I. ACTIVITY DESCRIPTION AND EXPLANATION

This activity is to aid and support the efforts of the Government of Turkey to improve modernize and make more effective its central statistical services as a necessary prerequisite to provide data for meaningful development planning. While the major purposes of this activity are directed toward assistance for substantive statistical development, management improvement will also receive attention. Technical advice and direct efforts will be directed to:

- A. Assist the State Institute of Statistics (SIS) in establishing a revised internal operating and management structure to make it more able to meet the increased demands being placed upon it.
- B. Help establish a training program to provide continuous recruitment, in-service and refresher training for SIS and other statistical personnel.
- C. Develop and install specialized statistical techniques to be used by SIS and other statistical personnel in the government. These techniques will include but not be limited to statistical reporting, sampling, data collection and statistical analysis.

In addition to providing assistance to the SIS, technical advisors will work with other Turkish government agencies and training institutions to develop a broad understanding and use of modern statistical techniques and data.

This activity was previously combined with the assistance activity to the State Planning Office (277-R-72-AA). Beginning with FY 63 and lasting until approximately FY 1967, assistance to the SIS will be separately planned and programmed.

II. UNITED STATES GOVERNMENT CONTRIBUTION

Technical Services

Seven U.S. advisors will be provided as follows:
Principal Statistical Advisors, Sampling
Advisor, National Accounts, Agricultural Statistics
Consumer Expenditure Statistics,
Machine Tabulation Advisor and Organization and Management Advisor.

Because of recruitment delays, probably no more than 5 man years of actual services will be provided. Total anticipated costs of technical services is \$80,000

Participant Training

Training is to be provided to assist the State Institute of Statistics and other statistical organizations in meeting the critical need for trained statisticians and supporting statistical services not now available in Turkey. Up to 7 man years of basic statistical training will be provided as well as specialized training in the fields of sampling, population, labor, industry, agriculture and education. Total anticipated costs for training is \$33,000.

I. FAALİYETİN KONUSU VE İZAHI

Bu faaliyetin amacı, Türk Hükümetine, bilhassa plânlama, malîyat temin etmek için gerekli olan merkezi istatistik hizmetlerini geliştirmek, modernleştirmek ve daha verimli bir hale getirme gayretlerinde yardım etmek ve destek olmaktır. Bu faaliyetin esas amacı devamlı istatistik gelişmesine yöneltilmeli olmasına rağmen, sevk ve idarenin geliştirilmesi de dikkate alınacaktır. Teknik istişare ve direkt gayretler şu hususlara yöneltilecektir:

A. Devlet İstatistik Enstitüsüne, dahili sevk ve idare bünyesinde, kendisinden yüklenen talepleri daha iyi karşılayabilecek bir hale getirmek için, düzeltilmesinde yardım etmek.

B. Devlet İstatistik Enstitüsü ve diğer istatistik personeli için devamlı içe alma, hizmet-içi ve intibak eğitimi sağlayacak bir eğitim programının tesis edilmesine yardım etmek.

C. D.İ.E. ve hükümetteki diğer istatistik personeli tarafından kullanılacak istatistik ihtisas tekniklerini geliştirmek ve tatbikata koymak. Bu teknikler istatistik raporları, örnekleme, malîyat toplama ve istatistik analizi hususlarına ihtiva edecek fakat yalnız bu hususlara münhasır olmayacaktır. D.İ.E.'ne yardım etmekten başka, teknik müşavirler istatistik teknikleri ve malîyatın kullanılması ve geniş çapta anlaşılmasına geliştirmek üzere diğer hükümet daireleri ve eğitim kurumlarıyla beraber çalışacaklardır.

Bu faaliyet, daha evvel devlet plânlama teşkilâtına yapılan yardım (277-r-72-AA) faaliyeti ile birleştirilmekte. 1963 mali yılının itibaren ve takriben 1967 mali yılına kadar D.İ.E.'ne yapılacak yardım ayrı olarak plânlanacak ve programlanacaktır.

III. A.B.D. HÜKÜMETİNİN YARDIMITeknik Hizmetler

Aşağıdaki şekilde 7 A.B.D. Müşaviri temin edilecektir:

Baş İstatistik Müşaviri, Örneklem Müşaviri, Milli Hesaplar, Ziraat İstatistikleri, Müstehlik Üstleri İstatistikleri lakiniyle cetvel yapma Müşaviri, Teşkilât ve Sevk ve idare Müşaviri

Eleman istihdam etmedeki gecikmeler dolayısıyla, muntemelen baş kişinin teknik hizmetleri temin edilecektir. Teknik hizmetlerin tutarı 80,000 Dolar olarak tahmin edilmiştir.

Bursiyer Eğitimi:

D.I.E.'ne ve diğer istatistik teşkilatlarına, şimdiki Türkiye'de mevcut olmayan istatistik hizmetlerinin kurulması ve eğitim görmüş istatistikçi teminindeki kritik ihtiyacın karşılanması için eğitim temin edilecektir. Örnekleme, nüfus, çalışma, sanayi, tarım ve eğitim sahalarındaki ihtisas eğitimi kapsamında 8 kişiye birer senelik genel istatistik eğitimi temin edilecektir. Eğitim için hesaplanan toplam 31,000 Dolar'dır.

III. İBİRLİĞİ YAPAN MİLLEKETTİN YARDIMI:

D.I.E. bütçeden veya diğer kaynaklardan 280,400 TL uzmanların seyahat, nakliye ve tansisatı, 95,000 bursiyerlerin seyahatları ve diğer direkt masraflar için olmak üzere toplam 377,900 TL (42,000 Dolar) temin edecektir. D.I.E. aynı zamanda, bu projeyi desteklemek üzere A.B.D. de satın alınan malzemenin gümrük vergisi gibi Türk Lirası ile olan endirekt masrafları da temin edecektir.

I. FAALİYETİN TANIMI VE İZAHI

Bu faaliyetin gayesi, Türk Hükümetine, kalkınma plânlamasına malûmat temin etmek için gerekli olan merkezi istatistik hizmetlerini geliştirmek, modernleştirmek ve daha müssir bir hale getirme gayretlerinde yardım etmek ve destek olmaktır. Bu faaliyetin esas gayesi devamlı istatistik gelişmesine yöneltmiş olmasına rağmen, sevk ve idarenin geliştirilmesi de dikkate alınacaktır. Teknik istişare ve direkt gayretler şu hususlara yöneltilecektir:

A. Devlet İstatistik Enstitüsüne, dahili sevk ve idare bünyesini, kendisinden yüklenen talepleri daha iyi karşılayabilecek bir hale getirmek için, düzeltilmesinde yardım etmek.

B. Devlet İstatistik Enstitüsü ve diğer İstatistik personeli için devamlı işe alma, hizmet-içerik ve intibak eğitimi sağlayacak bir eğitim programının temin edilmesine yardım etmek.

C. D.İ.E. ve hükümetteki diğer istatistik personeli tarafından kullanılacak istatistik ihtisas tekniklerini geliştirmek ve tatbikata koymak. Bu teknikler istatistik raporları, örnekleme, malûmat toplanması ve istatistik analizi hususlarına ihtiva edecek; fakat yalnız bu hususlara münhasır olmayacaktır. D.İ.E.'ne yardım etmekten başka, teknik mügavirler istatistik teknikleri ve malûmatının kullanılması ve geniş çapta anlaşılmasını geliştirmek üzere diğer hükümet daireleri ve eğitim kurumlarıyla beraber çalışacaklardır.

Bu faaliyet, daha evvel Devlet Plânlama Teşkilâtına yapılan yardım (277-r-72-AA) faaliyeti ile birleştirilmiştir.

1963 mali yılından itibaren ve 1967 mali yılını geçmiyecek şekilde D.İ.E.'ne yapılacak yardım ayrı olarak plânlanacak ve programlanacaktır.

II. A.B.D. Hükümetinin Yardımı

Aşağıdaki sahalarda dokuz A.B.D. müşaviri temin edilecektir. Baş İstatistik Müşaviri, Mühürler/Giderler/Fiat, Malûmatı İşleme, Örneklemeye, Nüfus İstatistikleri, Millî Hesaplar, Ziraat İstatistikleri, Eğitim merkezi müşaviri ve Özel müşavir.

Eleman istihdam etmedeki gecikmeler dolayısıyla, muhtemelen sekiz kişinin teknik hizmetleri temin edilecektir. Teknik hizmetlerin tutarı 106,000 Dolar olarak tahmin edilmiştir.

Bursiyer Eğitimi

D.İ.E.'ne ve diğer istatistik teşkilâtına, şimdi Türkiye'de mevcut olmayan istatistik hizmetlerinin desteklenmesi ve eğitim görmüş istatistikçi teminindeki kritik ihtiyacın karşılanması ve inanılır ve zamanında istatistik malûmatı sağlanması için eğitim temin edilecektir. Örneklemeye, nüfus, istatistik idaresi ve yayınları ve malûmat işleme sahalarındaki ihtisas eğitimi meyanında dört kişiye birer senelik genel istatistik eğitimi temin edilecektir. Eğitim için hesaplanan toplam 22,000 Dolar'dır.

III. İşbirliği Yapan Memleketin Yardımı:

Bu projeye 1963 mali yılında Türk Hükümetinin yardımı, bu faaliyetin direkt ve indirek olarak desteklenmesi, bursiyerlerin seyahati, teknisyenlerin seyahat ve ikâmet tahsisleri dahil, için 617.900 TL (\$ 69.000) olacaktır. Türk Hükümeti aynı zamanda gerekli çalışma yeri, personel, malzeme ve diğer hususları, karşılıklı anlaşmaya varıldığı şekilde temin edecektir.

IV. A.B.D. Dolar Yardımının Özeti:

need for trained statisticians, supporting statistical services not now available in Turkey, and providing reliable and timely statistical data.

Up to 3 man-years of basic statistical training will be provided as well as specialized training in the fields of sampling, population and vital statistics, statistical administration and publication, and data processing.

Total anticipated costs for training is \$15,000.

III. COOPERATING COUNTRY CONTRIBUTION

The FY 1964 GOT contribution to this project is approximately TL 2,140,000 (\$238,000) for direct and indirect support of this activity including, but not limited to, lira costs of participant travel and technicians' travel and housing allowances. The GOT will also provide the necessary office space, staff, equipment and supplies and other items as may be mutually agreed upon.

IV. SUMMARY STATEMENT OF U.S. DOLLAR SUPPORT

Technician Services	\$120,000
Participant Training	<u>15,000</u>
Total	\$135,000

It is contemplated that the U.S. assistance to this activity will terminate in FY 67.

Turkey

1. PROJECT NO. 277-11-740-364	2. APPROVAL NO. (5)
2. AGREEMENT NO.	3. FUNDING NO.
ANNEX	SHEET 2 OF 4

I. ACTIVITY DESCRIPTION

This project agreement is entered into to continue assistance from the United States in direct support of the efforts of the Government of Turkey to improve its basic statistics and the development of a sound and modern statistical system. The responsible GOI agency through which this project is implemented is the State Institute of Statistics (SIS).

The principle problems addressed by the SIS, with the assistance of the U.S. statistical team, are concerned with overcoming deficiencies in availability of reliable national statistics for government planning.

The program within the SIS will include the following specific goals:

1. Improved Statistical Programs.
2. Establishment and Operation of a Statistical Training Center.
3. Improved Operation and Management of Data Processing Activities.
4. Development and Operation of the Turkish Demographic Survey.

II. U.S. GOVERNMENT CONTRIBUTION

The U.S. contribution to this project in FY 1966 will include the following:

A. Technical Services

The ten advisors and two consultants who are to provide approximately 7 man-years of service will include:

- Principal Statistical Advisor
- Data Processing Advisor
- Agricultural Statistics Advisor
- Senior Statistical Training Advisor
- Statistical Training Advisor
- Statistical Sampling Advisor
- Population Statistics Advisor
- Demographic Survey Statistician
- Labor and Manpower Advisor

Consultants - (two) overall statistical operations
Estimated program cost: 134,000

B. Participant Training

Training of Turkish personnel in the U.S. is directed at assisting the SIS in developing leadership to organized programs of improved government statistics.

The participant training schedules for FY 1966 will include the following training:

<u>Type of Training</u>	<u>Number</u>
Population/Vital Statistics	2/12
Labor and Price Statistics	1/12
National Accounts	1/12
Agricultural Statistics	1/12
Sampling Statistics	1/12
Statistics and Economics (academic)	3/12
Data processing	1/12

Estimated programmed cost \$57,000

C. Commodities

This portion includes the purchase of \$10,000 worth the books for the SIS library. The project will help the SIS library catalogue and designate the appropriate reference books to be included in this purchase. The administrative arrangements are being made to ensure that all book purchases will supplement and not duplicate those already in the SIS library.

III. COOPERATING COUNTRY CONTRIBUTIONS

The GOT through its regular budget will support the Statistical Team supplied by the USAID. The operation of the SIS included the specific undertakings assisted by the USAID Team.

The SIS will provide for effective utilization of employees who have received participant training.

The SIS agrees to provide a responsible official with fluency in English language to serve as counterpart to the technicians and to provide suitable office space, equipment, supplies and staff for the technicians.

ACTIVITIES OF THE USAID-CENSUS TEAM
DEVELOPMENT STATISTICS, TURKEY

April, 1969

277-11-740-364

I. COUNTRY HIGHLIGHTS

Examinations for high-level administrative positions and for positions as statistical experts were held in the State Institute of Statistics in late April. These examinations, which were preceded by qualifying examinations in English-language proficiency, were open to the public. Fourteen persons, all STS employees but one, took the examinations, and of these eleven were successful: one for the position of Department Head, one for that of Assistant Department Head, seven for positions of Division Chief, and two for positions as Junior Statistical Expert. Of the eleven who were successful, nine were former ATD participants.

Miss Sener Güner, an ATD participant who returned in January, 1969, after a year of training in library science at the U.S. Bureau of the Census, was promoted to the position of Chief Librarian for STS. Miss Güner succeeded Mr. Etem Öndir who now heads the Division of Organization and Methods in the Technical Department.

The fourth in a series of statistical seminars being conducted by STS for Chambers of Commerce was held in Samsun in early April. Mr. Sabahaddin Alpat, President of STS, headed the STS staff that participated. These seminars are designed to acquaint Chambers of Commerce with STS activities and to encourage and promote improvement in the quality of statistics reported to STS and in the prompt reporting of statistics.

Publications issued by STS in April: Monthly Bulletin of Statistics - March; Monthly Foreign Trade Statistics, December, 1968; Results of the Survey of Consumer Expenditures in Istanbul; Fishery Statistics.

II. HIGHLIGHTS OF ADVISORS' REPORTS

Mr. Waller Wynne, Jr., Principal Statistical Advisor

A Non-Capital Project Paper (PROP) was completed for the Development Statistics Project and submitted to Dr. Thomas E. Thorsen, Chief, Public Administration Division for review.

Preparations for the 1970 Population Census moved forward, and all major decisions for the census have now been made.

Morris J. Slonim, Senior Statistical Training Adviser

The curriculum for the first of a series of in-service training courses for division supervisors was completed. (See Mr. Slonim's own individual report.) This course will begin May 15, 1969. In-service training courses for employees for other levels are being developed.

Robert D. Parr, Agricultural Statistics Advisor

During two weeks of April, Mr. Parr was on TOY in India to continue his advisory services to the School Lunch Evaluation Survey.

Preparation for the 1970 Agricultural Census moved ahead as planned. Plans for test work this summer were reviewed. Special analyses were made of a 1963 village head man survey and the 1969 Agricultural Technician Survey in an effort to make better estimates of the sample size that will be required for selected items to be covered in the census: fields, vegetable area, and sheep numbers. A sampling plan is being developed to tie together information to be obtained from household interviews with that obtained from dot sampling for purposes of land-area estimates, both for the census and current agricultural statistics programs.

Wilbur M. Sartwell, Data Processing Advisor

The problem of peripheral equipment for the UNWA 9400, scheduled for delivery on June 18, was studied intensively, and to advise on the equipment to be bought, Mr. Sartwell accompanied three SIS staff members on a fact-finding trip to Germany and Switzerland where Remivac has computer installations.

10-2

3 - Activities of the USATD-Census Team

III. INDIVIDUAL REPORTS

Attached, as received. Additional copies of technicians' individual reports are on file with the Principal Statistical Advisor and may be seen on request.

IV. PARTICIPANTS

Sevim Malkoc departed Turkey on 13 April for training in National Income in the United States.

Documentation was initiated for the following prospective participants to receive academic training in the United States:

Oktay Beken for training toward an M.A. degree in Economics and Statistics.

Nejat Tunca to study for an M.A. degree in Statistics

BRIEFING PAPER

Development Statistics - 740-364

A. Began FY 1963; scheduled to end FY 1972.

B. U.S. technicians (PASA) - 3.

C. Contract technicians - 0.

D. Participants FY 1967 - 17.

E. Funding FY 1967 - \$207,000.

LONG-RANGE OBJECTIVES:

1. To improve current statistical operations and coverage including reshaping existing census and survey methodology to improve data quality and accelerate issuance.
2. To establish and operate a statistical training center within SIS.
3. To improve operation and management of data processing activities including development of data processing organization within the SIS.
4. To develop a schedule of major censuses, continuing statistical inquiries, one-time services and maximum use of data generated by GOF agencies.

INITIAL SHORT-TERM OBJECTIVES:

1. To prepare new legislation as basis of a statistical function and organization.
2. To organize a national statistical training center within SIS.
3. Complete processing of 1960 population census by utilizing a 1% sample.
4. To make an intensive review of national statistical requirements.

CENSUSES TAKEN:

1. Population
2. Agriculture
3. Establishments (manufacturing, retail, wholesale and services)
4. Government employees

PERSONNEL AND CURRENT ACTIVITIES:

1. Lowell Galt, Principal Statistical Advisor
2. Herman Goldhamer - modernize data processing.
3. Morris Blonin - establish statistical training center.
4. John Sumford - demographic survey, working with Ministry of Health and Welfare; activities aimed at family planning program.
5. Robert Parr - agriculture statistics.
6. Garrie Loebe - statistical sampling.
7. Population Advisor - Census has been unable to recruit for over two years.
8. Economics Statistical Advisor (newly established position) - may be filled shortly.

I. PROJECT DESCRIPTION AND OBJECTIVES

This project is designed to assist the Government of Turkey, State Institute of Statistics (SIS) in developing a sound and modern statistical system. A reliable system of statistical collection, compilation and evaluation is essential to Turkey's total effort in economic development.

The State Institute of Statistics, with the advice of U.S. PASA technicians from the US Bureau of Census, has planned a long-range program of expansion and improvement. The need for U.S. assistance is expected to end in 1973. Project activities are directed toward four broad goals, as follows:

A. Improved internal coordination within the State Institute of Statistics through systematic exchange of information, and improved external coordination with other agencies of the Turkish Government through permanent panels or working groups in significant subject fields of statistics.

B. Development of employee skills, especially in clerical, enumerative, tabular (and computer) programming, and supervisory jobs. Also, increasing the competence of SIS professionals through the training of key personnel in the United States.

C. Establishment of a central automatic data processing facility in the State Institute of Statistics.

D. Establishment or improvement of basic economic measurements which are required to support a structure of comprehensive national accounts, including benchmark censuses, periodic reporting systems and sample surveys.

II. COURSE OF ACTION

A. Summary of Project Activities to Date

Since the beginning of this project in 1962, the State Institute of Statistics has been established under broad and comprehensive statutory authority (Law 53), with a staffing pattern and salary scale which has enabled it to attract and to retain qualified statisticians. Since its inception, the SIS has made rapid progress, which includes:

1) Moving into a well-designed building of its own, 2) Graduating the fourth class from its National Statistical Training Center (total graduates to date are 116), 3) Taking periodic benchmark censuses in population,

housing, agriculture, manufacturing, distributive trade and government employment as provided by law, 4) Establishing a Central Bureau of Intelligence to coordinate reporting and informational functions, 5) Developing a Master Sample of Urban Households for use in labor force, consumer expenditure and other household respondent surveys, 6) Hosting several professional conferences, seminars and workshops and helping to organize the Turkish Statistical Association.

Under delegation from the President of the State **Institute of Statistics**, the Ministry of Health has established an on-going statistical project called the Turkish Demographic Survey. This survey, which will continue as a permanent effort of the Ministry of Health and SIS, is the first nationwide urban and rural sampling of data on births, deaths and internal migration.

B. In U.S. FY 1969, the State Institute of Statistics (SIS) will continue or undertake the following activities with the assistance of U.S. Advisors.

1. The President of the SIS will work directly with the Principal Statistical Advisor in strengthening the SIS and improving its institutional effectiveness. The prime areas for program consideration and action will be the following:

- a. To establish an effective field headquarters organization in the SIS competent to develop instructional material and to coordinate activities in the Regional Directorate Offices.
- b. To establish Planning and Evaluation Groups in the various departments of SIS.
- c. To promote the creation of Inter-Ministerial panels and advisory working groups in each major subject area to plan and coordinate statistical activities between SIS and other agencies of the Turkish government.
- d. To continue operational routines of the Turkish Demographic Survey and to introduce supplementary inquiries (e.g. parity, consumption of protein foods, disabilities, inoculations, etc.) These activities will be carried out jointly by SIS and the Ministry of Health.
- e. To reorganize the General Directorate of Health Statistics

of SIS for better functional operation (including evaluation of family planning operational data).

f. To improve economic series deriving from censuses, sample surveys and reporting systems, particularly in the subjects of industry, prices, distributive trade, tourism, construction, minerals and transportation.

2. The Chief, SIS Agricultural Statistics Division, with the assistance of the Agriculture Statistics Advisor, will continue surveys in Agricultural Land Use and the Filbert Tree Count and Yield. In addition, this department will consider how to prepare the 1970 Census of Agriculture and methods for estimating livestock numbers and products. These projects have been endorsed by the President of SIS, and necessary counterpart advisors have been selected to be trained to assist in this activity.

3. The Director of the Statistical Training Center (STC), with the assistance of the Statistical Training Advisor, will strengthen and expand the SIS training program. An academic curriculum on census techniques, now being developed, will be introduced as a special course in the Spring of 1969. The STC will continue to sponsor conferences and seminars on statistical subjects, and to edit the journal of the Turkish Statistical Association.

4. The Chief, Machine Tabulation Division, in connection with the Data Processing Advisor, will advance SIS's program of systems design and data processing. One of the principal tasks will be planning the acquisition and integration of larger capacity computer equipment, with the concomitant task of training programmers and operational supervisors. The establishment of production standards and updating current and projected SIS workload studies will also be jointly undertaken. The advisor will also review the overall data processing needs of the Turkish Government and the feasibility of using SIS as a control data collection center.

5. Short-term U.S. consultants will be available at the request of the President, SIS, to overcome technical problems for which SIS personnel have not been trained. These consultants will help prepare SIS personnel for the 1970 Census in fields such as: national accounts, survey, sampling research, demography, census preparation, price statistics, and business statistics.

6. AID will support advanced training in the U.S. for qualified candidates nominated by SIS where such training will strengthen the long-run capability of SIS to improve its statistical operations and functions. In FY 69 seven participants are expected to qualify to begin training in fields such as: population and vital statistics, labor and price statistics, national accounts, industrial statistics, and economics.

III. Cooperating Country Contribution

A. The SIS agrees to provide a responsible official fluent in the English language to serve as counterpart to the technicians and to provide suitable office space, furniture, equipment, supplies, utilities, and communications for the technicians.

B. The SIS will use effectively those of their employees who have received participant training.

C. The Ministry of Health will provide the services of professional statisticians and computer programmers, supplies, and data processing equipment for the demographic survey element of the project (See section II A paragraph two and section II B 1 (d) of this Project Agreement).

D. Local Currency Support

In addition to the items described in A above, the SIS will provide 77,000 TL for the international travel to and from the U.S. of seven new participants in FY 69.

In addition to the funds and services provided from the regular budget of SIS and the Ministry of Health, the Government of Turkey will provide 662,420 TL in Special Project Funds for the period July 1, 1968 through February 28, 1969. Additional funds for project support are expected to be provided for the remainder of the US fiscal year. These funds will be used for salaries and travel of non-kadro translators, secretaries, drivers and part-time data gatherers; for supplies, materials, and certain items of equipment; and for contractual services related to translation, editing, and layout of statistical publications. The project allocation of Special Project Funds is shared by SIS and the Ministry of Health.

The Ministry of Finance will make available to USAID Trust Funds to provide support for U.S. advisory personnel assigned to the project and to provide for domestic and international travel and associated

I. Project Description and Objectives

This project is designed to assist the State Institute of Statistics (SIS), Government of Turkey, in continuing to progress toward becoming a modern statistical organization with the capability to collect, process, tabulate, evaluate and publish on a timely and continuous basis the economic, social and demographic data required for government policy and administration.

The SIS, with the advice of PASA technicians from the U.S. Bureau of the Census, has planned a long-range program of expansion and improvement. In the coming year, the plan calls for a variety of improvements, including development in program coordination and management. The specific steps planned to obtain such development are:

1. Expanding and improving the present field organization to insure a nation-wide data collection system for censuses and surveys;
2. Establishing in SIS a sophisticated automatic data processing capacity with requisite procedural changes and trainings;
3. Continuing technical training of SIS staff, both in Turkey and abroad;
4. Formulating and beginning a new program of management training for selected SIS staff.

The U.S. will assist in achieving these aims through the work of three resident advisors from the Bureau of the Census and the provision of participant training for SIS staff. The aim of U.S. assistance is to help SIS achieve a capacity for continued independent professional growth that will permit an end to official U.S. assistance at least by 1973.

II. Course of Action

A. Summary of Project Activities to Date

Since the inception of this project, substantial progress has been made toward the goal of a modern statistical institution. The first major accomplishment was the creation of the present SIS with an organizational structure consistent with modern statistical functions and operations. Specific accomplishments since 1962 include: (1) a well-designed modern building; (2) establishment of a Statistical Training Center within SIS, the graduates of which now number about 140; (3) the introduction of

modern statistical methods and procedures, including the design of a national sample survey plan; (4) completed sample surveys: Turkish Demographic Survey, Labor Force Survey, Consumer Expenditure Surveys in Major Cities, Filbert Tree Count and Yield Survey; (5) Completed censuses of population, housing, agriculture (sample basis), manufacturing, distributive trades, and government employment; (6) establishment of a Central Bureau of Intelligence to coordinate reporting and informational functions; (7) creation of a professional society, The Turkish Statistical Association; and (8) sponsoring and hosting a number of professional conferences, seminars and workshops important for the promotion of statistical activities.

B. The SIS in the coming year will continue or undertake the following activities, with the advice of U.S. Advisors:

1. The President of SIS and other top-level staff intend to take a number of steps during the next year, with the advice of the Principal Statistical Advisor, to strengthen the SIS and improving its institutional effectiveness. The principal areas for program consideration and action will include the following:
 - a. Establishing a Field Division in SIS as the administrative unit responsible for supervising all field offices and for developing instructions for the training and supervision of field enumerators.
 - b. Expanding the present system of field offices and upgrading the capacity and technical competence of offices already established.
 - c. Improving management practices involving establishment of program objectives, organizing for obtaining objectives, and evaluation, together with establishing and adhering to work schedules, establishing position descriptions, costing of surveys and other programs, etc.
 - d. Expanding the present number of working groups (to cover all subject matter areas) as a means of achieving internal coordination in planning and implementing programs within SIS.
 - e. Establishing inter-agency committees or working groups in major statistical areas of mutual interest to promote coordination of program planning.

- f. Improving the present system for regular and systematic reporting on plans, program, progress and problems.
- g. Developing research activities important to improvement in the quality of statistical data collected through sample surveys: respondent bias, enumerator errors, etc.
- h. Expanding and improving the use of statistical quality control in data collection activities and in the processing of statistical data.

2. During the year, the Research Department and Chief of the Agriculture Statistics Division (with the advice of the Agriculture Statistics Advisor) will work to develop sampling methods and plans for the 1970 Agriculture Census. This activity includes continuation of the Agriculture Land-Use Survey begun in May 1966 definition of sampling frames for farm operators, and development of improved interview techniques. The 1970 census plans will include developmental work to determine methods that can be utilized in upgrading the quality of current agriculture statistics. The Chief of the Agriculture Division will also undertake research to develop by 1972 methods for objective measurements of estimating livestock numbers.

3. The Chief of the Machine Tabulation Division, with the advice of the Data Processing Advisor, intends to develop a sound systems design, data processing procedures, production standards, and update current and future workloads. He will also develop training programs for operational supervisor and computer programmers and begin planning for the installation of larger computer equipment.

4. AID will provide short-term consultants upon request of the President of SIS to advise him in problem areas where SIS does not have trained staff.

5. AID will support advanced training, both academic and non-academic, in the U.S. for qualified candidates nominated by SIS, where such training will strengthen the long-run capability of SIS to improve its statistical operations and expand its functions. In FY 70, nine participants are expected to qualify for training in statistics, demography, statistical quality control, census geography, data processing, foreign trade statistics, price statistics, and general management.

III. Cooperating Country Contribution

A. The SIS agrees to provide responsible officials, fluent in the English language, to serve as counterparts to the U.S. advisors and to provide suitable office space, furniture, equipment, supplies, utilities, and communications for the advisors.

B. The SIS agrees to use effectively employees who have received participant training.

C. Local Currency - In addition to the items described in "A" above, the SIS will provide the cost of international travel to and from the U.S. of the nine new participants in FY 70.

In addition to the funds and services provided from the regular budget of SIS, the Government of Turkey will provide 153,333 T.L. in Special Project Funds for the period July 1, 1969, through February 28, 1970, for clerical and translation services, including travel of personnel required to support the U.S. Census Team at SIS.

The Ministry of Finance will make available to USAID Trust Funds to provide support for U.S. advisory personnel assigned to the project and to provide for domestic and international travel and associated expenses. An estimated 272,933 T.L. is included in the Trust Fund budget for these purposes for the period July 1, 1969, through February 28, 1970. Additional funds for project support are expected to be provided for the remainder of FY 1970.

IV. U.S. Government Contribution

A. Technician Services: During FY 1970 three full-time PASA advisors will be provided under the project at an estimated cost of \$82,980. In addition, one advisor will complete his tour and three short-term PASA consultants (nine man-months) will assist in special activities related to project goals at an estimated cost of \$18,030 in FY 70. Funds for PASA services in the amount of \$101,010 are obligated under this Project Agreement.

B. Participant Training: Subject to the availability of funds and qualified candidates, nine (9) new participant starts are scheduled for U.S. FY 1970, at an estimated cost of \$55,995. Seven (7) other participants will continue their programs in the U.S. during FY 70 at an estimated cost of \$36,025.

V. Funding Summary of U.S. Contributions

A. Total anticipated project funding requirements in U.S. FY 70 are estimated as follows:

<u>Technician Services</u>	<u>101,010</u>
Long-term PASA	82,980
Short-term PASA	18,030
<u>Participants</u>	<u>92,020</u>
TOTAL	193,030

B. This Project Agreement obligates funds to cover the following elements of the project in FY 70.

PASA Technician Services	101,010
2 Participant programs	<u>6,525</u>
TOTAL	107,535

C. Lira Costs: SIS will provide from its own budget international travel costs for 5 participants estimated to cost TL. 49,500 of which TL 24,750 are TFY 70 requirements. SIS will also provide continuing salary payments and international travel to and from the U.S. for new participants in FY 71, provided that this is permissible under Turkish Law.

In addition to the funds and services provided from the regular budget of SIS, the Government of Turkey will provide 461,972 TL in Special Project Funds for the period July 1, 1970 through February 28, 1971, for clerical and translation services, including travel of personnel required to support the U.S. Census Team at SIS.

The Ministry of Finance will make available the USAID Trust Funds to provide support for U.S. advisory personnel assigned to the project and to provide for domestic and international travel and associated expenses. An estimated 241,558 TL. is included in the Trust Fund Budget for these purposes for the period July 1, 1970 through February 28, 1971. Additional funds for project support are expected to be provided for the remainder of FY 1971.

I. PROJECT DESCRIPTION AND OBJECTIVES

This project is designed to assist the State Institute of Statistics (SIS), Government of Turkey, to make continuing progress toward becoming a modern statistical organization with the capability to collect, process, tabulate, evaluate and publish on a timely and continuous basis the economic, social and demographic data required for government policy and administration.

The SIS, under new leadership, is critically examining all aspects of its statistical programs and operations. In FY 72 SIS will, in addition to other activities, give major emphasis to the following areas which are the focus of project assistance:

1. A viable computer installation, based on a UNIVAC 9400.
2. Processing of three major census programs: the 1970 Censuses of Agriculture and Population and the 1971 Economic Census, utilizing the UNIVAC 9400.
3. An on-going census geography program designed to provide maps essential for census and survey programs.
4. An expanded and improved field organization to insure a nation-wide data collection system.
5. Increased use of sampling and modern sampling techniques in census and survey programs.
6. Continuing technical training of SIS staff in Turkey and the U.S. through in-service and participant training programs.

The U.S. will assist in achieving these aims through the work of resident and TDN advisors and the provision of participant training for the SIS staff. The aim of U.S. assistance is to help SIS achieve capacity for continued independent professional growth by January 1973.

II. COURSE OF ACTION

A. Summary of Project Activities to Date

Since the inception of this project, substantial progress has been made toward the goal of a modern statistical institution. The first major accomplishment was the creation of the present SIS with an organizational structure compatible with modern statistical functions and operations. Specific accomplishments since 1962 include:

Development Statistics

(1) the introduction of modern statistical methods and procedures, including quality control; (2) completed and on-going sample surveys; Turkish Demographic Survey, Labor Force Survey, Consumer Expenditure Surveys, and a Filbert Tree Count and Yield Survey; (3) completed censuses of agriculture in 1963 on a sample basis, of manufacturing, trade, and services in 1963 (also on a sample basis), and of Population and Housing in 1965; (4) field enumeration of a Census of Population and Housing and of an Agriculture Census, both in 1970, and of an Economic Census in 1971; (5) establishment of a Statistical Training Center within SIS, the graduates of which now number about 185; (6) creation of a professional society, the Turkish Statistical Association; (7) sponsorship and hosting of professional conferences, seminars and workshops important for the promotion of statistical activities. Other activities have included work toward improving national income and price statistics.

B. The SIS in the coming year will continue or undertake the following activities, with the advice of U.S. experts.

1. The President of SIS and other top-level staff intend to take a number of steps during the next year, with the advice of the Principal Statistical Advisor, to strengthen the SIS and improve its institutional effectiveness. The principal areas for program consideration and action will emphasize the following:
 - a. Establishing a Field Division in SIS as the administrative unit responsible for supervising all field offices and for developing instructions for the training and supervision of field enumerators.
 - b. Expanding the present system of field offices and upgrading the capacity and technical competence of offices already established.
 - c. Continuing to improve management practices. These involve the establishment of program objectives, organizing for the attainment of objectives, and evaluation, together with the establishment of and adherence to work schedules, establishment of position descriptions, the costing of surveys and other programs, etc.
 - d. Expanding the present number of working groups (to cover all subject matter areas) as a means of achieving internal coordination in planning and implementing

- programs within SIS.
- e. Establishing inter-agency committees or working groups in major statistical areas of mutual interest to promote coordination of program planning.
 - f. Continuing to improve the present system for regular and systematic reporting on plans, program, progress and problems.
 - g. Continuing to develop research activities important to improvement in the quality of statistical data collected through sample surveys: respondent bias, enumerator errors, etc.
2. A Census Geographer will advise SIS on developing and operating a program designed to provide the census and survey-type maps essential for field collection of data. In December 1970, SIS established a Census Geography Division, but this activity has lacked technical guidance. The Census Geographer will also train personnel in census and survey mapping techniques.
 3. An Agricultural Statistics Advisor will advise on evaluating the results of the 1970 agriculture census, on developing a program of current agricultural statistics, and on crop cutting surveys.
 4. The following short-term advisors are programmed:
 - a. An Electronics Engineer (3 months) will keep the UNIVAC 9400 in operational condition and will train maintenance personnel.
 - b. A Data Processing Advisor (3 months) will assist in all operations involved in the computer processing of the census programs, including programming and systems analysis training.
 - c. Approximately nine (9) man-months of additional short-term services will be made available as the needs are identified and mutually agreed upon by SIS and USAID.
 5. AID will support advanced training, both academic and non-academic, in the U.S. for qualified candidates nominated by SIS, where such training will strengthen the long-run capability of SIS to improve its statistical operations and expand its functions. In FY 72, five (5) participants are expected to qualify for training in statistics, demography and census geography; five (5) participants will continue

their training; and four (4) other participants, funded in FY 71, will start their training.

new

All participants will be formally nominated in sufficient time to permit them to achieve English language proficiency adequate to meet requirements of U.S. training institutions. All academic participants will need to pass the Teaching of English as a Foreign Language (TOEFL) examination no later than March 1972.

III. COOPERATING COUNTRY CONTRIBUTION

A. The SIS agrees to provide responsible officials who are fluent in the English language to serve as counterparts to the U.S. advisors, and to provide suitable office space, furniture, equipment, supplies, utilities, and communications for the advisors.

B. SIS agrees to make effective use of employees who have received participant training.

C. Lira Costs - SIS will provide from its own budget, international travel to and from the U.S. for participants and, provided that this is permissible under Turkish law, continuing salary payments for them.

In addition to the funds and services provided from the regular SIS budget, the Government of Turkey will provide TL 240,000 from its TFY 71 Special Project Fund for such items as clerical and translation services, and travel of personnel required to support the U.S. Census Team at SIS.

The Ministry of Finance will, from the General Trust Fund Budget, provide support for U.S. advisory personnel assigned to the project and provide for domestic and international travel and associated expenses. TL 689,258 is included in the TFY 71 Trust Fund Budget/support this project.

DEVELOPMENT STATISTICS

I. PROJECT DESCRIPTION AND OBJECTIVES

This is the last year of this project which was designed to assist the State Institute of Statistics (SIS), Government of Turkey, to make continuing progress toward becoming a modern statistical organization with the capability to collect, process, tabulate, evaluate and publish on a timely and continuous basis the economic, social and demographic data required for government policy and administration.

Currently the SIS is critically examining all aspects of its programs and operations. In U.S. FY 73 in addition to other activities, SIS is giving major emphasis to the following areas which are the focus of project assistance:

1. A viable computer installation, based on a UNIVAC 9400.
2. An on-going census geography program designed to provide maps essential for census and survey programs.
3. An expanded and improved field organization.
4. Improved capability in national income accounting
5. Increased use of sampling and modern sampling techniques in census and survey programs.
6. Continuing technical training of SIS staff in Turkey and the U.S. through in-service and participant training programs.

In U.S. FY 73 the U.S. has assisted in achieving these aims through the work of two resident advisors (one until September 1972 and one until January 1973) and through the provision of participant training for the SIS staff. The aim of U.S. assistance is to help SIS achieve capability for continued independent professional growth on a sustained basis by the end of this fiscal year.

II. SUMMARY OF PROJECT ACTIVITIES TO DATE

Since the inception of this project, substantial progress has been made toward the goal of a modern statistical institution. The first major accomplishment was the creation of the present SIS with an organizational structure compatible with modern statistical functions and operations.

SCOPE OF WORK

21. Scope of Technical Services

A. Description

The Bureau of the Census will provide qualified personnel for work with the Government of Turkey in advising and assisting with techniques, procedures and methods for strengthening the program of the State Institute of Statistics. The technicians will be expected not only to provide direct advice and assistance in their respective field, but also to work with the appropriate Government of Turkey officials in developing a local staff well qualified in all respects. Details of the positions are as follows:

- (1) Principal Statistical Advisor - will be responsible for the direction and management of the project, the supervision of the activities of the team members, and the selection of priorities for U.S. participation within the total statistical program. He will work closely with the President of the State Institute of Statistics (SIS) in the Turkish Government's statistics

(1) By AID - \$285.

(2) By Cooperating Country - --

23. Instructions to Authorized Agent

AID/W will negotiate and execute an amendment to the Participating Agency Service Agreement with the Bureau of the Census, Department of Commerce, for continuation of the services requested herein.

Bills for all expenses chargeable to the Trust Fund (see Block 28-C) will be forwarded to the USAID Controller for settlement.

24. Special Provisions

A. This PIO/T authorizes the continuation in FY 1970 of services performed by the Bureau of the Census under PIO/T 277-364-2-90004 and its related Participating Agency Service Agreement and is subject to the same terms, conditions and arrangements, except as modified herein.

B. Except as specifically authorized by AID/W, or when local hire is authorized under the terms of a contract with a U.S. supplier, services authorized under this PIO/T must be obtained from U.S. sources.

C. Except as specifically authorized by AID/W, the purchase of commodities authorized under this PIO/T will be limited to the United States under Geographic Code 000.

program and with other ministries and agencies carrying on sizeable statistical activities. He will be responsible also for liaison between the SIS and the Ministry of Health in substantive matters concerning the Turkish Demographic Survey.

- (2) Data Processing Advisor - will work with the SIS on a broad range of data processing activities with particular emphasis on better systems planning and procedural documentation, compilation of a computer feasibility study and recommendation for government-wide use of central data processing facilities, computer acquisition, and training of data processing personnel.
- (3) Agricultural Statistics Advisor - will continue current surveys of land use (both area cropped and harvest yield), livestock inventories, and production surveys for specialized crops. These surveys will suggest recommendations for improvement of official agricultural estimates in Turkey.
- (4) Short-Term Consultants - these consultants, who will be requested by SIS in consultation with the U.S. Principal Statistical Advisor, will be competent to assist SIS in activities where SIS does not have trained staff.

Block 24 - Continued

D. All international air travel and local per diem costs, shipment of freight and other travel allowances will be paid from the Trust Fund provided by the Government of Turkey, at either the cost of economy air by the most expeditious means or actual costs incurred by the advisors, whichever is the lesser. Per diem rates and allowances will be paid in accordance with U.S. Government regulations and USAID/Turkey policies.

Block 28-C - Continued

- (c) Quarters and education allowances.
- (d) Local travel and local per diem, which will be paid on the basis of U.S. Standard Government Travel Regulations (SGTR) and USAID/Turkey rates.

B. Additional Facilities Available From Other Sources

USAID will use its best efforts to obtain authorization from U.S. military authorities for the use of the Post Exchange, APO, Commissary, schools, hospital services, and related facilities. However, since AID does not control these facilities, it cannot guarantee their authorization nor that they will be continued once they have been authorized.

C. Comments

- (1) The following items will be paid from the Trust Fund provided by the Government of Turkey:
- (a) International travel of all personnel and authorized dependents, including accompanying baggage of 66 pounds per traveller.
 - (b) Shipment of unaccompanied baggage and vehicle; shipment of household effects.
 - (c) Quarters and education allowances.

process, tabulate, evaluate and publish on a timely and continuous basis the economic, social and demographic data required for government policy and administration.

Block 19-B - Continued

the total statistical program. He will work closely with the President of the State Institute of Statistics (SIS) in the Turkish Government's statistics program and with other ministries and agencies carrying on sizeable statistical activities. He will be responsible also for liaison between the SIS and the Ministry of Health in substantive matters concerning the Turkish Demographic Survey.

- (2) Agricultural Statistics Advisor - will continue to work with SIS in conducting its 1970 Census of Agriculture and in the development of a system, based on methods derived from that census, for current estimates of agriculture production.
- (3) Short-Term Consultants - will be utilized in the computer processing of the two major census programs of 1970: The Population and Housing Census and the Agricultural Census; in advising on a system of quality control in the processing of the census programs in order to insure accuracy of data and the timeliness of publications; in advising on the 1971 Economic Census; in advising on programs of sampling used in census and survey programs; and in advising on a program of price statistics.

Block 25-C - Continued

- (d) Local travel and local per diem, which will be paid on the basis of U.S. Standard Government Travel Regulations (SGTR) and USAID/Turkey rates.
- (2) Long-Term Personnel will be provided the following:
 - (a) Shipment of unaccompanied baggage - not to exceed 175 lbs. gross weight per authorized traveller - may be shipped by air.
 - (b) Shipment of household effects in amounts in accordance with AID schedule of weights - that is, maximum household effects shipment of 4,200 lbs. net weight is authorized for the employee and two dependents. For each additional dependent, an additional 150 pounds net weight is authorized.

SCOPE OF WORK

21. Scope of Technical Services

A. Description

The Bureau of the Census will provide qualified personnel for work with the GOT in advising and assisting with techniques, procedures and methods for strengthening the program of the State Institute of Statistics. The technicians will be expected not only to provide direct advice and assistance in their respective fields, but also to work with the appropriate GOT officials in developing a local staff well qualified in all respects. Details of the positions are as follows:

1. Principal Statistical Advisor - Is responsible for the direction and management of the project, the supervision of the activities of the team members, and the selection of priorities for U.S. participation within the total statistical program. He works closely with the President of the State Institute of Statistics in the Government's development statistics program and with other ministries and agencies carrying on sizeable statistical activities.

23. Instructions to Authorized Agent

The Bureau of the Census is requested to continue to provide the services of a team of statistical advisors in various fields as shown in Block 21, A and B, in order to achieve the above objectives.

24. Special Provisions

A. This PIO/T authorizes the continuation in FY 1965 of services performed by the Bureau of the Census under PIO/T 277-364-2-40008, as amended, and its related Participating Agency Service Agreement and is subject to the same terms, conditions and arrangements except as modified herein.

B. Except as specifically authorized by AID/W, or when local hire is authorized under the terms of a contract with a U.S. supplier, services authorized under this PIO/T must be obtained from U.S. sources.

C. Except as specifically authorized by AID/W, the purchase of commodities authorized under this PIO/T will be limited to the United States under Geographic Code 000.

D. If, to implement this agreement, a contract is entered into for the performance of services outside the United States by U.S. citizens, the Bureau of the Census, Department of Commerce, will take appropriate action to assure compliance with the loyalty and security investigation requirements of Section 111 of the Foreign Aid and Related Agencies Appropriation Act of 1964 (Public Law 88-258).

B. Additional Facilities Available From Other Sources

USAID will use its best efforts to obtain authorization from U.S. military authorities for the use of the post exchange, APO, Commissary, schools, hospital services and related facilities; however, since AID does not control these facilities, we cannot guarantee their authorization nor that they will be continued once they have been authorized.

C. Comments

1. International travel of all personnel and authorized dependents, including accompanying baggage of 66 pounds per traveller, will be provided at GOT expense.
2. Quarters allowance, on same basis as AID personnel will be provided in TL.
3. USAID will provide basic household furniture including stove, refrigerator. Unaccompanied baggage will be provided not to exceed 300 pounds gross weight for each authorized traveller, of which 100 pounds gross may be shipped by air for portion of the travel performed by air. Household effects in amounts in accordance with the AID schedule of weights will also be provided. To the extent possible, costs of such shipments will be paid in TL. Maximum household effects shipment of 2,500 lbs.net weight is authorized.
4. Transportation costs for shipment of one privately owned vehicle per family is authorized.
5. Local travel and per diem on basis SGTR and USAID/T rates will be reimbursed by the GOT in Turkish Lira.

Block 21-A - Continued

2. Data Processing Advisor - This advisor (arrived in June 1963) has been engaged in advising the SIS on the processing of data by its machine tabulation division. He is working with the chief of this division, and other SIS staff members, on plans to card punch and tabulate the 1963 Census of Agriculture and the 1963-64 Census of Establishments. In addition, he will be assisting with conducting studies and will make recommendations aimed at improving the operations of the GOT's major statistical processing entity.
3. Consumer-Price Statistics Advisor - This advisor will work with the SIS in preparing questionnaires, forms, work sheets, and other materials and will advise on pre-test surveys as well as the actual survey operations. He will prepare suggested procedures in accordance with Turkish conditions and in consonance with definitions and concepts recommended by the U.N., I.L.O., and other recognized organizations. A major task will be the training and placement of qualified personnel in the field and the central office.
4. Agricultural Statistics Advisor - This advisor will assist in developing procedures and preparing detailed instructions, establishing definitions and concepts; preparing processing specifications, recruiting, training; and will aid the Government in developing the required analysis and research programs associated with or comprising the Agriculture Census. Since the estimates of grain production and other agricultural commodities have tremendous implications for GOT and U.S. Government relationships, the need for developing a reliable series of current agricultural statistics has been emphasized. In this connection, the goal will be acceptance of the SIS's estimates as the official Government figure which would eliminate confusion when the various estimates are made by several different agencies.
5. Statistical Training Advisor - A statistical training advisor is proposed to assist the SIS in the establishment and maintenance of a statistical personnel for Government agencies and for participating private sector establishments. Requests for future teaching assistance will be based on availability in Turkey of qualified foreign and national statistical experts. A total need of 17 man-years of teaching assistance is anticipated in the five-year period for which the GOT has requested technical assistance for the Center.
6. Population Statistics Advisor - The services of a Demographer or a Specialist in Population Statistics are being requested to assist the State Institute of Statistics in carrying out demographic analysis and statistical research activities from survey data. The SIS plans to inaugurate a household survey in the 1964-65 period and this advisor will assist the organization in setting up the survey machinery as a fixed part of the nation's statistical system. Data on population, including the labor force, and other characteristics would be regularly collected. In addition, the advisor will assist the SIS in preparing for the 1965 Censuses of Population and Housing. Coordination will be carried on with the Ministry of Health's vital statistics and family planning statistics program.

(continued)

Block 21-A - Continued

7. Demographic Survey Statistician - The Ministry of Health and Social Welfare has been selected by the GOF as the agency to carry on a continuing demographic survey. This survey would be conducted monthly on a sample basis throughout the nation and be expected to provide basic vital statistics data required for population estimates and for Government policy and administration, and would also obtain needed data for the family planning program which the Government is commencing. GOF has requested the services of an experienced survey statistician who is familiar with large-scale population studies. Subsequent to the organization of the continuing demographic survey, additional services of a population statistics analyst may be required for a shorter period.

8. Special Consultants (2) - The services of two special consultants from the Bureau of the Census staff may be requested during the latter part of the fiscal year.

Block 24 - Continued

E. All international air travel and local per diem costs, shipment of air freight (if any authorized) and other travel allowances will be paid in Turkish Lira from counterpart funds available in the USAID General Trust Fund. Per diem rates and allowances will be paid in accordance with U.S. Government regulations and USAID/Turkey policies.

SCOPE OF WORK

21. Scope of Technical Services

A. Description

The Bureau of the Census will provide qualified personnel for work with the GOT in advising and assisting with techniques, procedures and methods for strengthening the program of the State Institute of Statistics. The technicians will be expected not only to provide direct advice and assistance in their respective fields, but also to work with the appropriate GOT officials in developing a local staff well qualified in all respects. Details of the positions are as follows:

1. Principal Statistical Advisor - Is responsible for the direction and management of the project, the supervision of the activities of the team members, and the selection of priorities for U.S. participation within the total statistical program. He works closely with the President of the State Institute of Statistics in the Government's development statistics program and with other ministries and agencies carrying on sizeable statistical activities.

(2) By Cooperating Country - --

23. Instructions to Authorized Agent

AID/W will negotiate and execute a PASA amendment with the Bureau of the Census to continue the services of a team of statistical advisors in various fields, as shown in Block 21-A, in order to achieve the above objectives.

24. Special Provisions

- A. This PIO/T authorizes the continuation in FY 1966 of services performed by the Bureau of the Census under PIO/T 277-364-2-50005, as amended, and its related Participating Agency Service Agreement and is subject to the same terms, conditions and arrangements except as modified herein.
- B. Except as specifically authorized by AID/W, or when local hire is authorized under the terms of a contract with a U.S. supplier, services authorized under this PIO/T must be obtained from U.S. sources.
- C. Except as specifically authorized by AID/W, the purchase of commodities authorized under this PIO/T will be limited to the United States under Geographic Code 000.
- D. If, to implement this agreement, a contract is entered into for the performance of services outside the United States by U.S. citizens, the Bureau of the Census will take appropriate action to assure compliance with the loyalty and security investigation requirements of Section 111 of the Foreign Aid and Related Agencies Appropriation Act of 1965 (Public Law 88-634).

B. Additional Facilities Available From Other Sources

USAID will use its best efforts to obtain authorization from U.S. military authorities for the use of the post exchange, APO, Commissary, schools, hospital services, and related facilities; however, since AID does not control these facilities, we cannot guarantee their authorization nor that they will be continued once they have been authorized.

C. Comments

1. International travel of all personnel and authorized dependents, including accompanying baggage of 66 pounds per traveller, will be provided at GOT expense.
2. Quarters allowance, on same basis as AID personnel will be provided in TL.
3. USAID will provide basic household furniture including stove, refrigerator. Unaccompanied baggage will be provided not to exceed 300 pounds gross weight for each authorized traveller, of which 100 pounds gross may be shipped by air for each portion of the travel performed by air. Household effects in amounts in accordance with the AID schedule of weights also will be provided. To the extent possible, costs of shipment will be paid in TL.

TURKEY 277-364-2-60003

277-11-740-364
Development StatisticsBlock 21-A - Continued

2. Data Processing Advisor - This advisor (arrived in June 1963) has been engaged in advising the SIS on the processing of data by its machine tabulation division. He is working with the chief of this division, and other SIS staff members, on plans to card punch and tabulate the 1963 Census of Agriculture and the 1963-64 Census of Establishments. In addition, he will be assisting with conducting studies and will make recommendations aimed at improving the operations of the GOT's major statistical processing entity.
3. Consumer Expenditure Price Statistics Advisor - This advisor will complete his two-year assignment in September 1965. The consumer expenditures program of the GOT has been initiated during the tour in the following major cities: Adana, Izmir, Ankara, Istanbul and Antalya. The State Institute of Statistics plans to continue this program. There is no plan to replace the present incumbent when he complete his assignment, hence this job will be abolished as of November 1, 1965.
4. Agricultural Statistics Advisor - This advisor will assist in developing procedures and preparing detailed instructions, establishing definitions and concepts; preparing processing specifications, recruiting, and training; and he will aid the Government in developing the required analysis and research programs associated with or comprising the Agriculture Census. Since the estimates of grain production and other agricultural commodities have tremendous implications for GOT and U.S. Government relationships, the need for developing a reliable series of current agricultural statistics has been emphasized. In this connection, the goal will be acceptance of the SIS's estimates as the official Government figure which would eliminate confusion when the various estimates are made by several different agencies.
5. Statistical Training Advisor - A statistical training advisor has been recruited and is expected to report in Ankara in July 1965. The previous incumbent completed one year in this assignment and departed Ankara in February 1965. This advisor will assist the SIS in the establishment and maintenance of a statistical training center for government personnel and for private sector establishments. Requests for further teaching assistance may be expected from the SIS in accordance with the availability in Turkey of qualified foreign and national statistical experts.
6. Population Statistics Advisor - The services of a Demographer or a Specialist in Population Statistics are being requested to assist the State Institute of Statistics in carrying out demographic analysis and statistical research activities from survey data. The SIS plans to inaugurate a household survey in the 1964-65 period and this advisor will assist the organization in setting up the survey machinery as a fixed part of the nation's statistical system. Data on population, including the labor force, and other characteristics would be regularly collected. In addition, the advisor will assist the SIS in preparing for the 1965 Censuses of Population and Housing. Coordination will be carried on with the Ministry of Health's vital statistics and family planning statistics program.

(Continued)

TURKEY 277-364-2-60003

277-11-740-364
Development StatisticsBlock 21-A - Continued

7. Demographic Survey Statistician - The Ministry of Health and Social Welfare is carrying on for the GOT a continuing demographic survey. The survey is being conducted monthly on a sample basis throughout the nation and is expected to provide basic vital statistics data required for population estimates and for Government policy and administration, and will also obtain needed data for the family planning program which the Government is commencing. Subsequent to the organization of the survey and the compilation of the demographic data, additional services of a population statistics analyst may be required for a shorter period.

8. Sampling Advisor - This advisor will aid the State Institute of Statistics in developing and using sampling techniques for major censuses and other surveys. He will devise mathematical techniques involved in accelerating processing of censuses and survey schedules, and he will establish quality control procedures. He will cooperate with the objectives of the Statistical Training Center by conducting in-service training courses for SIS personnel and will conduct one or more regular courses as requested. It will be the responsibility of the Sampling Advisor to formulate many of the technical procedures employed in the GOT Statistical System.

9. Special Consultants (2) - The services of two special consultants from the Bureau of the Census staff may be requested during the latter part of the fiscal year.

Block 24 - Continued

E. All international air travel and local per diem costs, shipment of air freight (if any authorized) and other travel allowances will be paid in Turkish Lira from counterpart funds available in the USAID General Trust Fund. Per diem rates and allowances will be paid in accordance with U.S. Government regulations and USAID/Turkey policies.

Block 28-C - Continued

4. Transportation costs for shipment of one privately owned vehicle per family is authorized.
5. Local travel and per diem on basis SGTR and USAID/T rates will be reimbursed by the GOT in Turkish Lira.
6. Nos. 3 and 4 above apply to technicians on full two-year tours; consultants will be on per diem during their entire stay in Turkey.

DEVELOPMENT STATISTICSBlock 21-A - Continued

- (2) Data Processing Advisor - This advisor (arrived in June 1963) has been engaged in advising the SIS on the processing of data by its machine tabulation division. He is working with the chief of this division, and other SIS members, on the card punching and tabulation of the 1966 Census. In addition, he will be assisting with conducting studies and will make recommendations aimed at improving the operations of the GOT's major statistical processing entity.
- (3) Agricultural Statistics Advisor - This advisor will assist in developing procedures and preparing detailed instructions, establishing definitions and concepts; preparing processing specifications, recruiting, and training; and he will aid the Government in developing the required analysis and research programs associated with or comprising the Agriculture Census. Since the estimates of grain production and other agricultural commodities have tremendous implications for GOT and U.S. Government relationships, the need for developing a reliable series of current agricultural statistics has been emphasized. In this connection, the goal will be acceptance of the SIS's estimates as the official Government figure which would eliminate confusion when the various estimates are made by several different agencies.
- (4) Statistical Training Advisor - A statistical training advisor was recruited and arrived in Ankara in August 1965. This advisor assists the SIS in the establishment and maintenance of a statistical training center for both government personnel and private sector establishments. Requests for further teaching assistance may be expected from the SIS in accordance with the availability in Turkey of qualified foreign and national statistical experts.
- (5) Demographic Survey Statistician - The Ministry of Health and Social Welfare is carrying on for the GOT a continuing demographic survey. The survey is being conducted monthly on a sample basis throughout the nation and is expected to provide basic vital statistics data required for population estimates and for Government policy and administration, and will also obtain necessary data for the family planning program which the government is beginning.
- (6) Sampling Advisor - This advisor will aid the State Institute of Statistics in development and use of sampling techniques for the major censuses and other surveys. He will devise mathematical techniques involved in accelerating the processing of censuses and survey schedules, and shall establish quality control procedures. He will cooperate with the objectives of the Statistical Training Center by conducting in-service training courses for SIS personnel and will conduct one or more regular courses as requested. It will be the responsibility of the Sampling Advisor to formulate many of the technical procedures employed in the GOT Statistical System.

DEVELOPMENT STATISTICSBlock 21-A - Continued

(7) Economic Statistics Advisor (to be recruited) - This advisor will assist in the development of a revised financial statistics program. He will work with the Institute in the analysis of business and industrial statistics collected in censuses and periodic surveys. He will assist in the initiation of analysis work in other economic statistics areas such as foreign trade, prices, construction, transportation, etc.

(8) Population Statistics Advisor (to be recruited) - The services of a demographer or a population statistics advisor are being requested to assist the State Institute of Statistics in carrying out demographic analysis and statistical research activities from survey data. The SIS inaugurated a household survey in 1966. This advisor will assist the SIS in setting up the survey machinery as a fixed part of the nation's statistical system. Data on population, including the labor force, and other characteristics will be regularly collected. In addition, the advisor shall assist the SIS with the continuing Censuses of Population and Housing. Coordination will be carried on with the Ministry of Health's vital statistics and family planning statistics program.

Block 24 - Continued

D. If, to implement this agreement, a contract is entered into for the performance of services outside the United States by U.S. citizens, the Bureau of the Census will take appropriate action to assure compliance with the Loyalty and Security Investigation requirements of Section 111 of the Foreign Assistance and Related Agencies Appropriation Act of 1967 (Public Law 89-691).

E. Signature of host government in Block 19 of the worksheet PIO/T constitutes the firm request for these services.

Block 28-C - Continued

- (3) USAID/T will provide basic household furniture, including stove, refrigerator. Unaccompanied baggage will be provided not to exceed 300 pounds gross weight for each authorized traveller of which 100 pounds gross may be shipped by air for portion of the travel performed by air. Shipment of household effects in amounts in accordance with the AID schedule of weights up to a maximum of 2,500 pounds net weight is authorized. To the extent possible, cost of such shipment will be paid in Turkish Lira.
- (4) Transportation costs for shipment of one privately owned vehicle of U.S. manufacture per family is authorized.

(Continued)

TURKEY 277-364-2-70017

DEVELOPMENT STATISTICS

SCOPE OF WORK

21. Scope of Technical Services

A. Description

The Bureau of the Census will provide qualified personnel for work with the GOT in advising and assisting with techniques, procedures and methods for strengthening the program of the State Institute of Statistics. The technicians will be expected not only to provide direct advice and assistance in their respective field, but also to work with the appropriate GOT officials in developing a local staff well qualified in all respects. Details of the positions are as follows:

- (1) Principal Statistical Advisor - will be responsible for the direction and management of the project, the supervision of the activities of the team members, and the selection of priorities for U.S. participation within the total statistical program. He will work closely with the President of the State Institute of Statistics (SIS) in the Turkish Government's statistics program and with other ministries and agencies carrying on sizeable statistical activities.

(Continued)

B. Technicians

(1) (a) Number	(b) Specialized Field	(c) Grade and/or Salary	(d) Duration of Assignment (Man-Months)
7	Statistical Advisors (long-term)		12 each

(See attached budget, Appendix B)

(2) Duty Post and Duration of Technicians' Services

Ankara, Turkey - 12 months during FY-68 for full-time staff.

(3) Access to Classified Information

Technicians may be required to work with classified information.

(4) Dependents Will Will Not Be Permitted to Accompany Technicians, long-term only.

C. Financing Costs of Technical Services

(1) By AID - \$ 142,600

(2) By Cooperating Country - TL 2,157,465 @ 9 TL=\$ 0
(Includes operational field costs of the demographic survey)

25. Reports by Supplier of Services (Indicate type, content and format of reports required, including language to be used if other than English, frequency or timing of reports and any special requirements)

The Principal Statistical Advisor will prepare a monthly report on the team's work and progress of the project.

A final report summarizing the problems, accomplishments, and recommendations bearing on further action will also be submitted within 90 days after the work of the Statistical Team has been completed at the Turkish State Institute of Statistics.

The above reports will be made available to the President of the State Institute of Statistics and to the Director, USAID.

26. Availability of Background Information (Additional information useful to Authorized Agent and Prospective Suppliers; if necessary, cross reference Block 21.B(3) above)

Reports, articles, surveys and studies are available at USAID/Ankara.

27. Relationships of Supplier to Cooperating Country and to AID.

A. Relationships and Responsibilities

State Institute of Statistics (under the Prime Ministry) and the Ministry of Health.

B. Cooperating Country Liaison Official

SIS - Sabahaddin Alpat, President.
Ministry of Health - Yaşar Neperkan.

C. AID Liaison Officials

Chief, Public Administration Division, USAID/Turkey, or his designee.

Block 21-A - Continued

- (2) Data Processing Advisor - Incumbent in this position completed shortened tour in July 1967 and proceeded on loan to ECAFE. Replacement will continue advising the SIS on a broad range of processing activities with particular emphasis on better systems planning and procedural documentation and in compilation of a computer feasibility study based on Government-wide utilization of a central data processing service facility.
- (3) Agricultural Statistics Advisor - This advisor, returning for a second tour beginning September 1967, will continue current experimental surveys of land use (both area cropped and harvest yield), livestock inventories, and production surveys for specialized crops. From these will come recommendations for improved techniques and deployment of resources to improve official agricultural estimates in Turkey.
- (4) Statistical Training Advisor - This advisor, beginning second tour in August 1967, will assist in strengthening the academic and in-service training capability of the State Institute of Statistics, advising the Director of its Statistical Training Center in evolutionary development of curriculum and in demonstration of pedagogical techniques. Advisor will also assist in the expansion of STC's role in sponsoring and organization of professional statistical activities in Turkey.
- (5) Demographic Survey Statistician - will assist the Ministry of Health in all phases of organization, field operation, compilation and analysis of data collected by the Turkish Demographic Survey. This survey is the specific measurement tool for ascertaining current level and rate of growth of the population of Turkey.
- (6) Statistical Sampling Advisor - will assist in developing a long-range statistical research program in the SIS with current emphasis on alternative survey designs, development of master sample frames for household surveys and crop reporting, response research and measurement of reliability.
- (7) Economic Statistics Advisor (to be recruited) - will assist the SIS in establishment and/or improvement of basic economic measurements required to support a structure of comprehensive and integrated national accounts. He will assist in analysis of recent benchmark censuses in industry and distributive business and in planning of current surveys and reports, particularly new construction surveys, consumer expenditure studies, wholesale price reporting and labor force surveys.

D. If, to implement this agreement, a contract is entered into for the performance of services outside the United States by U.S. citizens, the Bureau of the Census will take appropriate action to assure compliance with the loyalty and security investigation requirements of Section 111 of the Foreign Assistance and Related Agencies Appropriation Act of 1967 (Public Law 89-691).

Block 28-C - Continued

- (3) Shipment of household effects in amounts in accordance with the AID schedule of weights up to a maximum of 2,500 pounds net weight is authorized. To the extent possible, costs of such shipment will be paid in Turkish Lira.
- (4) Transportation costs for shipment of one privately owned vehicle of U.S. manufacture per family is authorized.
- (5) USAID will provide basic household furniture, including stove and refrigerator.
- (6) Quarters allowance, on the same basis as AID personnel, will be paid in Turkish Lira from Trust Funds provided by the GOT.
- (7) Local travel and per diem, on the basis of SGTR and USAID/T rates, will be paid in Turkish Lira from Trust Funds provided by the GOT.

SCOPE OF WORK

21. Scope of Technical Services

A. Description

The Bureau of the Census will provide qualified personnel for work with the Government of Turkey in advising and assisting with techniques, procedures and methods for strengthening the program of the State Institute of Statistics. The technicians will be expected not only to provide direct advice and assistance in their respective field, but also to work with the appropriate Government of Turkey officials in developing a local staff well qualified in all respects. Details of the positions are as follows:

- (1) Principal Statistical Advisor - will be responsible for the direction and management of the project, the supervision of the activities of the team members, and the selection of priorities for U.S. participation within the total statistical program. He will work closely with the President of the State Institute of Statistics (SIS) in the Turkish Government's statistics program and with other ministries and agencies carrying on sizeable statistical activities. He will be responsible also for liaison

between the SIS and the Ministry of Health in substantive matters concerning the Turkish Demographic Survey.

- (2) Data Processing Advisor - will work with the SIS on a broad range of data processing activities with particular emphasis on better systems planning and procedural documentation, compilation of a computer feasibility study and recommendation for government-wide use of a central data processing facility, computer acquisition, and training of data processing personnel.
- (3) Agricultural Statistics Advisor - will continue current experimental surveys of land use (both area cropped and harvest yield), livestock inventories, and production surveys for specialized crops. These surveys will suggest recommendations for improvement of official agricultural estimates in Turkey.
- (4) Statistical Training Advisor - will assist in strengthening the academic and in-service training capability of the State Institute of Statistics, and advising the Director of its Statistical Training Center (STC) in curriculum development and in teaching techniques. He will assist also in the expansion of STC's role in sponsoring and organizing professional statistical activities in Turkey.
- (5) Short-Term Advisors - These advisors, who will be requested by SIS in consultation with the U.S. Principal Statistical Advisor, will be competent to assist SIS in specialities such as national accounts, surveys, sampling research, demography, census preparations, price statistics and business statistics.

Block 24 - Continued

D. All international air travel and local per diem costs, shipment of freight and other travel allowances will be paid in Turkish Lira from Trust Funds provided by the Government of Turkey, at either the cost of economy air by the most expeditious means or actual costs incurred by the advisors, whichever is the lesser. Per diem rates and allowances will be paid in accordance with U.S. Government regulations and USAID/Turkey policies.

Block 28-U - Continued

- (c) Quarters allowance.
- (d) Local travel and local per diem, which will be paid on the basis of U.S. Standard Government Travel Regulations (SGRR) and USAID/Turkey rates.

Block 28-C - Continued

- (2) Long-term personnel will be provided the following:
 - (a) Shipment of unaccompanied baggage - not to exceed 300 lbs. gross weight per authorized traveller, of which 100 pounds gross may be shipped by air for portion of travel performed by air.
 - (b) Shipment of household effects in amounts in accordance with AID schedule of weights - that is, maximum household effects shipment of 2,500 pounds net weight is authorized.
 - (c) Shipment of one privately owned vehicle per family is authorized.
 - (d) Basic household furniture including stove and refrigerator.
 - (e) Quarters on the same basis as AID personnel.
- (3) Turkish counterparts, assistants and interpreters will be assigned by the Government of Turkey.
- (4) USAID/Turkey will provide, where appropriate, information, guidance and assistance with Turkish customs officials.
- (5) Short-term consultants will be on per diem, based on SCTR and USAID/Turkey rates paid from Trust Funds provided by the Government of Turkey. They will not be entitled to shipment of household effects and automobile, housing allowances and furnishings, etc., provided long-term advisors.

PASA No. NESA(CA)-6-00(A10) - Bureau of the Census, Department of
Commerce - PIE/T 277-364-2-90004 - Development Statistics

It is not practicable to order these services from private enterprise on a contract basis because they traditionally have been performed by the Bureau of the Census, Department of Commerce, and we are not aware of readily available private sources which can duplicate the service at equal or less cost. The Bureau of the Census's facilities are particularly suitable for the services, are not competitive with private enterprise, and can be made available without interfering with other programs.
