

Monthly Report

November 1981

John R. Foley

INSTITUTO UNIVERSITARIO
DE
TRÁS-OS-MONTES E ALTO DOURO
VILA REAL - PORTUGAL

The first two weeks of November were devoted to vacation. We returned on November 15 in time to meet with Dr. Woods Thomas. On Monday the 16th we met with Director Real and the rest of the IUTAD administrative staff here. We then toured the campus and farm. We were accompanied by Dr. Elmer Fales, federal investigator, from AID Washington.

On Tuesday we traveled to Lisbon and spent the rest of the week in review meetings with Ministry of Education staff, AID/P, our staff, and Dr. Fales.

The following week we had summary meetings on Monday, and Atkinson and I helped Dr. Fales with some questions he had regarding his report.

We returned to Vila Real on the 24th and the rest of the month was spent taking care of office details, helping staff members, and generally getting caught up after a month away from here.

We have been receiving a steady stream of material such as articles, books, journals, bulletins, plans, and all sorts of helpful material from Purdue. Thanks again to Mrs. Vivian Rider and staff.

Artur Cristavao reports that he had a very valuable learning experience at Purdue, in rural Indiana field offices, and at the Univ. of Wisconsin. I wish to thank all those who helped make his visit so rewarding. A special thanks goes to Mrs. June Lang, who organized this trip. His report is almost finished and he has reflected very favorably on his tour.
