WASHINGTON, D.C. 20523

MEMORANDUM

May 8, 1972

TO: Dr. Joel Bernstein, AA/TA  
THRU: Mr. Kenneth Levick, TA/PM  
FROM: Glenn Schweitzer, TA/OST  
SUBJECT: Application of Industrial Technology Developed Under  
NASA Auspices to Needs of a Developing Country  
(Korea)

1. Your approval is requested to amend the facesheet of the subject PROP, to provide an additional \$48,800 in FY 1972 funds for the purpose of disseminating results of the AID/NASA pilot project on technology transfer to Korea through one regional workshop in Korea and one in Latin America.
2. The funds will be transferred to NASA under a PASA agreement. The funding will provide for preparation, conduct, and reporting for two 3-day regional workshops to describe the nature and results of the pilot project, including goals and organization, training of Korean specialists, and successful mechanisms employed by KIST for transferring relevant technology to Korean industry. One workshop will be conducted at KIST in September 1972; the second will be conducted in conjunction with an Organization of American States symposium on technology transfer in Latin America in the first quarter of 1973. (The exact date and location for this symposium have not yet been identified by OAS.) Preparation for the two workshops and necessary administrative arrangements, including reports, will be performed by staff of the Illinois Institute of Technology, contractor to NASA for the pilot project, in collaboration with KIST. The two workshops will be conducted by the Korean/U.S. pilot project team. About twenty selected participants representing government, science, and industry, including leading industrial research institutes of countries from each region -- each actively concerned with the process of technology transfer will be invited to attend the regional workshop in their region. USAID personnel from the region will be invited to attend each workshop.

3. The final report will be prepared in two volumes: one reporting on the workshop in Korea; the second reporting on the workshop in Latin America. 100 copies of the final report will be submitted to AID (TA/OS1) by June 30, 1973.

4. Major categories of funding are (see relevant cables attached):

Preparation for workshops	\$8,700
Travel/per diem participants	20,000
Travel/per diem Korean/U.S. team	9,500
Final reports	7,600
Translation and secretarial services, supplies	<u>4,000</u>
Total	\$48,800

5. Recommendation: That you approve the PROP facesheet amendment for the purposes described.

SUBJECT: NASA/KIST TECHNOLOGY TRANSFER PROJECT

FOR AR OLD FROM SCHWEITZER

1. WE ARE CONSIDERING DELIGATION OF ADDITIONAL FY 72 FUNDS FOR TWO SEMINARS TO DISSEMINATE TO OTHER LDGS LESSONS LEARNED FROM NASA/KIST PROJECT, SUBJECT TO CONCURRENCE OF KIST AND AID/NASA EVALUATION TEAM CURRENTLY IN KOREA. OBLIGATION SHOULD BE MADE BY AMENDING PASA WITH NASA WHICH IN TURN WOULD AMEND CONTRACT WITH ILLINOIS INSTITUTE OF TECHNOLOGY TO CARRY OUT SEMINARS.

2. REQUEST VIEWS KIST AND EVALUATION TEAM SUGGEST TOGETHER WITH YOUR BEST ESTIMATE OF FUNDING REQUIREMENTS FOR SEMINARS, INCLUDING APPROXIMATE COST BREAKDOWN BY MAJOR CATEGORIES.

3. NASA CONCURS WITH THIS CABLE. ROGERS
