

ACTION MEMORANDUM TO THE AGENCY DIRECTOR FOR FOOD AND AGRICULTURE
BUREAU OF SCIENCE AND TECHNOLOGY

JUN 27 1988

FROM: S&T/AGR, David D. Bathrick

SUBJECT: Pond Dynamics - CRSP, Project 936-4023,
Authorization Amendment DOC # 402302

PROBLEM: Your approval is requested to amend the authorization for the subject project to provide for the use of funds from missions, regional bureaus, and other AID/W offices in support of project activities.

DISCUSSION: This project was authorized for five years on June 6, 1982 at a level of \$4,750,000 for S&T/AGK funding. It was amended on May 27, 1987 to increase the authorization by \$2,757,000 to \$7,507,000 and extend the authorized final year of obligation to FY 1990. No provision was made, however, to allow missions, regional bureaus and other AID/W offices to access the expertise developed under this program. The CRSP program will benefit also from the information and experience gained by providing services to LDCs related to the research undertaken by the participating universities. Accordingly, we propose to amend the project to permit the procurement of services from the participating universities related to their pond dynamics research. A companion basic ordering agreement (BOA) will be established as the mechanism by which these services can be accessed.

We estimate that there will be up to \$4,000,000 in buy-in requests for services. These additional funds will be separately authorized under various mission, regional bureau, or other AID/W central projects, but will also require your approval to be used under the project. Once you have approved the use of buy-in funds under the project, we will process a waiver pursuant to Federal Acquisition Regulation (FAR) Subpart 6.302-3(a)(2) - the research capability exception - to exempt these buy-in requests from full and open competition. These services will be provided by delivery orders issued under the BOA.

SER/OP has reviewed a draft of the proposed BOA and on May 20, 1988 issued a sources-sought synopsis of the proposed action in the Commerce Business Daily (CBS) even though FAR 5.202(a)(10) states that CBD synopsis is not required under the conditions described in FAR 6.302-3. To date no source has expressed in writing, an interest in this acquisition. In addition, SER/OP has advised us informally that such waiver and establishment of the BOA are appropriate and foresees no problem in approval.

RECOMMENDATION: That you sign the attached Project Data Sheet and the Project Authorization Form to provide for up to \$4,000,000 to be contributed by missions, regional bureaus, and AID/W offices for additional country activities within the overall scope of this project.

APPROVED: *J. Bergman*

PROJECT AUTHORIZATION

Entity: Bureau for Science and Technology
Project Title: CRSP - Pond Dynamics
Project Number: 936-4023 DOC # 402302

- A. Pursuant to Section 103 of the Foreign Assistance Act of 1961, as amended, the centrally funded Pond Dynamics Collaborative Research Support Program (CRSP) was authorized on June 6, 1982. It was amended on May 21, 1987 to extend the authorized life-of-project for three years and increase the S&T Bureau funding by \$2,757,000 to \$7,507,000. The project is hereby further amended as follows:
1. Up to \$4,000,000 from missions, regional bureaus, and A.I.D./W offices may be provided in support of this project.
- B. The authorization cited above remains in force except as herein amended.

William Furtick
Agency Director for Food and Agriculture
