**SUMMARY OF USAID FUNDING FOR
WATER AND SANITATION**

The Health Projects Database (HPD) is a comprehensive inventory of health related projects that have been funded by the U.S. Agency for International Development (USAID) since 1975. Supported by USAID's Office of Health and Nutrition, Bureau for Global Programs, Field Support and Research, the HPD tracks bilateral, regional and centrally-funded projects and sub-projects with a health component, including child survival, AIDS, nutrition, and other health related activities. The Water Database is a subset of the HPD which tracks funding between fiscal years (FY) 1985-91 for projects with a Water Supply and Sanitation (WSS) component related to human use. Projects are identified for the HPD and the Water Database through the annual Health and Child Survival Project Questionnaires, Annual Budget Submissions (ABS), Congressional Presentations (CP), and the Activity Code/Special Interest (AC/SI) System.

This report includes a table summarizing USAID funding for water supply and sanitation activities from FY85-FY91 as recorded in the Water Database, and for FY92-4 as reported in the AC/SI System. Project specific listings with annual funding for water and sanitation are included in this report.

The funding amounts for FY85 - FY91 reported here are based on final fiscal year obligations reported in the CP, and on percentage attributions for water activities reported in the annual Health and Child Survival Project Questionnaires. The final reporting for FY92-3, and estimates for FY94 are calculated from the AC/SI System maintained by the Office of Budget, Bureau for Management (M/B) of USAID. The calculations are performed by CIHI from a subset of the AC/SI database. CIHI makes no attempt to perform quality control checks on the AC/SI data beyond those related to the calculations.

Reported obligations are from all accounts including Economic Support Fund and Special Assistance Initiative for all fiscal years except FY87-91, which excludes Population account. PL480 funding is not included in this reporting.

Child Survival Grants to Private Voluntary Organizations (PVOs) funded by the Office of Private Voluntary Cooperation, Bureau for Humanitarian Response (BHR/PVC) are allocated to the regions in which each PVO is working in FY85 through FY91, and included under "Global" in FY92-4.

In FY91, after the introduction of the AC/SI System, the Agency modified and redefined activity codes which were previously tracked in the Water Database. The result is a significant decline in funding attributed to water and sanitation activities in the report, however, many of these activities are still ongoing, and are tracked under USAID's Environment program.
