Original Revision _____

Explanation and/or comments

The Ministry of Health prepared a comprehensive four-year health plan during 1971. After a year in operation the plan is now undergoing review for the purpose of upgrading and revision as required.

It was found out recently that a seminar would take place in March (1973) at Johns Hopkins University to bring together Senior Health Officials from around the world to give them practical experience in comprehensive health planning at the national level. PH was unaware that this seminar would be offered in FY 73 and were unable to program for it in the FY 74 PBS. This training, however, is considered to be invaluable for the type of work required in revision of the four-year health plan and, in the opinion of PH, takes priority at this time over the need of other training programmed in the PBS which can be programmed at a later date with full advantage. Funds were transferred, therefore, from Medical/Dental Education (150) to Project 375 to finance the attendance at the seminar of two MOH officials.
