This publication was made possible through support provided by the G/PHN/HN, Global, U.S. Agency for International Development, under the terms of Grant No. HRN-A-00-97-00007-00. The opinions expressed herein are those of the author(s) and do not necessarily reflect the views of the U.S. Agency for International Development.

This publication was made possible through support provided by the Office of Health and Nutrition, Bureau for Global Programs, Field Support and Research, U.S. Agency for International Development, under the terms of Contract no. HRN-C-00-93-00025-08. The opinions expressed herein are those of the author(s) and do not necessarily reflect the views of the U.S. Agency for International Development.

The Broadening Access and Strengthening Input Markets (BASIS) project is intended to help strengthen both US and host-country research capacity through jointly developed and collaborative programs of research and training on land, water, labor and financial markets and their interactions. BASIS is funded through support provided by the US Agency for International Development (USAID), under the terms of Grant No. LAG-4213-A-00-6016-00. All views, interpretations, recommendations, and conclusions expressed in this paper are those of the author(s) and not necessarily those of the supporting or cooperating organizations.

This publication was developed by the Quality Assurance Project under U.S. Agency for International Development Cooperative Agreement Number HRN-C-00-96-90013-00 with the Center for Human Services. Views expressed are those of the authors. Comments from readers are encouraged and should be sent to the Quality Assurance Project.
