The Social Sciences in Asian Forestry Curricula

Directory of Resource Professionals

Edited by

Joseph A. Miller
Najib Murtaza

This directory has been compiled by the Tropical Resources Institute of the Yale School of Forestry and Environmental Studies as part of subproject activities sponsored by the United States Agency for International Development's Forestry/Fuelwood Research and Development (F/FRED) Project, for which Winrock International is the prime contractor.

1989
New Haven, Connecticut

ACKNOWLEDGEMENTS

The editors wish to thank all of the people who compiled the source directories that form the basis of this directory of resource professionals. Special thanks go to Gill Sheperd of the Overseas Development Institute for generously allowing us to use ODI's excellent *Social Forestry Network Register of Members* as a reference for this directory. We also wish to thank Dr. William Burch of the Yale School of Forestry and Environmental Studies for providing guidance to all phases of the Social Sciences in Asian Forestry Curricula subproject, and Robert Clausi, Jeff Bopp, and Brian Young for their production supervision which helped see this volume through to completion. The support for this effort provided by the United States Agency for International Development's F/FRED project and project implementor Winrock International is also greatly appreciated.

INTRODUCTION

This directory has been compiled as part of the Forestry/Fuelwood Research and Development Project (F/FRED) effort to improve the networking of experts in the fields of forestry and social sciences in the Asia region.

The names, addresses, and supplementary information in this directory have been gathered from the sources described in the following list. Every effort has been made to ensure the accuracy of directory entries. Kindly send any comments regarding the contents of this directory to the Tropical Resources Institute at the Yale School of Forestry and Environmental Studies, 205 Prospect Street, New Haven, CT 06511, USA.
