TAICH COUNTRY REPORT
DEVELOPMENT ASSISTANCE PROGRAMS FOR
KENYA

July 1980

This report describes the programs of 68 private, non-profit U.S. organizations which provide the people of Kenya with development assistance and material aid. An index of the specific programs appears in chart form at the end of the report. Of the 68 U.S. organizations included in the report, 36 were able to provide TAICH with financial data indicating program expenditures in 1979 totaling \$11,014,016. These figures should be viewed more as indicators than as exact sums; differences in fiscal year, methods of financial reporting and methods of estimating dollar values of commodities, equipment and material shipped make correlation and absolute accuracy impossible.

This is one of a series of periodically revised reports which describe by country the development assistance activities of the U.S. non-profit sector. Additional and new information on the programs of the organizations appearing in this report is gathered regularly and is available from TAICH. Readers are requested to advise TAICH of any changes or new programs of U.S. private, non-profit organizations in Kenya. Besides country reports, TAICH publishes directories, bibliographies, a quarterly newsletter and a series of category reports in which descriptions of assistance programs are compiled by functions of development assistance. A publications list is available from TAICH.

The information given on each organization is based on the data supplied to TAICH by the organization. Publication of this information does not guarantee accuracy of content or endorsement by the American Council or TAICH of any organization.

AMERICAN COUNCIL OF VOLUNTARY AGENCIES FOR FOREIGN SERVICE, INC.
TECHNICAL ASSISTANCE INFORMATION CLEARING HOUSE (TAICH)
200 Park Avenue South, New York, New York 10003

THE AMERICAN COUNCIL OF VOLUNTARY AGENCIES FOR FOREIGN SERVICE, INC. was founded in 1943 for the purpose of providing a forum for cooperation, joint planning and the exchange of ideas and information in order to avoid duplication of effort and assure the maximum effectiveness of the relief, rehabilitation and development programs of American voluntary agencies. Through the mechanism of the Council, member agencies have established relationships not only among themselves but with non-member agencies and governmental, intergovernmental and international organizations. The Technical Assistance Information Clearing House (TAICH) has been operated by the Council since 1955 with support from the U.S. Government, currently a grant from the Agency for International Development. All agencies that are Council members are noted by a +.

THE TECHNICAL ASSISTANCE INFORMATION CLEARING HOUSE serves as a center of information on the socio-economic development programs abroad of U.S. non-profit organizations, including voluntary agencies, church missions and foundations. It makes available to organizations, government, researchers and others, source materials from its files for study and research. Through publications and the maintenance of an everyday inquiry service TAICH responds to the need for current information about development assistance with particular reference to the resources and concerns of the private, non-profit sector.

THE AGENCY FOR INTERNATIONAL DEVELOPMENT (A.I.D.), part of the United States International Development Cooperation Agency, maintains in its Bureau for Private and Development Cooperation a registry of U.S. private and voluntary organizations active in the fields of relief, rehabilitation and development overseas. Registered organizations are eligible to apply for A.I.D. resources, including grants and participation in the U.S. Government overseas freight reimbursement, Food for Peace and Government-owned excess property programs. For a current list of registered organizations write to the Agency for International Development, Office of Private and Voluntary Cooperation, Washington, D.C. 20523. Registered organizations are noted by an *.

Programs are designed and priorities are set by the Central Organization of Trade Unions (COTU); African-American Labor Center assists to the degree permitted by its modest resources.

COOPERATIVES, CREDIT UNIONS & LOANS: In cooperation with COTU and the Kenya Union of Savings & Credit Cooperatives (KUSCCO) has assisted in the development of workplace credit unions. A cooperative housing program has been launched. A Kenya Cooperative Housing Agency will be formed to coordinate all parties interested in helping workers own their homes through cooperative efforts.

INDUSTRIAL DEVELOPMENT & MANAGEMENT: Recently the focus has been on trade union education through the Workers' Education Institute (WEI).

FUTURE PLANS. A new emphasis will be the development of the Labour College at Kisumu on Lake Victoria. COTU has built classrooms, residences and offices; the development of curriculum is well underway and during 1980 classes will begin, enabling trade unionists to extend their training and education.

PERSONNEL: 3 U.S. administrators, numerous local union staff.

PROGRAM INITIATION: 1964.

COOPERATING ORGANIZATIONS: Central Organization of Trade Unions (COTU), Government of Kenya, Kenya Union of Savings and Credit Cooperatives (KUSCC), U.S. Agency for International Development.

Agricultural Cooperative Development International provides personnel to the Agricultural Finance Corporation to assist them in carrying out the programs described below.

COOPERATIVES, CREDIT UNIONS & LOANS: A World Bank/IDA credit totaling \$25 million was made available to the Kenyan Government in early 1977 to help finance an additional three years of Agricultural Finance Corporation's (AFC) ongoing agricultural development lending program. The credit is to enable AFC to expand its small farm holder credit operations in volume and to add six districts to the 22 being served. The project is designed to extend both medium-term (five-years) and seasonal (one-year) credits to relatively more sophisticated and commercially oriented small farm holders who are interested in improved productivity and who show a good potential for expanded production. The project also includes a credit component aimed specifically at medium-scale farmers (those owning over 20 but less than 400 hectares). At the present time there are over 2,000 medium-scale farms in Kenya. Although quite often well-managed, they are seriously under capitalized. With their farms already mortgaged, the owners lack additional security and they are unable to obtain the medium and short-term credit necessary for the purchase of farm inputs and machinery since commercial banks do not normally accept a second mortgage as security. Individual loans of up to \$20,000 are being made by AFC to assist in the purchase of farm machinery (especially tractors), land development and seasonal inputs.

COMMUNITY DEVELOPMENT: The Institute of Cultural Affairs in Kenya has initiated income-generating agricultural and small industry projects, emphasizing the development of effective community organization structures. A FY 1980 grant of \$64,000 from the Foundation will support the training and research necessary to expand this pilot village development program, and to provide data and analysis for regional planning and for better understanding of the determinants of success in village-level development efforts. Also in FY 1980 a grant of \$5,000 was made to the Ministry of Cooperative Development for a workshop on the problems of building organizations which genuinely serve the rural poor and enlist their cooperation. In FY 1979 the Kenyan Ministry of Housing and Social Services received a \$7,250 grant for evaluation of leadership training programs for women, and the Society for the Promotion of Adult Literacy in Africa received a \$10,000 grant for a study of exemplary literacy projects for women.

EDUCATION: In FY 1980 a grant of \$4,300 went to the Ministry of Higher Education for a series of drama workshops intended to assist African playwrights and theater companies to improve the quality of their work, and thus make the African theater more competitive with other theater groups. A correlated grant of \$18,000 will enable the Ministry of Housing and Social Services to subsidize performances of African theater groups.

FOOD PRODUCTION & AGRICULTURE: In FY 1979 made three grants to the University of Nairobi: \$5,880 for a symposium on grain and legume improvement in East Africa, \$3,960 for a workshop on the development of Kenya's semiarid lands and \$12,000 for a workshop examining resources for development in the Lake Victoria Basin.

POPULATION & FAMILY SERVICES: In FY 1980 provided a consultant to the Ministry of Economic Planning and Development to advise on the preparation of an education and information program on family planning, and supported a workshop for representatives of government departments and donor organizations for review and revision of the plan of action.

PUBLIC ADMINISTRATION: A \$96,100 grant is being made to enable the Law Society of Kenya and the National Christian Council of Kenya to establish a modestly-scaled public interest law firm. Its activities are to be concentrated on the protection of basic human rights, environmental conservation and consumer concerns. In FY 1979 a grant of \$8,700 was made to the University of Nairobi for a study of the general elections in Kenya.

Assists the National Christian Council of Kenya (NCCCK) in realizing the grazing potential of the Hurri Hills area through development of its water resources. Fosters a permanent, ten-community settlement in growth centers of 4,700 semi-nomadic families in the Marsabit and Moyale areas of northern Kenya by encouraging a balance between herding and agriculture. Develops marginal areas throughout Kenya with a particular emphasis on forestation.

(continued)

COMMUNITY DEVELOPMENT: Encourages the growth centers through a training program which provides information on appropriate technology, including animal traction, for those with leadership potential. In the Hurri Hills project, local workers are trained and employed in tree planting and dam maintenance.

CONSTRUCTION, HOUSING & PLANNING: Constructs housing; a shelter for the instruction of laborers; catchment, rubble and cement dams; and storage facilities at hurri Hills. Repairs roads and an airstrip.

EDUCATION: Established a nursery school and a village polytechnical school at Odda which has enrolled carpentry and masonry students.

FOOD PRODUCTION & AGRICULTURE: Plants trees and harvests fog to improve and sustain an adequate water level at Hurri Hills. The project provides for wells equipped with handpumps and the establishment of a tree nursery of 20,000 trees in a 100-acre area. A forester conducts seminars on landcover, reforestation and other methods of arresting erosion and desertification. Distributes seeds and farm tools, and provides the services of local agriculturists for advice and practical illustrations in the uses of appropriate technology. Through the Marsabit District Relief Committee the NCKK is making available two head of cattle per needy family.

MEDICINE & PUBLIC HEALTH: Constructed model latrines at teachers' houses in the growth centers to encourage better public health habits. Operating training program for health workers who are being educated to take over basic health activities.

POPULATION & FAMILY SERVICES: Assists the NCKK in providing in-service training workshops to prepare primary and secondary school teachers to teach family life education in the schools.

FUTURE PLANS: To expand the vocational courses at the growth centers to include classes in tanning and leather working; to build nine additional teachers' houses and six additional classrooms; over a five-year period to provide in-service family life education training to one teacher per school for half the nation's secondary schools, and for one quarter of the primary schools, and to develop additional materials to support their program.
