**I. GENERAL DESCRIPTION**

A component of the Technical Cooperation Program between the governments of the Republic of Korea and the United States of America is the foreign training of Koreans in specific fields pertinent to the objectives of agreed-upon projects. The agencies responsible for planning and developing these foreign training programs are the ROKG Ministry of Science and Technology (MOST) and the United States Agency for International Development to Korea (USAID/K).

Recognizing the limited value of foreign training unless the knowledge acquired abroad is fully disseminated, a number of the participants, who have returned from training, have organized the Korean American Technical Cooperation Association (KATCA).

The purpose of KATCA is to provide assistance to its members in maintaining and up-grading their technical knowledge; to provide a forum for the dissemination of this knowledge to all interested parties in Korea; and to assist MOST and USAID in orientation and preparation of participants going abroad for training. In recognition of the desirability of perpetuating an organization of such high ideals and practical value, MOST and USAID agree to assist KATCA financially for services to be performed in their behalf.

The purpose of this Project Agreement is to delineate the responsibilities and contributions of each party concerned.

**II. KATCA CONTRIBUTIONS**

Following the guidelines provided by USAID and/or MOST, KATCA herewith agrees to provide the following services, with written approval to be obtained as necessary prior to implementation of each specific activity:

**I. GENERAL DESCRIPTION**

A component of the Technical Cooperation Program between the governments of the Republic of Korea and the United States of America is the foreign training of Koreans in specific fields pertinent to the objectives of agreed-upon projects. The agencies responsible for planning and developing these foreign training programs are the ROKG Ministry of Science and Technology (MOST) and the United States Agency for International Development to Korea (USAID/K).

Recognizing the limited value of foreign training unless the knowledge acquired abroad is fully disseminated, a number of the participants, who have returned from training, have organized the Korean American Technical Cooperation Association (KATCA).

The purpose of KATCA is to provide assistance to its members in maintaining and up-grading their technical knowledge; to provide a forum for the dissemination of this knowledge to all interested parties in Korea; and to assist MOST and USAID in orientation and preparation of participants going abroad for training. In recognition of the desirability of perpetuating an organization of such high ideals and practical value, MOST and USAID agree to assist KATCA financially for services to be performed in their behalf.

The purpose of this Project Agreement is to delineate the responsibilities and contributions of each party concerned during CY 1972 and to authorize the use of \$16,888,000 from Trust Funds for KATCA to finance the activities described herein.

**II. KATCA CONTRIBUTIONS**

Following the guidelines provided by USAID and/or MOST, KATCA herewith agrees to provide the following services, with written approval to be obtained as necessary prior to implementation of each specific activity:

- A. Provide for pre-departure orientation for participants. Orientation programs will be conducted at periods agreed to by all parties concerned. Each session will consist of a total of 24 class hours divided in substance as follows: 40% on the U. S. , the American Aid program, and related subjects; 40% on Korea, its economic development program, and related subjects; 10% on AID administrative information related to participants; 5% on ROKG administrative information relating to participants; and 5% ceremonial. The specific curriculum will be developed with and approved by MOST and USAID. In conjunction with the above and with the approval of USAID and MOST, KATCA may use original materials relating to pre-departure preparation, such as brochures or pamphlets on comparisons of the cultural and social organization of Korea and the U. S.**
- B. Control, store and deliver books and related materials provided by AID for participants. These books and pamphlets are a regular part of each participant's program.**
