Mrs Heustice
Director: HIV-911 Programme
HIVAN - Centre for HIV/AIDS Networking

Dear Mrs Heustice

RE: HIV-911 PROVINCIAL DIRECTORY OF HIV-RELATED SUPPORT SERVICES

The Office of the Eastern Cape AIDS Council (ECAC) would like to extend its full support of the HIV-911 Programme. This service will play an important role in ensuring that the people of our Province are able to locate HIV-related support when and where they require it.

We are confident that the directory would be an indispensable resource for all sufferers and all others involved in the battle against HIV and AIDS.

We congratulate the Centre for HIV/AIDS Networking and thank you for your efforts to drive the initiative and therefore encourage all organizations in South Africa that work in the HIV/AIDS arena to support the HIV-911 Programme by ensuring that their service information remains current on the database.

Yours Faithfully

Rev L Ntshingwa
CEO - ECAC

Dear Ms. Heustice

Re: Eastern Cape HIV 911 Directory

The Eastern Cape NGO Coalition is excited to have been invited to participate in the development of the provincial HIV 911 directory, aimed at publicizing HIV services to people and organisations within the Eastern Cape. We believe that the wide dissemination of this information will go a long way in curbing the spiraling effects of HIV in our communities and society, not only in this province, but beyond its borders as well.

The information that will be disseminated through the book and your website will be of great value to our members as well, as it becomes a networking and advocacy tool to advance our commitment to being part of the solution to the HIV pandemic. The directory will, furthermore, be useful for communities that we work with, as we share its contents with our constituencies, enabling them to access services needed to save people's lives.

We congratulate you on the hard work you have invested in the development and dissemination of the directory.

Yours Sincerely

A handwritten signature in black ink, appearing to read "Margaret Kusambiza".

HOW TO USE THE HIV-911 DIRECTORY

WHO IS THE DIRECTORY FOR?

This directory is for anyone who is seeking information on where to locate HIV/AIDS services and support in the Eastern Cape.

WHAT INFORMATION DOES THE DIRECTORY CONTAIN?

Within the directory you will find information on organisations that provide HIV/AIDS-related services and support in each municipality within the Eastern Cape. We have provided full contact details, an organisational overview and a listing of services for each organisation. Details on a range of HIV-related services are provided, from government clinics that dispense anti-retroviral drugs (ARVs) and provide Voluntary Counselling and Testing (VCT), to faith-based and non-governmental interventions and Community Home-based Care and food parcel support programmes.

HOW DO I USE THE DIRECTORY?

There are over 900 organisations working in HIV/AIDS in the Eastern Cape. To help you to locate services that are relevant to your needs this information has been categorised in a number of ways:

- The organisations in this directory have been sorted into district municipalities and local municipalities.
- Coloured dividers with maps are provided for each district municipality. Use these maps to familiarise yourself with areas in which you might want to find HIV-related services.
- The Eastern Cape has seven district municipalities, six of which are sub-divided into several local municipalities.
- Locate local municipality labels on the bottom right or left hand tab of each page.
- HIV-related services have been listed alphabetically by local municipality.
- If you do not find the information you are looking for in this directory or you would like to amend any details, simply call our HIV-911 Data Collection Centre on 0860 HIV 911 / 0860 448 911 or send us an email on info@hiv911.org.za
- Further particulars can also be located on the HIV-911 website and online directory at www.hiv911.org.za

WHY IS THE DIRECTORY NECESSARY?

There are many efforts to curb the spread of HIV/AIDS and alleviate its impact on our country. Sadly, while a great deal of effort and resources are directed towards dealing with HIV, when in need many people do not know where to locate organisations that can provide HIV-related services and support. In addition, many organisations are unaware of the efforts of, and potential benefits of, collaborating with other HIV-related organisations. The HIV-911 database has been constructed with these specific needs in mind. We believe that an effective response to the HIV epidemic requires a coordinated mobilisation of all resources in a specific community. We hope that you find this directory facilitates such a networking response in your community.

- Service providers can locate supplementary support services for their clients;
- Infected and affected people can easily and confidentially locate HIV support services which are appropriate to their needs;
- AIDS Service Organisations can locate likeminded support services, facilitating networking and partnership building, and in this manner make better use of scarce resources; and
- Donor organisations can obtain a good sense of the availability and distribution of HIV-related services, thereby helping them to assess funding requests and allocate funding more strategically.

HOW WAS THE INFORMATION COLLECTED?

HIV-911 staff collated information from a number of HIV-related databases and listings of services. Organisations were called and their information was checked and updated. Every organisation called was asked to provide the names and contact details of other HIV-related support services that they networked with. In this manner, the HIV-911 team connected with many of the organisations providing HIV-related support services in the province. This was, and continues to be, a time-consuming but important process! We did our best to ensure that we reached all HIV-related organisations in the Eastern Cape and captured their efforts comprehensively. Unfortunately, the HIV environment changes rapidly and so the directory database will never be complete. We therefore offer apologies in advance if there is any incomplete or incorrect information in this directory and we ask that you alert us to any inconsistencies and inaccuracies so as to help us to keep the directory database as current and comprehensive as possible.

HOW DO WE KEEP THE INFORMATION UP TO DATE?

The HIV-911 data capture team is continually reviewing and updating the HIV-911 database on which this directory is based. We are counting on you to help us to keep our database current. Please therefore alert us to any incomplete or incorrect information you may find in the pages of this directory. If you find a service is missing or details need updating, please contact us so that we can amend or add this information for the next directory. We have provided a Organisational Update Form at the back of this directory to help you to do this for us. You can also call the HIV-911 Data Collection Centre on 0860 HIV 911 / 0860 448 911. The HIV-911 Data Collection Centre staff can update information or add new services, as well as assist with locating HIV-related services throughout the country. It is now also possible to update your details on line at <http://www.hiv911.org.za/hivanaddorg.php>

WHO PRODUCES THE HIV-911 DIRECTORY?

HIV-911 is a programme of the Centre for HIV/AIDS Networking (HIVAN) based at the University of KwaZulu-Natal. Over the past six years HIVAN has worked to develop and expand the HIV-911 programme which now includes an online national directory and website (www.hiv911.org.za); a Data Collection Centre (0860 HIV 911 / 0860 448 911) and a series of hard copy directories for each province in the country. The Eastern Cape directory is the eighth directory in a national series of provincial directories that will be produced by the HIV-911 Programme until for the foreseeable future. Copies of the Eastern Cape Provincial Directory will be mailed out to as many service providers as possible throughout the province with additional copies available for purchase at low cost. For more information and answers to other frequently asked questions about this project, call 0860 HIV 911 / 0860 448 911 or log on to www.hiv911.org.za

WHO ARE OUR PROJECT PARTNERS?

The HIV-911 national directory project is partially funded by the Foundation for Professional Development (FPD) through PEPFAR/USAID. The FPD is registered with the Department of Education as a Private Higher Institution under the Higher Education Act, 1997 (Registration Certificate number 2002/HE07/013). The FPD is also an accredited service provider for continuous professional development (CPD) by the Medical and Dental Professions Board of the Health Professions Council of South Africa (HPCSA). The FPD is currently the largest self-funding health sector educational provider in South Africa. The FPD has three key focus areas: education, research and capacity building - more specifically in the areas of health and management.

HIV-911 is a partner of the FPD through the Compass Project. This FPD initiative strives to assist communities to respond effectively to HIV through three key programmes: 1) an HIV and AIDS Mapping and Research Centre to achieve accurate epidemiological data and gap analysis for communities; 2) Information and Resource Collaboration for locating HIV and AIDS services/organisations; and 3) Organisational Development and Capacity Building through organisational needs assessments, benchmarking and skills building for community organisations. For more information on the FPD and the Compass Project, please visit www.foundation.co.za and www.compassproject.co.za

The South African Medical Association (SAMA) has collaborated with HIV-911 in the printing and mail out of the national directory series. As a result of this partnership, funds have been raised to enable each clinician, registered as a SAMA member, to receive a complementary copy of the provincial directory relevant to their needs.

Established as part of the comprehensive multisectoral response to HIV/AIDS in the province of the Eastern Cape, the Eastern Cape AIDS Council has been mandated to advise the provincial government in all matters pertaining to HIV/AIDS/STI policy and coordinate all HIV/AIDS programmes by various sectors to ensure a multisectoral response to the pandemic. Five programmes drive the ECAC response to the pandemic: Planning and Coordination; Social Mobilization; Communication, Advocacy and Research, Monitoring & Evaluation and a Multisectoral Support Programme. These programmes all aim to create a stigma-free environment where infected and affected people have full access to relevant support services, numbers of new HIV infections and HIV/AIDS-related deaths are reduced and access to life-saving treatment is up-scaled. Council members are committed to a mission that promotes a coordinated and combined effort of working towards alleviation of social, economic, cultural and political challenges resulting from the pandemic. The recently developed Provincial Strategic Plan (PSP) 2007-2011 will indeed bring more new sectors and centres of excellence.

ECAC has provided the HIV-911 programme with incredible assistance by providing organisational data for inclusion in the Eastern Cape Directory, which enabled HIV-911 to grow its database for that region from 300 to over 900 organisations. Further, ECAC has provided HIV-911 with supplementary funding to help meet the print and dissemination costs relating to the Eastern Cape Directory for 2008. The ECAC CEO, Rev. L. Ntshingwa committed ECAC into a meaningful partnership with HIV-911 by launching it in the Eastern Cape with a view of encouraging documentation of HIV/AIDS centres.

Funding is being sought to support production of additional copies of the provincial directories, and to further capacitate the HIV-911 Programme of the Centre for HIV/AIDS Networking (HIVAN). HIVAN operates on not for profit principles and relies on donations, grants and fundraising to support its services. Funds for HIVAN are raised through the University of KwaZulu-Natal Foundation, a registered Section 21 Company, registration number 030-967-NPO / PBO 9300 16101.

To advertise in the HIV-911 provincial directories or to support the ongoing activities of the HIV-911 Programme please contact HIVAN on (031) 260 3052 or email the Project Director, Debbie Heustice on debbieh@hiv911.org.za
All revenue generated from the directory project will be used to support the ongoing efforts of the HIV-911 Programme.

NAME East London Child and Youth Centre

ACRONYM ELCH

DESCRIPTION This is a residential home providing care and support for children from birth to 18 years old as well as non residential feeding schemes in schools. Many of the children in care include those who are living with HIV/AIDS or have been orphaned by HIV/AIDS. We offer support and counselling to children and their families. On average there are about 60 children in full time care. The Home includes a Hope Bridging Centre for HIV positive children. We offer after care facilities for children from the Sinomonde Fort Grey Santa Primary schools as well as a soup kitchen

which feeds more than 1 000 school children per day. The organisation was founded in 1924

NAME Sakhingomso Children's Ministry

DESCRIPTION The organisation was founded by a group of Christians from different churches who responded to a call at a community meeting which was held to discuss the needs of children living on the street. There is a drop in centre that operates three days a week. Children are registered and provided with washing facilities meals and activities as well as basic medical care. The children come from homes that have been affected by HIV and AIDS and many have lost parents and siblings. The centre tests children for HIV on their request and helps them get access to treatment were necessary.

NAME Grahamstown Health and Development Forum
 ACRONYM GHDF

DESCRIPTION The forum aims to empower communities through capacity building, training and mobilisation. The organisation works in seven clinics in Cacadu District offering home based care and identifying orphans and vulnerable children. Home based carers and community field workers report on a daily basis to the centre manager. Caregivers refer orphans and vulnerable children to welfare organisations and social workers (they accompany the children throughout the process). The organisation works with the St Rafael Centre in Grahamstown where people are trained in income generation skills such as sewing beading and cooking. Home based carers receive training from St John's Ambulance in addition to monthly update courses from professional nurses who work with the organisation.

HIV-911 DIRECTORY

**Do you know what HIV/AIDS-related services are available in your area?
Do you know where these HIV/AIDS-related services are located?**

WE CAN HELP YOU

The HIV-911 directory is your comprehensive guide to HIV/AIDS-related support services in South Africa. This directory is essential for all organisations in the field of HIV/AIDS.

The HIV-911 database consists of over 6000 HIV-related support services country-wide. Entries are constantly updated ensuring that the HIV-911 database remains current and gives a good reflection of the work being done in South Africa around the pandemic.

ORDER THE FULL HIV-911 DIRECTORY FOR YOUR PROVINCE NOW!
