Plan for CPHC Delivery (FY 2018-19)

Program Study Center to be established

Maternal and Child Survival Program

USAID's flagship Maternal and Child Survival Program (MCSP) led by Jhpiego, is providing technical assistance for strengthening the delivery of Comprehensive Primary Health Care (CPHC) services in five high focus states (Assam, Chhattisgarh, Jharkhand, Madhya Pradesh and Odisha) and six north-eastern states (Manipur, Meghalaya, Mizoram, Nagaland, Sikkim and Tripura).

Reach:
2 districts (all proposed HWCs)
PSC: 1
STNM Hospital

▲ Program Study Center (PSC)

- MCSP intervention districts
- MCSP supported aspirational district

MCSP in Sikkim

MCSP is providing technical assistance at the state level and in two districts, namely West district and South district, which include one aspirational district of Indian government.

GOAL: Creation of a network of 'Health and Wellness Centers' (HWCs) across intervention states for provision of Comprehensive Primary Health Care, thereby leading to universal health coverage.

OBJECTIVE 1: Assist the state in developing roadmaps, operational plans and financial proposals for operationalizing HWCs.

OBJECTIVE 2: Build the institutional capacity of the state to train mid-level providers in the six-month Certificate Course in Community Health.

OBJECTIVE 3: Demonstrate CPHC delivery in the intervention districts through establishment of HWCs.
