PEACE FELLOWSHIP PROGRAM  
FOURTH COMPREHENSIVE REPORT

1. INTRODUCTION

The Peace Fellowship Program (PFP) represents a major commitment on the part of the governments of the United States and Egypt to educate and train a substantial number of young Egyptian professionals at American graduate institutions. The academic pursuits of these young Egyptians encompass a broad spectrum of fields relevant to Egypt's development needs. The major areas of study are: Agriculture, Architecture, Business Administration, Economics, Education, Engineering, Medicine, and Public Health.

As a major human resource development program, the PFP was established by the U.S. Agency for International Development (AID) as a result of the Camp David post-peace discussions. The program is implemented by AID through a host-country contract with the Egyptian government, Ministry of Higher Education (MOHE), and America-Mideast Educational and Training Services (AMIDEAST). In accordance with that contract, which was signed on July 15, 1980, AMIDEAST presents the Peace Fellowship Program's Fourth Comprehensive Report, for the period from February 1, 1982 through July 31, 1982.

This Fourth Comprehensive Report will cover the program activities that took place during this period at AMIDEAST. Issues relevant to the PFP will be discussed with an evaluation of the PFP's progress to date. Recommendations will also be made as to the future course of the program. An

extensive appendix provides a detailed statistical summary of PFP activities since the program's inception.

## II. PROGRAM ACTIVITIES

A dramatic increase in the number of Peace Fellows enrolled in the PFP occurred during this reporting period. By the end of July 1982, 964 PF files had been received by the AMIDEAST Washington office, including 359 PFs currently studying in the U.S., 111 PFs who have completed Peace Fellowships and either returned to Cairo or transferred to Missions fellowships, 236 PFs now pending placement at U.S. universities, and 208 PFs who have received acceptances and are completing travel formalities in Egypt. In the Cairo office 208 files remain under completion, 71 awaiting students to show up for interviews and 137 pending completion of documents.

This increase in program enrollment attests to the successful implementation of the modification agreement signed by MOHE and AID in August 1981. This agreement encouraged greater numbers of qualified candidates to apply for Peace Fellowships by introducing certain modifications into the program. One of these, the introduction of the \$850/month higher technical living allowance for 10-month PFs, provided a strong impetus for those candidates to apply from the government ministries and private sector. Ten month fellowships now account for almost two-thirds of all program enrollments in the past six month period.

A majority of 21-month Peace Fellows, whose fellowships will expire during the current summer months, are taking advantage of the new opportunity to apply for Egyptian Missions fellowships that will allow them to continue in Ph.D. programs for two more years. The AMIDEAST Washington office is currently working in close cooperation with the Egyptian Cultural and Educational Bureau to ensure a smooth transition from the PFP to Missions fellowship program for those Fellows authorized to continue. Since those Peace Fellows who

transfer to the Egyptian Missions program will still be maintained on AID's J-1 visa during their entire academic program in the U.S., mechanisms will be established that will allow AMIDEAST, ECEB, and AID to closely monitor this visa maintenance program.

\* \* \* \* \*

In the past six month period at AMIDEAST, placement activity proceeded at a steady pace, averaging 40 new acceptances monthly. By the end of July, AMIDEAST succeeded in obtaining new placements for over 250 Peace Fellows for the summer and fall 1982 terms. Since the beginning of the program in July 1980, placements have been secured for over 650 Peace Fellows. One third of all placements for the PFP were secured during the past reporting period.

By the fall 1982 term, it is expected that over 600 Peace Fellows will currently be enrolled in academic and training programs in the U.S. By January 1983, it is predicted that an additional several hundred Peace Fellows will arrive in the U.S., bringing the total to 900. It should be noted that the AMIDEAST Washington office already has 964 files, although less than half are currently studying in the U.S.

Our Cairo office forwarded 377 dossiers to Washington during this period. An average of 63 dossiers were forwarded on a monthly basis. Since this six month total boosted the Washington enrollment to 964 active files, it accounted for a one-third increase. Twenty-three per cent of these files contained TOEFL scores that were below 500.

\* \* \* \* \*

The major activities that were carried out by AMIDEAST during this recent reporting period were similar to those that were included in the previous

Comprehensive Report. AMIDEAST continued to carry out its responsibilities concerning the placement, counseling, and monitoring of Peace Fellows' academic, training, and research programs at more than 200 institutions in the U.S. Orientation programs were conducted for new arrivals in the Washington office throughout the spring and summer months. The largest numbers of new arrivals were concentrated in the months of May, June, and July, when 106 Peace Fellows began new programs, bringing the U.S. program enrollment total to 362. During this same period, a large number of Peace Fellowships expired. During the months of May, June, and July, 58 Peace Fellows completed their programs in the U.S. Of this number, eighteen had 10-month fellowships, while forty had 21-month fellowships. The majority of Peace Fellows with soon-to-expire 21-month fellowships applied for Missions fellowships with MOHE. Some of these Fellows received 3-month extensions from the Project Management Committee (PMC), to allow them time to complete their M.S. degrees before being given final approval to continue as Missions Fellows. In summary, this early summer term witnessed the most active number of arrivals and departures on the program for the entire previous two year period.

\*            \*            \*            \*            \*            \*

This same reporting period witnessed the most extensive campus visits ever conducted on the program. During the spring term, the Washington AMIDEAST staff, consisting of seven Educational Specialists, the PFP Project Director, and the Placement and Counseling Supervisor, visited 166 Peace Fellows at 68 institutions in 6 major geographical regions of the U.S. These visits have helped promote many beneficial exchanges between PFP staff members, Peace Fellows, their academic advisors, and other university officials.

Excellent contacts have been established that will help facilitate the placements of future Peace Fellows at American institutions, particularly in many of the more difficult fields such as medical research. One of our Educational Specialists visited several medical centers and institutions in the southern U.S., including Atlanta Center for Disease Control, Emory University Medical School, Medical College of Georgia, University of South Carolina School of Public Health, and University of Tennessee Medical Center.

All of the institutions visited were extremely enthusiastic about participating in the Peace Fellowship Program, and were very pleased with the progress that the Fellows were making in their respective programs. They also expressed a strong interest in accomodating more qualified Peace Fellows at their institutions in upcoming months.

The Placement and Counseling Supervisor attended a Society for Intercultural Education, Training, and Research (SIETAR) Conference in Long Beach, California in late March. The theme of the conference was "Strategies for Cultural Stability and Change". Two of the seminars that were of particular relevance to the PFP were about designing evaluation programs for international education and training programs, and the cultural dimensions of development. The conference was extremely beneficial in terms of fostering a better understanding of the Peace Fellowship Program in a context of the world-wide development process, and of how to better assess the impact of project goals on the participants of a major human resource development program.

\* \* \* \* \*

In late April, the PFP Project Director, Amany El-Difrawy, journeyed to

Egypt for consultations with MOHE, PMC, and AID in Cairo, reviewing PFP affairs of the past year. One of the main topics of discussion focused on working out the practical procedures for the transfer of approved Peace Fellows to the MOHE Missions fellowship program after their 21-month programs on the PFP expire. Twenty-three Peace Fellows in Ph.D. programs would complete their Peace Fellowships between late May and mid-July of 1982, and another 69 by October. It was therefore most urgent that the procedural details of these transfers be established soon to ensure a smooth transition period.

The results of these on-going discussions are as follows:

1. NOTIFICATION that the student is approved for transfer to Missions sponsorship will be handled by MOHE through its direct representative in the U.S., ECEB, who, in turn, will notify AMIDEAST of the nomination. Specific forms have been designed to ensure prompt notification of all concerned parties of the scholarship transfer.
2. RETURN AIRLINE TICKET/SHIPPING & EXCESS BAGGAGE ALLOWANCES: In accordance with AID Handbook 10, the PFP will provide an airline ticket for each returning participant from his/her institution to Cairo (including, if possible, a stop-over in Washington for a final exit interview at AMIDEAST), a shipping allowance of \$120, and an excess baggage allowance of \$86. When a Peace Fellow transfers to MOHE Missions sponsorship, the shipping allowance will be issued to him/her at the time of the expiration date of the Peace Fellowship. The return airline ticket and the excess baggage ticket will be sent directly to ECEB who will be responsible for up-dating the ticket as required until the Fellow departs for Egypt at the end of his/her Missions program.

3. VISA SPONSORSHIP: The question of visa sponsorship was resolved by AID who requested that all Peace Fellowship participants transferring to Missions fellowships retain the AID J-1 visa sponsorship throughout their programs in the U.S. The PMC requested AMIDEAST Washington to continue to be responsible for issuing the visa documents for AID signature on a contractual basis. ECEB would assume full responsibility for monitoring student programs and providing such information to AMIDEAST when necessary.

Other issues that were discussed by the Project Director in Cairo dealt with specific program issues such as:

1. Medical placements and visa restrictions (this topic will be covered in depth in the recommendation section of this report).
2. Requests by Peace Fellows for placements in non-existent medical degree programs in the U.S. The differences in the U.S. and Egyptian medical education systems were discussed.
3. Continuation of the three months of intensive English language training in the U.S. for Peace Fellows with TOEFL scores between 450 and 500 was approved by PMC and AID for the 1982-83 academic year.
4. A request was made by AMIDEAST to continue with the Institutional TOEFL examination in Cairo for all new PFP candidates as a selection criterion. This request was granted by the PMC.
5. The problem of 10/13-month Peace Fellows arriving to begin programs

in January was discussed. This has been an on-going issue on the program. It was decided that 13-month Peace Fellows would not be allowed to begin English programs in January, but would wait until the early summer term to enroll in an intensive English program, thereby beginning an academic program in the fall. This would eliminate the problem of Peace Fellows beginning EL programs in January, not having substantial academic programs to pursue during the following summer months. 10-month Peace Fellows would still be allowed to begin programs in January provided that their academic programs end in August and a training program can be arranged for the additional two months. If a training program is not available, their fellowship length would need to be modified to eight months in order to avoid paying tuition for the entire fall term.

6. The Missions Department has decided to raise the TOEFL score requirement of the PFP to 500, as it has with its own Missions program. Those Peace Fellows with over 500 TOEFL scores, who are requested by U.S. universities to enroll in intensive English language programs, will be allowed an extra three months' fellowship time. If, however, the Peace Fellow needs to enroll in any additional English language training beyond the three month limit, this time will be deducted from the length of the remaining fellowship.

7. All Peace Fellows who are authorized to purchase equipment for their research programs in the U.S. (above the AID \$300 equipment allowance limit), will be required to sign a statement to the effect that at the end of their U.S. program, they will forward such equipment to the ECEB at ECEB expense (cost-reimbursable by AMIDEAST). ECEB will be responsible for its shipment

to Egypt.

8. All decisions taken by ECEB concerning placements are to be considered final and irrevocable.

9. The study plans of Peace Fellows will be closely reviewed by the PMC selection committee prior to forwarding to AMIDEAST, taking into consideration the study plan's relevance to Egypt's national plan for development.

10. The Missions regulation which requires Missions fellows to complete intensive English language programs before their spouses and children may join them, will henceforth apply to Peace Fellows as well.

\* \* \* \* \*

One of the major modifications of the Peace Fellowship Program, that was included in the modification agreement of last August, concerned an addition to the program of a "joint supervision" arrangement. This was also a topic for discussion during the Project Director's visit to Cairo. The implementation of the "joint supervision" program was formally approved by both MOHE and AID on May 8, 1982.

This implementation agreement will allow the following regarding "joint supervision" programs for selected Peace Fellows:

1. Egyptian faculty advisors of those Peace Fellows who are selected by their parent universities and by the PFP selection committee for programs

of "joint supervision" leading to Ph.D. degrees will be sent, with MOHE funds, to the U.S. to confer and consult with the Fellows and their U.S. faculty advisors on the Fellows' academic progress.

2. Appropriate American faculty members from universities identified by Egyptian universities or by AMIDEAST, as desirous of participating in "joint supervision" programs, and after review by the PMC, will be invited to come to Egypt initially to consult with the Fellows' Egyptian academic advisors and the Fellows, to achieve mutual agreement upon an appropriate and feasible academic program for the Fellows both in the U.S. and upon their return to Egypt. These same U.S. university faculty members, who will be the Fellows' academic advisors while they are in the U.S., may also be invited to Egypt at an appropriate time following the Fellows' return to their parent universities, to confer and consult with the Fellows and their Egyptian faculty advisors on the Fellows' academic progress toward their Ph.D. degrees. Project funds will be utilized for the travel and per diem costs relative to a maximum of two visits of an American faculty advisor to Egypt.

3. The PMC/MOHE will advise AMIDEAST and the various Egyptian universities of this additional modification in the PFP so that the "joint supervision" program may be fully implemented.

The PFP Project Director discussed the role that PMC/MOHE wanted AMIDEAST to play in the implementation of the "joint supervision" agreement. The PMC encouraged AMIDEAST to play an active role by bringing to their attention potential "joint supervision" programs, and to forward to them any such inquiries or requests from U.S. universities who expressed an interest

in participating in such a program. AMIDEAST would help coordinate this information-sharing with ECEB, who would also play a major role in helping implement the "joint supervision" agreement.

Since that meeting in Cairo, AMIDEAST has forwarded several inquiries to the PMC from universities in the U.S. who are interested in such a program.

The Project Director's journey to Egypt was a most rewarding and productive one, particularly in terms of receiving clarification from PMC/MOHE and AID on many different program issues. By working in close cooperation with the Egyptian and U.S. governments, AMIDEAST has been able to achieve solutions to a variety of problematic situations that have arisen on the PFP. Such cooperation is crucial to the success of the program.

\* \* \* \* \*

One of the most exciting activities of the Peace Fellowship Program for the PFP staff in Washington has been in setting-up training programs for Peace Fellows. Since more Peace Fellows have 10-month fellowships than ever before, it is necessary to find placements in non-degree programs.

One such training program has been successfully negotiated with George Mason University in Fairfax, Virginia for 15 Peace Fellows to begin in January 1983. The university will offer a tailor-made program which will be responsive to the students' needs and interests in the fields of banking, finance, and computer science. This intensive ten-month program will permit a wider variety of course offerings which a regular two-semester program

could not offer. An individualized on-the-job training segment will be offered for the last month of the program. In view of the high demand for business and computer courses across the country, this type of program could be used as a model for other groups at other universities in the U.S.

The academic segment will be divided into three quarters, with three courses offered each quarter. Thirteen to fifteen hours of instruction will be offered each week. The program will be supervised by the Dean of the Graduate School and the Director of the Office of International Programs and Services at George Mason. The curriculum will be developed by the School of Business.

There will be two separate academic tracks. Six Peace Fellows from the Ministry of Justice in Egypt will pursue a program specifically tailored to their needs in learning how to set up a computer information system in their ministry. Two other Peace Fellows from the private sector who require a solid basis in information systems will also share this program. The remaining seven Peace Fellows will pursue a special track in banking and financial management. All will receive a specially-tailored training program in the last month of their fellowship period.

This special program at George Mason has recently received final approval from ECEB. The students themselves are very enthusiastic and have already indicated their willingness to participate. AMIDEAST will monitor the program carefully with the cooperation of George Mason to ensure its success. AMIDEAST is very proud to have initiated such a program in the Washington area because of the availability of different U.S. government

agencies for training. As an example, the six Fellows from the Egyptian Ministry of Justice will pursue a one-month training program at the U.S. Department of Justice. This type of programming will facilitate the establishment of a linkage between these two government agencies that will last long after the Peace Fellowship Program has ended.

\* \* \* \* \*

In June, Mr. Medhat Hamdy, Director of the Egyptian Missions Department and member of the PMC, arrived in Washington to commence a two-month visit in the U.S. Part of his visit included consultations with AMIDEAST, ECEB, and AID, in addition to several journeys to different parts of the U.S. to meet with university officials and Peace Fellows. While in Washington, Mr. Hamdy met with several representatives from the U.S. Department of Education, Georgetown University, the American Council on Education, and the National Association for Foreign Student Affairs (NAFSA).

Later on in the month, Mr. Hamdy traveled to Boston where he visited with administrative officials at Boston University. He also met with all of the Peace Fellows studying in the greater Boston area. After his trip to Boston, he traveled to California and held extensive meetings on the campuses of the University of California at Berkeley, University of California in San Francisco Medical Center, Stanford University, University of California at Los Angeles, and University of Southern California. Upon his return to Washington, he has been engaged in numerous discussions at AMIDEAST and ECEB concerning various PFP program matters. His visit has been of particular value to the PFP at this time, since the transfer of approved Peace Fellows to Missions sponsorship during the summer months has required many procedural

discussions by AMIDEAST and ECEB. Mr. Hamdy's presence has helped assure speedier solutions to these issues, since his on-the-spot guidance and decision-making has been very responsive to program needs.

Mr. Hamdy will remain in the U.S. until late August, at which time, he will return to Egypt. Mr. Wahba Abdel-Rahman, Director of the Financial Section of the Egyptian Missions Department, will be arriving in the U.S. previous to Mr. Hamdy's departure for joint consultations with ECEB. Mr. Abael-Rahman will also visit in the U.S. for a two-month period. He will attend a selection of training programs at the U.S. Department of Agriculture Graduate School in financial management and information systems.

These visits by members of MOHE have been very constructive and AMIDEAST looks forward to more such visits in the future.

\* \* \* \* \*

In order to keep pace with the growing numbers of dossiers that have been steadily arriving from our Cairo office, AMIDEAST/Washington has increased its staff of Educational Specialists. The volume of placement activity has expanded rapidly as has the volume of inquiries, requests and mail from Peace Fellows already placed in the U.S. The normal caseload per Specialist includes Peace Fellows who are pending placement and those who are currently in the U.S. Each Specialist monitors the progress of each Peace Fellow in a progressive sequence from the time his/her file arrives in the Washington office, throughout the placement process, during his/her American academic program, up to the time of his/her departure for Egypt. Such close supervision guarantees the establishment of a supportive

relationship between the Specialist and the Peace Fellow. Each Specialist also spends several weeks a year traveling to many different university campuses throughout the U.S. to visit with his/her Peace Fellows and their academic advisors. These visits also facilitate the formation of a bond of trust between the AMIDEAST staff and the Peace Fellow. All of the Specialists on the PFP are professionals who are dedicated to their work, and who also receive a great satisfaction from helping others succeed academically and professionally. Their talented efforts have contributed to the success of the program.

\* \* \* \* \*

Throughout the past six month period, the close working relationship with Dr. Yehia Kabil, Director of the ECEB, has continued. His guidance and support of the PFP has been most appreciated. The Project Director, Amany El-Difrawy, and Dr. Kabil consulted on a "several times weekly" basis. One of his staff members, Adel Abdel Hamid, who is in charge of the PFP files at ECEB, visited with the AMIDEAST staff for an information-sharing session on PFP procedural issues. These types of visits, which facilitate mutual understanding and cooperation, are strongly encouraged by both ECEB and AMIDEAST.

\* \* \* \* \*

In summary, the period between February 1 - July 31, 1982, has been marked by a major increase in the volume of program activities, particularly in the area of securing new placements which have been very successful. Not only has placement activity climbed to a new height, but arrival and departure

activities for new and old Peace Fellows have also increased dramatically. The 1982-83 academic year should prove to be the most successful year in terms of program growth. AMIDEAST is in the process of preparing a Comprehensive Financial Report that will chart the future growth of the PFP in relationship to the project budget and contract. This report will be ready by the end of October 1982.

AMIDEAST will continue its efforts in this direction and will strive to improve, on a continuous basis, the over-all quality of services that it provides under the terms of the PFP contract, with the guidance and support of the Egyptian government and AID.

### III. CAIRO OFFICE

Orin Parker, President of AMIDEAST, visited Cairo in early February and attended meetings with AID officials, Alfred Bisset and Jon Stewart, and First Undersecretary of the Ministry of Education, Fawzy Abdel Zaher, to discuss PFP progress.

William Benz, AMIDEAST Vice President for Finance and Administration visited Cairo in March to review finance and management policies. A meeting was held at the Missions Department with Mr. Medhat Hamdy, Mrs. Fekreya Tawfik, and Mr. Wahba Abdel Rahman to review the Missions Department request for more detailed financial reporting from Washington. It is intended that this topic be taken up by both Mr. Hamdy and Mr. Abdel Rahman during their visits to the U.S. later this summer.

During the period of this report the TOEFL was administered to 257 Peace Fellowship applicants. Of these, 28 scored 550 or above, 75 scored between 500-549, 117 scored between 450-499, and 37 scored below 450. Agreement was formally reached by AID and the PMC to extend the 3-month intensive English language training authorization for PFs achieving between 450 and 500 on the TOEFL for the academic year 1982-83. In addition to regular TOEFL administration an institutional TOEFL was given to 120 potential PFs at the American University in Cairo on February 27th, to help speed English proficiency evaluation. A second institutional TOEFL in early April was cancelled at MOHE request.

A total of 374 PF files were forwarded to AMIDEAST Washington, 173 during the months of June and July. We feel this latter increase reflects the effectiveness of hiring additional staff for the Cairo office, to meet increased workload.

Discussions on the staffing increase, other budgetary matters, English training issues, and the progress of PF selection and placement were held

during April and May when the Project Director visited Cairo. Mrs. El-Difrawy and Mr. Ron Wolfe attended meetings with the PMC, and with Dr. Al Bisset and Mr. Jon Stewart of AID. A separate meeting was held with Mr. Frèd Obey of AID to review legal and contract matters.

Other visitors to AMIDEAST Cairo included Professor Donald Hawkins of George Washington University's program in hotel and tourism management, Dr. Frank Bryan, Chief of the Food-Borne Disease Program at the Center for Disease Control in Atlanta, Georgia, Dr. Borje Gustaffson, Professor and Head of the College of Veterinary Medicine at the University of Illinois, and Dr. Raymond Wenner, U.S. Educational Delegate to UNESCO in Paris. Dr. Wenner lectured at AMIDEAST on Educational Degree equivalencies, an area in which he is an internationally known specialist. His lecture was attended by staff members of the Missions Department as well as AMIDEAST. In addition, AMIDEAST Washington staff members, Kate Archambault, Coordinator of the Cyprus-American Scholarship Program, and Bonnie Barhyte, Coordinator of the Private Sponsored Student Programs, each spent several days in the Cairo office discussing counseling and administrative matters th the PFP staff.

Mrs. Samiha El Shazli, Section Head at the Peace Fellowship Special Administrative Unit in the Missions Department began a training program on June 14 in the Cairo office. She will be observing in-take counseling, file managements, communications procedures, staff organization, and participating in the preparation of statistical information relative to the program.

On June 3rd, the Deputy Director and members of the Cairo PFP staff attended the certificate ceremony at the Meridien Hotel, awarding AID certificates to former Peace Fellows. His Excellency Mustafa Kamal Helmy, Minister of Education, and Mr. Donald Brown, Director of AID/Egypt, and other officials conducted the ceremony. Nearly 100 awards were distributed.

#### IV. RECOMMENDATIONS

##### 1. MEDICAL PLACEMENTS AND VISA RESTRICTIONS

Egyptian physicians whose study plans indicate the need for some degree of patient contact, have been routinely selected as candidates on the PFP. In the past several months, AMIDEAST has received an increased number of these candidates whose study plans are in clinical areas of medicine. For example, AMIDEAST has received dossiers for Egyptian doctors who desire to come to the U.S. to engage in clinical work in specialties such as Primary Medical Care, Emergency Medical Care, Pediatrics, and Neurosurgery. None of these PF candidates have either taken or passed the E.C.F.M.G. and/or V.Q.E. examinations. These Peace Fellows will not be able to enter clinical programs in the U.S. without passing these exams. AMIDEAST urgently recommends that candidates in clinical fields pass these examinations before receiving nominations as Peace Fellows.

##### 2. REQUESTS FOR PLACEMENTS IN MEDICAL DEGREE PROGRAMS IN THE U.S.

The structure of the U.S. medical education system differs greatly from that of Egypt's. Once a student is graduated from a four-year medical school in the U.S., that student receives an M.D. degree, which is similar to the M.B.B.C.H. degree in Egypt. The medical student enters a residency program in the U.S. in order to specialize (Primary Care Medicine, Pediatrics, Psychiatry, Neurosurgery, etc.). This residency program is comparable to the M.S. and Ph.D. programs in Egypt after the M.B.B.C.H. degree. Advanced academic degree programs are not available in clinical fields in the U.S. The only advanced degrees offered are in medical research fields such as biochemistry, genetics, and non-clinical pathology. These degrees take five or six years, and the research topics chosen are rigorous and scientific

(please refer to a letter on this subject from a professor at University of Pittsburgh at the end of this section).

AMIDEAST continues to receive files from Peace Fellows whose study plans state that they wish to pursue Ph.D. degree programs in clinical fields such as Primary Care, Emergency Care Medicine, and Neurosurgery. These Fellows should be advised during the selection process that degree programs in these fields are not offered in the U.S. AMIDEAST recommends that future applicants in clinical medical fields be thoroughly screened by the Selection Committee, and asked to submit new study plans for 10-month, post-doctorate research fellowships instead, since the degree option is not available.

3. ENGLISH LANGUAGE REQUIREMENTS. In view of the new 500 TOEFL score requirement as one of the bases for eligibility on the PFP, AMIDEAST recommends that all future dossiers, which are forwarded to our office in Cairo, should have ALIGU scores of 85 or over. AMIDEAST also requests clarification on the status of the dossiers that are currently in our Cairo office pending completion, and those in our Washington office pending placement with TOEFL scores below 500. Are these Peace Fellows still considered eligible for placement on the PFP? If not, will a cut-off date be established to determine those that are still eligible? Once these issues are clarified, this new eligibility requirement can be implemented.

4. U.S. UNIVERSITY ADMISSIONS POLICIES. It is standard policy at some universities to admit foreign students conditionally without TOEFL scores, testing these students upon arrival to determine their English language abilities, and placing them in an English language program to improve those abilities before allowing them to enroll in an academic program. Unfortunately, this policy works against the policies of the Peace

Fellowship Program because it results in Peace Fellows with very low TOEFL scores, or no TOEFL scores, remaining in English language programs beyond the authorized three month limit. In many cases, these same universities have very high TOEFL requirements of 350-600. AMIDEAST tries to avoid placement of Peace Fellows at such schools whenever possible. However, in order to prevent this situation from continuing to occur, AMIDEAST recommends that Peace Fellows should not be allowed to depart for the U.S. without first submitting a TOEFL score that is within the guidelines established by the PMC (whether it is 450 or the new cut-off of 500). AMIDEAST proposes to proceed as follows:

(a) We will commence placement activities for those Peace Fellows who have already taken the TOEFL examination and whose scores are on or above the cut-off point.

(b) In order to implement the Missions decision, we will proceed with placement activities for Peace Fellows who have not taken the TOEFL exam (but will take it in 1-2 months' time) ONLY IF their ALIGU score is 85 or over. We will not begin placement activities for Peace Fellows without TOEFL scores whose ALIGU scores are below 85.

(c) We recommend that the above procedures for all placements should be initiated beginning with files received January 1, 1983 and thereafter. We hope that Missions will not allow Peace Fellows to depart for the U.S. without TOEFL scores.

5. CHANGING LENGTHS OF PFP AWARDS. AMIDEAST would like to recommend that a more consistent policy be pursued regarding the length of time of the Peace Fellowship awards. Once a file is forwarded to our Washington office, it is submitted to a minimum of four institutions with documentation specifying the program applied for, and the length of time of the fellowship award.

When a Peace Fellow receives an acceptance, it is made on the basis of the data that is submitted with the application. Many instances have occurred this past spring term where Peace Fellows have been accepted for 10-month, non-degree programs, only to learn upon arrival that their fellowship awards had been changed to 20 or 21 months. There was also an occurrence of a Peace Fellow who originally had been awarded a 24-month fellowship (including 3 months for English) and had been accepted in a master's program. Two days before this Fellow's arrival, a letter was forwarded to our Washington office, informing us that that fellowship period had been shortened to 20 months, including English language training. It would therefore be an impossibility to obtain a master's degree in that period of time. The university concerned was disturbed because the conditions of this Fellow's acceptance were on the basis of a 24-month fellowship award. By changing the length of a fellowship period, the conditions under which an acceptance has been granted can also change. The credibility of the PFP with U.S. institutions may be jeopardized by such last minute fellowship changes. AMIDEAST recommends that once a Peace Fellow is awarded a fellowship for a certain length of time, this fellowship should not be changed later on.

6. ENROLLMENT OF PEACE FELLOWS ON THE PFP. AMIDEAST recommends that all Peace Fellows be advised that, under U.S. visa regulations governing visa sponsorship, the date that the Peace Fellow arrives in the U.S., on the AID J-1 visa, must also be the beginning date of that Fellow's sponsorship period. Peace Fellows should not be issued tickets to the U.S. under PFP program auspices on AID J-1 visas, with the intention of delaying the beginning date of the fellowship by one or more months after arrival in the U.S.

7. INQUIRIES FROM U.S. INSTITUTIONS REGARDING EDUCATION IN EGYPT.

AMIDEAST would like to request the Egyptian Ministry of Higher Education if it would be possible to obtain specific information concerning the structure of advanced graduate education in Egypt (descriptions of the universities and their faculties, information about medical education, etc.). This type of information would be very helpful since it could be forwarded on to U.S. university professors and their departments when they are inquiring about the "joint supervision" program.

V. APPENDICES

208 placements  
finalized

236 placements  
pending

444 PFs in  
placement  
status

359 PFs currently  
in the U.S.

111 PFs who have  
completed  
U.S. programs

(includes 4  
PFs who have  
returned to the  
U.S. on second  
Peace Fellowships)

54 PFs whose  
fellowships  
were with-  
drawn  
(includes 1  
PF whose  
file was  
returned  
with a new  
PF number)

GEOGRAPHICAL DISTRIBUTION OF PEACE FELLOWS IN THE UNITED STATES

Section E

CURRENTLY ENROLLED PEACE FELLOWS:

Field of Study Distribution

PEACE FELLOWSHIP PROGRAM: FIELDS OF STUDY

Post-doctoral research: 31  
 PhD research: 105  
 PhD degree: 29

Master's research: 91  
 Master's degree: 103

AGRICULTURE

Post-doctoral research

AMIED, Ahmed  
 Veterinary Medicine

ANIS, Sherif  
 Dairy Science

EL BADRY, Adel Abdel Jawab  
 Veterinary Medicine

EL DEWANI, Hoda  
 Organic Chemistry

KADRY, Abdel Razak  
 Veterinary Medicine/Toxicology

KAMEL, Mostafa Mohamed  
 Cotton Technology

MARZOUK, Mohamed Anwar  
 Veterinary Medicine/Hygiene

MUSTAJA, Hamida  
 Soil Chemistry

MOUSTAFA, Moustafa  
 Food Science

SARIHAN, Mohamed  
 Agriculture/Food Technology

SEIF EL NASSR, Hamdy  
 Plant Pathology

SHETIAH, Mohamed  
 Veterinary Medicine

PhD research

ABDEL KADIR, Hesham  
 Horticulture

ALY, Aly Abdel Hady  
 Plant Pathology

ALY, Sabry Mohamed  
 Veterinary Medicine

EL AZAZY, Osama  
 Veterinary Medicine

BAYOUMI, Mohsen  
 Animal Production

EL TRAKY, Mohamed Bedair  
 Agricultural Economics

ELZZAI, Ahmed Refaat  
 Zoology

GABRIEL, Mohsen Abdel Monem  
 Soil Science

ISMAIL, Khiery  
 Agricultural Economics

KARAR EL DIN, Al Zahraa  
 Botany

KASSIM, Abdel Wahab  
 Agricultural Engineering

KHALIL, Magdy  
 Zoology

PhD research continued

MAHMOUD, Salah  
 Soil Fertility

MOFTAH, Anssary Edris  
 Plant Pathology

MOHAMMED, Saleh Abdel Hamid  
 Animal Reproduction

OSMAN, Yehia Abdel Monem  
 Plant Pathology

RAGHIB, Hussein  
 Agriculture

EL SAYED, Abdel Fattah  
 Fisheries

SELIM, Salah El Deen  
 Plant Pathology

PhD degree

ABUSTEIT, Ezz El Din  
 Agriculture

DOWAIDAR, Samha  
 Botany

EL SHIRIBINI, Aly Hassan  
 Ecology

SOLIMAN, Ahmed Sayed  
 Botany

EL TANTAWY, Ibrahim  
 Plant Pathology

PEACE FELLOWSHIP PROGRAM: FIELDS OF STUDYAGRICULTURE continuedMaster's research

ABDALLA, Abdel Moez  
Fisheries

AHMED, Moustafa  
Agriculture

AHMED HUSSEIN, Mohsen  
Veterinary Microbiology

MOHAMMAD, Magdy  
Agriculture

CUMULATIVE PEACE FELLOW ENROLLMENT:

Academic Progress

NAME, FIELD AND ACADEMIC GOAL	ELI & DATES	TOEFL		ACADEMIC PLACEMENT Q-qr/S-sem/T-tri	CR. HRS. REQUIRED	CR. HRS. COMPLETED	ARRIVAL DATE	ECD	PROGRESS
		DATE	SCORE						
SHALTOUI, Mohamed K. Accounting Ph.D. (1)		7/80	620	Mississippi State U	64	12	8/80	6/82	Very Good Departed
EL MOUELHI, Mohamed H. Clinical Pharmacology Ph.D. research (2)		5/80	580	Temple U	N/A	11 + research	9/80	6/82	Excellent Departed
SHERIF, Hassan Hotel Management M.S. Degree (3)		1/80	597	Florida International U	50	35	9/80	6/82	Excellent Departed
KHALIL, Yehia Chemical Engineering Ph.D. research (4)		5/80	550	MIT	N/A	120	9/80	5/82	Excellent Departed
HUSSEIN, Ahmed Hilmy Pedology M.S. research (5)		7/80	570	Iowa State U	N/A	20	11/80		Satisfactory Departed
SHABAN, Hisham Hassan Hotel Management M.S. Degree (6)		5/80	507	Florida Internation U	50	40	9/80	6/82	Excellent Departed
KHALIFA, Iraky H.M. Electrical Engineering Ph.D. research (7)		3/80	523	Yale U	N/A	research	9/80	6/82	Excellent Departed

NAME, FIELD AND ACADEMIC GOAL	ELI & DATES	TOEFL		ACADEMIC PLACEMENT Q-qr/S-sem/I-tri	CR. HRS. REQUIRED	CR. HRS. COMPLETED	ARRIVAL DATE	ECD	PROGRESS
		DATE	SCORE						
HANNA, Magdy Jawdik Electrical Engineering Ph.D. research (14)		7/80	590	U of Pittsburgh	N/A	18	9/80		Excellent Departed
TARKHAN, Ismail Ibrahim Pathology Ph.D. research (15)		3/80	617	State U of New York Downstate Medical Center	N/A	research	8/80	8/82	Good
ABOU GABAL, Ahmed Ismail Community Health/Family Planning M.P.H. (16)		3/80	590	Tulane U -Q transferred to Johns Hopkins U 9/81; transferred to Boston U 7/82		13-Tulane non-transferrable awarded MPH at JHU + now doing training	1/81	10/82	
SHABRAWY, Osama Pharmacology/toxicology Post-doc. (17)		8/80	517	U of Texas Medical Branch Galveston	N/A			9/80	Departed
KHIDR, Sayed Hassan Industrial Pharmacy Ph.D. research (18)		5/80	543	U of Minnesota Minneapolis	N/A	51	9/80	6/82	Satisfactory transferred to Missions
AMIN, Amr Mohamed Electrical Engineering M.S. Degree (19)	N/A	5/80	553	New Mexico State U Las Cruces, NM (M1 for spring 1982 adv. res.)	30	34	12/80	9/81	Excellent Ph.D. to begin 6/82
EL DIWANY, Ahmed Ibrahim Microbiology Post doc research (20)		7/80	463	USDA Northern Regional Research Center	N/A	research	4/81	1/83	Very Good

NAME, FIELD AND ACADEMIC GOAL	ELI & DATES	TOEFL		ACADEMIC PLACEMENT Q-qlr/S-sem/T-tri	CR. HRS. REQUIRED	CR. HRS. COMPLETED	ARRIVAL DATE	ECD	PROGRESS
		DATE	SCORE						
ABDEL-KAWI, Ola Hotel Management Ph.D. research (21)		5/80	503	Florida International U	N/A	25 + research	9/80	6/82	Excellent Departed
SHABANA, Mohsen D. Bio-Engineering M.S. Degree (22)		3/80	583	U of Michigan transferred to Michigan State 9/81	30	4 + 5 audit	9/80	6/82 extended 3 months 9/82	Fair (EL problems)
BAZEED, Mahmoud A. Urology Post-doc. research (23)		5/80	503	U of California San Francisco	N/A	research	10/80	7/81	Very Good
MAHMOUD, Mohamed Mostafa Business Administration Ph.D. research (24)		3/80	523	U of Pennsylvania Wharton School	N/A		1/81	10/82	Very Good
EL SISI, Alaa El Din Toxicology M.S. Degree (25)	U of Arizona Fall 1981 Spring 1982 (part time)	10/80	400	U of Arizona Tucson	42	10	9/81	6/83	Very Good
ABDELMALEK, Fayez F. Electrical Engineering Ph.D. (26)	U of Missouri Rolla Spring 1981	7/80	463	U of Missouri Rolla transferred 1/82 to:Case Western Ohio	N/A	24	1/81	10/82	Very Good

NAME, FIELD AND ACADEMIC GOAL	ELI & DATES	TOEFL		ACADEMIC PLACEMENT	CR. HRS. REQUIRED	CR. HRS. COMPLETED	ARRIVAL DATE	ECD	PROGRESS
		DATE	SCORE						
YACOUT, Soumaya Operations Research Ph.D. research (27)		3/80	513	Q-qtr/S-sem/T-tri George Washington U	30	33	9/80	6/82	Excellent Departed
BADAWI, Sherif Fahmi Marine Biology Ph.D. research (28)		7/80	497	EPA Marine Science Center Oregon State U	N/A	research	9/80		Excellent Departed
KHODIER, Ayman Civil Engineering M.S. research (29)	N/A	3/80	500	California State Fresno received 2 10-month fellowships	30	17	9/80	11/82	Very Good
EL KHOLY, Suzan Monir Architecture M.S. Degree (31)		5/80	650	U of Oklahoma Norman	32	32	9/80		Outstanding 4.0 average Departed
EL SHENNAWLY, Ahmed Production Engineering Ph.D. research (33)		3/80	517	Bureau of Statistics	N/A	20 + research	11/80	8/81	Very Good
EL SHATTAWY, Hamed Pharmaceutics Post-doc research (34)		5/80	500	Purdue U	N/A	research	1/81		Excellent Departed

ACADEMIC ENROLLMENT/END OF TERM REPORTS

JUL 8 1982

# PEACE FELLOWSHIP PROGRAM for EGYPT

america-mideast educational & training services, inc.

## ACADEMIC ENROLLMENT AND TERM REPORT

TO BE COMPLETED BY PARTICIPANT: IMPORTANT! PLEASE TYPE OR PRINT IN BLACK

Name Mohamed M. H. El-Defrawi PF # 351 Date July 1, 1982

Address 54 Staff Ct., Rockland Psychiatric Center Telephone (914)359-1050 X2369  
Orangeburg, New York 10962

U.S. University Rockland Research Institute Field of Study Psychiatry

Academic Advisor Thomas Craig, M.D. Telephone (914)359-1050 X2376

Degree Program \_\_\_\_\_ Non-degree Status research study

Courses Completed Last Term  
 Fall \_\_\_\_\_ Spring X Quarter \_\_\_\_\_  
 Winter X Summer \_\_\_\_\_ Semester \_\_\_\_\_ 1982

Course Number	Course Title	Credits	Grade	Audic
	Childhood Development & Psychopathology	NA		
	Neuropsychology	NA		
	Psychopharmacology	NA		
	Movement Disorders: Tardive Dyskinesia	NA		

Courses Enrolled Current Term  
 Fall \_\_\_\_\_ Spring \_\_\_\_\_ Quarter \_\_\_\_\_  
 Winter \_\_\_\_\_ Summer X Semester \_\_\_\_\_ 1982

Course Number	Course Title	Credits
	A Clinical Assessment of the Correlation Between	
	Blood Calcium Levels & Neuroleptic-Induced EPS	NA
	Cross-Cultural Study of Tardive Dyskinesia	
	Between Egypt and U.S.A.	NA
	Blood Calcium Levels & Tardive Dyskinesia	NA
	Predictor Variables of Recidivism	NA

Current Research and/or Laboratory Work:

384. A clinical assessment of the correlation between blood calcium levels and neuroleptic-induced EPS.
2. Cross-cultural study of tardive dyskinesia between Egypt and U.S.A.
3. Blood calcium levels and tardive dyskinesia
4. Predictor variables of recidivism

Training or Field Trips away from Campus:

Comments on Academic Problems, if any:

Participant's Signature Mohamed El-Defrawi Date 7-2-

TO BE COMPLETED BY ACADEMIC ADVISOR: PLEASE TYPE OR PRINT IN BLACK INK!

Estimated Date of Completion of Program \_\_\_\_\_

Evaluation of Peace Fellow's Performance:

Dr. El-Defrawi's work here has been of a consistently superior quality. He is in the process of carrying out several research projects under supervision ranging from epidemiologic to clinical in nature and is developing a protocol for a cross cultural study of Tardive Dyskinesia to be carried out on his return to Egypt. In these projects, he has shown considerable enthusiasm, conscientiousness and industriousness. His overall performance here has been excellent.

Current Research and/or Laboratory Work:

386

- 1 - Particulate Flows In Turbomachines
- 2 - Secondary Flow Effects of particulate's Flight path.
- 3 - Erosion Estimation of turbines due to coal ash/sand par

Training or Field Trips away from Campus:

- 1 - Int. Conf. on Technology & Technology Exchange; Author of paper entitled "New Suggested Methods For Handling Erosion Problems In Turbines" (Pittsburgh, May 3-6)
- 2 - Two other papers will be presented in the IASTED; Cambria Mass. 7-9 July. These papers are entitled:
  - a - Efficiency of Gas Cleanup Systems For Reducing Erosion In Centrifugal Compressor
  - b - Three Dimensional Viscous Particulate Flow In a Typical Turboexpander.
- 3 - Conf. on "Advances In Harafacing Technology" July 15-23, New Hampshire.

Participant's Signature A. F. A. El-Sayed Date 6/23/82

TO BE COMPLETED BY ACADEMIC ADVISOR: PLEASE TYPE OR PRINT IN BLACK INK!

Estimated Date of Completion of Program August 31, 1982

Evaluation of Peace Fellow's Performance:

Dr. El-Sayed's performance has been superb. His accomplishments have been far beyond my most optimistic expectations. His research, in the short time he has been here, has already resulted in three significant papers, which he has presented at two international conferences. A fourth paper will be completed before he departs.

He has found new ideas and explored new concepts during his stay with us, and he has seized every opportunity to expand his technical knowledge. He is a tireless worker, with unbounded energy, who gets a great deal of personal satisfaction from his technical accomplishments. He maps his research energetically, yet very carefully, continually setting new goals for himself as he achieves old ones.

In his relations with our faculty and members of our research group he has been gracious and generous in sharing his expertise. He has been a catalyst for much of our research. Our graduate students have benefitted greatly from his advice and inspiration. He has a warm personality, which makes it a pleasure to work with him. I value him highly, and only wish that he could stay longer. I shall be sorry to see him leave, but hope that someday there will be an opportunity for him to return

Advisor's Signature Walter T. Rouleau Date July 3,

Date June

TO BE COMPLETED BY ACADEMIC ADVISOR: PLEASE TYPE OR PRINT IN BLACK INK!

Estimated Date of Completion of Program \_\_\_\_\_

Evaluation of Peace Fellow's Performance:

During his first ten months of study here, Mr. Khalil has made excellent progress as a doctoral candidate. In formal course work in the two semesters, he has received A (highest level) grades in five courses: Invertebrate Biology, Stream Sanitation, Animal Ecology Topics, Forest Zoology Problems, and Independent Study, and B grades in two courses: Limnology and Aquatic Productivity. This is a much better performance than the majority of American-trained students in their first year of graduate studies. He also passed our Ph.D. candidates' qualifying examination (both written and oral defense) on his first attempt in May, 1982. I have agreed to supervise his doctoral research, his review committee has been set up, and he has begun both field and laboratory work towards his dissertation. All of this constitutes an excellent start as a Ph.D. candidate, and I have no hesitation in strongly recommending appropriate extension of his training period in the United States to allow completion of the doctoral program.

I am willing to answer any further questions about Magdy T. Khalil to the best of my ability.

Evaluation of Peace Fellow's Performance:

Dr. Helmy is an exceptional Post-Doctoral Fellow. He is well trained, dedicated, and intellectually facile. He has shown great initiative and enthusiasm for every assignment undertaken. Dr. Helmy has independently developed a productive association with the Pediatrics program. He has been warmly received by everyone who has met with him. At the present time Dr. Helmy is developing a protocol on the use of a Nutritional Index in assessing the health status of children. The work has great promise. Dr. Helmy has meticulously reviewed and analyzed the relevant literature and is in the process of designing the study. Each time I meet with him I am impressed by his academic background, professional skills, judgement and commitment. He is an outstanding Fellow.

CAMPUS VISIT REPORTS

# PEACE FELLOWSHIP PROGRAM for EGYPT

america-mideast educational & training services, inc.

## CAMPUS VISIT REPORT

PEACE FELLOW: Mohammed Magdy Hafez 311  
 INSTITUTION: University of Iowa  
 Iowa City, Iowa  
 ADVISOR: Dr. Paul M. Heidger  
 School of Medicine  
 FIELD: Toxicology  
 DATE OF VISIT: March 26, 1982  
 PROGRAM: PhD Research/21 months

Mohammed arrived in the U.S. in September 1981, on a ten-month fellowship which has since been changed to 21 months. On special student status, he was engaged in research throughout the fall. However, with the 21-month fellowship he has been taking coursework and some English as well as doing research. When I spoke with Mohammed, he expressed his desire to get accepted into the PhD program and request a Missions Fellowship to support him after the end of his Peace Fellowship.

Mohammed impressed me as a serious researcher, involved in his research almost to the exclusion of everything else. He apparently spends most of his waking hours working in the lab. Mohammed's dedication was confirmed for me by Dr. Heidger who is extremely pleased to have Mohammed working with him. When the three of us met together, Dr. Heidger mentioned the possibility of Mohammed's presenting a paper at a conference next year. Mohammed will continue to carry out research during the summer months.

Mohammed lives in an apartment not far from campus, and walks to and from the lab. He has not yet had an occasion to use his insurance, and made no mention one way or the other about the adequacy of his monthly stipend. Except for the fact that he does almost nothing but work, Mohammed seems to be quite content at the University of Iowa, and quite comfortable in his working relationship with Dr. Heidger.

## CAMPUS VISIT REPORT

NAME: Essam EL ESSAWI #327  
 MAJOR: Political Science  
 INSTITUTION: American University

LEVEL: M.A. coursework; 10 mos.  
 ADVISOR: Penny Brandenburg

Essam El Essawi arrived at American University in January, 1982. He has not found his time at AU very profitable so far. Although he was accepted by the university with a 512 TOEFL, they retested his English and have required him to study the language full-time. This has taken a good chunk of time out of his fellowship since, with his TOEFL, he is not entitled to the automatic 3-month extension. Essam also fears that there will not be a good selection of courses offered during the summer. Since he is in full-time English, he has not been assigned an advisor in the Political Science department. I have encouraged him to make contact in the department, however, to see if summer courses can be arranged.

Essam is doing very well in his English courses, which he finds (for him) remedial and boring. He admitted, however, that the writing course he still must take may help him in the future.

Essam has applied for an extension of his PFP on the basis of the delay in his academic work caused by his full-time English studies. Thus far, there has been no response from Missions.

Essam has not purchased any equipment and has not attended a conference. He may do an internship with the State Department in the fall if he is not extended for the entire semester. He has experienced no medical problems, which is fortunate as he was one of the students whose HAC insurance program registration was delayed at AID.

## CAMPUS VISIT REPORT

NAME : Rawya Hassan 514 LEVEL : Masters/Ph.D.  
 FIELD : Business/Personnel Management ADVISOR : Dr. McGee  
 INSTITUTION: North Texas State University DATE OF VISIT : April 19, 1982

Ms. Hassan, a 21 month Peace Fellow, is engaged in a M.S. degree program in Labor and Industrial Relations, a 36 credit hour degree program, at North Texas State University where her husband is pursuing his Ph.D. degree as a missions fellow. Upon the completion of the M.S. degree, she anticipates pursuing a Ph.D. degree in the school of Business Administration specializing in Personnel Management.

Although Rawya possess a Masters degree from Alexandria University in Business Administration, she has been advised by Dr. McGee to first obtain her Masters degree from North Texas State. She has thus chosen that course due to the following reasons.

Like many U.S. universities, North Texas State was unwilling to acknowledge Rawya's Masters degree from Alexandria University as a bona fide M.B.A. evaluated according to American university standards. The university felt that her course of study at Alexandria University provided her with an insufficient background to qualify her for a Ph.D. course of study.

Second, in order to be admitted into the Ph.D. program, Rawya requires a GMAT score of 550. At the last testing, her score was 380. Thus, the possibility of attaining the required score level, even after intensive preparation, is rather remote. On the other hand, should she succeed, she would still be required to take numerous prerequisites thereby raising the number of credits required to complete her Ph.D. The required number of credits now stands at 90 beyond the Bachelors degree. As her Masters from Egypt is not well received, she would most certainly need to accumulate nearly all 90 credits rendering her program four to five years in length excluding the time required to complete her dissertation.

The School of Business has a policy whereby they will admit 20% of their students, i.e. graduates of Masters programs, into their Ph.D. programs in Business Administration without the required 550 GMAT. Thus, with a Masters degree from North Texas Rawya stands a very good chance of being offered admission into the Ph.D. program. Her acceptance in this case is not conditional upon the GMAT score.

In addition, there is a good possibility that all of the 36 credits obtained during the Masters program at the Manpower Institute will be applied to the number of credits required to complete the Ph.D. program thus reducing 90 credits by 36. In this way, she loses less time.

Another option available to her is to register as a non-degree Ph.D. student. This option is, however, totally unsatisfactory. If she were to do so, she would only be permitted to take 12 credits as a non-degree student after which time if she does not obtain a score of 550 on the GMAT, she would no longer be permitted to take any more courses.

Her decision to first pursue the Masters degree, in consultation with Dr. McGee, was based on the above circumstances; and, given the conditions, is in my opinion the wisest choice to have made.

Academically, Rawya is performing at a level above average. Dr. McGee describes her as very bright and promising and as an active participant in class. He is also of the opinion that her background in business is not equal to that of American university graduates but is, however, very satisfied with her progress to date.

## CAMPUS VISIT REPORT

NAME: Hazen Sakr #53  
 MAJOR: Civil Engineering  
 INSTITUTION: Oklahoma State University

LEVEL: Ph.D., 21 mos.  
 ADVISOR: P.G. Minke

Oklahoma State University is a large state university located in Stillwater, OK. Many of the buildings were erected at the same time, so there is a uniformity in architecture not usually found on such a large campus. It is attractive in an orderly sense, although perhaps a bit boring due to its lack of architectural variety.

Stillwater seemed to be a rather large college town. (I know nothing about its local industry.) The PF found it adequate, but somewhat hard to live in. This is partly because of the lack of public transportation; this, he feels, makes it necessary to have a car, and he spends \$100 of his monthly allowance on car payments. He said that the stipend is adequate only if the student lives in a dorm. He is living in married student housing, as his wife is with him. He also commented that it is difficult to make friends with OSU students; most come from rural and small-town areas in Oklahoma and are not very friendly. The PF greeted a number of students on campus, but most were other foreigners.

Hazen does not use the Foreign Students Office, but he took me there and I met with Kerry A. Geffert, one of the advisors. We spent most of the time discussing the PFP, with which he was not familiar. The OSU Foreign Students Office deals mostly with non-academic, university-related matters (e.g. counseling and visas); it does not seem to do much in the way of social activities.

+ + +

As to Hazen's academic affairs, I spoke with both his former advisor, J.V. Parcher, head of Civil Engineering, and P.G. Minke, his current advisor. The PF switched advisors because of his field of specialization. Both were very well informed about the PF's program, and willing to talk with me. They both were highly complimentary about Hazen (Minke is "tickled to death that he came back," as Hazen did his MS degree at OSU).

Parcher is very pleased with Hazen's work and called him an excellent doctoral candidate. He feels Hazen has a good plan for research (which he will start this summer if the necessary equipment arrives), which will be of interest to both the university and the highway industry.

Hazen's research concerns asphalt application. The equipment for foamed asphalt mixing is a process patented by Mobil Oil-Australia, but Conoco in Ponca City, OK has done similar work, which is important because it uses local materials for paving. The Oklahoma highway department did not know at the time of our meeting if it could fund such materials, but the university is optimistic that it will. If it does not, the College of Engineering may be able to purchase or lease them.

Campus Visit Report  
Oklahoma State University  
Hazen Sakr  
Page 2

Hazen currently is taking courses and doing research. He will concentrate on research during the summer, but may also take a course, an extra statistics course as a foreign language substitute. His preliminary exams will be next spring; it will take him at least two more years to complete the degree. His advisors commented that both his spoken and written English are very good, so there should be no problem with his thesis.

Hazen hopes to attend the TRB conference next January, or perhaps a conference on asphalt paving. He also hopes to publish a paper in conjunction with the conference.

Hazen's wife was living with him when I visited, but two days after my visit she was to leave for Egypt to await the birth of their first child. She plans to return in late summer.

PROGRAM EVALUATIONS

# PEACE FELLOWSHIP PROGRAM for EGYPT

america-mideast educational & training services, inc.

## PROGRAM EVALUATION

NAME: Dr. Hamida Abou-Shleib #106 FIELD OF STUDY: Medical Microbiology

ACADEMIC INSTITUTION: Stanford University PROGRAM: post-doctoral

1. Please list your academic objectives in coming to the U.S. to study. To what extent were they accomplished?

The major reason why I came here to study in the U.S. was that I could not do what I wanted to in Egypt because of lack of well equipped facilities. I also wanted to expand my knowledge by being exposed to a different culture. I feel strongly that I have accomplished my goal more than I ever expected.

2. Did your study program in the U.S. improve your professional qualifications? Please indicate your career plans and how your study program will further them.

When I go back to Egypt, I will be a lecturer at Alexandria University. What I have worked on is a new and useful field. I would like to continue this work back in Egypt.

3. What plans have you made to maintain professional contacts with colleagues in the U.S.? Please indicate whether you attended any professional conference while a student in the U.S. and if you have joined any professional societies or subscribe to any of the professional journals.

I worked with American colleagues and made plans to continue on joint work.  
I have attended two conferences. Asilomar and ASM.

4. Did you find that you had sufficient opportunity to increase your own general understanding of the U.S. and the understanding of Americans about your country? Please specify how and in what ways.

I had several American friends and we went out a lot and did things together. We discussed American and Egyptian cultures by exchanging our feelings and thoughts. Thus furthered our understanding and knowledge of the both countries.

5. a) Did you have sufficient information about the U.S. to prepare you for your stay here?

I had pretty good ideas about the life here before I came and did not find it too difficult to get used to.

- b) If you attended an orientation program, either at home or in the U.S. before beginning your studies, please indicate where.

I attended a two hour orientation program in Egypt

- c) Please indicate whether the orientation program was useful to you and in what ways might it be improved.

I found the orientation program useful

6. On the basis of your experience, is there any particular advice you would give to others from your country who intend to study in the U.S.?

I would encourage them to ~~to~~ come here and study because it provides good opportunities to expand & further their academic interests and knowledge

7. Please add any general comments you wish. We would be particularly interested in knowing whether you have any suggestions for changes or improvements.

I have been extremely satisfied with the program. People in amideast in Washington who work for this program have been very helpful

## PROGRAM EVALUATION

NAME: KAMAL SAID RADY FIELD OF STUDY: TEFL  
ACADEMIC INSTITUTION: Fordham University, NYC PROGRAM: Non-degree

1. Please list your academic objectives in coming to the U.S. to study. To what extent were they accomplished?

My objectives were: a) to update my knowledge in the recent trends of foreign language teaching with emphasis on reading skills  
b) To learn some new techniques of teaching English.  
c) To improve and perfect my language proficiency.  
To me, I have achieved some of these objectives.

2. Did your study program in the U.S. improve your professional qualifications? Please indicate your career plans and how your study program will further them.

I am a teacher of English as a foreign language. The courses I have taken were helpful to me in updating my knowledge about language teaching. I feel that my language proficiency has considerably improved.

3. What plans have you made to maintain professional contacts with colleagues in the U.S.? Please indicate whether you attended any professional conference while a student in the U.S. and if you have joined any professional societies or subscribe to any of the professional journals.

I haven't attended any professional conferences.

**PREVIOUS PAGE BLANK**

4. Did you find that you had sufficient opportunity to increase your own general understanding of the U.S. and the understanding of Americans about your country? Please specify how and in what ways.

I was living in New York City which is not a typical U.S. society. That's why it's hard to give answer to this question. NYC has given me hard time.

5. a) Did you have sufficient information about the U.S. to prepare you for your stay here?

No.

- b) If you attended an orientation program, either at home or in the U.S. before beginning your studies, please indicate where.

Amideast, Cairo, Egypt.

- c) Please indicate whether the orientation program was useful to you and in what ways might it be improved.

It was useful to some extent. Orientation and real life experience are totally different.

6. On the basis of your experience, is there any particular advice you would give to others from your country who intend to study in the U.S.?

To be patient. Places for residence should be found before their arrival to the U.S.

It would be better not to come to New York City. It's a good place for a visit not for study or living.

7. Please add any general comments you wish. We would be particularly interested in knowing whether you have any suggestions for changes or improvements.

PROGRAM EVALUATION

NAME: Nadia Mokhtar Abdel-Bar #261 FIELD OF STUDY: Food and Nutrition

ACADEMIC INSTITUTION: Florida State University PROGRAM: Masters' level

1. Please list your academic objectives in coming to the U.S. to study. To what extent were they accomplished?

*My primary objective was to improve my working performance as a nutrition supervisor at the Girl Dormitories, Univ. of Cairo, Egypt. This objective has been accomplished to a great extent.*

2. Did your study program in the U.S. improve your professional qualifications? Please indicate your career plans and how your study program will further them.

*Yes, it did. I intend to utilize my newly acquired experience in doing my work in Egypt.*

3. What plans have you made to maintain professional contacts with colleagues in the U.S.? Please indicate whether you attended any professional conference while a student in the U.S. and if you have joined any professional societies or subscribe to any of the professional journals.

*I intend to keep in contact with American professionals. I do not subscribe to any journals.*

MAY 27 1982

4. Did you find that you had sufficient opportunity to increase your own general understanding of the U.S. and the understanding of Americans about your country? Please specify how and in what ways.

The answer is yes, but it's rather difficult to dwell on such point in writing.

5. a) Did you have sufficient information about the U.S. to prepare you for your stay here?

Yes

- b) If you attended an orientation program, either at home or in the U.S. before beginning your studies, please indicate where.

Yes, I did at Amherst, Ohio.

- c) Please indicate whether the orientation program was useful to you and in what ways might it be improved.

Yes, it was useful to me. It could be improved by presenting more films about U.S.A.

6. On the basis of your experience, is there any particular advice you would give to others from your country who intend to study in the U.S.?

They should arrange to seek information and advice from other people who have already completed their program and returned to Egypt.

MAY 27 1982

## PEACE FELLOWSHIP PROGRAM for EGYPT

america-mideast educational & training services, inc.

### PROGRAM EVALUATION

NAME: Fasam Ahmed EL GINDI #225 FIELD OF STUDY: Medicine/OB-GYN  
ACADEMIC INSTITUTION: Univ. of CHICAGO at the Medical Cen. PROGRAM: PhD level research

1. Please list your academic objectives in coming to the U.S. to study. To what extent were they accomplished?

- Collecting data for the subject of my thesis.
- Almost completely achieved this objective.

2. Did your study program in the U.S. improve your professional qualifications? Please indicate your career plans and how your study program will further them.

- Yes.
- I intend to continue doing research work in the field of prenatal diagnosis of genetic defects, as well as start routine patient service, and the added experience I gained here during this fellowship would, sure, help me achieve this goal.

3. What plans have you made to maintain professional contacts with colleagues in the U.S.? Please indicate whether you attended any professional conference while a student in the U.S. and if you have joined any professional societies or subscribe to any of the professional journals.

- I attended the annual meeting of the society for Gynecologic investigations in March 1982 in Dallas, Texas.
- I applied to join the American Society of Human Genetics.

4. Did you find that you had sufficient opportunity to increase your own general understanding of the U.S. and the understanding of Americans about your country? Please specify how and in what ways.

-- This fellowship program helped me to have a closer look at the U.S.A. as a country, and the American people as having a different culture than ours.

5. a) Did you have sufficient information about the U.S. to prepare you for your stay here?

Yes.

- b) If you attended an orientation program, either at home or in the U.S. before beginning your studies, please indicate where.

-- In Cairo.

- c) Please indicate whether the orientation program was useful to you and in what ways might it be improved.

-- Yes, it was useful, and it is OK the way it is.

6. On the basis of your experience, is there any particular advice you would give to others from your country who intend to study in the U.S.?

-- No, I think that the orientation program is just about all one would need before coming here.

7. Please add any general comments you wish. We would be particularly interested in knowing whether you have any suggestions for changes or improvements.

-- The only suggestion I have is that for matching the candidate and the advisor, because in my case I had to seek the help of another professor in another university, by agreement with the first one, in order to be able to finish my work because the first one turned out to be not very interested in the subject of my thesis.

PROGRAM EVALUATION

NAME: Mohamed A. Abdel-Hafiz #133

FIELD OF STUDY: Pharmacognosy

ACADEMIC INSTITUTION: Univ. of Pittsburgh

PROGRAM: Post Doctoral

1. Please list your academic objectives in coming to the U.S. to study. To what extent were they accomplished?

- A- Extraction of different groups of active constituents.
- B- Isolation of these different groups of compounds using different chromatographic techniques including TLC, GC, HPLC, CLC & CC.
- C- Identification of the pure isolated comp's using modern tools of analysis including a) Physical, elementary analysis, m.p. and mixed m.p. b) Spectral analysis including UV, IR, NMR, MS as well as ORD & X-Ray. 70% of these have been accomplished.

2. Did your study program in the U.S. improve your professional qualifications? Please indicate your career plans and how your study program will further them.

To some extent my Study program in the U.S. improve my professional qualifications especially in the identification of the isolated comp's using IR, NMR, M.S.,

3. What plans have you made to maintain professional contacts with colleagues in the U.S.? Please indicate whether you attended any professional conference while a student in the U.S. and if you have joined any professional societies or subscribe to any of the professional journals.

I hope to be in continuous contact with colleagues in the U.S. through invitation to visit Egyptian Univ's, exchange of research, sending a number of graduate

students for M.Sc and Ph.D.

During this short period I attended the American Pharm. Assoc. Academy of Pharm. Science, Nov 15-19/1981, and I hope to be a membership in Natural Product Journal (formerly Lloydia).

4. Did you find that you had sufficient opportunity to increase your own general understanding of the U.S. and the understanding of Americans about your country? Please specify how and in what ways.

Ten months is not sufficient time to know what I want to know about America. I had some chances to meet different families and to visit some interesting places in U.S. I am in need to more time to visit more states & meet more American people and to know more & more about Am.

5. a) Did you have sufficient information about the U.S. to prepare you for your stay here?

Till now my informat about the U.S is not complete sufficient informat needs more time. I hope to take another

- b) If you attended an orientation program, either at home or in the U.S. before beginning your studies, please indicate where.

in Both of them.

- c) Please indicate whether the orientation program was useful to you and in what ways might it be improved.

There is no doubt that the orientation program is quite useful to me, and in all its different ways.

6. On the basis of your experience, is there any particular advice you would give to others from your country who intend to study in the U.S.?

My advice to my respected friends is that "work hard by day and night, read much, keep in touch w/ different peoples to keep his heart pure, his mind from worry, his simply & expect little give much, fill his life with love, forget self in a mess".

7. Please add any general comments you wish. We would be particularly interested in knowing whether you have any suggestions for changes or improvements.

- 1- 10 months for Post doctor is not sufficient to do research of certain value, so I hope to give my friends ~~to~~ <sup>with</sup> what come later on sufficient time to do something of value.
- 2- The Program will be more than good if it ~~is~~ include a visiting to some states of America, especially those which contain interesting places like New York, California etc. The chance to visit these states is of great value. Lastly I would like to thank the <sup>members</sup> of David East because they do more than required and they give much. Also I greatly acknowledge Ms Janet M. Hilder for her generous help, ~~her~~ <sup>her</sup> ~~cooperat~~ <sup>cooperat</sup> and her assistance.

Thank you -

Mohamed S. Abdel El-Hadi
