following activities:

|  |            |  |            |
|--|------------|--|------------|
| For the Cooperating Government or Agency |            | For the Agency for International Development |            |

|   |  |  |
|---|--|--|
| PROGRAM<br>CONTRIBUTION<br>CODES<br>COMB. A | TECHNICAL ASSISTANCE<br>EPB<br>MINISTRY OF ECONOMY AND FINANCE OF<br>Republic of Korea | 487-15-280-693<br>673-4002<br>GENERAL TRAINING & ADVISORY SERVICES |
|---|--|--|

(a) Provide training for Koreans in the U.S. or selected third countries in the following representative areas: manpower and management, engineering, manufacturing and production technology, techno-economics, government policy and programs, police work, chemical technology, data processing, fisheries, shipbuilding, industrial standards, and the legal profession. Training to be provided is not necessarily limited to these areas, however.

(b) Provide expert consultants to the ROK to advise, suggest, and make recommendations designed to alleviate constraints or solve problems that are adversely affecting the attainment of the Third Five-Year Plan goals. Specifically, it is expected that these consultants will be experts in fisheries, economics/finance, or possibly in other fields yet to be determined.

(c) Assist in the implementation of expanded self-financed industrial training programs by and for Korean private companies. To accomplish this, AITD would utilize its participant training program mechanisms to assist certain Korean companies in developing and arranging for training programs for their technicians in the U.S. and certain third countries. Since affluent companies and joint ventures should as a matter of course be developing and implementing their own training programs, those companies deemed by USAID to be affluent or joint ventures will be expected to finance a part or all of the training costs for their technicians trained under this Project Agreement. Utilization of AITD participant programming expertise in this manner will help assure worthwhile training programs for self-financed participants, and will also enforce and encourage ROK companies to develop and expand their own training programs.

(d) AAFLI shall conduct labor education seminars and promote trade union research programs designed to assist the Korean labor movement in the development of collective bargaining techniques and the formulation of economic policies. AAFLI shall also render financial and technical assistance to Korean labor unions by equipping labor classrooms with furnishings and audio-visual equipment, providing equipment to workers' clinics and hospitals, and assisting in the construction or improvement of union halls and community centers. Future activities for AAFLI may include educational training in the establishment of cooperatives and credit unions for workers, vocational training, sponsoring Korean trade union leaders to attend international conferences and courses, and training and assistance in the establishment of day-care centers for the benefit of working women.

III. U.S. Contributions

The United States Government (through the Agency for International Development) will provide funds specified in Annex B to this Project Agreement up to the maximum specified in Block 8, page 1.

In addition, the services of U.S. specialists assigned to USAID/Korea and the U.S. Embassy (all funded under other documentation) will be available to advise the ROKG and ROK industries and organizations on this project.

IV. ROKG Contributions

The ROKG agrees to make the following contributions to this Project:

(a) Finance all costs pertinent to the international travel for all participants under this project.

(b) Assure that any Koreans receiving training in the United States under this project will, if employed by the ROKG or any subdivision or institution thereof prior to their departure, be assigned upon their return to the same, or a similar position or a position of greater responsibility.

(c) ROKG assures that full-time qualified Korean counterparts will be working closely with U.S. technicians on the project. These counterpart services will be entirely financed by the ROKG from financial sources other than Trust Funds.

(d) Won funds for transfer to USAID for implementation through the Trust Fund of local costs of U.S. technicians and USAID local training office employees assigned to the project.

(e) The ROKG will arrange that all commodities related to this project will be exempt from all requirements for customs duties and import taxes, and from any other related taxes assessed by the ROKG or its subdivisions. If not so exempted, the ROKG shall pay directly all costs thereof from its own revenues.

V. Contribution by Private Korean Companies

Private Korean companies agree to make the following contributions to this project:

GENERAL TRAINING & ADVISORY SERVICES

(a) Continue to pay the salary and other benefits due the participants from their respective companies during the period of the training, and reinstate the participants in the same or better positions upon their return from the training.

(b) Those companies which are joint ventures or are deemed to be affluent will pay for a part or all of the costs of training participants from their firms.

VI. Implementation Responsibilities

The Ministry of Science and Technology of the ROKG shall be administratively responsible for this project on the part of the Government of the Republic of Korea.

The officer in charge of training within USAID/Korea, in conjunction with technical offices as appropriate, shall be responsible on the part of USAID/Korea for the implementation of this project and will furnish technical and procedural assistance.

It is agreed that all participants will be selected in accordance with the Participant Training Agreement dated December 22, 1965 with the understanding that the Bureau of Technical Cooperation, MOST has succeeded the Bureau of Technical Development, EPB, and that the USAID/Korea has succeeded the United States Operations Mission to Korea.

In addition, the following special procedures will apply in selecting participants from private industry:

(a) MOST in consultation with USAID/Korea will prepare the detailed program priority areas of training to be implemented.

(b) Representatives of MOST and USAID in consultation with the Federation of Korean Industries (FKI) and/or other appropriate private industrial organizations as necessary will select the companies to be represented.

(c) Priorities shall be given to medium and small industries and also to those programs which have a high rate of spill over and multiplier effects.

(d) Each designated company will write a detailed description of the training desired for use by USAID/MOST in requesting AID/W

ITEM

I. IMPLEMENTATION

(a) Direct Hire Personnel

The officer in charge of the training function within USAID/Korea, currently assigned to the Office of Program, will be funded under Technical Support. This officer will coordinate with various technical officers (e.g., Private Enterprise, Legal, Rural Development, etc.) to insure effective management and implementation of the project. This officer, in consultation with ROEG, USAID, and/or other appropriate officials, will perform the following duties:

- (1) Establish training requirements
- (2) Screen, test, select, and process participants
- (3) Encourage the development and implementation of self-financed training programs.

Other direct hire personnel as may be required under Annex A, Section II (b) and as agreed upon from time to time by USAID and MOST may also be charged to this Project Agreement.

(b) Training of Participants

This Project Agreement will be amended when appropriate to include financing for a schedule of participants.

SUMMARY OF PROGRAM DOCUMENT

Date: November 16, 1973

Project Title : General Training and Advisory Services

Project Number : 439-15-230-373

Agreement Number : 373-4002

Attached Documents : Project Agreement, Original

The purpose of this Project Agreement is to describe objectives to be pursued and specific activities to be carried out, with FY 74 funding, under this project, and to obligate \$7,000 to finance the services of three ISEA fish culture specialists. This Project Agreement will be later revised to include funding for participant training and contract services components of the project, when the training schedule and the scope of consultative services required are precisely developed.

This Project Agreement also provides \$6,868,000 from the CY 1973 Trust Fund Account for logistic and administrative support of this project.

Project Title : General Training and Advisory Services

Project Number : 489-15-280-673

Agreement Number : 673-4002

Attached Document : Project Agreement Revision No. 2

The purposes of this revision are:

- (1) to reduce PASA funding by \$200 to the actual requirement,
- (2) to add \$106,330 for participant training program (see Participant Training Schedule, Annex B for additional \$106,330),
- (3) to incorporate into this Agreement the CY 1974 ROKG budgetary contributions in an amount of \$57,490,400 in support of AID-financed participants program,
- (4) to insert a clause "VII SPECIAL PROVISIONS," which waives the requirement of issuance of the PIO/Ps to a period not to exceed two months after the final signature of this Agreement, and
- (5) to insert a clause VIII ASSURANCE OF ROKG CONTRIBUTIONS," which is to satisfy the requirements of Section 110 (a) Foreign Assistance Act of 1973.

All other Provisions remain the same.

The purpose of this revision are:

- (1) to reduce PASA funding by \$22,000 to the actual requirement,
- (2) to add \$106,330 for participant training program, in addition to \$120,200 previously provided under Pro Ag Rev. #1 (see Participant Training Schedule, Annex B, for additional \$130,330),
- (3) to incorporate into this Agreement ¥57,490,400 (equivalent to US \$143,730) of the CY 1974 ROKG budgetary contributions in support of AID-financed participant training programs (¥43,110,400 for International travel costs, ¥4,230,000 for medical examinations, language training etc., ¥150,000 for printing, and ¥20,000,000 for KATCA operations),
- (4) to insert a clause "VII SPECIAL PROVISIONS," which waives the requirement of issuance of the PIO/PS to period not to exceed two months after the final signature of this Agreement, and
- (5) to insert a clause "VIII ASSURANCE OF ROKG CONTRIBUTIONS," which is to satisfy the requirement of Section 110 (a) of Foreign Assistance Act of 1973.

All other provisions remain the same.

VII. SPECIAL PROVISIONS

This Project Agreement includes funding for participant training. Specific details are yet to be worked out for selection of eligible participants and for that reason the PIO/Ps covering them cannot be issued at this time. In accordance with the authority granted in AID Manual Order No. 712.4 paragraph III, 3, a, the USAID/Korea Director waives the requirement for issuance of the PIO/Ps at the same time as the final signature of the Project Agreement, to a period not to exceed two months beyond such date.

VIII. ASSURANCE OF ROKG CONTRIBUTIONS

The Republic of Korea Government (Ministry of Science and Technology) included in its approved CY 1974 Budget a total of W57,490,400 (equivalent to US \$143,730) in support of FY 74 AID-financed participant training program, and further agrees to make its budgetary contributions every year at an appropriate level during the remaining period of the life of AID-financed projects. USAID/Korea finds this satisfy the requirement of Section 110 (a) of Foreign Assistance Act of 1973.

14. Special Provisions USDA/AID Memorandum of Agreement dated Feb. 15, 1966, as amended, is applicable.  
 This PIO/P is issued for a four-month extension of training program (self-financed) as requested in STATE 032371 dated 2/27/78. Participant originally funded under PIO/P 489-673-1-50076/70007. If, for any reason, the participant is unable to meet any of his financial obligations, incurred legally or illegally, the Korean government through KIST will assume responsibility for reimbursement.

PARTICIPANT: Sung-Joo PARK Agriculture/Academic 95801-1
