INTRODUCTION

PURPOSE

AID Memory Documents is a quarterly catalog of AID-generated documents, both historical and current, which are maintained in the AID Reference Center. It is intended to increase the awareness of AID personnel with regard to existing documentary resources bearing upon AID experience and to provide easier access to available reports and documents.

ABOUT THE AID REFERENCE CENTER

The AID Reference Center (ARC) is located in Room 1656, New State Building, U.S. Department of State, Washington, D.C., 20523. The ARC functions as AID’s central and permanently accessible repository of reports and documents, selected so as to assist in the understanding of the Agency’s experience with regard to the planning, design, implementation and evaluation of technical and capital assistance programs and projects.

The ARC’s holdings include AID-generated memory materials, such as evaluative documents, case studies, issue papers, special studies, sector analyses, program planning and project documents, and progress reports. The only non-AID-generated documents the ARC collects are those that treat specifically of AID and its predecessor agencies, their activities and experience (e.g., Presidential, Congressional and State Department reports).

The ARC has been established to serve AID direct-hire personnel as well as participating agency and contract employees who work on AID projects or who provide support services directly to the Agency. Non-AID personnel may also use the ARC’s collection in Room 1656, New State Building, by arrangement with the appropriate AID/W office.

HOW TO USE THE ‘AID MEMORY DOCUMENTS’

The contents of this issue consist of a partial listing of the holdings of the ARC, including both previously and recently accessioned items. With the publication of future issues of AID Memory Documents, listings of the holdings of the ARC will become more comprehensive.

Four indexes organize the listings in this issue by subject and geographic area; personal author; corporate author; and contract and project number. Each item in an index is identified by title, ARC reference number, and the first three digits of the subject code number. An “edge index” on the back cover provides easy access to the subject fields within the “Bibliographic Listing.”

The full citation of an item will be found in the section entitled “Bibliographic Listing”. In this section items are grouped by primary subject field according to the Dewey Decimal System and are listed serially by ARC reference number. Each item, or citation, is described by standard bibliographic information, i.e., author (personal and/or corporate), title, date, number of pages, contract and/or project number. The item’s contents are indicated by means of key words, or descriptors. The asterisk in front of a title signifies that the item has been issued since the beginning of the calendar year.
HOW TO ORDER

LOANS TO AID/W PERSONNEL. AID personnel in Washington may borrow documents in person from the ARC, or in writing by means of a 2-Way Memo (OF 27), addressed to the ARC, stating the ARC reference number and title of each document requested. Loans will generally not exceed five days. Requests from the headquarters offices of AID contractors or participating agency personnel will be processed by the appropriate AID project manager or supporting office.

LOANS TO USAID PERSONNEL. AID personnel at Missions may borrow documents by addressing to the ARC a 2-Way Memo (OF 27) stating the ARC reference numbers and titles of the documents requested. Requests from participating agency and AID contractor personnel associated with a Mission will be made through the appropriate AID project manager. Loans to Mission personnel will be for 30 working days, including transmission time.

LOANS TO OTHERS. It is the general policy of ARC not to lend documents to non-AID personnel.

RETENTION COPIES. AID personnel are encouraged to use the ARC’s facilities, as described above, and not to request retention copies of documents unless they are needed on a continuing basis for a long period of time. Generally there are no extra copies of historical documents available. Reproduction of documents is costly and usually requires a delay of one to two weeks in dispatching to the requestor. However, if a document is needed for retention, ARC will assist in obtaining it for an AID officer. In such cases, the requestor may order a retention copy in the same manner as for loans, using a 2-Way Memo (OF 27) addressed to the ARC but indicating that the copy is for retention and not for loan.
