A BIBLIOGRAPHY OF UN AND USAID REPORTS ON THE PHILIPPINES

NATIONAL ECONOMIC COUNCIL

Manila, 1972

A BIBLIOGRAPHY OF UN AND USAID REPORTS ON THE PHILIPPINES

NATIONAL ECONOMIC COUNCIL
REPUBLIC OF THE PHILIPPINES
MANILA, 1972
FOR E W O RD

This represents a summarization of reports, including feasibility studies, regarding the Philippines from various programs supported under the United Nations and the United States Agency for International Development programs or its predecessor agencies.

The following reports, some of which were done by Filipinos, have been grouped by major economic sectors and arranged chronologically. In addition, an author index has been included to facilitate the use of the bibliography.

It is recognized that this is an incomplete account of all the Philippine materials and UN or USAID mission or expert reports. This list, which covers the period from the late 1940's to the present, was compiled on the basis of information available to us at the moment.

In addition, it cannot be reassured that these reports are found in a single office or library. Most of them come from different libraries, including, of course, ours at the National Economic Council, and other copies might be located at various Philippine Government agencies concerned with the specific technical fields. In other instances, they are found in the specialized offices of the United Nations and of the U.S. Government.

In spite of these difficulties, the objective here is only to disseminate the list of all these reports so that any researcher in the Philippines may discover which problem areas have already been touched upon.

The important help of William M. Harding, the UNDP Resident Representative, and Thomas Niblock, the USAID Director, for fully cooperating in this undertaking is acknowledged. It is hoped that this compilation will prove useful and informative to interested parties.

GERARDO P. SICAT
Chairman
National Economic Council

January 1972
