3. Project/Activity Title

**Warehousing and Distribution**

**I. BACKGROUND**

This Project was established to provide adequate storage facilities and a supply system capable of supporting the AID-assisted counter-insurgency program of the GVN. Construction of the Central Logistics Agency (CLA) Central Warehouse Complex at Thu Duc was started in 1966 and the major portion of the construction was completed in 1967. The internal road network was paved but the old drainage system which was designed for unpaved surfaces was not altered to meet the increased quantity of surface run-off which caused excessive ponding and was further aggravated by heavy vehicular load, thus destroying the open storage and road surfacing in a short period of time.

**II. DESCRIPTION AND OBJECTIVES**

The objective of this project is to develop within the Central Logistics Agency (CLA) the capability to provide an adequate level of logistics support to the civil ministries and agencies of the GVN.

The objective of this activity is to complete the physical improvements to the CLA Central Warehouse & Complex at Thu Duc.

**III. IMPLEMENTATION PLAN AND RESPONSIBILITIES**

The USAID will proceed to award a contract to accomplish the following physical improvements at the CLA Central Warehouse Complex, Thu Duc: Reconstruct the existing drainage system, repair the drainage road and improve about 42,500 square meters of open road area. Construction will be done in accordance with the instructions of the attached PIO/T and the related A&E prepared by the USAID Office of Engineering.

**IV. DESIGNATION**

A. The Chief, Logistics Supply Management Branch, is hereby designated US Project Manager. In this capacity he will act as Technical Advisor, coordinate the USAID assistance provided for the project, and work closely with the GVN Project Manager in all phases of the project, including budgeting, implementing and evaluating.

B. The Director, CLA Directorate of Supply and Maintenance, is hereby designated GVN Project Manager. In this capacity he will be primarily

responsible for the overall implementation of the project activity. It is understood and agreed that he will work closely with the US Project Manager and will seek and utilize the latter's technical advice, and counsel to the maximum degree practical to attain project objectives.

V. EXPLANATION OF FINANCING

The GVN and the USAID agree to utilize the currency shown on the face sheet in support of this activity for the purpose of road repairing, open storage improvement and drainage reconstruction as indicated in the attached PIO/T and Budget.

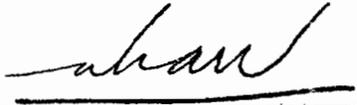

VI. REPORTS

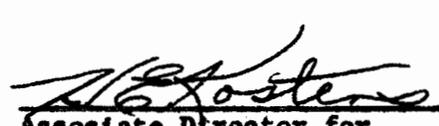

The US and GVN Project Managers jointly shall prepare and submit to their respective agencies monthly progress reports concerning progress of work, delineating principal details of the work accomplished, and identifying any problems or delays which are deterring progress of the project.

VII. SPECIAL PROVISIONS

The CIA agrees to maintain the Thu Duc Warehousing Complex so as to derive the maximum utilization of this facility.

**10. References and Remarks:**

This revision authorizes the transfer of 1 ea truck forklift, 15,000 lbs rated capacity procured under FID/C 010086 to Project No. 730-11-590-350 Health Logistics Support. A request to cancel CLA Contract 6005-02011 dated December 29, 1970 for 2 ea 15,000 lbs rated capacity forklifts was not approved as cancellation charges of the contract was considered too high. The Public Health Division had a requirement for one of these forklifts and agreed to accept one of those under contract. PROG concurred with this arrangement.

PID/C WS No. PH-8/71, OLP No. 130/7A dated January 1, 1970 therefore was not processed for procurement because of this agreement.

The GVN and the Central Logistics Agency agree to effect legal transfer of this item to Public Health through appropriate GVN channels upon completion of this Project Agreement.

## Explanation and/or comments:

This agreement provides for the continuation of services begun in FY 69 by Space Age Engineering Company under PIO/T 9190844 to design a financial accounting system for the Central Logistics Agency (CLA). The Space Age contract was terminated in 1971 in the best interests of the USG. Subsequently a Task Order was issued by AID/W to the Arthur Young Company to develop a financial accounting and management system for CLA. Recommendations made by the Arthur Young Co. have been approved, and funding is needed to cover a portion of the expenses required for the last 3 phases of system design: training of personnel, installation, and monitoring of the system. The \$45,000 provided by the attached agreement will complete the project's funding.

**PROAC  
CONTINUATION  
SHEET**

**ANNEX**

**I. BACKGROUND**

This Project was established to provide adequate storage facilities and a supply system capable of supporting the AID-assisted counter-insurgency program of the GVN. Construction of the Central Logistics Agency (CLA) Central Warehouse Complex at Thu Duc was started in 1966 and the major portion of the construction was completed in 1967. This Project agreement obligates the CY 72 AAC Program for warehouse maintenance and printing the GVN Basis Supply Regulations manual.

**II. DESCRIPTION AND OBJECTIVES**

The objective of this project is to develop within the Central Logistics Agency (CLA) the capability to provide an adequate level of logistics support to the civil ministries and agencies of the GVN.

**III. DESIGNATION**

A. The Chief, Logistics Supply Management Branch, is hereby designated US Project Manager. In this capacity he will act as Technical Advisor, coordinate the USAID assistance provided for the project, and work closely with the GVN Project Manager in all phases of the project, including budgeting, implementing and evaluating.

B. The Director, CLA Directorate of Supply and Maintenance, is hereby designated GVN Project Manager. In this capacity he will be primarily responsible for the overall implementation of the project. It is understood and agreed that he will work closely with the US Project Manager and will seek and utilize the latter's technical advice, and counsel to the maximum degree practical to attain project objectives.

**IV. EXPLANATION OF FINANCING**

The GVN and the USAID agree to utilize the local currency shown on the face sheet in support of this activity for the purpose of maintenance and repair of warehouses, including extermination of termites and wood-borers in CLA warehouses throughout the country; in addition the trust fund obligation finances the printing of the GVN Basis Supply Regulation manual.

**V. REPORTS**

The US and GVN Project Managers jointly shall prepare and submit to their respective agencies monthly progress reports concerning progress of work, delineating principal details of the work accomplished, and

# PROJECT DOCUMENT CLEANANCE SHEET

Project Title : Warehousing & Distribution

Project Number : 730-11-970-390

Agreement Number : 69-053

Original \_\_\_\_\_ Revision 2

Explanation and/or comments

This amendment deobligates funds intended for the completion at the Thu Duc Warehouse Complex (opposite the hardstand) of a barge dock. It is not believed that there is now sufficient justification for completion of this project. It has been determined that equipment arriving by barge for storage in the open storage area (hardstand) can be off-loaded at the existing docks adjacent to the warehouse area.
