# Research Guide: Trilateral Cooperation and Emerging Donors

Originally Compiled by Christina Blumel, Ph.D.,  
updated by QueTran Nguyen, MA

KSC Research Series

**ABSTRACT:** This research guide has been compiled by the USAID Knowledge Services Center staff for review by the US Agency for International Development. The guide is a focused selection of resources on trilateral cooperation and emerging donors.

The USAID Knowledge Services Center is operated by Bridgeborn, Inc. and Library Associates, and funded by M/CIO/KM and M/HR/TE under contract RAN-M-00-07-00003-00. The contents of this document are the sole responsibility of the Knowledge Services Center and do not necessarily reflect the views of USAID or the United States Government.

PN-ADM-006

This research guide presents resources on the experience and programs of aid recipients who have established their own foreign assistance programs.

Questions regarding emerging donors fall into two categories:

- First, how do they establish their aid programs, and what type of support have they received from traditional donors for these efforts?
- Second, how will their presence affect international cooperation and the landscape of international assistance?
