Serving the World:

*International Activities of American
Colleges and Universities*

August 1993

In efforts to expand the role of American higher education in international and global development, it is important that key policy makers in the U.S. and abroad understand the extent to which U.S. colleges and universities are already engaged in international partnerships for education, training, and development assistance. This publication illustrates the breadth and depth of the international activities at U.S. community colleges, four-year colleges, and universities by summarizing the activities of a diversity of the 3600 institutions in the United States. Produced in support of Cooperative Agreement No. PCE-5055-A-00-2012-00.

Serving the World: International Activities of American Colleges and Universities

American colleges and universities are a major national resource for global development. American higher education is making vital contributions to economic, social, and technological progress in developing and newly independent countries in ways that also enrich the American economy and society. Although linkages have long been common with institutions in Europe, more colleges and universities are now broadening their ties with developing country institutions through faculty research, student and faculty exchange, and technical assistance.

The extent to which American higher education is involved in international activities may surprise some. This involvement is growing, as detailed later in this survey, and is now more important than ever. The end of the Cold War, economic integration and disparities, and the compelling issues that span nations -- such as the environment, health, and population -- combine to pose new challenges for how the United States will contribute to global development. American higher education offers an important source of expertise with which to address world development needs.

This publication illustrates the breadth and depth of international activities at U.S. community colleges, four-year colleges, and universities by reviewing the activities of a diversity of the more than 3600 institutions in the United States. Even a cursory look through the following pages provides impressive evidence of the number of countries with which U.S. institutions are working, the broad range of activities underway, and the large number of American educators, researchers, administrators, and students participating in these initiatives, often in collaboration with local business and community groups.

Preparation of this booklet was coordinated by the **Association Liaison Office for University Cooperation in Development**, which operates on behalf of six higher education associations (American Association of Community Colleges, American Association of State Colleges and Universities, Association of American Universities, American Council on Education, National Association of Independent Colleges and Universities, and the National Association of State Universities and Land-Grant Colleges), and funded through an Agreement with the Agency for International Development. The main goals of the Agreement are to support the efforts of U.S. higher education to (a) aid the progress of higher education institutions in developing and newly independent countries to address national needs; (b) help A.I.D. shape new programs of collaboration and partnership with higher education; and (c) increase the expertise and attention related to global development on U.S. campuses.

This is not a complete survey. Only a small number of institutions are profiled and scores of institutions not listed have equally broad and deep programs as those featured. For this study, we asked each of the six cooperating associations for the names of up to ten of their member institutions to invite to participate in the survey. We requested response within one month, and included what was given to us largely in the way in which it was submitted. For these reasons, many institutions, and some programs of included institutions, were not described. Some institutional profiles are in tables and some are in narrative summaries. Graduate universities detail more research collaborations, while undergraduate institutions tend to emphasize student and faculty study and exchange programs.

We think that the compilation, even in this less-than-complete version, is useful to signal the international engagement of American higher education and the vast resource that can be tapped for the national and global interest. A more inclusive summary may be of interest at some point, or one cross-referenced by subject, country, or world region. In the meantime, we welcome your comments and any suggestions you may have.

Joan Claffey, Director
Association Liaison Office for
University Cooperation in Development

Acknowledgement

Thanks go to Dr. David Chapman of the State University of New York at Albany, who helped design and coordinate this survey. Staff of the six cooperating higher education associations suggested diverse institutions within their membership for the international profiles. Patricia Plaza Wilson skillfully prepared all of the manuscript, through many versions, and Kathy Anderson assisted with the design of the reporting format. Special appreciation also goes to all those at the featured institutions who replied on short notice to our invitation to participate in the survey.

INTERNATIONAL PROGRAMS AND FACULTY INVOLVEMENT AT U.S. HIGHER EDUCATION INSTITUTIONS

As the following two tables show, the American Council on Education reported in 1992 that well over half of American institutions granting doctorates had linkages with institutions overseas for consulting or technical assistance. Eighty-five percent of the doctoral institutions maintained linkages with overseas institutions for joint research projects. Nine percent of the community colleges reported having overseas linkages for consulting or technical assistance.

One-third of the doctoral institutions report that at least 11 percent of their full-time faculty have participated in overseas projects or consulting. Fifteen percent of the baccalaureate institutions have at least 11 percent of their faculty with such experience. Half of the doctoral institutions report having at least 11 percent of their faculty who have conducted research involving other countries.

The trend toward greater faculty involvement in overseas activities has increased sharply. About two-thirds of all four-year and graduate institutions report that faculty involvement has increased over the last five years. Twenty-one percent of the community colleges report such an increase. The balance of all institutions report that faculty overseas involvement has not changed.

Institutions are expanding their opportunities for students as well. While 60 percent of all institutions have study programs in Europe, ranging from 29 percent of the community colleges to 87 percent of baccalaureate institutions and 96 percent of doctoral institutions; 45 percent of all institutions now have study programs in non-European countries, ranging from 19 percent of the community colleges to 61 percent of the baccalaureate colleges to 80 percent of the doctoral institutions.

Many of the institutions are sponsoring their overseas programs and linkages without government or foundation assistance. Fewer than two-thirds of the doctoral institutions report government or foundation funds for overseas technical assistance. Only 4 percent of baccalaureate institutions and 7 percent of community colleges have government contracts or grants for technical assistance overseas.

INTERNATIONALIZING THE CAMPUS - 1992
(Percentage of Institutions)

	Total	2-year	Bacca-laureate	Compre-hensive	Doctoral
Percentage of full-time faculty that have participated in overseas projects/consulting:					
None	34	66	13	13	3

CLARK ATLANTA UNIVERSITY
Atlanta, Georgia

Clark Atlanta University has maintained a consistent focus on capacity building through technical assistance and training. In addition to contract and tailored on-site training programs, annual 6-8 week training seminars are offered at the International Center for participants from developing countries in such areas as democratization, women and development, entrepreneurship and strategic management of enterprises, and other subjects.

Examples of special training and technical assistance programs include:

- ◆ **Egypt:** The Child Survival Project. This project provides technical services, procurement and program development assistance to the Ministry of Health.
 - ◆ **Multi-Country:** Management Training for Ministers of Health. This special program combines workshops with site visits to the Centers for Disease Control, medical schools, policy makers and community health projects throughout the U.S.
 - ◆ **Multi-Country:** Computer Technology. Intensive courses and hands-on training in various computer applications. Assistance in selecting, setting up and using the equipment and software.
 - ◆ **Multi-Country:** Technical Assistance/Consultancies. Faculty are involved in providing technical assistance to the University of Benin, the Ministry of Social and Women's Affairs in Togo, and various institutions worldwide. They also serve as short-term consultants and researchers for a variety of organizations.
 - ◆ **Haiti:** Special Education. Training seminar designed to enhance the skills of special education teachers.
 - ◆ **Worldwide:** International Programs for Students. U.N. Semester Program, Peace Corps Minority Recruitment Program, International Services, Environmental Science Study Abroad, and Internships.
 - ◆ **International Consortia.** The University is a member of 5 international consortia consisting of majority and minority institutions in the U.S. and a variety of African institutions. Activities include symposia, research, training, exchanges, technical assistance and selected short-term programs.
 - ◆ **HBCU/Minority Institution Consortium.** This Consortium of 17 HBCUs promotes environmental research and teaching. Funded by EPA and the Department of Energy, the Consortium is interested in issues of international environmental equity and the impact of environmental abuse on international health problems.
 - ◆ **Madagascar:** University Development Linkage Program. A five-year program designed to internationalize Clark Atlanta University while helping to enhance capacity of the University of Toamasina to aid in national development in Madagascar.

KALAMAZOO COLLEGE

Kalamazoo, Michigan

CONTINENT/ COUNTRY	OVERSEAS INSTITUTION	DESCRIPTION OF ACTIVITY
AFRICA		
Swaziland	Manzini: University of Swaziland	Academic year university-integrated program for Kalamazoo students
ASIA AND THE PACIFIC		
Japan	Nagoya: Nagoya Gakuin University	1 and 2 semester program for Kalamazoo students
		Fellowships for Japanese students to serve as teaching assistants in Japanese at Kalamazoo
EUROPE		
France	Aix-en-Provence: The American University Center for Provence, U.S. Agent College	Provide transfer credit and market AUCP's semester and academic-year programs affiliated with the University of Aix-Marseilles and special summer language programs
Spain	Cáceres: Universidad de Extremadura	1 semester university-integrated program for Kalamazoo students
		Fellowships for Spanish students to serve as teaching assistants in Spanish at Kalamazoo
LATIN AMERICA AND THE CARIBBEAN		
Ecuador	Universidad San Francisco de Quito (USFQ)	Environmental studies, 1 semester university-integrated program for US and EC students
	USFQ - Regular University	1 or 2 semester university-integrated program for US students
	USFQ - Kalamazoo Center	1 semester university-affiliated program with focus on Spanish language instruction and Ecuadorean/Andean culture
	USFQ - Faculty Exchange	Exchanges of one or more terms for faculty at both institutions
	USFQ - TA Fellowship	Fellowships for one academic year for USFQ students to serve as teaching assistants in Spanish at Kalamazoo College
	USFQ - Dual Degree Program	Program for Ecuadorean students to earn bachelor's degrees from both institutions
Mexico	Oaxaca: Universidad Autónoma Benito Juárez de Oaxaca - Kalamazoo Center	10-wk university-affiliated program for Kalamazoo students with focus on Spanish language and Latin American culture
		Fellowships for Mexican students to serve as teaching assistants in Spanish at Kalamazoo

KEENE STATE COLLEGE

Keene, New Hampshire

CONTINENT/ COUNTRY	OVERSEAS INSTITUTION	DESCRIPTION OF ACTIVITY
ASIA AND THE PACIFIC		
Japan	University of Derby, England	Faculty and student exchange
CIS		
Russia	Belgorod State Pedagogical Institute	Faculty and student exchange
	Yaroslavl Pedagogical Institute	Faculty and student exchange (math & physics)
EUROPE		
Austria	Study Abroad Program	Student exchange
England	University of Derby	Faculty and student exchange
	College University of Ripon & York St. John	Faculty and student exchange
	University of Wolverhampton	Faculty and student exchange
	Oxford-Brooke University	Student exchange
	Goldsmith's College, University of London	Faculty and student exchange (design, film studies)
France	Université de Rennes II, Brittany	Faculty and student exchange
	Université de Valenciennes	Faculty and student exchange
	Faculté Libre, St. Malo	Faculty and student exchange
Ireland	University of Limerick	Faculty and student exchange
	Thomond College of Education	Student exchange
LATIN AMERICA AND THE CARIBBEAN		
Ecuador	Pontificia Universidad Catolica	Faculty and student exchange

KIRKWOOD COMMUNITY COLLEGE

Cedar Rapids, Iowa

COUNTRY/CONTINENT	DESCRIPTION OF ACTIVITY	KCC DEPARTMENT
AFRICA		
Egypt	Training program for Egyptian Water Engineers	Water/Wastewater
ASIA AND THE PACIFIC		
China	Developing Sister Relationship	Institution
Malaysia	Training for Malaysian Educators	Culinary Arts
Taiwan	Faculty visit to Taiwan	Environmental Control
CIS		
Russia	Visiting Professor from St. Petersburg	English
Ukraine	Internship in Broadcast Journalism	Telecommunications
EUROPE		
Bulgaria	Faculty Semester in Bulgaria	Political Science
England	Developing Sister Relationship	Institution
France	Study Abroad	Culinary Arts
	Study Abroad	Fashion Merchandising
Germany	Study Abroad	Language Arts
Poland	Agribusiness and entrepreneurship training	Agribusiness
LATIN AMERICA AND THE CARIBBEAN		
Central America	17 Students	Agribusiness
Guyana	Training Guyanan Educators	Carpentry, Plumbing, Wastewater, Electronics

LINCOLN UNIVERSITY

Jefferson City, Missouri

CONTINENT/ COUNTRY	DESCRIPTION OF ACTIVITY
AFRICA	
Burundi	Small farming research project
Egypt	Horticulture, zoo management
Guinea	Guinea Natural Resources Management (NRM) project with Chemonics/USAID. Participant training activities and a short-term consultancy.
Kenya	Kenya Extension Management Training Project. Studies on post-harvest food loss reduction technology and agricultural communication skills
Malawi	University Development Linkages Project (USAID) - Child nutrition improvement and goat meat and milk project
	Agribusiness project in partnership with the University of Minnesota
Morocco	Training in electronics and air conditioning equipment
Nigeria	Nutrition research projects
	Development of starter cultures for enriching Ogi, a West African fermented cereal gruel
South Africa	Linkage with the University of Western Cape, Cape Town, South Africa, with the University of Missouri as the lead institution and Lincoln as the HBCU partner. Faculty exchange and development, democratic transition, and overall Tertiary Education Partnership.
ASIA AND THE PACIFIC	
India	Pesticide Issues
Bangladesh	Institute of Post Graduate Studies in Agriculture (IPSA), computer centre evaluation
	IPSA agronomy, extension advisor
	IPSA outreach/administrative program plan and development
	IPSA Computer consultancy services to develop a computerized information system
CIS	
Russia	USAID-funded project with Land O'Lakes as the lead entity in a major farmer to farmer activity
EUROPE	
Bulgaria	Sheep and livestock management
LATIN AMERICA AND THE CARIBBEAN	
Antigua	Study on improving pod set and biological N-fixation of pigeonpeas
Barbados	Blackbelly sheep, pre and post weaning project
Belize	Vitamin A deficiency project

CONTINENT/ COUNTRY	DESCRIPTION OF ACTIVITY
	Impact of vitamin A supplementation on diarrheal & respiratory diseases in children
Bolivia	Small business entrepreneurs
Caribbean	Agricultural extension
Jamaica	Project on Breeding Red Pea for Disease Resistance and Enhanced Biological Nitrogen Fixation
Peru	Training of rural business entrepreneurs
Trinidad	Training on cattle herd management, breeding, and nutrition
Venezuela	Reproductive Physiology training on sheep and goats for an animal scientist
MIDDLE EAST	
Pakistan	Advanced marketing, consumer behavior
	Advanced marketing training
WORLDWIDE	
	Poultry integration

MOREHEAD STATE UNIVERSITY

Morehead, Kentucky

International initiatives at Morehead include:

- ◆ **International study and travel.** Available for faculty and students through a number of groups. They are:
 - Cooperative Center for Study in Britain (a consortium)
 - Two summer sessions in Great Britain
 - One winter session during Christmas break
 - Fall term (for juniors) in Oxford offered by the Cooperative Center for Study in Britain
 - Kentucky Institute for International Studies (a consortium), summer sessions offered in: Spain, France, Germany, Italy, Austria, and Mexico.

 - ◆ **Exchange Agreements:**
 - Kansai Gaidai University of Foreign Studies (junior year in Japan)
 - Kansai Gaidai - Hawaii College. Agreement to accept Japanese junior college students to finish the last two years for the bachelors degree at MSU.
 - Agreement for student teacher exchange with Sunderland University, England.
 - USA-China Teacher Education Consortium

 - ◆ **International visiting scholars** (five to date). Scholars from China, Lithuania, Ecuador, and Ethiopia have each spent a year on campus teaching classes, talking with students, giving lectures, presenting colloquia in their areas of expertise, visiting other universities, and speaking to local public school classes.

 - ◆ **Committees:** International functions on campus are governed by two committees made up of faculty and student members. They are:
 - International Education Programs Committee
 - International Student Advisory Committee

 - ◆ **International Students.** During the past academic year there were 86 international students representing 36 countries.

PIKES PEAK COMMUNITY COLLEGE

Colorado Springs, Colorado

At Pikes Peak Community College in Colorado Springs, a full-time Director of International Education coordinates a vast array of activities which place a strong emphasis on the importance of international and multicultural education. Among them are the following:

- ◆ **Title VI-A Grant from the U.S. Department of Education: Undergraduate International Studies and Foreign Language Program:** With dollars received from this grant, PPCC is offering Japanese and Chinese, and has established an international resource center that includes computer programs to convert English to French, Spanish, Russian, or German, and vice versa. The college also is developing international and multicultural instructional modules, sponsoring faculty and staff development international education activities, and establishing a communication system to disseminate information relevant to international issues.
 - ◆ **In March 1993 Pikes Peak Community College and Shanghai University in the People's Republic of China entered into an Agreement of Relationship and Cooperation** between the two schools to promote academic, scientific and educational exchanges. Included in the agreement are faculty exchanges, visiting faculty, and student exchanges. Other possibilities include the exchange of library and academic materials, the exchange of performing groups, and tele-and satellite-communicated meetings and conferences.
 - ◆ **Cultural Celebration:** Through the Student Life Office, special activities and events are scheduled in celebration of Black History Month, Cinco de Mayo, and Native American Days.
 - ◆ **Foreign Language Program:** Navajo will be offered for the first time this fall at the Downtown Studio of Pikes Peak Community College. Foreign languages offered by PPCC include Chinese, French, German, Japanese, Russian and Spanish.
 - ◆ **International Donation:** Textbook donations are collected for colleges and libraries in Mexico, and eyeglass donations go to South and Central America.
 - ◆ **Faculty and Student Exchanges:** Exchanges are being explored with technical schools in St. Petersburg, Russia, and with Shanghai University
 - ◆ **Congress-Bundestag Youth Exchange Program:** The college participates in this international exchange program with Germany.
 - ◆ **Faculty Senate Mini-Grants:** Grants have been received to enhance existing international and multicultural programs.

ST. LOUIS COMMUNITY COLLEGE

St. Louis, Missouri

The following is a summary of St. Louis Community College's current international education activities:

◆ Study Abroad

- Spring '93 - Semester in England - 22 students
 - Mexico - 28 participants
 - Spring-break in London - 11 Mortuary Science students
- Summer '93 - Summer in Russia - 13 participants

◆ Faculty

- Three sabbaticals awarded for international projects
- Four faculty grants to SLCC-Meramec faculty from East-West Center

◆ Externally-funded programs (current)

- 15 Central American/Caribbean students at SLCC-FV studying Quality Control Technology
 - 25 Central American/Caribbean students at SLCC-FP and Harris-Stowe State College studying Special Education topics
 - Seven students from Osaka International University in a 5-week intensive English and American Culture program at SLCC-M
-

SINCLAIR COMMUNITY COLLEGE

Dayton, Ohio

Sinclair Community College's International Initiatives include:

- ◆ **Building the Capacity for International Competitiveness** - Title VI-B, a two year grant to train-the-trainer (community college faculty) on various international topics. Four international courses and twenty-two international modules were developed and presented. Productivity Improvement Grant Level II (Ohio Board of Regents), a two-year grant was utilized to improve the international competencies of the local business community. This project ended December 1992.
 - ◆ **Stages**. A grant from the Department of Education that facilitated a group of ten community college faculty to travel to Poland, Czechoslovakia and Hungary to gather first-hand material for the development of new courses. Each participant wrote a curriculum chapter which have been collated and distributed. This project ended Fall 1992.
 - ◆ **UDLP**. A five-year \$750,000 University Development Linkages Program, funded by USAID, in Madras, India. The project is to assist the Center for Vocational Education in developing curriculum program and funding resources to assist the urban and rural poor. This project will end in 1997.
 - ◆ **General Motors Program**. Sinclair Community College in cooperation with Miami University (Ohio) presented programs to 3,000 GM workers to explain global forces impacting the U.S. auto industry and jobs in the Miami Valley. This program ended in Winter 1992.
 - ◆ **Community Colleges for International Development (CCID)**. Sinclair is a member of the consortium with 60 members in the U.S. and Canada. Their purpose is to further international education by sponsoring two international conferences every year, initiating international development projects abroad and other activities. Sinclair's president sits on the Board of Directors and is influential in providing direction to the consortium. This initiative is currently ongoing.
 - ◆ **Teach-ins for Faculty and Student Development**. Teach-ins provide the opportunity for the college to bring in local experts to discuss topics of timely importance. This year's quarterly teach-ins have been on Somalia, German Fascism, and World Hunger.
 - ◆ **International Forum**. In cooperation with the Dayton Council on World Affairs, Sinclair hosts a monthly community based program, the International Forum, that explores global topics that are currently in the news utilizing local experts and commentators.
 - ◆ **International Fellow**. A business faculty member from Handelsskolen in Randers, Denmark, has been functioning as an international resource person for faculty and guest lecturing in classes during the spring quarter.
 - ◆ **Faculty Exchanges**. Faculty exchange programs have been developed to enable faculty to explore new teaching/learning strategies and for Sinclair to host visiting faculty in these reciprocal programs. Exchanges have been developed with: Tresham College in Kettering, England; Leigh-Sherman Community College in Monrovia, Liberia; and Central Federal Technical College in Curitiba, Brazil.
 - ◆ **International Initiatives Under Development**. Title VI-A Submission to the Department of Education, Fulbright Group Study Abroad, and International Scholar-in-Residence (Internal Funding).
-

STATE UNIVERSITY OF NEW YORK

Albany, New York

The State University of New York currently offers more than 250 overseas study programs in 40 different countries: in North and South America, Africa, Asia, Western and Eastern Europe, Australia and New Zealand. These programs range from 2-3 week intensive courses to an entire semester or academic year abroad. Courses are available in over 100 subjects, ranging alphabetically from aboriginal studies and aerospace to Welsh and women's studies. While many programs focus on language learning and are conducted in the language of the host country, many others are conducted wholly or partly in English. In addition, SUNY is particularly active in the following five program areas:

◆ **Reform of Higher Education**

- Provision of training to Rectors and other high academic officials to assist them in adapting to changes required by the impact on Universities of reintroduction of the market economy. Training sessions have involved officials from Hungary, Poland and the Czech Republic with support from a private foundation.
- SUNY has a multiphase assistance agreement with the Committee on Higher Education in the Russian Federation. The first phase involves development of a distance learning network and is supported by USIA.

◆ **Democratic Initiatives**

- SUNY helped establish and is now partner with the Centro de Estudios y Asistencia Legislativa (CEAL), a public policy research center of the Catholic University of Valparaiso in Chile. The Center provides research and technical assistance services to the national legislature and local governments.
- SUNY is providing technical support to the National Legislature of Bolivia.
- With USAID support, SUNY has organized specialized training for Brazilian public servants in issues pertaining to antitrust regulation, Congressional budgeting and general public administration.

◆ **International Trade and Business Development**

- SUNY operates the Center for Private Enterprise Development in Budapest, Hungary, with support from USAID. The Center provides business assistance primarily to small business. In a new phase SUNY will provide assistance to the Technical University of Budapest as they develop a Center of Excellence in Total Quality Management.
- SUNY Buffalo has established an MBA program in conjunction with the Technical University of Riga, Latvia with support from USIA.
- SUNY provides business graduate students opportunities to learn international trade first hand by representing U.S. companies abroad. Business students at Albany, Buffalo, Brockport and the Fashion Institute of Technology seek out business opportunities in Argentina, Chile, Mexico, Hungary, Poland and the Czech Republic.

continued

◆ **Environmental Protection**

- SUNY has provided training in Geographic Information Systems to Brazilians who are working in land management in the Amazon region.

◆ **Public Health**

- SUNY has provided assistance in the organization of a public school drug prevention program in the State of Sao Paulo, Brazil. The program also provides training to workers in the area of drug use prevention.
 - SUNY has provided training for individuals responsible for implementing an AIDS prevention program in Brazil.
-

TULANE UNIVERSITY
New Orleans, Louisiana
International Work in Health Related Areas

- ◆ **The School of Public Health and Tropical Medicines' Center for International Health and Development** is responsible for development, management, and technical support to a portfolio of \$19 million of research and service grants; the International Communication Enhancement Center, which specializes in development, evaluation, and dissemination of communication resources; and the International Health Academic Program, which provides interdisciplinary public health training at masters, doctoral, and non-degree levels.
- ◆ **The Tulane Center for International Health and Development** is currently implementing projects funded by USAID, the United Nations Children Fund, and the National Institutes of Health, in countries in Asia and Africa.
- ◆ In addition to the New Orleans faculty and staff, there are twelve full-time overseas positions in ten field offices, as well as a Washington staff of seven in the Famine Early Warning System office. **The Famine Early Warning System Project**, financed by AID's Africa Bureau, is designed to decrease the incidence of famine in Sub-Saharan Africa.
- ◆ **The Zaire School of Public Health** was created through Tulane efforts under USAID financing, and is a fully accredited school of public health at the University of Kinshasa, Zaire.
- ◆ **The Niger Health Sector Support Grant** builds on Tulane's seven years of collaboration with the Niger Ministry of Health. Tulane provides technical assistance to the ministry in planning, information systems, operations research, and training to enable it to undertake major sectoral reforms.
- ◆ **The Senegal Institutional Linkage Project** involving Morehouse School of Medicine, Université Cheikh Anta Diop of Dakar, and Tulane is improving Senegal's capacity to train public health professional. The AID-funded project has created a specialty track in public health for physicians and has implemented several applied research projects.
- ◆ **The Family Planning Evaluation Project** involves Tulane and the Futures Group as sub-contractor to the International Science and Technology Institute on this project financed by the Nutrition Office of AID. Its objectives are to provide decision makers with food and nutrition information necessary to plan and evaluate development programs.
- ◆ **The International Health Academic Program (IHAP)** is an interdisciplinary academic program oriented towards students who are working or who plan to work in international organization and/or in developing countries. The curriculum and applied learning opportunities drew upon Tulane's overseas research and technical assistance projects, representing its twenty years of experience working with students from around the world. A majority of its students are enrolled in masters and doctoral program. IHAP also housed the Humbert H. Humphry Fellows Program, in which 120 students from 42 different countries have studied at Tulane. It offers a series of specialized short courses in English, Spanish, and French.

continued

-
- ◆ **The International Communication Enhancement Center** fosters information exchange and ongoing dialogue among students, faculty, and professionals in the field of international health and development. The Center provides a mechanism to promote the theory and practice of international health communication and education. For example, it administers a video clearinghouse for UNICEF country offices by collecting, reviewing, and cataloging approximately 350 video productions, offers courses as part of the regular international health and health communications/education programs of the School.
 - ◆ **Peace Corps Internationalist** will train graduate students in public health prior to Peace Corps service. This program is designed primarily to participate in Guinea Worm eradication projects.
 - ◆ Additional ongoing activities through the **Department of Tropical Medicine** include the development of improved immunodiagnostic tests for malaria; the operation of a \$6.5 million USAID schistosomiasis control project in Cameroon designed to integrate control into primary health care. (A large element in the program is the training of 22 Africans at the masters and doctoral level in fields ranging from environmental health to medical anthropology.); cooperation with the International Eye Foundation on developing a drug distribution system for the control of River Blindness in Cameroon and Guatemala; providing technical assistance to the world-wide effort for the eradication of Guinea Worm disease; serving as the only U.S. Collaborating Center for Applied Medical Malacology (how diseases are transmitted by snails.); participation in research on biological control of *Aedes aegypti* mosquitoes using copepods in Honduras and Puerto Rico; carrying on research on filariasis transmission in Haiti; in vivo and in vitro monitoring of chloroquine susceptibility of *P. falciparum* in Haiti; research on epidemiology and control of schistosomiasis with the Schistosomiasis Research Project in Egypt; participation in comprehensive Health Services for "Children 'of' and 'in' the street of the City of Tegucigalpa and their Families."
 - ◆ **The School of Social Work**, through its Institute for Research and Training in HIV/AIDS Counseling, maintains close working relationships with the World Health Organization Global Programme on AIDS and Programme on Substance Abuse, the National Institute on Drug Abuse, the International Association of Schools of Social Work, the International Federation of Social Workers, and other organizations to collect and analyze data on international counseling and counseling training programs, and to participate in their development and evaluation.
 - ◆ **International research includes:** development of a transcultural clinical practice model, migration and the social and medical problems related to isolation from the family, cross-cultural perspective on child abuse, the validity and desirability of transferring social work technology across national borders, and social welfare programs in Austria, Germany, China, and Japan.
 - ◆ **The HIV Institute** developed and field tested a training manual on Psychosocial Counseling for Persons with HIV Infection, AIDS, and Related Diseases for WHO which has been translated into eight languages and used worldwide; prepared and reported finding of a study on AIDS curriculum in social work programs throughout the world designed by the International Association of Schools of Social Work.

UNIVERSITY OF HAWAII

Honolulu, Hawaii

Through its efforts in teaching, training, service and research, the University of Hawaii has a long history of working with the international community to improve international understanding and the quality of life in the world. This interest is reflected in the numerous international projects sponsored by University units and faculty, some of the more notable of which are briefly described in the following pages.

Tropical Agriculture: Under a contract with the United States Agency for International Development (USAID), the University implements the International Benchmark Sites Network for Agrotechnology Transfer (IBSNAT) Project. IBSNAT matches crops and farming practice requirements with soil characteristics. It also develops solutions to obstacles which delay the transfer of crops and practices to the developing world and assesses their effects on agricultural practices and soil resources. Functioning as a center for some thirty collaborating units around the world, IBSNAT uses data collected from each collaborator to provide participants with crop prediction models and assist with agricultural planning.

Begun under a contract with USAID in 1975, the **NifTAL (Nitrogen Fixation by Tropical Agricultural Legumes) Project** studies an inexpensive fertilization process, that results in a maximum amount of nitrogen fixed biologically by legumes, alleviating the need for costly commercial nitrogen fertilizers, and thereby helping farmers in developing countries in the tropics to increase productivity of high protein foods. In order to overcome problems of technology and delivery that inhibit utilization of this fertilization process, NifTAL research has also initiated appropriate inoculant production and delivery systems in developing countries. So far, work has been carried out in Africa, Asia, and South America.

The South Pacific Region Agricultural Development Project (SPRAD), begun in 1980 with funding from USAID, is a collaborative endeavor between the University of Hawaii and Cornell University. Its mission is to improve agricultural productivity and stability throughout the South Pacific. SPRAD sends professionals from both the University of Hawaii and Cornell University to the University of the South Pacific (USP) in Western Samoa. They provide technical assistance in agricultural education, crop production, and program management. From its base at the USP Alafua Campus, this project strengthens that institution's capability in agricultural teaching, research, and extension.

A UNESCO/UNDP project "**Biotechnology and the Development of Species for Industrial Timber Estates**" (UH Lyon Arboretum Director Dr. Charles Lamoureux is Lead International Consultant) is a dynamic program in Indonesia with global implications for saving rainforests.

The College of Tropical Agriculture and Human Resources is currently providing a 16-week training for agricultural researchers from Laos in cooperation with the East-West Center. Seven professional staff from the National Agricultural Research Center (NARC) in Laos are attending the "Agrarian Systems Analysis" training workshop. This training will improve the scientific research capabilities of the participants in support of the NARC's efforts to develop agricultural methods and technologies which will improve the agricultural yields of Laotian farmers while protecting the environment.

In 1990 a grant from the U.S. Department of Agriculture's Higher Education Challenge Program led to the development of the **Hawaii International Program**. Now in its third year, this 8-week summer program in China and Hawaii helps participants to understand the integrated nature of the world's food and agricultural systems.

continued

Health Sciences: The School of Public Health is a founding member of the Asia-Pacific Academic Consortium for Public Health (APACPH). Formed in 1984, APACPH works to strengthen the quality of professional public health education in order to improve the health care services provided in the Asia-Pacific region. With some two dozen members in fifteen Asia-Pacific countries, the consortium works closely with ministries of health and international health agencies, and devotes itself primarily to faculty exchanges, curriculum development, collaborative research, consultation services, publications, symposia, and workshops.

The School of Public Health conducts a regional Master of Public Health Program stressing leadership development for primary health care and child survival. This program is a multi-university offering which provides relevant public health training in Asia, including field work and courses at various Asian universities.

The Asia-Pacific Summer Institute in Public Health, begun in 1989, offers concentrated short-term training for academic credit and attracts public health students and professionals from the U.S., Asia, and the Pacific Island nations. Some courses are taught at Mahidol University in Bangkok, Thailand.

International agreements provide opportunities for Public Health students to conduct field studies overseas. This summer students are doing field studies at Universitas Pattimura in Indonesia, at Mahidol and Chulalongkorn Universities in Thailand and elsewhere. About 15% of students from the Masters in Public Health program fulfill their field internship requirement abroad, through assignments in the Asia-Pacific region. Meanwhile faculty exchange is under way with the University of Airlangga in Indonesia, Beijing Medical University in China and many other institutions. A recent meeting in Nepal resulted in a monograph on "The Neglected Girl Child in Asia", and papers are expected from a meeting in Perth on "The Health of Indigenous Children".

The University's **MEDEX program** is an international outreach program started in 1971 to help developing countries strengthen their basic health care services. Working in Africa, Asia, the Caribbean, Latin America, and the Pacific Basin, MEDEX seeks to improve maternal and child health care, and to expand other primary health services. In addition to working with local government agencies, the program provides technical assistance by conducting workshops and courses and by maintaining a network of information. MEDEX has also developed a 35-volume medical curriculum which is in use today in 82 countries.

The Pacific Basin Medical Officers Training Program is a five-year program designed to train a new generation of Micronesian physicians. Funded by the U.S. government and based in Pohnpei, this program serves the Pacific jurisdictions of American Samoa, the Federated States of Micronesia, the Marshall Islands, and Palau. Eighty-five physicians are expected to graduate by the end of 1997. Training in radiology and medical lab technology in Micronesia and American Samoa are provided by Kapiolani Community College faculty. The School of Nursing also sponsors a training program in the Pacific through which health professionals from Hawaii work with local nurses on site in areas of special need. Health representatives from the Pacific also come to Hawaii for a one-month practicum.

As a unit of the School of Public Health, the **International Center for Health Promotion and Disease Prevention (ICHPDP)** undertakes collaborative international research and demonstration projects. The Center works closely with the University, the East-West Center, the State of Hawaii, U.S. federal health agencies, the World Health Organization, and other academic institutions in the Pacific region. The results of the ICHPDP Pacific Health Reassessment project, which considers administration, health services, facilities, manpower development, and public health, are expected to serve as a guide

continued

for United States health policy in the Pacific. In 1987 the School of Public Health was designated by the Centers for Disease Control of the U.S. Public Health Service as one of five National Centers for Health Promotion and Disease Prevention, and stands alone for its designation as an International Center.

A new project is the development of China's first training program in emergency medical services and disaster management in Hainan, through an agreement between the School of Public Health and Hainan Medical University.

Marine and Earth Sciences: An annual summer program in marine research at the Hawaii Institute of Marine Biology serves students and faculty from all over the world. The specific topic differs each year; the 1993 program, for example, examines "Hormonal Regulation of Growth and Development in Fish," and has attracted over two dozen scholars, from Vietnam, China, Israel, Venezuela and elsewhere.

Through agreements with the Chinese Academy of Science and other institutions, the Hawaii Natural Energy Institute has provided considerable help to China in developing renewable energy systems, such as photovoltaic panels.

Architecture: The School of Architecture has worked for many years with the Asian Institute of Technology in Thailand and other institutions in Southeast Asia to address the problem of making housing structures available to people who have neither the resources to purchase construction materials nor the technical knowledge to build conventional homes. The Lok Build method, which evolved through this research, allows for the construction of houses from local materials using a small force of relatively unskilled workers. The structures are designed to withstand fire, wind, and earthquakes. This project is widely promoted in Southeast Asia and is attracting attention elsewhere in the developing world. To date more than 15,000 homes have been built using this Lok Build method. Demonstration housing projects have been erected in Laos and the Philippines and future projects are slated for Mexico and El Salvador.

Journalism: Since 1980 a nine-month intensive Parvin Fellowship Program in American-style journalism has been provided training for young professional journalists from the People's Republic of China. These journalists generally come from the English-language newspaper, the *China Daily*, and from the national news agency, Xinhua.

Business: The Pacific Business Center Program (PBCP) contributes to the economic self-sufficiency and employment diversification of residents of the State of Hawaii and the American Affiliated Pacific Islands. Supported by the U.S. Department of Commerce Economic Development Administration (D.C.E.D.A.), PBCP utilizes the expertise of the University's faculty to assist entrepreneurs, businesses, community organizations and government agencies. The Program provides technical and management assistance through consultations, studies, and referrals to those involved in business in the region.

PBCP is presently working to help Pacific Island nations develop their tourism industries in an environmentally and culturally sensitive manner, and is providing valuable information to island governments and businesses through workshops and a new eco-tourism planning kit consisting of handbooks, product samples and spreadsheets.

The Pacific Asian Management Institute (PAMI) trains managers, government officials, teachers, and students from abroad to identify and solve business problems. The PAMI International Faculty

continued

Development Program assists faculty of business and other disciplines from universities around the world to enrich the content of their existing courses and to develop new international courses at their institutions. PAMI's International Executive Programs for Asian executives offer information on international banking and financial services. Since 1977, PAMI has trained over 1,500 people from organizations based in twenty-two different countries. Recently ranked among the top international business programs in the United States, PAMI is one of sixteen federally designated International Business Centers.

The Pacific Asia Consortium for International Business Education and Research assists dozens of institutions throughout the Asia-Pacific region with faculty exchanges, joint research and curriculum development.

Communication: PEACESAT, the Pan-Pacific Education and Communication Experiments by Satellite Program, is an interactive medium offering nations of the Pacific Basin and the Pacific Rim a range of communication technologies at affordable costs. PEACESAT users benefit from credit and non-credit distance education programs, emergency communication, advanced weather warnings, medical diagnostics, research support, community development, and culture programming. Among the participating organizations are the University of the South Pacific, American Samoa Community College, the South Pacific Commission, the Forum Fisheries Agency, and the University of Guam. Headquartered at the University of Hawaii, the PEACESAT program utilizes a satellite (Geostationary Operating Environment Satellite 3, or "GOES-3") whose footprint extends east to Mexico and west to central China.

Based at the University of Hawaii, the **Pacific Communications Network** is the Pacific regional component in a global computer network which links universities, research institutions, and other centers for technology development. This network, which allows users to log on to computers, transfer files, and send electronic mail over thousands of miles, is important for federal agencies such as the National Aeronautics and Space Administration, the National Science Foundation, and the Department of Energy.

Law: The William S. Richardson School of Law has been developing its program in Pacific-Asian Legal Studies since the early 1980s. This program encompasses study in the following fields: international business transactions in the laws of Asian and Pacific countries, comparative law focusing on Asia-Pacific nations, law related to economic development of Pacific Island nations, and law of the sea. The Pacific Institute of Judicial Administration, housed in the school, is a resource for Pacific Island nations refining their judicial systems and provides training and seminars for judges and court administrators throughout the Pacific region.

The WSR School of Law is also involved in a six-year USAID project to help develop/revise commercial law in Indonesia.

Consortium: The University is one of eleven public universities in the western United States which make up the Consortium for International Development (CID), an organization which provides international training, research and technical assistance. CID member universities share their educational and technical resources with the countries of the developing world, primarily through technical assistance and training; they have participated in some 150 agriculture and rural development projects around the world. Turning its attention more and more toward the areas of education, health, and nutrition, the Consortium is now expanding beyond its traditional focus on agriculture and water resource management.

continued

Publications: Many faculty research projects based on Asian or Pacific topics are published by the UH Press. The Press, which restricts itself to books dealing with aspects of the Asia-Pacific region, publishes over fifty new titles each year and has over eight hundred books in print. It also publishes the following Asia-Pacific journals: *Oceanic Linguistics*; *Mon-Khmer Studies*, *A Journal of Southeast Asian Languages*; *The Contemporary Pacific*; *Korean Studies*; *Buddhist-Christian Studies*; *Philosophy East & West*, *A Quarterly of Asian and Comparative Thought*; *Pacific Science*; *Asian Theater Journal*; *East-West Film Journal*; *Asian Perspectives, A Journal of Archaeology and Prehistory of Asia and the Pacific*; and *the Asia-Pacific Journal of Public Health*.

Conferences: A Pacific Islands Studies regional conference was held in Hawaii in November 1992 to create opportunities for UH students to study at other Pacific universities and to discuss the regionalization of Pacific Islands studies curricula. A three-way student exchange program involving UH, the Pacific Islands Development Program (PIDP) at the East-West Center, and the University of the South Pacific in Fiji, and an overseas study tour led by faculty from the UH-Community Colleges emerged. A tripartite student and faculty exchange program involving UH, PIDP, and the University of Papua New Guinea will also be launched this fall.

A Pacific Institute of Judicial Administration workshop was held in Fiji in Fall 1992 for court administrators from Pacific Island nations; the institute is housed in the UH Richardson School of Law.

UNIVERSITY OF IDAHO

Moscow, Idaho

CONTINENT/ COUNTRY	OVERSEAS INSTITUTION	DESCRIPTION OF ACTIVITY

UNIVERSITY OF ILLINOIS AT CHICAGO

COUNTRY/ CONTINENT	OVERSEAS INSTITUTION	DESCRIPTION OF ACTIVITY
AFRICA		
Botswana	Not Applicable (N/A)	Professor in Public Health Nursing serving as Interim Director of local nursing college.
Rwanda	N/A	Health care cooperation
Swaziland	N/A	Professor in Public Health Nursing working on collaborative health care projects.
ASIA AND THE PACIFIC		
China	Hong Kong Univ of Science & Technology et al	Collaborative research on medicinal plants and/or biologically active natural products. Training, information exchange
	Huazhong University	UIC Dept. of Chemical Engineering agreement of Cooperative Research in Coal Combustion, Heat Transfer and Hydrodynamics of Circulating & Bubbling Fluidized Beds.
	Tianjin University	Tianjin Univ to recommend prospective Ph.D. students to UIC College of Engineering. Scholarly exchanges, cosponsor international symposia
	University of Science & Technology of China Hefei	UIC College of Engineering to give "special consideration" for Science & Technology of China Ph.D. students to attend UIC. Promote exchange of visiting scholars, and organize symposia in areas of mutual interest.
	China Medical University at Shenyang	Exchange of students, faculty & materials members, joint research, participation in seminars & academic meetings
	West China Medical University, Chengdu, Sichuan	Exchange of faculty & health science information, joint health science research, institutions to host one another
	Jilin University of Technology	Academic exchange & cooperation in Management Engineering, Computer Science, Mechanical Engineering, Transportation Engineering, Bio-Engineering & English Language Training. UIC to assist JUT in developing Computer Ctr, joint research activities, visiting scholar exchanges
		Jilin University English Teacher Training Program - UIC Linguistics Dept. organized a summer language institute to train local teachers in English language instruction.
Beijing Medical University	Exchange of students, faculty & materials members, joint research, participation in seminars & academic meetings	
India	Indian Institute of Technology, Madras	"Special consideration" for research assistantships to doctoral degree applicants from IIT-Madras; faculty exchanges for research & teaching; IIT-Madras will endeavor to organize symposia in India

COUNTRY/ CONTINENT	OVERSEAS INSTITUTION	DESCRIPTION OF ACTIVITY
Indonesia	N/A	Medicinal Chemistry & Pharmacognosy - series of initiatives in Indonesia involving Pharmacy curriculum development and graduate student assistance.
	N/A	American Government & politics taught in provincial Indonesia
Japan	Kyoto University	Agreement on a cooperative exchange program of graduate students between UIC and Kyoto University in the field of Mechanical Engineering, Precision Mechanics & Engineering Science
Korea	Seoul National University	Sister Institution Agreement between UIC College of Engineering & Seoul National University College of Engineering. UIC College will give "special consideration for research assistantships to Ph.D. program from SNU", Faculty exchange for research & teaching.
	Korea University, Seoul	Sister Institution Agreement between UIC College of Engineering & College of Engineering Korea University - UIC will give "special consideration for research assistantships to Ph.D. program from KU". Faculty exchange for research.
Taiwan	Tunghai University	Memorandum of Understanding between UIC College of Engineering & Tunghai University UIC Engineering Dept. will give "special consideration" for Graduate research assistantships
	National Taiwan University, Taipei	Academic Cooperation Agreement between UIC College of Engineering & National Taiwan University - UIC will give "special consideration for research assistantships to Ph.D. program from NTU". Faculty exchange for research
Thailand	Thai Ministry of Public Health	UIC Linkage Agreement between College of Nursing & the Thai Ministry of Public Health - Exchange of personnel and/or experts in the fields of health admin., health srvs, & health ed.; cooperative research projects; research dissemination teaching development.
	Chiang Mai University	Memorandum of Understanding between Chiang Mai University & UIC College of Medicine - UIC-COM agrees to accept qualified Ph.D. candidates; CMU agrees to continue the Thai salary of the candidates & travel expenses; student & faculty exchange.
	Ministry of Public Health	AIDS intervention & education
	Chulalongkorn University	Dept. of Medicinal Chemistry & Pharmacognosy - Assisted Chulalongkorn University on academic & admin. financial training for students who will become faculty.
Vietnam	Geological Society	Geological Science continues to collaborate with the Geologic Society of Vietnam in the study of Southeast Asian volcanic activity & tectonic activity.

CIS	Lunacharsky State Institute for Theatrical Arts	Agreement between to estb coop relations & develop educational, research & cultural interaction. Exchange faculty and students, joint research activities, seminars & academic mtgs, special short-term academic programs & exchange of performance groups.
	Soviet domestic security agency	CIU Vice Chancellor for Admin. has developed collaborative efforts between UIC's Office of Criminal Justice & the Soviet MVD domestic security agency concerning law enforcement against organized crime & racketeering.
Latvia	University of Latvia, Riga	Agreement to estb coop relations & academic & cultural exchange, exchange faculty and students, joint research activities, seminars & academic mtgs, special short-term academic programs.
Lithuania	University of Vilnius	Agreement to estb. coop. relations & develop academic & cultural exchange - exchange faculty & students, joint research activities, seminars & academic mtgs, special short-term academic programs.
	Lithuania Ministry of Health	Agreement to estb. coop relations & develop academic & cultural exchange of education & research, exchange of personnel & academic materials, joint research activities, in seminars & academic mtgs, special short-term academic programs.
EUROPE		
Czechoslovakia	Charles University, Prague	Education & research agreement between the faculty of Mathematics & Physics & the faculty of Science, Charles Univ & UIC Dept. of Chemistry.
		Exchange of faculty members, both institutions to organize research & ed. symposia, short-term advanced course for graduate students to be organized by UIC in Czech., joint seminars for faculty and teaching researchers, UIC Dept. of Chemistry will afford "special consideration" for research assistantships to applicants for Ph.D. from Charles University
		UIC Pharmacy Admin. has worked with associates from Charles Univ. to improve drug distribution & overall pharmacy admin.
France	French Nat'l Institute for Health & Medical Research, et al	UIC Dept. of Pharmacology programs involving US & French scientists in pharmacology, chemistry, biochemistry, medicinal chemistry, pharmacy, medicine & surgery.
Germany	Universitat Passau	Student, faculty & information exchange, joint research, participation in seminars & academic meetings, special short-term academic programs.
		Universitat Passau graduate student exchange program

COUNTRY/ CONTINENT	OVERSEAS INSTITUTION	DESCRIPTION OF ACTIVITY
Hungary	Sanitas Foundation for Natural Medicine, Budapest	Agreement between the Sanitas Foundation & the UIC Program for Collaborative Research in the Pharmaceutical Sciences, Dept. of Medicinal Chemistry & Pharmacognosy to compile ethnomedical data of medicinal plants used in Hungary; PCRPS will make available software & technology
	Technical University, Budapest	Engineering Education & Research agreement - faculty exchange for teaching & research; universities will endeavor to organize research & educational symposia; facilitate industrial communication & cooperation between Hungary & Illinois; "special consideration" to doctoral degree applicants from TUB.
Italy	Politecnico University, Milan	Student, faculty & information exchange, joint research, participation in seminars & academic meetings, special short-term academic programs
Netherlands	Webster University, Leiden	Webster University Graduate Student Exchange Program for academic study & business internships
		Agreement to establish coop relations & develop academic & cultural exchange of education & research. Student, faculty & info exchange, joint research, seminars & academic mtgs, special short-term academic programs
Poland	Technical University of Warsaw	Engineering Education & Research Agreement. Faculty exchange; endeavor to organize research & educational symposia; facilitate industrial communication & cooperation between Poland & US. "Special consideration" for research assistantships for Ph.D. degree applicants from TUW
	University of Lodz	Agreement between to establish cooperative relations & develop academic & cultural interchange of education & research.
	University of Poznan	Agreement to establish cooperative relations & develop academic & cultural interchange of education & research.
		Dept. of Political Science - workshop in Poznan to study democratization & other emerging political trends in the former Eastern Bloc.
		UIC undergraduate & graduate program in Polish Studies is the largest such program outside Poland. Offers undergrad major & minor in Polish teacher education as well as a MA & Ph.D. in linguistics & literature
	Various	Entrepreneurship Institute Project - A program to encourage Poles & other Eastern Europeans to develop small business ventures.
Cracow Medical Academy	Collaboration to launch School of Public Health.	
Romania	World AIDS Foundation	Several projects in Romania combating AIDS. Cooperative Agreement between the World AIDS Foundation & UIC Board of Trustees

COUNTRY/ CONTINENT	OVERSEAS INSTITUTION	DESCRIPTION OF ACTIVITY
Serbia	University of Belgrade	Agreement to establish cooperative relations & develop academic & cultural interchange of education & research. Exchange of personnel & academic materials, joint research activities, seminars & academic mtgs, special short-term academic programs.
	University of Novi Sad	Agreement to establish cooperative relations & develop academic & cultural interchange of education & research.
LATIN AMERICA AND THE CARIBBEAN		
Argentina	Universidad Nacional de San Juan	Sister relationship agreement between UIC Dept. of Mathematics, Statistics and Computer Science & the Facultad de Ciencias Exactas, Fisicas y Naturales of the Universidad Nacional de San Juan - teaching, research, exchange of faculty & students
Brazil	University of Sao Paulo	Faculty, student & materials exchange, joint research, participation in seminars & academic meetings
	Brazilian-UIC Business Student Exchange	Graduate business students are to exchange cultural & educational perspectives. Dept. of education has collaborated Pontificia Universidade Catholica do Rio Grande do Sul & Federal University of Rio Grande do SU in Porto Allegre in education among poor & underprivileged children.
Costa Rica	University of Costa Rica	Program for Collaborative Research in the Pharmaceutical Sciences gives direct & free access to UCR researchers to the "Natural Products Alert" and "Medicinal Flora" data bases
Mexico	Universidad Autonoma del Estado de Mexico	Agreement to estb. coop. relations & dev. academic & cultural exchange in areas of: basic sciences, math, chem, physics; engineering, hydraulic; urban & regional planning; medicine; vet medicine; int'l affairs
MIDDLE EAST		
Eygpt	Alexandria University	Cooperation agreement between UIC College of Dentistry & the Faculty of Dentistry, Alexandria Univ - exchange of information, experiences & joint research projects in dental education & research, student & faculty exchanges
	Cairo University	Academic exchange agreement between the UIC College of Dentistry & Faculty of Oral & Dental Medicine - exchange of faculty & information, short-term fellowships & faculty development programs, joint research

Jordan	Jordan University of Science and Technology, Irbid	Junior faculty training in medicine

UNIVERSITY OF MARYLAND
College Park, Maryland

International programs at the University of Maryland at College Park (UMCP) have always been defined, in the broadest possible terms, to include all of those activities that bring students and faculty members together, across national boundaries, in the pursuit of teaching and research. UMCP has developed international programs in every one of its colleges and in almost every academic department. UMCP has internationally significant programs in agriculture, engineering, human ecology, journalism, library and information sciences, as well as in the sciences, social sciences and humanities. An abbreviated list of international projects is as follows:

- ◆ **The Russian Littoral Project**, a joint project with The Johns Hopkins University to complete 30 workshops over the next three years on topics relating to the dynamics of the foreign policies of Russia and the other littoral states of the former Soviet Union. Funding is from the MacArthur Foundation, the Pew Foundation, the U.S. State Department, the United States Information Agency, and the Friedrich Ebert Stiftung of Germany.
 - ◆ **Institutional Reform and the Informal Sector (IRIS)**, a project launched in 1990 with initial funding from the U.S. Agency for International Development. This project fosters reform of institutions by disseminating knowledge and providing assistance to selected organizations and individuals in Eastern Europe and the Third World who are studying and improving institutions in their own countries.
 - ◆ **The Survey Research Center** in the Department of Sociology is engaged in a National Science Foundation-funded project to establish a cross-national database for conducting sample surveys in the former Soviet Union and other republics (initially in Russia, Lithuania, Ukraine and Azerbaijan).
 - ◆ **Maryland/Mexico Resource Center** UMCP is part of an ongoing University of Maryland Systemwide program with Mexican institutions. The University of Maryland System (UMS) has established a resource center in Mexico City, based at Universidad Nacional Autonoma de Mexico (UNAM). In association with this center, a year-round Study Abroad Program is being conducted and a number of joint Mexican-UM research projects are being initiated.
 - ◆ UMCP is participating in a joint program with the **University of Los Andes** in Bogota, Colombia, for the development of a joint UMCP/UNIANDES Master's degree program in Agricultural and Resource Economics. This project is funded in part by a \$5.5 million grant to the University of Los Andes from the Inter-American Development Bank.
 - ◆ UMCP has also signed over **140 international exchange agreements** with several universities and institutions across the globe, covering a wide range of collaborative arrangements.
-

UNIVERSITY OF MICHIGAN

Ann Arbor, Michigan

CONTINENT/ COUNTRY	OVERSEAS INSTITUTION	DESCRIPTION OF ACTIVITY
AFRICA		
Benin	Nat'l Univ. of Benin	Faculty exchange - staff development in social & economic science; curriculum & staff development in American, Afroamerican & African Studies; collaborative research on the Yoruba diaspora in Africa & the Americas
	Nat'l Univ. of Benin/School of Agronomy	Collaborative research & training.
Burkina Faso	University of Ouagadougou	Research on Economic Development (CRED), research & training projects - three separate projects of field research on livestock & grain markets; visiting professorships at University of Ouagadougou
Cameroon	University of Yaounde	Field study of nutrition in Northwest Province; Benefit-cost analysis of measles vaccination program Yaounde; visiting professorships at University of Yaounde
Cote d'Ivoire	University of Abidjan	Household survey of factors determining meat consumption in Abidjan; training activities & other projects in collaboration with CIRES (Centre Ivoirien de Recherches Economiques et Sociales)
Gambia	Not Available	Field research on economics and environ. issues in the Gambia River Basin (also undertaken in Senegal and Guinea); implementation of a agricultural research & diversification project (with Univ. of Wisconsin)
Ghana	Univ. of Ghana/School for Performing Arts	Study abroad program in music, dance or theater.
	University of Ghana	Music, Medical and Ob/Gyn, Social Work
Ivory Coast	Universite D'Abidjan	Literature, Science and Art (LSA) and CRED
Kenya	University of Nairobi	Visiting professorships
Madagascar	Univ. of Madagascar/ Anthropology Museum	Research Collaboration between the two museums
Niger	Ministry of Agriculture	Field research on economics of cultivation and livestock raising near Zinder; advisory and analytical work on agricultural policy reform at Ministry of Agriculture.
Nigeria	National Center for Econ. Mgmt & Adm. (NCEMA)	Anthropological study of a village economy; economic evaluations of cocoa farming & other agricultural projects; collaboration with NCEMA.

CONTINENT/ COUNTRY	OVERSEAS INSTITUTION	DESCRIPTION OF ACTIVITY
Senegal	Univ. of Dakar	Economic/environmental field research near Bakel; field study of nutrition in the Peanut Basin; supply-demand models of agricultural crops; visiting professorships.
Tunisia	International Development Institute in Dakar	Analysis of resource allocation in public medical care system
	Nat'l Institute of Archaeology	LSA and Classical Studies
Zaire	University of Zaire	Visiting professorships
Zimbabwe	Consortium of Acad Envir Studies Prog	Natural Resources
ASIA AND THE PACIFIC		
Australia	Victoria College of Pharmacy	Pharmacy
	Canberra Institute of Arts	Art
China	Beijing Institute of Economics	LSA and Population Studies
	Beijing Univ. Inst. of Psychology	LSA and Psychology
	Liaoning Normal University	LSA and Psychology
	Sichuan University	Dentistry
	Beijing Institute of Aeronautics	Engineering
	East China Hydraulic Engineering	Engineering
	Jinan University	Great Lakes Marine Ctr
	Nanjing Inst. of Geography	Great Lakes Marine Ctr
	Nanjing College of Pharmacy	Pharmacy
	Nanjing Forestry University	Natural Resources
	Dept. of Pop Statistics - P.R.C.	LSA and Population Studies

CONTINENT/ COUNTRY	OVERSEAS INSTITUTION	DESCRIPTION OF ACTIVITY
	Shanghai Inst of Hum Res Develop	Education
	Peking U-Inst of Higher Education	Education
	Beijing Friendship Hospital	Medical
	Peking University	Psychology
India	Not Available	Indian Summer Site Seminar: on art history in western India.
Indonesia	Gaja Mada University- Yogyakarta	LSA and Geological Sciences
Japan	The Kyoto Ctr for Japanese Studies	Semester programs, for students. In consortium with Brown, Chicago, Columbia, Cornell, Harvard, Princeton, Stanford & Yale - administered by Stanford
	Kyoto Seika University	Art, ceramics, and printmaking.
	Japan Ctr for Michigan Universities in Shiga Prefecture, Japan	Academic programs for university credit in Japanese language & culture for students from the fifteen state-supported Michigan universities. (CJS)
	Yokohama	The Inter-University Program (IUP) program for Japanese language study, sponsored jointly by the University of California, Berkeley, Chicago, Columbia, Cornell, Harvard, Michigan, Princeton, Stanford, University of Washington & Yale.
	Hiroshima University	LSA, CJS, and Engineering
	Nippon Dental School	Dentistry
	Nagoya University	Engineering-Chemical
	Tokyo Center for Language Studies	Engineering and Humanities

Korea	Yonsei University	Dentistry
	Yeungnam University	Social Work, Architecture and Urban Planning (UP)
Malaysia	lcomp	Public Health and Pop Planning
Philippines	University of the Philippines	LSA and South and South East Asia Studies (CSSEAS)
Taiwan	Chung-Hwa Inst of Buddhist Studies	LSA and Buddhist Studies
	Taiwan INst of Family Planning	LSA and Population Studies
	Nat'l Taiwan University	Inter-University Program for Chinese Language Study
Thailand	Chulalongkorn University	LSA and Population Studies
	Chulalongkorn Univ - U of Oklahoma	Chemical Engin. (Petrochemical)
Vietnam	Vietnam Com. on Social Sci	LSA and CRED
CIS		
CIS	American Collegiate Consortium Exchange	Undergraduate exchange program for American students at Soviet institutions of higher education
	Altai State University	Intentions to develop scientific-research collaboration, the exchange of information and research results, and the exchange of graduate students, LSA-Pop Studies
	Erevan State	Exchange of professors, undergraduates and graduate students
	Institute for High Energy Physics (HEP)	NEPTUN-A experiment/agreement involving MIT and UM: INEP in Serphkov and Tbilisi State University, Joint Institute for Nuclear Research (Dubna) and Moscow State Univ. UM provided equipment that will be installed at IHEP. Program will require the regular exchange of scholars, collaboration meetings and exchange of information
	Institute of History of the USSR Academy of Sciences	Collaboration in the form of exchange of scholars, scientific materials and publications; participation of Soviet scholars in seminars on the use of quantitative methods in history; pursuit by UM scholars of archival research in Moscow and Leningrad

OK

CONTINENT/ COUNTRY	OVERSEAS INSTITUTION	DESCRIPTION OF ACTIVITY
CIS	Institute of Sociology of the USSR Acad. of Sciences	Formal letter of intention to establish a broad program of collaborative research, training, and exchange of data. Initial activities involve several collaborative projects on the themes of ecology, economic and political reforms, relations between the US and the USSR, and evolution of political values in the two states.
	N.K. Koltsov Institute of Developmental Biology	Exchange of scientists, scientific information and organization of bilateral seminars.
	Lvov University	2-week undergraduate exchange through the Citizen Exchange Council's University Pairing Program
	Lviv State Ukraine	USIA University Affiliations Program of collaborative research and faculty exchange
	Moscow Aviation Institute	One year undergraduate exchange with Moscow Aviation Institute, Moscow Physical Tech. Instit. and Moscow Engineering Physics Institute
	Moscow State Historical-Archival Institute	Exchange of graduate students and faculty; cooperation in scientific research with the possibility of creating a Center for Soviet History and Social Science for the preparation of Soviet and American specialists.
	Russian State University exchange for the Humanities	Graduate students and faculty
	USSR Academy of Sciences	Exchange of scholars to conduct individual or collaborative research in the areas of system science and control, communications, and signal processing; exchange of scientific materials; participation of Soviet scholars in seminars and report series published by the Electrical Engineering and Computer Science department (EECS).
	Ukraine	Ukrainian Researchers visit under UM auspices grant awarded by USIA's Bureau of Educational & Cultural Affairs
	Country-wide	Lecture series
	Institute of Sociology, Russian Academy of Science	Joint Conference "Social and Political Change in the New Russia"
	Siberian branch of USSR Academy of Sciences	Baikal International Center for Ecological Research (BICER) is an internationally-governed body and an 'open' laboratory of promoting and coordinating fundamental research.
Country-wide	Visits of Soviet scholars working in the area of hypersonic aerodynamics, exchange of technical literature with Soviet research institutes and technical cooperation in the field of dust explosions

UNIVERSITY OF OREGON

Eugene, Oregon

The University of Oregon is a major repository of international knowledge, offering many resources for scholars, students, and the general public. The **Center for Asian and Pacific Studies** incorporates the perspectives of six academic programs: Asia studies, East Asian languages and literatures, international business, international studies, Pacific Island studies, and Southeast Asia studies. More than seventy core and affiliated faculty participate in the center. The **Yamada Language Center** offers state-of-the-art facilities for teaching, research, and programs related to second language learning and teaching. A satellite dish in the center receives television broadcasts from around the world. The **Russian and East European Studies Center** routinely sponsors public symposia and annually hosts a visiting instructor specializing in Russia.

The University of Oregon is a member, with the University of Washington and the University of British Columbia, of the **Northwest Regional Consortium for Southeast Asian Studies**, which is recognized by the U.S. Department of Education as one of only five national resources center for the study of Southeast Asia. The consortium has received major funding from the U.S. Department of Education, the U.S. Information Agency, the Henry Luce Foundation, and the Ford Foundation. The three universities share resources and coordinate library acquisition, course offering, and research projects. The **Center for Japanese Language Education**, supported by a US WEST Foundation grant, is conducting pioneering work in the area of teacher training, curriculum development, and the creation of instructional materials needed to meet the exploding regional and national demands for instruction in Japanese at all educational levels.

The university's seven science institutes and centers -- chemical physics, cognitive and decision sciences, molecular biology, neuroscience, theoretical science, materials science, and marine biology - attract numerous distinguished international visitors and facilitate collaborative projects with researchers around the globe. The **Oregon Humanities Center** contributes to international work in the humanities through a wide variety of programs supporting research, teaching, and public service. The **Center for Housing Innovation** collaborates internationally in research on and the design of energy-efficient, low-cost housing. The **Pacific Rim Gamelan** is a unique ensemble of composer-performers who create multicultural music rooted in Southeast Asia traditions, played on Indonesian gamelan instruments augmented by instruments from other regions of the world.

Faculty members and students from ten departments have formed the **Sustainable Development Group**, emphasizing both domestic and international issues. The group's international projects include rural development in Japan, environmental education and policy-making in Russia, and community development in Micronesia. For more than 20 years, the **Center on Human Development** has addressed problems of social importance that affect the lives of persons with developmental disabilities and handicapping conditions. Its programs have been adopted and replicated in a number of other countries, including Australia, India, Japan, Canada, Germany, and Iceland. The **American English Institute** offers a variety of English-language training programs for international students who wish to improve their proficiency in order to perform effectively in an academic or professional setting. Each year more than 1,000 students enroll in the institute's classes.

UNIVERSITY OF PITTSBURGH
Pittsburgh, Pennsylvania

CONTINENT/ COUNTRY	FOREIGN INSTITUTION	DESCRIPTION OF ACTIVITY
AFRICA		
Burundi	University of Burundi	Faculty exchange in law
Ghana	Centre for Scientific Research into Plant Medicine	Joint research
Nigeria	University of Benin	Research of factors related to high prevalence of hypertension in civil servants

Various Universities in Mexico	Book Donation Program	University Library

UNIVERSITY OF THE PACIFIC
Stockton, California

The international activities of the University of the Pacific include:

◆ **Study Abroad**

- Our students participate primarily in the programs run by specialized organizations: The Institute of European Studies, The Institute of Asian Studies, Inter-Study, Educational Programs Abroad, College Semester Abroad, and Scandinavian Seminar are the principal ones.
- As appropriate, we also place students in the programs of other American universities which have campuses abroad: the University of Massachusetts in Taiwan, Marymount in Australia, Dickinson College in Italy, Beaver College in the United Kingdom, Stanford in Brazil, and Pomona in Peru.
- UOP currently has agreements for direct student exchange with Nottingham Trent and Swansea Universities, and Homerton and Regent's Colleges, in the United Kingdom; Kwansai Gakuin and Sophia Universities in Japan; Hangzhou University in China; Graz University in Austria; Nijenrode in the Netherlands; Hebrew University in Israel; and the University of Santiago in Chile.

◆ **Faculty Exchange**

- The agreement with Hangzhou University generally sends a faculty member to teach Chinese at UOP while studying for a master's degree in Education. There is also an agreement with Kobe Gakuin University in Japan, under which professors from the Schools of International Studies and Pharmacy have taught in Kobe and Kobe's professors of pharmacy have come to UOP. We are just concluding an agreement with the Beijing Institute of Foreign Languages for a professor to teach Chinese on a regular basis, and an agreement is in process with the University of Siena for a lecturer in Italian. Arrangements have also been made for visiting faculty from Japan and Russia, but on an ad hoc basis. UOP professors frequently serve in the Fulbright Program abroad; currently a professor of the School of International Studies and the political science department is helping to organize the American University in Bulgaria.

◆ **Professional School Programs**

- The Law School operates on a continuing basis summer sessions in London, Salzburg, Budapest, and Vienna; and practitioner-oriented conferences in Salzburg and Waidring in Austria.
 - The School of International Studies offers an undergraduate program preparing students for careers in international business, government, or the non-profit private sector. It is built around a core of multi-disciplinary teamtaught courses and requires study abroad; the program has attracted considerable national attention and several universities have considered using it as a model.
