June 1983
The International Crops Research Institute for the Semi-Arid Tropics (ICRISAT) is a nonprofit scientific educational institute receiving support from a variety of donors through the Consultative Group on International Agricultural Research. Donors to ICRISAT include governments and agencies of Australia, Belgium, Canada, Federal Republic of Germany, France, India, Italy, Japan, Mexico, the Netherlands, New Zealand, Nigeria, Norway, Sweden, Switzerland, United Kingdom, United States, and the following international and private organizations: Asian Development Bank, European Economic Community, Ford Foundation, International Bank for Reconstruction and Development, International Development Research Centre, International Fertilizer Development Center, International Fund for Agricultural Development, Leverhulme Trust, Organization of Petroleum Exporting Countries, Rockefeller Foundation, and the United Nations Development Programme. All responsibility for the information in this publication rests with ICRISAT; where trade names are used this does not constitute endorsement of or discrimination against any product by the Institute.

Preface

The Millets Bibliography 1970-76 is a companion volume to the Sorghum Bibliography 1970-73, recently brought out by the Sorghum and Millets Information Center (SMIC), ICRISAT. This publication is intended as a sequel to the excellent bibliography The Millets and Minor Cereals compiled by Kenneth O. Rachie, covering the world literature on millets 1930-63, and pre-1930 and 1964-69, and of all literature on other minor cereals.

Information for this bibliography has been gathered from reports, monographs, and the primary and secondary periodicals received in the ICRISAT library (nearly 800) as well as from various such data bases as, AGRICOLA, BIOSIS, CAN/SDI, CNRS, and RTI. All references culled from the secondary sources have been checked against entries made from the primary sources received at ICRISAT, and all unique entries have been merged. There are 3119 entries in this bibliography.

As in the Sorghum Bibliography, the entries have been arranged according to the broad subject groups indicated in the Contents. Within each subject group entries are arranged alphabetically by the author. For entries by the same author, chronological order has been followed. Bibliographical entries contain sufficient data to identify the original document. Entries have been rendered according to the ICRISAT style guide (which closely follows the CBE Manual). Since in many cases the original documents were not available for checking, it has not been possible to furnish full details in all the entries.

Titles from the foreign languages have been translated into English and the language of the original indicated in parantheses immediately after the translated title. AGRIS abbreviations have been used for languages. Titles of the periodicals have been given in full. However, names of well-known institutions have been abbreviated to their acronym forms. A list of these acronyms is given on page ii.

There are three indexes—Author, Subject, and Geographic. In the Geographic index entries have been given under the countries concerned. Only in the case of India, where a considerable amount of research work is being carried out, entries have been given under the state name, where available.

The main collection and compilation work for this bibliography was initiated by C.D. Handa and Chandra Vaidyanathan and continued by Jagdish Arora, who has given it the final shape. Acknowledgement is also due to S. Prasannalakshmi, who helped in the standardization of bibliographical citations.

This publication is made possible by the financial assistance received from IDRC, Canada, for the SMIC Project.

1. **Amount of Text**

   - *Aceria folsichella*, 2478
   - *Aceria ignefulalis*, 2528, 2532
   - *Acronymmax londoffii*, 2813, 2823
   - *Aeneolamia*, 2825
   - *Aethus indicus*, 2818
   - *Aethus laticollis*, 2816
   - *African cereal streak*, 2449, 2450
   - *Amaranthus*, as weed, 1890
   - *Amsacta moorei*, 2590
   - *Atherigona*, 2566
   - *Atherigona approximata*, 2574
   - *Atherigona destructor*, 2563, 2570
   - *Atherigona nudiseta*, 2567
   - *Atta laevigate*, 2613
   - *Bacillus pumilis*, 2727
   - *Bagrada cruciferarum*, 2587
   - *Bathyodon fusiformis*, 2504
   - *Belonolaimus longicoudalus*, 2514
   - *Brachiaria plantaginea*, 2675
   - *Brachiaria purpurascens*, amino acid content, 2775
   - *Brachiaria ruziziensis*, genealogy, 0587
   - *Brachiaria brizantha*, digestibility, 3024, 3060, 3061
   - *Cicadulina mbila*, 2468
   - *Claviceps fusiformis*, 2164
   - *Claviceps microcephala*, 2169, 2184, 2299, 2301, 2330, 2348, 2355, 2356, 2363, 2364, 2372-2380, 2391, 2392, 2397, 2398, 2404, 2413-2419, 2422, 2423
   - *Cicadulina mbi*, 2468
   - *Claviceps fusiformis* See *Claviceps microphala*
   - *Claviceps microphala*, 0932, 2164, 2168, 2169, 2184, 2199, 2299, 2301, 2330, 2348, 2355, 2356, 2363, 2364, 2372-2380, 2391, 2392, 2397, 2398, 2404, 2413-2419, 2422, 2423
   - fungicidal control, 2357
   - toxicity, 3068, 3069, 3072, 3075, 3078

2. **Additional Text**

   - grazing and rumination time, 2961
   - growth, temperature effect, 0499
   - harvesting interval, 2057
   - nematodes, 2507
   - nitrogen fertilizers, 1749
   - NPK fertilizers, 1611
   - nutritive value, feed, 2884, 2885, 2961, 2962
   - protein content, nitrogen fertilizers effect, 1749
   - run off irrigation, yield 1440
   - temperature effect, growth, 0499
   - nitrogen fertilizers, 1749
   - NPK fertilizers, 1611
   - run off irrigation, 1440
   - yield potentiality, 1280
   - *Brachiaria piligera*, *African cereal streak*, 2449, 2450
   - *African cereal streak*, 24, 2 protein effect, 1749
   - *Africcerealstr*, 24, 2462
   - *Acigona ignefusalis*, 2528, 2532
   - *nitrogen fertilizers*, 1749
   - *African cereal streak*, 2449, 2450

Panicum ravenelli, 0229
Panicum virgatum, forage yield, 2873
Pennisetum typhoides, 0055
forage, 1253
grain yield, 1101, 1103, 1104
irrigation, 1423
performance trials, 1233
varieties, 1039, 1074, 1094, 1095
phosphorus fertilizers, 1363
soils (calcareous), 1383
varieties, 1101, 1103, 1104
Setaria faberi, 1182, 1259
Setaria lutescens, ecology, 1193
Setaria viridis, as weed, 2002
USSR
Eleusine coracana, regrowth, 1213
millet, 0374
diseases, 2426
fertilizers, 1403
irrigation, 1403
production, 1191
tetraploid, 0875
varieties, 1160
Panicum, 0135
brooding, 0860, 0875, 0907, 0911, 0943,
0968
high yielding varieties, 0965
hybridization, 1020
inheritance, 0793
seed production, 0860, 0875
varieties, 1050, 1051
Panicum miliaceum
brooding, 0861, 0862
cultivation, 1532
diseases, 2225, 2388, 2390, 2432-2435
drought resistance, 1031, 1420
fertilizers, 1609, 1638, 1667, 1704,
1629, 1724
micronutrients, 1877
production, 2909
rotational cropping, 1506
varieties, 0925
yield, 1315
Pennisetum typhoides, irrigation, 1402
Setaria italica, 1293
agronomic characters, 1288
breeding, 1268
Venezuela
Panicum maximum,
pests, 2623
soil moisture, 1344
West Indies
Digitaria decumbens, diseases,
2223, 2316
Panicum coloratum, varieties, 1050
Yami
millet, 1169
Zimbabwe
Panicum maximum,
### APPENDIX: Colloquial Names and Botanical Terms

<tr>
<td>Bajra</td>
<td>Pennisetum typhoides</td>
<td>Rhaplan</td>
<td>Digitaria spp.</td>
</tr>
<tr>
<td>Barnyard millet</td>
<td>Echinochloa crus-galli</td>
<td>Robust - purple foxtail</td>
<td>Setaria viridis</td>
</tr>
<tr>
<td>Blue panic grass</td>
<td>Panicum antidotale</td>
<td>Ruzizi grass</td>
<td>Brachiaria ruziensi</td>
</tr>
<tr>
<td>Boer lovegrass</td>
<td>Eragrostis curvula</td>
<td>Samai</td>
<td>Panicum miliare</td>
</tr>
<tr>
<td>Brown top millet</td>
<td>Brachiaria remosa</td>
<td>Sawan</td>
<td>Echinochloa crus-galli</td>
</tr>
<tr>
<td>Butrush millet</td>
<td>Pennisetum typhoides</td>
<td>Seratran-nandi</td>
<td>Echinochloa crus-galli</td>
</tr>
<tr>
<td>Cambu</td>
<td>Pennisetum typhoides</td>
<td>Silky umbrella grass</td>
<td>Setaria</td>
</tr>
<tr>
<td>Chenna or Chena</td>
<td>Panicum coloratum</td>
<td>Slenderstem digitgrass</td>
<td>Digitaria ammaphila</td>
</tr>
<tr>
<td>Coloured grass</td>
<td>Panicum miliaceum</td>
<td>Smooth crabgrass</td>
<td>Digitaria pentzil</td>
</tr>
<tr>
<td>Common millet</td>
<td>Digitaria spp.</td>
<td>Stink grass</td>
<td>Digitaria ischaemum</td>
</tr>
<tr>
<td>Crabgrass</td>
<td>Pennisetum pedicellatum</td>
<td>Switch grass</td>
<td>Eragrostis ciliensis</td>
</tr>
<tr>
<td>Cumbu</td>
<td>Pennisetum purpureum</td>
<td>Teff</td>
<td>Panicum virgatum</td>
</tr>
