

# Haiti – Cholera

Fact Sheet #21, Fiscal Year (FY) 2011

February 25, 2011

Note: The last fact sheet was dated February 18, 2011.

## **KEY DEVELOPMENTS**

- USAID Office of U.S. Foreign Disaster Assistance (USAID/OFDA) grantees are closely monitoring the cholera situation as *Carnival* festivities begin in different parts of the country. According to the Government of Haiti (GoH) Ministry of Public Health and Population (MSPP), *Carnival* increases the risk of cholera transmission through the ingestion of contaminated food and beverages at street fairs. MSPP continues to emphasize the need for expanded cholera messaging during *Carnival*, as well as increased access to latrines and hand washing facilities. Cholera response organizations report that cholera treatment facilities (CTFs) throughout Haiti are well prepared for a possible increase in cholera cases during *Carnival*.
- On February 23, USAID/OFDA Director Mark Bartolini and the USAID/OFDA Senior Regional Advisor (SRA) for Latin America and the Caribbean (LAC) Tim Callaghan traveled to Haiti to visit ongoing cholera and earthquake projects and discuss contingency planning activities in advance of the rainy season—which begins in April. On February 24, Director Bartolini met with several USAID/OFDA grantees, USAID/OFDA program office staff, the U.S. Ambassador to Haiti, the Deputy Chief of Mission, and the USAID/Haiti Mission Director, to discuss ongoing emergency response activities, operational challenges, and the transition to medium and long-term development activities.

NUMBERS AT A GLANCE		SOURCE
Overall Cholera Caseload	241,360	MSPP – February 17, 2011
Hospitalized Cases	130,545	MSPP – February 17, 2011
Deaths Due to Cholera	4,573	MSPP – February 17, 2011
Overall CFR <sup>1</sup>	1.9 percent	MSPP – February 17, 2011

## HUMANITARIAN FUNDING PROVIDED TO DATE FOR CHOLERA

USAID/OFDA Assistance to Haiti for Cholera	\$40,489,916
USAID/OTI <sup>2</sup> Assistance to Haiti for Cholera	\$2,384,063
USAID/Haiti Assistance to Haiti for Cholera <sup>3</sup>	\$2,015,000
Total USAID Humanitarian Assistance to Haiti for Cholera	\$44,888,979

#### CONTEXT

- On October 22, U.S. Ambassador Kenneth H. Merten issued a disaster declaration due to the cholera outbreak. On October 26, USAID deployed a Disaster Assistance Response Team (DART) to coordinate USAID/OFDA emergency response efforts with USAID/Haiti, USAID/OTI, and the U.S. Centers for Disease Control and Prevention (CDC); provide technical assistance to the MSPP; and support relief agencies' response activities. USAID also stood up a Response Management Team (RMT) in Washington, D.C., to support the USAID/DART in Haiti and coordinate with the USAID Haiti Task Team (HTT). The USAID/DART transitioned to a Haiti program office on January 27 and the RMT transitioned to a LAC expanded regional team on January 28.
- USAID/OFDA's emergency cholera response plan focused on preventing cholera cases, reducing the number of cases requiring hospitalization, and reducing the CFR. The plan included four elements: provision of chlorine to increase availability of safe drinking water; expansion of national hygiene education outreach; provision of sachets of oral rehydration salts (ORS) and medical supplies; and an increase in the number of CTFs, particularly in underserved and rural areas.
- USAID/OFDA recognizes that cholera will likely remain present in Haiti for several years and that the rainy and hurricane seasons may cause additional caseload spikes. USAID/OFDA program office staff remain in Haiti to monitor the evolving humanitarian situation, enhance coordination, monitor ongoing USAID/OFDA-funded response

<sup>&</sup>lt;sup>1</sup> Case Fatality Rate (CFR)

<sup>&</sup>lt;sup>2</sup> USAID's Office of Transition Initiatives (USAID/OTI)

<sup>&</sup>lt;sup>3</sup> USAID/Haiti has pre-existing, long-term health programs that have been an integral part of the cholera response; these programs have also continued normal activities. The USAID/Haiti funding levels represent estimated amounts for one month of FY 2010 resources expended on the cholera response. The funding is based on an estimate of the program spending rate and percentage of resources expended on the cholera response.

activities, and adjust programming in response to evolving conditions on the ground. USAID/OFDA is working closely with USAID/Haiti, USAID/OTI, CDC, and the humanitarian community to coordinate efforts and facilitate a smooth transition from emergency relief activities to development programming.

#### Health and Water, Sanitation, and Hygiene (WASH)

- The MSPP requested that Health Cluster—the coordinating body for health activities—members identify health centers and CTFs located in areas of potential flooding prior to the rainy season. MSPP and cluster members are planning to conduct flood prevention and mitigation activities in and around the facilities to ensure proper case management during the rainy season, when a spike in cholera cases may occur.
- Director Bartolini and SRA Callaghan visited a USAID/OFDA-funded CTF operated by Partners in Health (PIH) at Ancien Aeroport Militaire camp to discuss the cholera response to date and outstanding issues. Since the cholera outbreak began, PIH has treated more than 3,000 patients at the CTF. However, the caseload of approximately 80 patients per day at the start of the outbreak has fallen to approximately 15 to 20 patients per day at present—consistent with the overall trend of a decreasing daily caseload in all of Haiti's 10 departments. The CTF serves the 52,000-person camp and surrounding neighborhoods, and currently employs six medical doctors, 16 nurses, and 24 community health workers, who promote hygiene, distribute educational materials, and decontaminate affected dwellings in the camp.

#### Logistics

- In preparation for any potential future spike in cholera cases, MSPP has asked all organizations carrying out health activities to provide information on available stocks of cholera-related supplies in each department. In discussions with USAID/OFDA staff, organizations involved in the cholera response report that CTFs throughout Haiti are well prepared for a possible increase in cholera caseload during *Carnival*. The International Organization for Migration (IOM), the consignee for USAID/OFDA cholera supplies, confirmed that more than 362,000 liters of lactated Ringer's intravenous solution, 2.2 million ORS sachets, and 417,000 aquatabs funded by USAID/OFDA remained in IOM warehouses as of February 22 and available for distribution to CTFs, when needed.
- The Essential Medicines Program, managed by USAID/OFDA grantees the Pan-American Health Organization (PAHO) / U.N. World Health Organization (WHO) at the Program on Essential Medicine and Supplies (PROMESS) warehouse, will be distributing emergency kits to all 10 departments prior to the beginning of the rainy season. According to the Health Cluster, the PROMESS warehouse currently has a stock of 1,140 basic heath kits, each containing three months of basic medicines for 1,000 people. PROMESS also has eight emergency health kits in stock, each containing three months of medical supplies for approximately 10,000 people.
- PROMESS has sufficient supplies, including those in the logistics pipeline, to treat more than 92,000 severe cholera cases, including an additional 4.5 million sachets of ORS. According to the Health Cluster, two cholera kits have also been prepositioned at the warehouse, each containing enough medical and WASH supplies to establish and support a 10-bed CTF. According to IOM, the GoH has also ordered an additional 900,000 liters of lactated Ringer's intravenous solution.

FY 2011			
Grantee	Activity	Location	Amount
USAID/OFDA ASSISTANCE <sup>1</sup>			
Action Contre la Faim (ACF)	WASH	Artibonite, Northwest Departments	\$925,000
American Refugee Committee (ARC)	Health, WASH	West Department	\$1,144,166
CARE	Health, WASH	Grand Anse Department	\$985,481
Catholic Relief Services (CRS)	Health	Artibonite, Grand Anse, Nippes, North, Northwest, South, West Departments	\$1,417,527
CDC	Health	Affected Areas	\$275,000

## USAID HUMANITARIAN ASSISTANCE TO HAITI FOR CHOLERA

	Ι			
Center for International Studies and Cooperation (CECI)	WASH	Artibonite	\$400,096	
Concern	WASH	Center, West Departments	\$624,942	
U.S. Department of Health and Human Services (HHS)	Logistics and Relief Commodities	Affected Areas	\$500,000	
International Medical Corps (IMC)	Health, WASH	Artibonite, Center, North, Northeast, Northwest, South, Southeast, West Departments	\$7,285,583	
ЮМ	Health, Logistics and Relief Commodities	Artibonite, North, Northeast, Northwest, Southeast, West Departments	\$4,600,000	
IOM	Logistics and Relief Commodities	Affected Areas	\$7,800,000	
Management Sciences for Health (MSH)	Health	Affected Areas	\$825,617	
Mercy Corps	WASH	Center Department	\$925,013	
PIH	Health, WASH	Artibonite, Center, and West Departments	\$1,500,000	
Samaritan's Purse (SP)	Health, Logistics and Relief Commodities, WASH	West Department	\$2,869,431	
Save the Children (SC)	Health, WASH	West Department	\$825,000	
World Concern Development Organization (WCDO)	Health	West Department	\$364,180	
U.N. Office for the Coordination of Humanitarian Affairs (OCHA)	Humanitarian Coordination and Information Management	Affected Areas	\$1,000,000	
WHO/ PAHO	Health	Affected Areas	\$635,580	
	Logistics and Relief Commodities	Affected Areas	\$5,410,544	
	Administrative Costs		\$176,756	
TOTAL USAID/OFDA			\$40,489,916	
	USAID/OTI ASSISTANCE			
Implementing Partners	Health, Logistics and Relief Commodities, WASH, Media and Awareness, Public Outreach	Affected Areas	\$2,384,063	
TOTAL USAID/OTI			\$2,384,063	
FY 2010				
Program	Activity	Location	Amount	
USAID/HAITI ASSISTANCE <sup>2</sup>				

Community Health and AIDS Mitigation Project (CHAMP)	Community Health Services	Countrywide	\$198,000
Leadership, Management, and Sustainability Program (LMS)	Logistics and Relief Commodities	Countrywide	\$185,000
PROMARK	Health, Public Outreach	Countrywide	\$232,000
Supply Chain Management System (SCMS)	Logistics and Relief Commodities	Countrywide	\$600,000
Health for the Development and Stability of Haiti (SDSH)	Essential Health Services	Countrywide	\$800,000
TOTAL USAID/HAITI			\$2,015,000
TOTAL USAID HUMANITARIAN ASSISTANCE TO HAITI FOR CHOLERA			\$44,888,979

<sup>1</sup>USAID/OFDA funding represents anticipated or actual obligated amounts as of February 25, 2011.

<sup>2</sup> USAID/Haiti has pre-existing, long-term health programs that have been an integral part of the cholera response; these programs have also continued normal activities. The USAID/Haiti funding levels represent estimated amounts for one month of FY 2010 resources expended on the cholera response. The funding is based on an estimate of the program spending rate and percentage of resources expended on the cholera response.

### PUBLIC DONATION INFORMATION

- The most effective way people can assist relief efforts is by making cash contributions to humanitarian organizations that are conducting relief operations. A list of humanitarian organizations that are accepting cash donations for cholera efforts in Haiti can be found at <u>www.interaction.org</u>. Information on organizations responding to the humanitarian situation in Haiti may be available at <u>www.reliefweb.int</u>.
- USAID encourages cash donations because they allow aid professionals to procure the exact items needed (often in the affected region); reduce the burden on scarce resources (such as transportation routes, staff time, and warehouse space); can be transferred very quickly and without transportation costs; support the economy of the disaster-stricken region; and ensure culturally, dietary, and environmentally appropriate assistance.
- More information can be found at:
  - USAID: www.usaid.gov Keyword: Donations
  - o The Center for International Disaster Information: www.cidi.org or (703) 276-1914
  - o Information on relief activities of the humanitarian community can be found at <u>www.reliefweb.int</u>

USAID/OFDA bulletins appear on the USAID web site at http://www.usaid.gov/our\_work/humanitarian\_assistance/disaster\_assistance/
