REGIONAL ENERGY RESOURCES INFORMATION CENTER (RERIC)

**LIBRARY AND REGIONAL DOCUMENTATION CENTER
ASIAN INSTITUTE OF TECHNOLOGY**

G.P.O. BOX 2754, BANGKOK 10501, THAILAND

INTRODUCTION

The computerized membership list of the Regional Energy Resources Information Center (RERIC) is maintained using the CDS/ISIS software from UNESCO running on an IBM 3083 mainframe. The list contains information about RERIC members, such as their fields of interest and their activities in those fields, as indicated on questionnaires.

The present directory lists RERIC members, and is intended to introduce readers to their colleagues who are working in the energy and renewable energy fields.

This issue of the directory lists a total of 545 members from 89 countries, who were members of RERIC in good standing in 1987.

The directory is divided into two parts: (a) personal members, and (b) institutional members. The entries in each part are listed by country, and within each country names are set out alphabetically. Three indexes are provided: an index of individual names, an institution index, and a subject index of members' interests based on the questionnaires distributed during 1984-1987.

Members are requested to update their entries by completing the questionnaire at the back of the directory, so that they can be listed correctly in future publications.

For further information please write to RERIC/AIT, P.O. Box 2754, Bangkok 10501, Thailand.

a

REGIONAL ENERGY RESOURCES INFORMATION CENTER

The Regional Energy Resources Information Center (RERIC), formerly Renewable Energy Resources Information Center, a non-profit organization, was founded in May 1978 at the Asian Institute of Technology (AIT) in Bangkok under the joint sponsorship of the Institute's Agricultural and Food Engineering Division and the Library and Regional Documentation Center.

It was established as a result of recommendations made at various meetings held in Asia, and particularly as an answer to a meeting of experts in the field of solar and wind energy utilization held in Bangkok in 1976 under the energy programme of the United Nations Economic and Social Commission for Asia and the Pacific (ESCAP).

RERIC has grown fast since 1978 and at present it is a full member of the Regional Steering Committee of the UNESCO Sub-Regional Information Network on New and Renewable Sources of Energy. The main geographical areas it serves are the tropical countries in Asia and the Pacific and other tropical developing regions in Africa and Central and South America.

Its target audience comprises various institutions and individuals active in the field of energy and renewable energy. Emphasis is given to answering renewable energy and energy conservation questions which are seen mainly from an "intermediate" or "appropriate" technology point of view.

RERIC receives financial support from the Government of Australia, the Government of France, CIDA, UNESCO and USAID.

An All-Inclusive Service for RERIC Members

RERIC members receive one copy of each regular RERIC publication: *RERIC NEWS* (4 issues per year), *RERIC International Energy Journal* (2 issues per year), *RERIC Holdings List* (1 issue per year), *Abstracts of AIT Reports & Publications on Energy* (1 issue per year) and other miscellaneous publications. These are sent by surface mail, at no extra cost than paying RERIC annual membership fees: USA, Canada, Europe, Australia, New Zealand, Japan and Middle East - **Individual: US\$40; Institutions: US\$75.** All other countries - **Individual: US\$25; Institutions: US\$45.** Supporting members: US\$120.

For quick delivery of RERIC publications we recommend our members to add the following amounts to their membership fees for air mailing charges: members from Asian countries (excluding Thailand) - US\$9; all other countries - US\$15.

RERIC members can also use RERIC's reprographic and reference services on request. A nominal fee is normally charged for this service.

Cheques or money orders should be made payable to the Regional Energy Resources Information Center, Asian Institute of Technology, and sent to The Director, RERIC/AIT, G.P.O. Box 2754, Bangkok 10501, Thailand.

Please note that on-going publications are circulated to RERIC members on a total-package basis. There is no subscription facility for ordering individual publications - and no provision for orders of specific items of the current literature on an ad hoc basis

ACKNOWLEDGEMENTS

The cooperation of the RERIC members for completing the questionnaires is gratefully acknowledged.

ERIC staff sincerely appreciate the help of the LRDC system analysts who set up the database and assisted in the production of this publication.
